## COUNCIL APPROVES SCIENCE SOCIETY

Grad, Bob Cashen is shown above making the presentation of a gold chalice to Very Rev. P. G. Malone, President of the University. Mr. Cashen, President of the Class of '56, presented the chalice as a gift of last year's graduates to be used in the University Chapel.

### A. A. A. Ready To Roll

The Athletic Association elected its new executive officers last Thursday. Don Reardon will be assisted in his office of President by Tom Hartley, Vice - President, George Leach, Secretary, and Sam Almokly, Treasurer.

One of the first undertakings of the new executive was the selection of Ron Barnes and Pete Fraser as the Stars of the Week. Ron Barnes achieved recognition for his outstanding play in the opening game of the League, when he scored two touchdowns against Shearwater, as Saint Mary's took the sailors for a 35-7 count.

Pete Fraser will long be remembered as the man who snatched a TD-pass to win the game for the Saints over a hard fighting Cape Breton entry, in one of the greatest games to be seen in the city for many a year.

It was also decided to hold regular meetings on Thursday this year. Another task for the Association is the perusal and necessary amendments and improvements to the Constitution on the AAA.

Whether any member of an official Intercollegiate team should be permitted to participate in inter-fac competition, thus risking the possibility of injury in inter-fac sport during the same season, will be decided upon shortly.

From reports, the Amateur Athletic Association is looking forward to a more active and vigorous programme for the coming year. It appears to be off to a good start with all sports, inter-fac, and Intercollegiate, really rolling along on schedule.

### Arts Dance Success

On Friday, October 19, the Arts Society held its second Football Dance in the University gym.

The dances, designed to promote more interest in the University's football team, met with great success and the team has had solid support in all the games.

During the intermission on last Friday, the members of the football squad were introduced to the audience, which was addressed by Rev. Father Malone, president of Saint Mary's, and Father O'Donnell, Athletic Director.

Father MacGillivray, coach of the high flying footballers, also met the crowd as did the recipients of the Star of the Week Award, Ron Barnes and Pete Fraser.

The Arts Society dances have been a regular feature during the football season at Saint Mary's, having been introduced for the first time this year.

### Morning Of Recollection Planned

The Sodalists and Candidates will have their first morning of recollection on Sunday, November 4. These are held regularly throughout the college year on the first Sunday of each month and the program, arranged by Bob Hallett and John McGillivray consists of Mass in the Jesuit Chapel at 8:20, breakfast, and three periods of mental prayer, ending at 11:45.

The thoughts for the mental prayer will on this occasion be given by Father Lonergan, S.J., who is noted for his very interesting chalk talks.

It need not be pointed out that these mornings of recollection have great spiritual value.

### Mount Host, Picnic - Most

Combined operations with the Mount got under way for this year with the second annual hike held at M.S.V.C. on Saturday, October 13.

The day proved to be more of a success than anticipated and saw a good number of Santamarians take to the hills on the heels of the young ladies. Those who preferred a less exhausting form of recreation played tennis, or ball at the Mount.

Highlight of the day was the dance, sponsored by the C.F.C.C.S. Committee at Mount Saint Vincent, held in the College Gym. An addition to the programme over last year, the idea of the dance was very well received and proved even more enjoyable than the outdoor supper, which the girls prepared.

The meal, served from the barbecue at Marydale, was followed by a sing-song, a bit of entertainment, winding up with the dance in the evening to a marvellous selection of records.

So new friends were made, old acquaintances were renewed, and everyone went home praising the Mount and remarking the fabulous time he had; and looked forward to the next encounter with the fair damsels.

### Commerce Ball Promised Greatest

The Commerce Society starts the ball rolling for Saint Mary's with the first big social affair, the Commerce Ball, slated to be held in the Lord Nelson Hotel on November 6.

Under the capable direction of Jim Trainor, Chairman of the Dance Committee, the Ball seems to be heading for another success as the Commencemen come to life under the leadership of Tom Muise and his executive.

Ticket Manager, Ed. Rogers, has promised the students the "greatest ever" in social vents at Saint Mary's and, from the sounds of activity emitting from the Society, we believe him.

Don Warner, always the favorite of the Santamarians, will provide the music and the chaperones will be two alumni and their wives, Mr. and Mrs. Robert Reardon and Mrs. and Mrs. Carl Sullivan.

