## THE SEARCH IS OVER: Saint Mary's Will Have a New President

Dr. Kenneth Ozmon and student Rosemarie Nkeyy at the University of Prince Edward Island Convocation

Dr. Kenneth L. Ozmon will become Saint Mary's President on July 1, 1979. He is the second layman in the University's 176 year history to hold the position.

Currently the Dean of Arts at the University of Prince Edward Island, Dr. Ozmon received his undergraduate degree from St. Bernard College,

Alabama, majoring in Philosophy and History, and graduated magna cum laude in 1955. He received an M.A. degree in Psychology from Catholic University of America in 1963, and a Ph.D. in Psychology from the University of Maine in 1968. He also completed a Senior University Administrators Course at the University of Western Ontario.

Prior to joining the academic staff at the University of Prince Edward Island in 1969, Dr. Ozmon was an assistant professor at California State University. He has also held teaching positions at Saint Dunstan's University, Prince Edward Island; University of Maine; St. Joseph's Teachers College; Thomas More Institute; Marianopolis College; St. Bernard's College (Alabama); and St. Bernard's High School in Alabama.

Dr. Ozmon has had a number of articles published and has been awarded several grants. In 1970 he was awarded a National Research Council grant to study "Retroactive Effects of Electroconvulsive Shock and Drugs on Imprinting Behaviour in Various Avian Species". He was also awarded a Science Research Council grant to study "Some Personality Correlates of Acceptance and Rejection of Change to the Metric System", and a grant from the Canadian Human Rights Foundation—"Pre-retirement Programs in Canada", and from Comserv PEI (Canada Works Program).

Dr. Ozmon is a member of several university groups at the University of Prince Edward Island and is active in community organizations.

He is married and has two children.

## Retirement Marks Thirty Years of Service at Saint Mary's

by Mark Canty

Mrs. Anne MacKinnon

When Mrs. Ann MacKinnon retires at the end of October from her position as head of the University's laundry service she will be ending a 30-year-old relationship with Saint Mary's. In those three decades Mrs. MacKinnon has witnessed the growth of our institution from its more humble quarters on Windsor Street to the University we know today.

Born in Cape Breton, Mrs. MacKinnon grew up and received her early schooling in the Bras d'Or region of the Province. After completion of grade 11 at Saint Ann's School in Glace Bay, she began work with the Canadian National Telegraph Company. She married and soon afterwards moved to Halifax with her husband. In 1949 Mrs. MacKinnon entered into employment with Saint Mary's College.

When she joined the College the institution was housed on the corner of Windsor Street and Quinpool Road. The students were boarded in a large house on Barrington Street. Those early years Mrs. MacKinnon recalls with great fondness.

"There was always much to do and so little time to do it in. We had to care for both the priests and the students and we did everything from cleaning to setting up the altars for the priests. But the Jesuits were wonderful men to work for and although we worked hard there was always compensation in a job well done. I can remember making huge pots of tea for convocation in 1949. Working back then was very pleasant because we were like one big family."

Mrs. MacKinnon had arrived at Saint Mary's at an interesting point in the College's development. In 1943 the Jesuits had purchased the Gorsebrook property and the first sod for the new building was turned in 1949. By September of 1951 part of the McNally Building had been completed and the move from the old campus was effected. Mrs. MacKinnon vividly recalls the move.

# Retirement Marks Thirty Years of Service at Saint Mary's

Continued from page 1

"Well, we moved on a Sunday afternoon. We had to carry everything in from Robie Street by walking on this long workman's ramp. Of course there were no elevators and everything had to be dragged up the stairs. There was an awful lot of confusion for you see, the south wing was still under construction. During our first few days the workmen were everywhere and so was the dust from the bricks and wood. You could try and clean up the dust, but the workmen and the noise we had to become accustomed to. Well, we finally got everything in but we weren't settled for quite some time. It was a 24 hour-a-day job back then. To make matters worse the washers and dryers were not connected for a few weeks and we had to dry everything in the halls."

In those first years everyone was required to put in long hard hours but there were few complaints. The initial inconvenience of not having a formal church was remedied by holding services in the foyer of the McNally building, and the space now occupied by our Business Office served as the sacristy. Mrs. MacKinnon was up and at work very early in those days at an hour she would not care to remember. She had to set up the altars for about 30 priests for morning mass. Then there was breakfast for both faculty and students to prepare and serve. Certainly this was not the time for idle hands.

Mrs. MacKinnon's duties in the 1950's and 60's were extremely diverse and she held a variety of positions. From taking charge of the cleaning staff and filling in for the nurse at the school infirmary, to serving in the dining hall and seeing to the needs of the Jesuits, the talented Mrs. MacKinnon was never far from her vigil over the well-being of the students.

"With regard to meals and linen and tidying up we tried to see that everyone was taken care of, but of course it is difficult to please everyone. I would try and find out what the students wanted to eat and then arrange it from time to time. One of the advantages of a small college was that you got to know everyone. Before the new residences were built we only had 178 live-in students. Even though we knew the students we always made a point to never show favorites."

