ST. MARY'S COLLEGE

IN the year 1841 St. Mary's College was granted by the Nova Scotia Legislature its first charter enabling it to confer degrees.

From this period onward the College met with varying success. Finally, in 1903, it was reorganized by His Grace the late Archbishop O'Brien, who built the older portion of the present College, appointing the Right Rev. Monsignor Kennedy its first President. After a period of about two years Monsignor Kennedy was succeeded by Rev. C. E. McManus, under whose energetic and able direction the College was conducted until 1913. In September of that year, on the invitation of His Grace Most Rev. E. J. McCarthy, Archbishop of Halifax, the Christian Brothers of Ireland undertook the management of the College. On this occasion were laid the foundations of the new building, which was completed in 1914—a lasting tribute to the zeal in the cause of Catholic education of His Grace, the clergy and the citizens of Halifax, by means of whose generous donations it was erected.

In the year 1918, the Legislature passed an "Act to amend the Law respecting St. Mary's College, Halifax," the opening paragraph of which reads as follows:

"Saint Mary's College, Halifax, originally incorporated by Chapter 39 of the Acts of 1841, shall continue to be deemed and taken to be a University, with all the necessary and usual powers and privileges exercised by Universities, including the power of conferring Degrees in Arts, and in all the other faculties."

CURRICULUM

St. Mary's College provides:

A Preparatory Course.

A Collegiate Course of Four Years.

An Engineering Course of Two Years.

An Arts Course of Four Years.

The Preparatory Course is intended for pupils who are not sufficiently advanced in their studies to take up the Collegiate Course.

In the Collegiate Department a general course for each year will be selected by the College authorities from the various subjects of the syllabus.

St. Mary's has been affiliated to the Nova Scotia Technical College in Halifax and students who follow successfully its Two Years' Engineering Course are admitted to the Nova Scotia Technical College for the final two years' course prescribed for its degree.

In selecting the subjects of study for the Arts Course, the College authorities take into account the probable future careers of the students and the number of applicants for any particular branch.

Written examinations are held towards the close of each Term and the results are made known to the parents. These examinations determine the students' class standing for the year. Every student who is successful in a subject is credited with First Class Distinction, Second Class Distinction or Pass. The names are arranged in order of merit in both Distinction and Pass Lists.

At the end of the school year Diplomas are awarded to all who have satisfactorily completed the year's course. Students who attain a high standard of excellence are awarded Distinction Diplomas.

The training of the students in the art of public speaking is carefully attended to and weekly debates form an important part of the College curriculum.

Due attention is paid to the physical development of the students and all are encouraged and expected to take part, according to their

strength, in the outdoor games. Every facility is afforded for playing football, handball, basketball, hockey, baseball and tennis.

The College considers the formation and development of character, the religious and moral training of its students, of greater importance than anything else. Facilities are afforded for the frequentation of the Sacraments and the students receive regular instructions in the truths of Faith and the duties of Religion. By these means are laid the foundations of a true Christian character.

ADMISSION

Resident as well as day students are eligible for admission. Boys under twelve years of age are not admitted as boarders, but they may enter the Preparatory Department as day-scholars if their school work reaches the required standard. Students are received at any time during the year; but it is advisable that they should enter, if possible, at the opening of the school year in September.

Applicants for admission who are not known to the College authorities must furnish satisfactory references. The diplomas of any recognized school will be accepted as evidence of standard.

TERMS AND FEES

The school year is divided into three Terms:

- First—September to Christmas.
- Second—Christmas to Easter.
- Third—Easter to Midsummer.

NON-RESIDENT STUDENTS

Tuition

First Term.....	\$20
Second Term.....	20
Third Term.....	20

RESIDENT STUDENTS

Tuition, Board and Laundry.

First Term.....	\$120
Second Term.....	120
Third Term.....	60

A reduction is made in the case of brothers.

An extra charge of \$2.00 per Term is required from students who take Typewriting or Science.

Students who desire lessons in Instrumental Music may take them at approved hours, at the teacher's rates.

Medical attendance, if required, will be an extra charge.

Students in residence are charged \$1 per Term for the use of Library Books, and every student pays \$1.00 per Term for Athletics

All charges are payable in advance at the beginning of each Term.

Deductions are not allowed for absence unless it is due to long illness.

Books and stationery may be purchased at the College at current prices. Accounts for books cannot be opened for day students.

Parents of boarding students may make arrangements to have the necessary books, stationery, etc., supplied.

Each boarding student should bring a supply of clothing, towels, a laundry bag, toilet articles, etc. The owner's full name should be on each article.