### Collegian Commanders Convene

Despite a poor turnout "elections" were held and plans formulated at the first meeting of the 57 Collegian. Robin Falconer and Al Rorari assumed the positions of co-editors. Bill Weagle will handle the advertising and Prof. Sabean, assisted by John Collins and Art McNeil, will direct photographic operations. There are still many vital vacancies on the staff and all those interested in working on the Collegian are advised to contact the above mentioned.

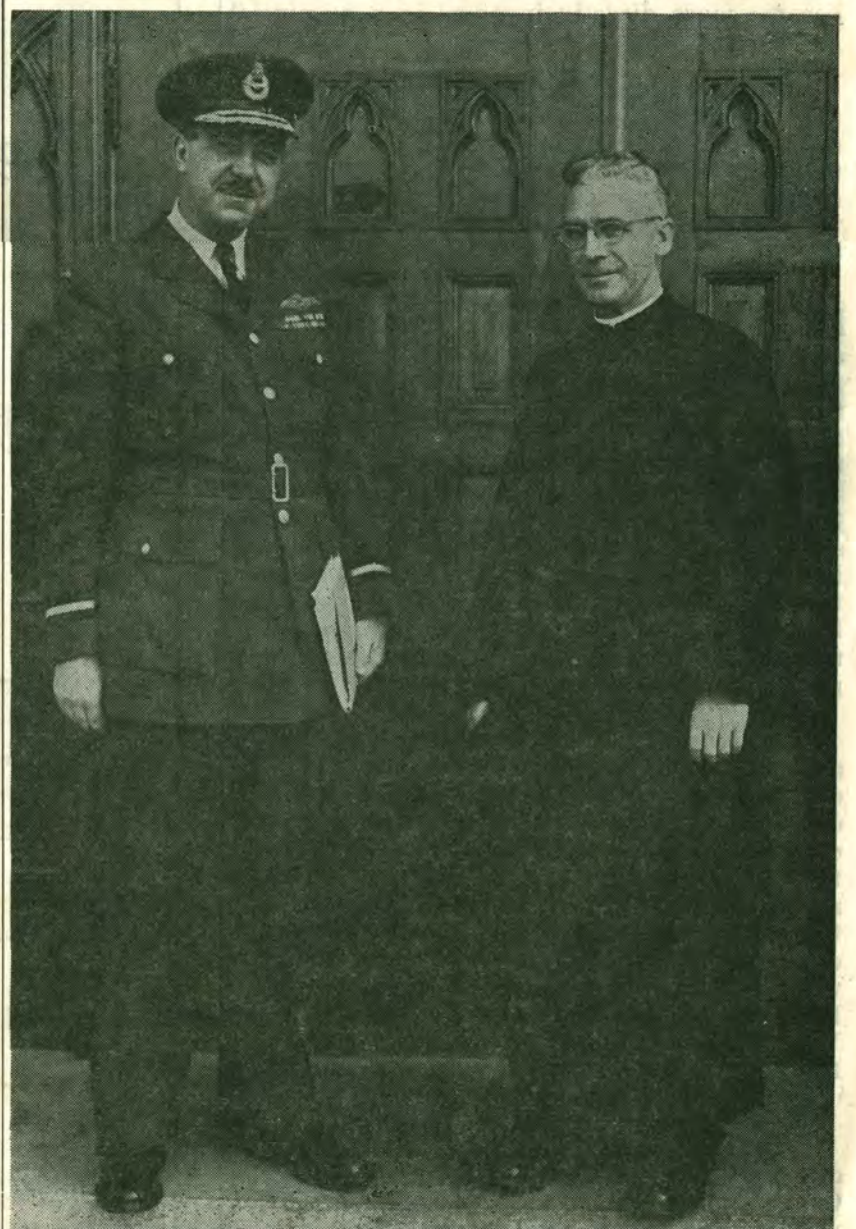

### Science Society In!!

At a meeting of the Students' Council on Tuesday, Oct. 23, the long debated subject, "should the science men have a separate faculty," was decided.

The council members, in a vote, granted their permission to establish an autonomous society for the purpose of directing and fostering the activities of the 40 men who are presently engaged in science courses at the University. Mr. Brian Flemming, who represented the science men in their quest outlined the purpose and the aims of the society earlier in the month. He, at that time, pointed out that there was a wonderful enthusiasm among the students regarding the proposed society, at that meeting he also outlined the "six-point program" which the society will undertake this year. This program includes, the election of an executive and the publication of a student directory which would be distributed to the students free of charge. The directory is to be issued before the mid-term exams. The society plans to hold one or two informal dances in the school gymnasium, it will not sponsor a formal, at least for this year. The plan for the science men as far as inter-faculty sports are con-

cerned is a bit vague at present, owing to their comparative small number, they, however intend to compete in as many of the leagues as they find possible. One of the major undertakings of the group will be an informative service to inform students taking pre-medical and pre-dental courses of the entrance requirements which they must attain in order to be admitted to Canada's Medical schools, particularly Dalhousie University. Concluding the societies plans is the project of engaging guest speakers to address members of the group on subjects pertinent to them but interesting to the entire student body.