After a period as head of the Cleaning staff Mrs. MacKinnon was asked to take charge of the laundry and improve upon the existing facilities. In typical no-nonsense fashion she immediately set to work and soon her Laundry, complete with staff of one, earned the nickname of "Snow White" from staff, students and faculty. Indeed, the Jesuits were always proud to lead visiting officials to the laundry room to see the excellence of Mrs. MacKinnon's efforts.

Taking over the laundry was not without mishap. It was difficult to find good staff and with a never-ending pile of laundry to be done there was very little time to train people. Over the years when the machines have broken down Mrs. MacKinnon would take them apart and fix them herself because no one knew how to repair them. Her most vivid recollection concerns the clothes themselves.

"On one occasion the laundry got in an awful muddle. The Chinese students were the only ones to mark their clothes clearly. At first the others didn't bother to label theirs. Well, the clothes became horribly mixed up and a group sorting session was necessary to put things right."

Mrs. MacKinnon was known as much more than a talented and dedicated employee and from the student sector came great appreciation for her work and kindness. Before a dance or those occasions requiring a clean and well pressed outfit Mrs. MacKinnon would be hard at work making last-minute adjustments to the attire of nervous young men.

"Clean clothes are so important and especially to those students who were far from home. Often they would just drop in and chat because they thought the laundry room reminded them of home and it was a good place to come and collect one's thoughts."

Students who have known Mrs. MacKinnon at Saint Mary's drop in on occasion to pay a visit. She has even had letters from students who wanted to express their appreciation for the small favors she would perform or just for always having well-laundered clothes. Mrs. MacKinnon has taken great pleasure in watching the numerous generations of students pass through the doors of Saint Mary's, many of whom have since returned to teach or work.

During the time Mrs. MacKinnon has worked at Saint Mary's there have been drastic changes to the campus and the institution itself. In 1952 legislation was effected redefining Saint Mary's as a University. Of course, Mrs. MacKinnon has viewed the construction of the McNally building and every other structure on campus. The growth of the university from its Windsor Street days evokes a mixed reaction from Mrs. MacKinnon. While pleased that there has been considerable expansion she has some regret for the loss of that personal closeness possible in a small college. "But then," says Mrs. MacKinnon, "we still have a small university by comparison. I just don't like to see our school become so business-like."

With the opening of the Edmund Rice, Vanier, and Loyola Residences, the laundry service for

students was discontinued. However, Mrs. MacKinnon's workload never decreased and she and her staff still handled linen, bedding, draperies, sports uniforms, and much more. One of Mrs. MacKinnon's duties has been the care of the gowns for convocation; not a simple task if you consider the pressing, cleaning, alterations, and repairs required to put the robes in order before each ceremony.

Mrs. MacKinnon has nothing but praise for her staff who have worked so hard over the years, and she will be sorry to leave them. She has great respect for Mr. Somers, Mr. Noël and Dr. Carrigan.

"You don't know the work involved until you've had to do it," Mrs. MacKinnon points out. "Mr. Somers has been a wonderful man to work for."

Mrs. MacKinnon has recently returned from a two-month vacation in Hawaii and California where she had visited with her family. Her daughter, Florence, is married to George Isaac, a former Saint Mary's graduate and successful engineer, who, along with their four children, live in California. Mrs. MacKinnon is exceptionally proud of her grandchildren, the eldest of whom is attending university.

When asked why she stayed at Saint Mary's all these years she could only answer by saying, "It was a good job and one in which you worked with fine people." Retirement is only a term to Mrs. MacKinnon for she has no plans for taking it easy in the immediate future. After 30 years of devoted work she will once again be working for her original employers, the Jesuits.

Although Mrs. MacKinnon will be in retirement from her former position she will still be a part of the University community. Her labors have been an investment in the growth of Saint Mary's University. Despite the undeniable importance of our institution, it is only as significant and humanely interesting as the individuals found in it. Mrs. MacKinnon is one of those individuals of exceptional merit whose hard work and dedication helped build our University, and is as much a part of the institution as the mortar which binds it together.

The laundry service will be phased out at the end of October and although Mrs. MacKinnon believes that the service will be missed she views it as an inevitable consequence of growth. She will soon be leaving her office of the past decade, once the root cellar for the University kitchens. Mrs. MacKinnon and her vivid memories remain a testimony to the expansion and progression of Saint Mary's University.

## Who's New

The following is a list of staff changes that have occurred through the summer until the end of October. If there are any errors or omissions, please let us know. Ed.

