ST. MARY'S COLLEGE

In the year 1841 St. Mary's College was granted by the Nova Scotia Legislature its first charter enabling it to confer degrees.

From this period onward the College met with varying success. Finally, in 1903, it was reorganized by His Grace the late Archbishop O'Brien, who built the older portion of the present College, appointing the Right Rev. Monsignor Kennedy its first President. After a period of about two years Monsignor Kennedy was succeeded by Rev. C. E. McManus, under whose energetic and able direction the College remained until 1913. In September of that year, on the invitation of His Grace Most Rev. E. J. McCarthy, Archbishop of Halifax, the Christian Brothers of Ireland undertook the management of the College. On this occasion were laid the foundations of the new building, which was completed in 1914—a lasting tribute to the zeal in the cause of Catholic education of His Grace, the clergy and the citizens of Halifax, by means of whose generous donations it was erected.

In the present year, 1918, the Legislature passed an "Act to amend the Law respecting St. Mary's College, Halifax" the opening paragraph of which reads as follows:

"Saint Mary's College, Halifax, originally incorporated by Chapter 39 of the Acts of 1841, shall continue to be deemed and taken to be a University, with all the necessary and usual powers and privileges exercised by Universities, including the power of conferring Degrees in Arts, and in all the other faculties."

These powers were availed of this year, when two students were admitted to the degree of Bachelor of Arts.

CURRICULUM

St. Mary's College provides:

- A Preparatory Course.
- A Collegiate Course of Four Years.
- A Commercial Course of Three Years.
- An Engineering Course of Two Years.
- An Arts Course of Three Years.

The Preparatory Course is intended for pupils who are not sufficiently advanced in their studies to take up the Collegiate Course. Boys who have completed Grade V of the Public Schools, or an equivalent course, are eligible for the Preparatory Department.

In the Collegiate Department a general course for each year will be selected by the College from the subjects of the syllabus.

The Commercial Course is open to all who have followed the general Collegiate Course or an equivalent for at least one year.

The College has been affiliated to the Nova Scotia Technical College in Halifax. Students of St. Mary's College who follow successfully its Two Years' Engineering Course are admitted to the Nova Scotia Technical College for the final two years' course prescribed for its degree.

In selecting the subjects of study for the Arts Course, the College authorities will take into account the probable future careers of the students and the number of applicants for any particular branch.

Written examinations are held towards the close of each Term and the results are made known to the parents. These examinations determine the student's class standing for the year. Every student who is successful in a subject is credited with First Class Distinction, Second Class Distinction or Pass. The names are arranged in order of merit in both Distinction and Pass Lists.

At the end of the school year Diplomas are awarded to all who have satisfactorily completed the year's course. Students who attain a high standard of excellence are awarded Distinction Diplomas.

Debates on literary and other subjects, vocal music and physical training are all part of the College Curriculum. Football, hockey, baseball and other games are played by the students.

The religious training of the students and the formation of character are objects of first importance in St. Mary's.

ADMISSION.

The College admits both resident students and day students. Boys under eleven years of age are not admitted as boarders, but they may enter the Preparatory Department as day-scholars if their school work reaches the required standard. Students may be received at any time during the year, but it is advisable that they should enter, if possible, at the opening of the school year in September.

Applicants for admission who are not known to the College authorities must furnish satisfactory references. The diplomas of any recognized school will be accepted as evidence of standard.

TERMS AND FEES.

The school year is divided into three Terms:

First—September to Christmas.

Second—Christmas to Easter.

Third—Easter to Midsummer.

RESIDENT STUDENTS.

Tuition and Board (including Bedding and Laundry):

First Term	\$80
Second Term	70
Third Term	60

NON-RESIDENT STUDENTS

<i>Tuition</i>	<i>Preparatory Course</i>	<i>Any Other Course.</i>
First Term	\$15	\$20
Second Term	15	15
Third Term	10	15

A reduction is made in the case of brothers.

An extra charge of \$2.00 per Term is required from students who take Typewriting or Science.

Students who desire lessons in Instrumental Music may take them at approved hours, at the teacher's rates.

Medical attendance, if required, will be an extra charge.

All charges are payable in advance, at the beginning of each Term.

Deductions are not allowed for absence unless it is due to long illness.

Books and stationery may be purchased at the College at current prices. Accounts for books cannot be opened for day students.

Parents of boarding students may arrange with the Brothers to have their sons supplied with necessary books, stationery, etc.

Each boarding student should bring a supply of clothing, towels, napkins, a napkin ring, a laundry bag, toilet articles, etc. The owner's full name should be on each article.

Boarders whose parents reside in the city may be permitted to join the home circle for some hours on Sunday.

The Scholastic Year begins in September and ends in June.

Vacation is given for about three weeks at Christmas.

Students may remain at the College during Christmas vacation at a charge of \$15.00. Students may not remain during the summer vacation.

The College will re-open on Monday, September 16th, 1918.