Plans for the society have not as yet taken absolute form however, and the society is still open to suggestion. The ball has started to roll, this year it has 40 men perhaps in the future the science faculty of Saint Mary's will achieve renown through the efforts of the few who have started it. Here is another improvement in the University, let's hope it succeeds.

Rev. M. J. Belair greets Air Commodore Reyno, a Saint Mary's graduate, upon his arrival to address student body October 18.

## Scholarship Problems

At the Annual Convention of the National Federation of Canadian University Students, held three weeks ago, a brief was presented urging a one-day student strike to back up requests for an increase in the number of undergraduate scholarships available to Canadian students. The next day papers all across Canada carried accounts of the story — those silly college students were going to go on strike.

Few will argue that there should not be a greater number of national scholarships, and all will readily agree that N.F.C.U.S. is fulfilling its obligations to the Canadian students by attempting to get them. But very few seem to be in favor of a strike.

In our opinion a strike would be futile since we would only be trying to convince the Government of that which they are already convinced. In fact, Mr. St. Laurent agreed that the present university grants should be increased from the present eight million to sixteen million dollars.

The objection to the national scholarship proposal seems to be; it is unconstitutional, since educational responsibilities were allocated to the Provinces at Confederation. Therefore, if the Federal Government granted money for the national scholarships it could not help but become more directly involved in a provincial matter.

Maurice Duplessis, Premier of Quebec, refuses to have anything to do with any plan that might lead, even not intentionally, to lessening the authority of the Province in educational matters. If the problem is a Constitutional one then we must not spend our time finding ways to secure the money.

The Massey Report states, "Canada's future cultural development depends primarily on the availability of higher education for her young people." The report stresses the need for an increase in the number of scholarships available to undergraduate Canadian students. The National Research Council distributes a good number of scholarships each year to deserving Canadians, but these are for post-graduate studies, whereas help at the undergraduate level is the most pressing. As the Massey Report further states, "If gifted student are prevented by inadequate resources, from pursuing their undergraduate studies, the effectiveness of any post-graduate scheme is inevitably restricted."

No where will we find people speaking against the request for more scholarships. It is only when the adjective "national" is inserted do we meet any objections. We can only reiterate the stand of many of the briefs presented to the Massey Commission: There should be no scholarships on a national scale if there is the remotest possibility that the rights of either the Provincial or Federal Governments will be tampered with. Only last week Mr. Duplessis refused to accept subsidies from the Federal Government for the colleges in his Province, claiming it was contrary to the spirit of the Canadian Constitution.

The way is well outlined. If we are in such dire need of assistance, and we are, then the Canadian students must work to overcome whatever obstacles stand in the way.

(Continued in Column 5)

## STUDENT OPINION on SCIENCE SOCIETY

The question, "SHOULD SCIENCE BECOME A SEPARATE SOCIETY?" was posed to a number of students. Here are their interesting reactions:

BOB HANRAHAN, COMM. III

"I feel Science should definitely become a separate Society. I'm sure the Scienemen deserve as much representation on the Students' Council."

BYRNE MELANSON, ARTS II

"In my opinion, Scienemen should wait a few years before taking the big step. This would ensure that there would definitely be enough Scienemen to support the new organization and the Students' Council might be better able to cope with the complex administrative problems involved."

GRAHAM MACDONALD, ENGINEERING III

"The fact that Science is at present represented by the Engineering Society caused such dissatisfaction for Scienemen and Engineers that the progress of the Engineering Society is hindered. I personally feel that the time is right for the Scienemen to separate since they have sufficient members to support their own Society."

ROGER PATUREL, SCIENCE IV

"Since all other Canadian universities have a separate society, I feel that Saint Mary's should do likewise. I also feel that this would advance the prestige of the University in a number of ways."

\* \* \* \* \*

At press time we learned that the Science Society is now a reality. Seems like the above students were on the right track.—ED.