Name	Department	Start Date
Alan Jones	Physical Plant—plumber	July 31
Marlene Morash	Registrar's Office—transcription secretary	August 4
Karen Corbett	Residence—secretary (temporary replacement for B. Hemeon)	August 9
Theresa Richard	Marketing—secretary	August 11
Lauren Savary	Library—head of circulation	September 7
Emilie Barriault	Development & Alumni Affairs—secretary	September 8
David Manning	Library—assistant	September 11
Theresa Doucette	Library—assistant	September 11
Sandra Beauchamp	Library—assistant	September 11
Cynthia Tanner	Library—assistant	September 11
Frank Arsenault	Arena—rink attendant (on the job training)	September 12
Paul MacDonald	Physical Plant—utility worker	September 13
Greg Jonah	Physical Plant—heavy worker (nights)	September 14
Grace Zimmerman	Student Services—assistant	September 18
Nancy Devoe	International Education Centre—secretary	September 20
Ruth Bagambiire	Registrar's Office—clerk typist	September 22
Roxanne Greene	Management—secretary	October 4
Paula Lancaster	Bookstore—secretary	October 16
Marjorie Warren	Mathematics—secretary	October 17
Cathy MacLean	Art Gallery (on the job training)	September 27
Heather Saunders	Library(temporary)	October 10

# Faculty Members

## Visit High School

by John R. MacDonald

In a departure from the usual practice of public school personnel going to university, a number of Saint Mary's faculty members recently went back to high school. At the invitation of Park View Education Centre in Bridgewater, nine professors, led by Dean of Arts Dr. Thomas Musial, joined the staff there in the first of what promises to be not only a continuing dialogue, but a close working relationship.

The day-long visit offered ample opportunities for an exchange of ideas on each institution's general operations, programming, and expectations. After meeting initially with Park View administration for general discussions in these areas, faculty members in the various departments met with their counterparts to explore possibilities of cooperation in curriculum development, articulation between the two levels, and the general preparation of students for university.

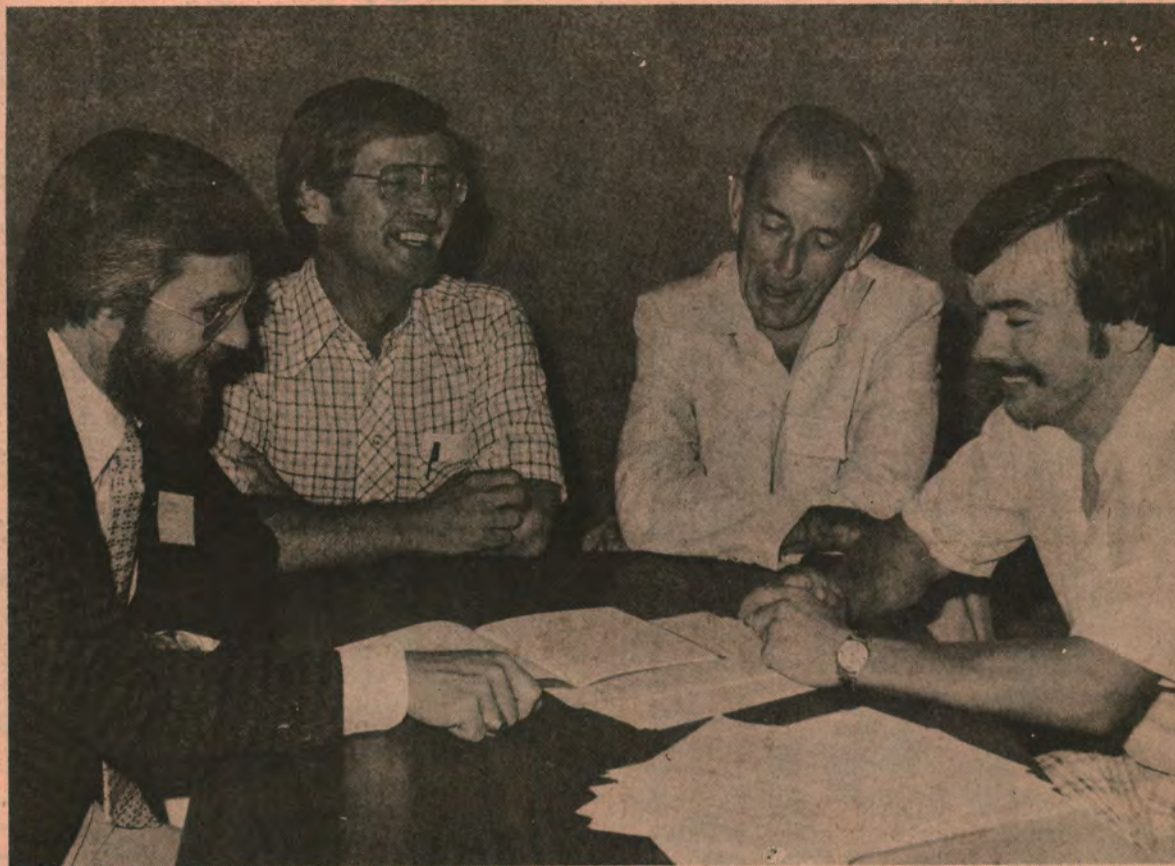

Park View Principal Norman Johnston, and Student Service Director Noel Dexter who initially approached Saint Mary's, shared the very favorable reaction of everyone involved when he said that "we couldn't be happier with how willingly and positively Saint Mary's has responded. We especially appreciate the leadership of Dr. Musial and the cooperation of members both of his and other university faculties in agreeing to work with us toward our many common goals." Mr. Johnston further explained that the process was consistent with his school's view of education as a continuum that should flow as smoothly as possible from one academic level to another.