Boarders whose parents reside in the city may be permitted to join the home circle for some hours on Sunday.

The Scholastic Year begins in September and ends in June.

Vacation is given for about three weeks at Christmas and one week at Easter.

Students may remain at the College during Christmas vacation at a charge of \$20.00, and during the Easter Vacation at a charge of \$10.00. No students are kept at the College during the summer vacation.

Parents are requested to see that their sons return to College not later than the opening day of each Term.

The College will re-open on Monday, September 9th, 1929.

COURSE IN ENGINEERING

MATRICULATION IN ENGINEERING

AFFILIATION.

The Nova Scotia Technical College is affiliated with the following Universities and Colleges:—Acadia, Dalhousie, King's, Mount Allison, St. Francis Xavier's and St. Mary's. By the terms of the affiliation, the separate universities offer a uniform course in engineering covering the first two years and the Technical College offers professional courses in several departments of engineering covering the last two years of a four-year course. Students from the separate universities are admitted to the Technical College on certificate without examination under certain conditions enumerated later. The matriculation requirements for entrance into the uniform engineering course of the separate colleges are also uniform and are set forth in the succeeding paragraphs.

ADMISSION TO THE FIRST TWO-YEAR ENGINEERING COURSE IN THE AFFILIATED UNIVERSITIES AND COLLEGES.

Applicants for admission must have attained the age of seventeen years. The following is an outline of the subjects and the standard or grade in each subject which is required for admission as a regular engineering student:

- (a) Arts Matriculation, but with Latin or French elective.
- (b) The following subjects of the First Year Arts Course: English, Advanced Algebra, Plane Geometry, Solid Geometry, Plane Trigonometry, Spherical Trigonometry, General Physics with Laboratory or General Chemistry with Laboratory, French or Latin; also Mechanical and Freehand Drawing.

FIRST TWO YEARS' UNIFORM ENGINEERING COURSE.

The following is the First Two-year Uniform Engineering Course at the Colleges and Universities affiliated with the Nova Scotia Technical College.

FIRST YEAR	Hours per week
Engineering English	3
Differential and Integral Calculus	3
General Chemistry or General Physics, including Laboratory	6
Descriptive Geometry	5
Elementary Surveying	2
Materials of Construction	1
Machine Drawing	6

SECOND YEAR	Hours per week
Electricity and Magnetism, including Laboratory	5
Graphical Statics	4
Mechanics	3
Qualitative Analysis, including Laboratory	5
Mechanics of Machines	3
Surveying, including mapping	3
Geology, including laboratory and field work (for Mining only)	3
General Economics	3

A student who has been granted a diploma or certificate by one of the Affiliated Colleges, testifying to the effect that he has completed the Uniform Engineering Course, will be admitted to the Technical College without examination, except for Mining Engineering, in which General Geology is a requirement.

SUMMER SESSION.

Field Work in Surveying.....	130 hrs.
Shopwork.....	130 hrs.

SUMMER SURVEYING CAMP

A united summer surveying camp for students between the second and third and between the third and fourth years for civil and mining engineering will be held at the permanent camp headquarters in Truro, N. S., during the month of September. There will be required a fee of twenty-five dollars (\$25) from each student for this class to be paid upon entering camp.

Any student intending to attend the surveying camp should notify the Secretary of the Technical College on or before August 15. All students should bring with them drafting instruments, clothing suitable for field work, and two pairs of blankets.

SHOPWORK

No shopwork shall be required in the affiliated institutions in the first two years of the Uniform Engineering Course, but the Nova Scotia Technical College requires from 3 to 6 months practical experience in industry of a type in each course approved by the Faculty before granting an engineering degree. As an equivalent to the aforesaid requirement, the Nova Scotia Technical College offers a course in Shopwork during the month of September.

ARTS COURSE

REGULATIONS AS TO COURSES, ATTENDANCE, ETC.

A candidate must have the approval of the College authorities for any course selected, and having selected this course he may not subsequently change it without their sanction.

A candidate for a degree must be of good moral character and must have given general satisfaction during his course.

No candidate is eligible for prizes or distinctions in any subject in which he has, without satisfactory reason, failed to make 90 per cent. of the total attendances in such subject. Candidates failing to make this attendance may also be debarred from writing examinations in such subject.

Candidates may, on the presentation of the necessary diplomas or certificates, receive recognition for equivalent work previously done elsewhere.

Every candidate for a degree shall in all respects satisfy and conform to the conditions, rules and regulations from time to time set forth in the College Calendar.