## On and Off the Campus

"TEMPUS FUGAVIT"

As you can see by the length of the column this week, you have been very good little boys; or else, very, very bad little boys. I fear a number of my spies have been found out, for no one has done a thing interesting in the last two weeks. There are always a few individuals who will attempt anything to get their names in print, and those I admire.

For example, take anyone who was involved in the Arts-Commerce game. There they were, REARDON, CLEARY, RANDALL, MUISE, etc., all screaming about some injustice to those sterling referees. Tsk! tsk what a marvellous display of sportsmanship.

I hear DON DORT is planning to set up his own course in Latin soon. One where he can both ask and answer all the questions, a plan which has been thwarted so far this semester.

Well the first issue of the Journal called down a bit of criticism. (Oh, dear, I do hope I'm tramping on someone's toes). From what I gather the Sodality didn't care for the title of a news item about the group. O.K., I'll apologize for the Journal; the Sodality is a "Good Boys' Club". Is that all right, Father?

JOHN RICHARD was dealt a mean blow at the dance last Friday. There he was all set to operate, when Father MACGILLIVRAY hustles the whole team off to bed. He was almost as disappointed as DALE SINCLAIR, who obeyed, only to learn that BURKIE wasn't playing things all above board.

Should I mention anything about the Mount? I should say that we had an enjoyable time, but, being new to this sort of thing, I feel that tradition will not permit me to say anything nice about our sisters (the civilian ones, that is).

Well that's all for now. Yep, that's what I said, That's all for now . . . except for this parting tidbit for the benefit of the Football Team. It seems Saint John thinks about you after all, even if Father O'Donnell doesn't. Didn't he write in his Gospel, "And I will ask the Father, and He will send you a new pair-a-cleats."

### SCHOLARSHIPS (continued)

If the Constitution should be amended — work to have it amended; if the obstruction occurs between the Provinces and the Federal Governments — we must work through the national federations to have these impediments removed by arranging or fostering an agreement which would respect the rights of all parties involved.

Since we are so convinced that the end is a good, why not do something about it? Let us not keep insisting the Federal Parliament should do that which it cannot.

Although Saint Mary's University is not represented in N.F.C.U.S., our students should have a keen interest in this particular work of the Federation, since the outcome will affect them and other university students in Canada. It is an important project, one for which the Federation is to be commended and for which it has worked for a number of years.

## A CHALLENGE to all University Students graduating this year

- If**
- ... you are graduating this year
  - ... you can pass the rigid medical examination
  - ... you desire to become a member of RCAF Aircrew
  - ... you can pass the Aircrew aptitude tests which indicate prospective suitability for flying duties
  - ... you enrol during the current University term.
- Then**
- The RCAF offers you outstanding flying and executive career opportunities
- With**
- ... a rank that recognizes your educational qualifications
  - ... the highest remuneration paid young professional men on graduation
  - ... a special grant to cover the costs of your final year of University, including tuition, books and instruments
  - ... \$125.00 a month during the remainder of your current University year.

The RCAF depends upon College graduates to fill the higher executive positions in the Service.

In addition to Aircrew, the RCAF has opportunities for graduates in all Faculties in their own particular fields.