It was agreed that an on-going arrangement could be beneficial to both institutions. While Saint Mary's might provide material and personnel resources whenever feasible, Park View in turn could be utilized for research, as a training ground for practice teachers, or simply for university staff to become more familiar with the curriculum methods and standards of the modern high school.

On the bottom line, however, students who have been influenced by the exposure to Saint Mary's should be more disposed to selecting it to continue their education. Its greater visibility within the whole South Shore community will also be to the University's long-term advantage.

That initial day of discussion was in the latter part of August during a time when all of the forty-two member staff had returned for voluntary in-servicing in preparation for opening the new 800-student facility.

Since that August meeting channels of communication have been kept open and "things are happening".

Seated left to right: Dr. Thomas Musial; Mr. Clement Mailman, Head of the English Department, Park View Education Centre. Dr. Arthur Monahan, Mr. John R. MacDonald, Vice Principal, Parkview Education Centre.

For example, in conjunction with Neptune's Bridgewater staging of *Othello* on the evening of November 3, Dr. Roger MacDonald of the English Department will be offering his expertise as a resource person. On the evening prior to the performance he will present a public lecture and discussion on "William Shakespeare: The Man and His Times" with special emphasis on *Othello*. The following day he will meet with various English classes, including a seminar on the early history of drama.

In another area, Park View's social studies and student services departments are undertaking a comprehensive survey of Lunenburg County employment opportunities and the educational requirements of various jobs. Members of Saint Mary's Sociology Department will be working with student group leaders in establishing criteria and analyzing data.

The Social Studies Department, especially students in Modern World Problems and Sociology, will be taking full advantage of the resources of the International Education Centre both on a visitation and on a loan basis.

Additionally, course outlines have been exchanged, particularly in Geography, so that modifications at both levels can be considered in order to assure as much dove-tailing as possible.

Course outlines have also been exchanged in Science, where plans are evolving for selected students to spend a few days in the spring attending university classes and participating in lab experiments. Also, Saint Mary's will provide input in developing a unit on anthropology for the Grade XII honors Biology program.

Finally, those Park View students who will have been accepted at Saint Mary's will spend a few days of orientation on campus under the supervision of University counsellors. The counselling office will also be making available for loan to the high school a series of video tapes covering such areas as the development of good study habits, preparation of term papers, adjustment to university life, and other related matters.

John R. MacDonald is Vice-Principal of Park View Education Centre, Bridgewater.

## Events at the International Education Centre

—On October 8, the International Education Centre presented another discussion in its Dialogue on Development Series. Boota Singh, General Secretary of the Indira Congress Party of India, discussed aspects of the contemporary political scene in India as it relates to development issues. Boota Singh was formerly a Cabinet Minister in India and is presently on a world tour to promote understanding of the aims and accomplishments of the Indira Congress Party.

—Paul Thompson, Director of Mutual Housing Services in Jamaica and former Lecturer in Co-ops and Credit Unions, as well as former Registrar of Cooperatives in Jamaica, was guest speaker at the International Education Centre's Dialogue on Development Series on October 11. Mr. Thompson presented a political, social and

economic overview of the Caribbean area and sketched the history and growth of credit unions and cooperatives in Jamaica.

—Dr. Jide Osuntokun, former Senior Lecturer in History at the University of Lagos, Nigeria, and currently Nigerian Universities Commissioner in Canada, was present at a luncheon and informal meeting at the International Education Centre on October 11. Dr. Osuntokun described Nigeria's impressive plan to accelerate education in that country. He explained the agreement he recently negotiated which entails Canadian involvement in educational programs and facilities for Nigerian students.

—On October 19, Dr. B. Pachai discussed "Race Relations in South Africa" with a Sociology class at Dalhousie University.

—United Nations Day was held in the Centre October 24. Eight films were shown about current world problems in which the United Nations has played and continues to play a very active role. In addition to the films, displays of United Nations material were assembled.

—Dr. Thomas Musial, Chairman of the International Education Centre, and Dr. B. Pachai, the Centre's Director, attended the third conference of the Canadian Consultative Council on Multiculturalism held in Ottawa October 27-29. They also attended meetings on October 25 at the Israeli Embassy to discuss the proposed Institute of Jewish Studies, and on the same day a meeting with United Nations Association of Canada, and on October 26 a meeting at the National Museum.

## Laurie Smith Appointed Coordinator of Alumni Affairs

Dr. D. Owen Carrigan, President of Saint Mary's University, has announced the appointment of Mr. Laurie Smith as Coordinator of Alumni Affairs. Mr. Smith succeeds Mr. Kevin Cleary who has taken a position in Counselling Services at the University.

Mr. Smith is a graduate of Saint Mary's. He also received a Bachelor of Education degree from Dalhousie University and a Master of Education degree from Fordham University in New York.

He joined the staff in 1966, and has been head of Counselling, Administrative Vice-President, Dean of Student Affairs, and Assistant to the President.

Before coming to Saint Mary's, Mr. Smith was Director of Guidance Services for the Halifax School System. He has also been a part-time faculty member in education programs at both Saint Mary's and Mount Saint Vincent University.

Mr. Smith has been involved in community activities in the Halifax area and has shown an interest in various programs related to education. He was Chairman and Commissioner of the Halifax School Board for three years, Vice-President of the Canadian Mental Health Association, and Chairman of the Family Life Program, Archdiocese of Halifax. He was also the founding president of the Community Tape Resource Library for the handicapped. He has also served on several other boards and committees related to education and community work.

He lives in Halifax with his wife, the former Catherine Anderson, and his six children.

Mr. Smith will coordinate all alumni activities at the University and in the community.

## Senior Class Reps

The first Senior Class meeting was held on Wednesday, October 11, at 12:30 p.m. in the "Pub". Three Senior Class Representatives were elected. They are: Ian MacIntyre (Science), Sara MacDonald (Commerce), and Rosalind Lacovetsky (Commerce).

## Coming Events at the IEC:

A symposium, entitled "Why Multiculturalism?" will be held at the International Education Centre on Wednesday, November 1, 1978. This symposium will be the first in a series of Dialogues on Multiculturalism. The speakers will include: Dr. John Godfrey, President of the University of King's College; Dr. Anthony Johnstone, Director of Ethnic Services, Nova Scotia Department of Education; Paul Robinson, Senior Research Associate, Atlantic Institute of Education; Dr. Bridglal Pachai, Director of the International Education Centre, Saint Mary's University. The symposium will be preceded by a slide presentation entitled "For What Did I Come To Canada." Dr. Thomas Musial, Chairman of the International Education Centre Board, will chair the symposium.

On November 4, Dr. Pachai will address the Women's Interchurch meeting in Halifax; his topic: "Development in Africa".

On November 8-9, the International Education Centre will host a Multicultural Studies course workshop for piloting teachers. On November 8, 1978, Noel Knockwood of the MicMac Association of Cultural Studies will lead a discussion on MicMac Culture and on November 9, Walter Borden of the Black United Front will lead a discussion on Black Culture.

On November 15, Dr. Pachai will speak to students at New Germany Rural High School about apartheid in South Africa, and later that day will speak at Park View Education Centre in Bridgewater, and the subject will be "Pluralism in Canada".

An in-service day for teachers at Caledonia Junior High School, Dartmouth, has been arranged focusing on the topic of Multiculturalism in Canada.

On November 18 and 19 Social Studies teachers of Nova Scotia will be invited to participate in a workshop on multicultural international topics at the International Education Centre.

## From the Registrar's Office:

Students who require their signature witnessed on official documents, such as applications for passports, affidavits, proxy ballots, etc., are advised that the Registrar, Elizabeth A. Chard, now holds an appointment as Commissioner pursuant to the Notaries and Commissioners Act. Documents and signatures may now be witnessed by Mrs. Chard.

The last day for withdrawing from a first semester course (i.e. designated as .1) is Thursday, November 16, 1978. Details on the procedure are found in the 1978-79 Academic Calendar, regulation 16, page 25.

The Christmas Examination list has been posted on official bulletin boards throughout the University.

## Saint Mary's Dramatic Society to Present ALICE

Saint Mary's University Dramatic Society will present an adaptation of Lewis Carroll's "Alice's Adventures in Wonderland" and "Through the Looking Glass" as its fall production.

The adaptation "Inside Outside Alice" was conceived by Richard Minichiello and Alice Norton, and will be directed by Richard Minichiello. He is an alumnus of Saint Mary's and has studied and taught drama in Canada and the United States.

The play is part of a larger work called COLLISION which has been conceived by Mr. Minichiello and Ms. Norton. COLLISION is called a "social ritual" by its creators and its purpose is to bring all aspects of theatre into contact, or collision, with the community. To this end the Society will make its company available to entertain, share with, and teach people, in as many different settings as possible.

The work will be original and will involve music, dance, and improvisation. ALICE will be a new experience for the Society and for Saint Mary's. One new feature of this production will be a Saturday matinee performance. It is hoped that the afternoon performance, together with an earlier evening curtain time, will permit more children to attend than in past years. ALICE will be a unique theatre experience for people of all ages.

Performances will be in the Theatre Auditorium on the main floor of the McNally Building on Robie Street. ALICE will open on Thursday, November 16 at 8 p.m., with evening performances on Friday and Sunday at 8 p.m. A matinee performance will be given on Saturday, November 18 at 2 p.m. Admission is \$2.50; \$1.50 for students, children and senior citizens.

## Saint Mary's Students in Math Competition

Two students from Saint Mary's University, James Loveys and John McDow, placed second in a mathematics competition at the University of Prince Edward Island, held on October 20. Seven universities from the Atlantic region participated in the Second Annual Math Day Problem-Solving Competition.

Each university was represented by a team of two students, and the Saint Mary's team was coached by Dr. Arthur Finbow.

The University of New Brunswick team placed first with a score of 91; Saint Mary's second with a score of 83; and Dalhousie was third with a score of 72.

James Loveys of Saint Mary's tied for highest individual score with Robert Carr from University of New Brunswick.