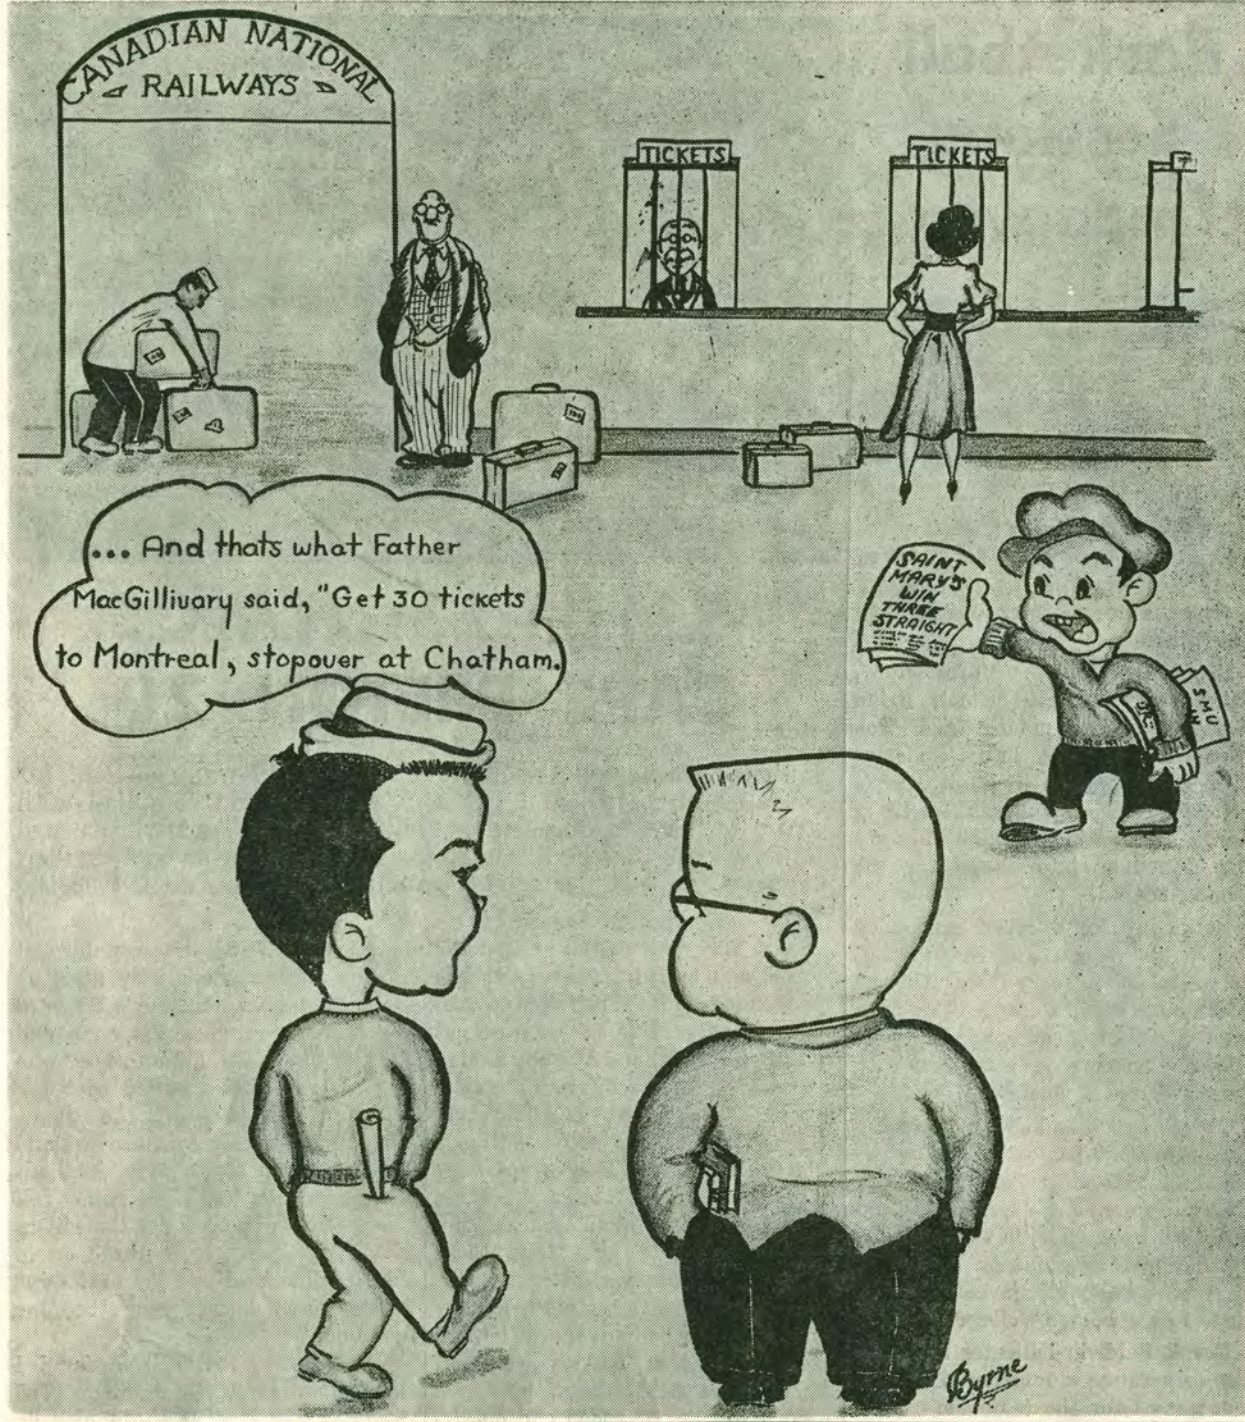

TALK THE MATTER OVER WITH THE RCAF RESIDENT STAFF OFFICER ON YOUR CAMPUS.