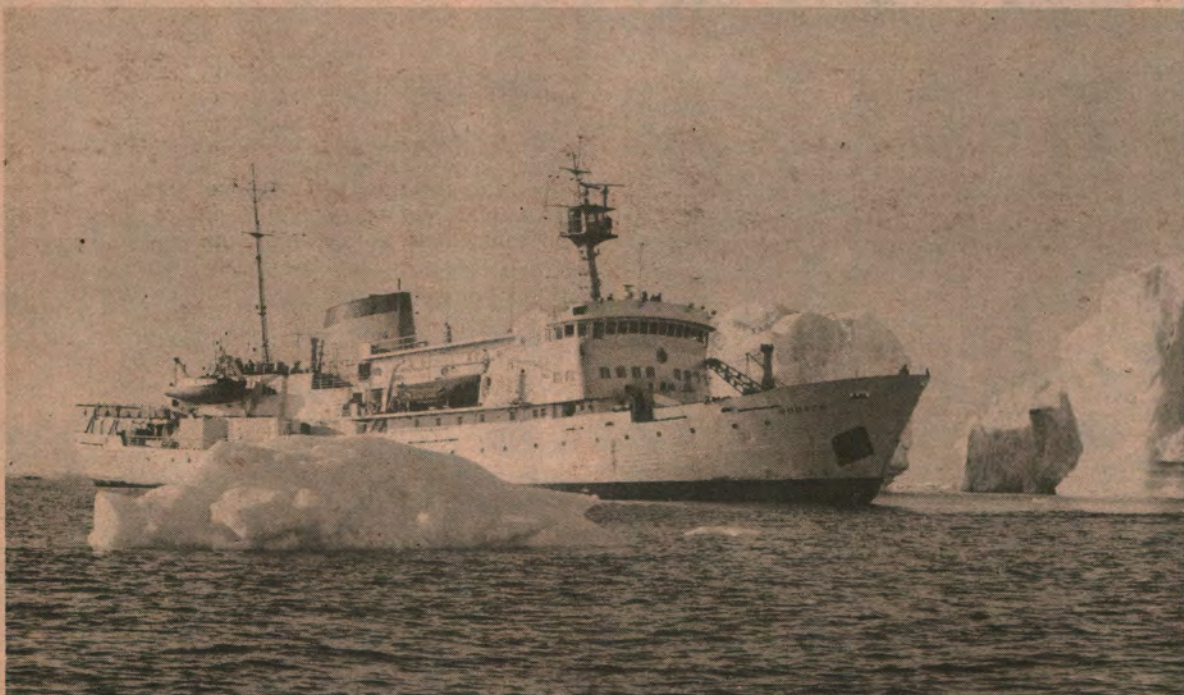

The annual event was sponsored by the Mathematics Sub-Committee of the Atlantic Provinces Interuniversity Committee on the Sciences.

## Graduate Awards

The following students have been awarded Graduate Fellowships by the Graduate Awards Committee for the 1978-79 academic year:

NAME	FELLOWSHIP	DEPARTMENT
Lissa Sydney McRae	Xerox	MBA
Alice MacDonald	Ford	MBA
Heng Kwok Siew	Ford	MBA
Steven Morris	Saint Mary's University	AST.
Kathryn Warrell	Saint Mary's University	HIS.
Nora MacAdam	Saint Mary's University	MBA
Thomas Cheung	Saint Mary's University	MBA
Steven LeBlanc	Saint Mary's University	MBA
James Leger	Saint Mary's University	PHI.
Layton Ray Smallwood	Saint Mary's University	MBA
Jeffrey Power	Saint Mary's University	MBA
Gerald Stevenson	Canadian Tire Corporation	MBA

# Atlantic Scientific Expedition On C.S.S. Hudson

by Anthony Law

In 1956 and again in 1957, I took part in two six-month expeditions into the high Arctic on HMCS LABRADOR when she was under control of the Navy. I was Executive Officer to Captain Tommy Puller who was the Commanding Officer. During these two expeditions I got to know the oceanographers very well and we accomplished a great deal of scientific work in those early years. Now some of my oceanographic friends are in high places and they invited me, as their guest, to go in one of their scientific ships to paint the Arctic again.

This past summer Dr. Bill Ford, the Director General, arranged that I sail on the C.S.S. HUDSON. She would depart Halifax on August 26, and would conduct oceanographic studies in the area of Scott Inlet, Paterson Inlet, Bylot Island and northern Baffin Bay and, if sufficient time, in Melville Bay, Greenland.

At first the Ship's Company was not too sure of this artist fellow. They knew he was a retired Naval officer but an artist on a scientific ship—well that was a different question. Soon I was accepted and extremely well looked after. They assigned me two studios—one in the crow's nest up high in the mast. It had eight heated windows with a command view. The other studio was in the drawing office, and since there were no hydrographers aboard, I had the place to myself, sharing it with Captain Deer and Roger Belanger the official photographer. They were building kites on the voyage as we made our way up into the Arctic waters.

Dr. Eric Levy was the senior scientist and Dr. Peter Jones was his deputy. Under these two were many young scientists and a number of them graduates of Saint Mary's University. Terry Hemsworth graduated from Saint Mary's with a B.Sc. in Biology in 1976. Terry enjoyed her three years at Saint Mary's, and the thing she liked about the University was the individual attention students received from their professors. She missed this when she went to Dalhousie University, a much larger institution. Joseph Fougere, B.Sc. in Biology, graduated from Saint Mary's in 1976; as well as John Balzier who graduated with honours with a B.Sc. in Chemistry. These members were on Dr. Levy's scientific team. A member of HUDSON's crew was Andy Allen—he received his B.A. in Political Science at Saint Mary's. After graduating he did not want a desk job and went off to sea as a seaman on the HUDSON and, just recently was promoted to coxswain. He was a very capable young man.

The Bedford Institute of Oceanography chartered an EPA aircraft to fly the second group of scientists to Thule, Greenland and we would return on September 17 to Halifax in the same plane with Dr. Levy and his oceanographic party, including the artist. Again I met another graduate from Saint Mary's. She was the EPA Air Hostess by the name of Lucille Feron who graduated in English and French.

It was a wonderful experience for these young people to see the great Canadian North with its incredible snowcapped mountains of Baffin Island and the glaciers winding their way down to the sea and breaking off into huge icebergs.

It is hard to realize that it takes as much time to fly from Thule, Greenland to Halifax as it does from Europe. This gives one some idea how large the Canadian Arctic is.

As we headed toward the Arctic Circle, I had established myself in my two studios. The only great disappointment during the entire voyage was that I never saw Scott Inlet. It was always hidden in fog. Nevertheless, I made up for lost time when Captain Deer and his party took me into Paterson Inlet in the sound boat. The fog lifted and it became a brilliant sunny day. We were surrounded with some of the most impressive landscape I have seen for many years. Huge towering mountains covered in snow, with decorative glaciers. It was a spectacular day. Bylot Island was another impressive painting area. The ship took a number of oceanographic stations along the north coast of Bylot Island in Lancaster Sound. This gave me a wonderful opportunity to paint the mountain range and its many large glaciers making their way to the sea. The other exciting area was Melville Bay, Greenland. Hundreds of glaciers extending for 50 miles along the coast breaking into thousands of icebergs of all shapes. The cathedral shape is the most spectacular. The Greenland ice cap is 10,000 feet high and over thousands of years the glaciers have carved the mountains into smooth shapes unlike the jagged mountain peaks of Baffin Island. Melville Bay was the highlight of the final day of our 22 days at sea. By this time I had completed 21 oil paintings, 27 watercolours; filled four sketchbooks with drawings and watercolour sketches with over 300 coloured slides. As a painting expedition to the Arctic it was a great success and now I am able to get down to serious work to paint a number of large works for my forthcoming exhibition of paintings in London, England which will take place in the first two weeks of November, 1979, at the Mall Galleries (British Federation of Artists). I am indebted to the Bedford Institute of Oceanography and the Officers and men of CSS HUDSON for their generous hospitality and making an old sailor at home. It was nice to see all the young scientists who were graduates of Saint Mary's University doing so well and enjoying their work.

Photo by Frederick J. Hanright [a former student of Professor Sabean]

## Photography and You

An illustrated one-hour lecture by Allan T. Sabean, Professor of Chemistry at Saint Mary's, will be presented on Tuesday, November 7, at 12:30 p.m. in Room 204 of the McNally Building. The topic will be "Photography and You", based partly on the Photography 200.0 credit course offered during the academic year.

It will be part of the Patrick Power Library offering during the month of November, during which time there will be a photographic display set up in the Library foyer. There will be photographs in both colour and monochrome by Professor Sabean and some of his past students. There will also be some fundamental photographic equipment normally used on display.

## Notes from the Library

### LIBRARY ARCHIVES

Any students, faculty, alumni members, or administrative personnel who have any issues of the *Journal*, especially those dating from 1970, please contact Theresa Doucette at ext. 187 / 6, or leave issues at the Library Information Desk. The issues are needed to build up the *Journal* collection in the archives.

Also, if anyone has the following issues of the *Santamarian*, could they please contact the archives representative at the above number. The years are: 1960, 1961, 1966, 1968, 1972.

A major project of the archives in conjunction with the Public Archives of Canada concerns a photographic collection. The archives is seeking any photographic material, no matter how old, dealing with any aspect of Saint Mary's University life—drama productions, sports events, personalities, etc. As collections are accumulated they will be listed in the *Guide to Canadian Photographic Archives*. Please leave contributions at Library Information Desk.

### LIBRARIANS GIVING INSTRUCTION SESSIONS

During September and October over 200 students participated in library instruction sessions at the Patrick Power Library. The sessions, designed to teach students how to find information in specific disciplines, have been conducted by professional librarians, Jane Archibald, Joan Moore and Doug Vaisey. Sessions have been given for classes studying fields as diverse as environmental chemistry, urban sociology and financial accounting. Sessions are now being planned for a number of English 200 classes and will be presented in the next few weeks. Cynthia Tanner, Library Specialist for English, will participate in these sessions. Among other things, students will be shown how to locate books and articles about Shakespeare's *Othello* which they are studying this term.