The RCAF will be prepared to give candidates free medical and aptitude tests at the Officer Selection Unit, RCAF Station London, Ontario, without obligation, at a time suitable to you.

## Tonight's The Night

The first big Sodality event of the year takes place on Friday, October 26, when sodalists and candidates converge upon Burns' cottage, Tantallon, for their annual stag. Those who have attended the event in past years will not want to miss this one and newcomers can expect one of the most enjoyable and profitable nights of the college year. The committee, under the chairmanship of Carroll Parker, and consisting of George Leach, Basil Carew and Charlie McGuire have been working very hard to ensure a successful evening. Very Reverend P. G. Malone, S.J. will again be chairman of the discussion.

Cars will leave the University at 6:45, and proceedings will get away at 7:45.

All sodalists of last year's graduating class are invited to attend.

## Arts Men Energetic

Apparently the only Society that is active this year is the Arts Society which has been in the news every day.

Besides projects such as dances, donations etc., the organization has gone out looking for things to do.

The latest job well done was the painting of the gym, which was completed last week by a number of volunteer Artsmen-painters.

Sparked by the leadership of Ed Burke, the Arts Society is a rejuvenated group this year and seems intent on fast becoming the most active organization on the campus.

The Artsmen earned another first for themselves by being the first to donate funds to Father Farrell's Darjeeling Missions. \$10.00 was voted to India during a meeting of the Society while Father Farrell was still in the University.

## Alumni Are Opponents

Professor William Dalton, B.A., on the staff of this university, is contesting for the seat in Halifax West in the Provincial Election on October 30, on the Progressive Conservative ticket.

His opponent in this election is Dr. C. H. Reardon, a Liberal.

Professor Dalton had this to say when asked what students part in provincial affairs were.

"Every student at Saint Mary's University should take serious thought on the affairs of the Province and be prepared either in this election or in the future to do his full part as a citizen according to his convictions".

by the WATCHDOG

One night last week I heard the strangest noises emanating from 216 and, because I am somewhat curious by nature, I went to investigate. Lo and behold! a group of the boys, under the direction of Deacon Dan, were holding a choir practice. Shook my head and sadly crawled off to my cage, having received another bad setback. More and more it becomes evident that the present Boarders are now appreciating the finer things of life. Episodes of the daring quality of yesteryear are becoming rarer. However, there are a few, run off in the traditional style of a Boarder.

For example, those few worried looks carried by a certain group who offered their services to a fair, young lady from a local institution. It seems she wanted to get out that night, so the boys offered her 100 yards of rope (owned by

Father O'Donnell). They find they have the wrong party on local 15. "How was I to know," says Dan.

We understand Carroll Parker has taken to entertaining the lassies at the V.G. His comment, "Nice place they have there."

Well, I've seen everything now. Claude and Al with practically a living-room suite, moved in last week by a number of husky furniture-movers. Incidentally, Al, there is a very nice floor lamp in the rec hall in the south wing.

The annual hike with the belles from the Mount has taken its toll again this year. As a result, Cleary is taking a renewed interest in the Junior Class.

I can't think what Dale Sinclair would do without someone like Cronin to hold up as a good example of how not to play football.

Don Alecci has been giving a young lady some driving instructions. Not enough, from what we hear; she scared the wits out of some of the fellows last week.

Although it is supposed to be a secret, we learned that Tang was at one time a lion-tamer. He has a picture to prove it, so I understand.

## Flinn To C.F.C.C.S. Convention

James Flinn, a senior in Arts, will be leaving shortly to represent Saint Mary's at the annual convention of the Canadian Federation of Catholic College Students, which is to be held in London, Ontario, from November 1-4.

Jim is the Chairman of CFCCS on the campus and was also a delegate to the 1956 convention. This year the gathering is to be held at Brescia Hall, an affiliate of the University of Western Ontario. Topics which will be discussed include the National Higher Education Project which was inaugurated in 1955.

The Hong Kong Contingent go in for Hi-Fi in a big way—about \$200 big. Too Hi-Fi for me.

Well MacAulay did it again. One of his many has quit her studies and gone home. Shouldn't have stood her up, Rich.

Guess that's enough for now. We close with the hope that the Dean of Men's new found fame in the TV world will not keep him from his office for more than 24 hours per day; the lads have just learned the melody, "I Hear You Knocking."

By Fred Dockrill

As everyone knows the schedule of the Junior Football League has undergone some drastic changes in the past week. With two games already played in the schedule, C.R.U. officials in Toronto sent word that the Maritime winners must be in Montreal for the Dominion playoffs on November 3, rather than November 8, as previously planned. In order to meet this last minute change, local league officials had to set up an emergency schedule. As a result, Saint Mary's had to meet Shearwater on Saturday, only two days after their gruelling battle with H.M.C.S. Cape Breton. Monday the Shearwater club met Cape Breton and Thursday was the windup day for the league with S.M.U. pitted against Cape Breton. The winners leave tomorrow to play the New Brunswick champions in Chatham on Sunday. The winner will travel to Montreal for the Dominion Championship on November 3.

Asked if he had any comment on the changes, Father O'Donnell, Athletic Director said, "The change of schedule is definitely a detriment to our team and to whatever team represents Nova Scotia. There are also the additional disadvantages of injuries." Father O'Donnell is convinced that after the "vigorous game against Cape Breton our players definitely were not sufficiently recovered to face Shearwater on Saturday. Furthermore the winning team will not be at its best to meet the New Brunswick champions because there is not time to recuperate and nurse injuries incurred during this heavy schedule."

Well certainly the Big Red Team will have to have all of its abundant spirit to qualify for Montreal and put forth a good effort there, but we feel certain that our Redmen will not only advance to the Dominion playoffs, but make us proud to have them as our representatives while in Montreal.

Unfortunately, because of the stepped-up schedule of the Junior Footballers, S.M.U. will not be able to enter a team in the Intercollegiate Track Meet being held at U.N.B. today. A number of the football team are also members of the track team and because of yesterday's game and the playoffs in New Brunswick Sunday, will not be able to participate. It was heartwarming to see the number of students who answered the call for a replacement for Lloyd Robin-

son. Among others, Bas Carew, Bill Weagle, John Reyno, Jim O'Regan and Bob Reid spent many hours laboring on the campus rounding into shape to fill the vacant spot. It is regrettable that they cannot receive any reward for their work, apart from the fact that they no doubt feel fine, physically, but at least we can add a few names to those who, by their enthusiasm are spreading the name Saint Mary's throughout Nova Scotia.

Since so much talk is circulating about every other sport, perhaps the grand old game of Hockey should be mentioned, and in so doing it would seem only right to make note of the old pros of the game who have left the ranks of the Saint Mary's puckchasers. Some of the names foremost in our minds would be "Bullet" Kelly, Bill Bailly, Bob Cashen, Bob Chaisson, Kenny Martin, Bill Conrad, Bob Young, Ducky Scarfe. However, there are still a number of hockey stalwarts left in the University and hockey practices will begin for them on October 28. Among the returning stars, who will be donning the blades once again for Saint Mary's University, will be Donnie Warner, Tom Hartley, Fred Gallagher, Jean Mercier, Reg MacDougall, Jimmie O'Regan, Joe Mombourquette and Ken Thorne. The boys will once again have the experience and know-how of "Dugger" MacNeil behind them.

EXTRA

It has been learned that Father O'Donnell has received an invitation from Saint F. X. to arrange at least one junior football game after October 27 with a possible return game here at Saint Mary's. This is a very interesting prospect as you will remember that Saint F. X. almost entered the Junior Football League this year. Such a series would also arouse the always present rivalry that accompanies every encounter between Saint Mary's and the X-men. Of course this will take place after SMU returns from Montreal with the championship.

The Memorial Rink in Antigonish was burned last week, apparently leaving X without a place to practice. We hope this doesn't mean that they will be dropping out of the league this year as they always ice a winning team in the Intercollegiate loop and provide us with displays of good sportsmanship and excellent hockey.

## Basketball Sessions Underway

The N.S.I.B.L. gets under way on November 24 and already our entry has had several workouts under the eye of Frankie Baldwin. "Baskets" has a number of rookies out to the tryouts looking for a position on the Maroon and White squad.

Roy Cooper, who played ball for Saint Pat's High School, has registered at the University and showed up for the practices as well as two other newcomers, John Murphy and Bill Mullane.

From the S.M.U. "farm club", Saint Mary's High School, Brian "Beaker" Flemming and Bob "Squeeks" Barrett have come to offer their services to Saint Mary's entry. Our two members from Hong Kong, Ma Ho Kiu and Danny Lee are also rounding into shape for the coming season.

Returning for another session on the Saints' squad are Brian Ross, Robin Falconer, Terry Burns, George Leach and Basil Carew. The boys appear to be in good condition, even Robin Falconer, after a summer with the Air Force in Quebec.

George Leach and Brian Flemming are at present performing with the Saint Mary's entry in the Junior Football League. Barring any injuries they should be in top condition for the opening game on November 24, when the Santamarians will be hosts to the King's College squad.

Frank Baldwin indicates he would like to arrange a number of exhibition games for the team before the scheduled games start. At the moment plans have been made to have another home and home series with Saint Dunstan's, Charlottetown, but the definite dates have not yet been set. It is also hoped that exhibition games might be played with Shearwater and Stadacona.

Last year's entry was directed to the semi-finals by Frankie, to go down to defeat after a hard fought series with Acadia University. At that time there wasn't a team in the league that hadn't lost a game to the Saints.

This year we hope they will go all the way and bring home the marbles. Saint F.X. has dominated the basketball scene in Nova Scotia for the past decade . . . we hope to put an end to that domination this year.

Credit for the continued improvements in the team goes to Frank Baldwin who has performed wonders with each entry since accepting the coaching job six years ago. Few colleges can boast a coach of Frank's calibre who came to Saint Mary's with one idea in mind,—to take one of the few trophies that have eluded his reach, the Intercollegiate Crown.

Each year has brought the prize closer to our halls and this may be the time when we will capture it. If enthusiasm for the games could win them Frank Baldwin would have had every one in the books, and he has passed this enthusiasm to the student body and the people of Halifax with his love of the sport and his keen interest in Saint Mary's.

## S.M.U. 23; H.M.C.S. CAPE BRETON 20

The weather on the night of October 17 was excellent for football and S.M.U. and H.M.C.S. Cape Breton complied with nature to play an excellent game. The 1,000 fans who turned out to aid the Red Feather Campaign were treated to a thriller. Some veterans at the art of watching football said it was the best.

Saint Mary's took the ball on the kickoff and bulled their way to the opponents goal line but failed to take the ball over. Their efforts were not in vain, however, and Murphy booted a beauty just 15 yards from the sideline and 30 yards out for a field goal.

In the second quarter Cape Breton soon showed that they were very much in the game and a downfield drive resulted in quarterback Wing carrying over to put Navy three points up. The convert was wide. S.M.U. came back strongly and after Greg McClare had advanced the ball to midfield Ron Barnes went off tackle, burst through a big hole with a great display of speed and outdistanced the sailors to the goal line. The convert was wide but Saint Mary's picked up a rouge before the half ended.

Wing, who had thrown a couple of passes in the second quarter gave a fine display of aerial accuracy from the start of the second half. Before the Big Red Team could gather their wits Harker had carried over and converted his own touchdown to put the tars ahead. The collegians were not long in pulling up their socks. On the first play after the kickoff the line opened up a big hole for George Leach on a quarterback sneak and after "twinkle-toeing" it around a number of sailors he led the rest to their own goal line.

Cape Breton again opened the scoring in the fourth quarter when after sustaining a hard fought drive to Saint Mary's uprights Solmand took it over. Harker kicked his sec-

ond convert. With time running out for the Santamarians they lined up for a field goal on Navy's 20 yard line. Leach grabbed the snap and quickly tossed to Pete Fraser who was hit and then crawled over the line for the play of the game. Murphy kicked his first convert and the Saints led 23-20. The jubilant collegians soon had their hands full when two long passes put the sailors within reach but from there on in the Red line held and the best Cape Breton could do was reach the one foot line.

Don Warner and Bill Power led the stalwarts on the line. Ted O'Leary, along with those already mentioned showed fine form in the backfield. Dale Sinclair, Frank Gervaise and John Richard are to be commended on their fine defensive line backing.

The student fans come in for a word of special praise for their support which was recognized by all the players as a great help.

## Grad Receives Award

A former Saint Mary's student, Bill Curry, has been awarded a "mental health" bursary presented by the Government of New Brunswick.

Bill graduated from Saint Mary's receiving an Arts Degree, in 1954, and will now study for his Ph.D. at the University of Toronto.

## SAINT MARY'S FANS PUSH BIG RED TEAM

## 1-1 Tie In Opener

On Saturday, October 16, with excellent weather conditions prevailing, the infamous Inter-fac Football League got under way. Engineers took on Commerce in a shaky start. Both teams showed many signs of new blood and rusty ability before a small turnout of fans. The game proceeded slowly with the Engineers picking up a safety in the first half due to the educated toe of their kicker and a host of tacklers. Commerce rebounded strongly in the second half and scored a single. Both squads were held to these single points.