If you have any questions about library instruction sessions or would like to arrange one for your class, inquire at the Information Desk or call Administration local 187.

### PATRICK POWER LIBRARY BOOK SALE

Wed., Nov. 15, 1978  
Library Conference Room  
9 a.m. - 5 p.m.

Over the past few years the library has accumulated through various sources many books which duplicate the existing collection or do not fit our collection needs. Some are new, some are old, some are treasures—and then there are others. Most will sell for a modest price of \$.50 - \$1.00.

# Noteworthy Notes

DR. J.K. CHADWICK-JONES (Psychology) is on the editorial staff of the Canadian Psychological Association publication "Compendium". He is also an External Examiner for Higher Degrees at McGill University.

DR. DOUGLAS DAY (Geography) delivered a paper at the Canadian-American Educational Problems Conference at Orono, Maine, on October 2. Dr. Day's paper was on "Geography: the Neglected Discipline in the Curriculum of the Maritime Provinces". In his paper he outlined the reasons why geographical education is poorly developed in the Nova Scotian school system and in Nova Scotian universities and how geography has developed in the Province since 1973, when Saint Mary's University established the first and only geography department in the Province. He also made some predictions on the future development of geographical education in the Maritimes through the 1980s.

DR. LILLIAN FALK, DR. WENDY KATZ and DR. KATHLEEN TUDOR (English Department) attended the conference of Atlantic University Teachers of English (AUTE) at Mount Allison University, October 13 and 14.

DR. RICHARD PERKYN (English) is researching aspects of family life in modern drama and in February gave a public lecture on Marriage and Family Life in the plays of Henrik Ibsen. As a further tribute to honor the 150th Anniversary of the great Norwegian dramatist's birth he directed the rarely performed *Little Eyolf* for Halifax Independent Theatre in June and July. This production won critical acclaim and enthusiastic public response for an unusual opportunity to see one of Ibsen's late masterpieces.

This stage performance was also recorded for the Community Tape Resource Library for handicapped students, as was Perkyn's first production for H.I.T., *Alfie*. Dr. Perkyn also produced H.I.T.'s special recording for the Community Tape Resource Library of James Reaney's *The Easter Egg*. Dr. Perkyn's article on Reaney's major drama trilogy *The Donnelly's* appears in this Fall's edition of SIFT, a publication of Saint Mary's University English Department. The first of his biannual articles on regional theatre appeared in the recent edition of the Atlantic Provinces Book Review.

DR. ALFONSO ROJO (Biology) has been commissioned by the University of Navarra (Spain) to publish a dictionary of fish anatomy, in Spanish and English.

PROFESSOR HERMANN F. SCHWIND (Management) has been invited by the Department of Psychology of the University of Essen in Germany to give a guest lecture on the topic: "Performance Appraisals as a Tool for Personnel Development" in November. He has also been invited by the German institute for Business Economics in Frankfurt to give two one-day seminars on the topics: "Problems with Performance Appraisals for Managerial Personnel" and "The Evaluation of Organizational Training and Development Programs".

DR. PORTER SCOBAY, DR. ROBERT KRUSE, DR. JOHN McFALL and DR. ARTHUR S. FINBOW from the Mathematics Department attended the Second Annual Mathematics Day at the University of Prince Edward Island in Charlottetown on October 20 and 21.

LIZ STEVENS, Director of Information Services, attended the Atlantic Regional Meeting of the Association of Canadian University Information Bureaus (ACUIB) at Université Sainte-Anne, Church Point, Nova Scotia, October 20 and 21.

REV. W.A. STEWART, S.J., Assistant Academic Vice-President of Saint Mary's, is chairman of the Board of Directors of the Cultural Federation of Nova Scotia (CFNS). The eight groups constituting CFNS are: Dance Nova Scotia; Nova Scotia Drama League; Nova Scotia Designer Craftsmen; Nova Scotia Choral Federation; Multicultural Association of Nova Scotia; Writers' Federation of Nova Scotia; Visual Arts Nova Scotia; and Federation of Museums, Heritage and Historical Societies of Nova Scotia.

DR. GILLIAN THOMAS (English) gave a paper, "The enthusiastic sceptic: Dickens' response to urban folklore in the early novels", at the

Association of Canadian University Teachers of English meeting of the Learned Societies held in London, Ontario, in May.

Dr. Thomas gave a workshop on "The Impact of Television on the Reading Skills of Children and Adolescents" at the Reading Conference sponsored by the International Reading Association at Mount Saint Vincent University October 27, 1978.

DR. KATHLEEN TUDOR (English) was awarded First Honorable Mention for her novel *Getting Away* in the third annual writers' competition sponsored by the Federation of Nova Scotia Writers held in June 1978.

## Conference Organizers Meet in Halifax

The Canadian University and College Conference Officers Association (C.U.C.C.O.A.) held its Annual Meeting in Halifax recently, and Saint Mary's was the host university.

A number of administration people from Saint Mary's took part in the various seminars and workshops.

Mr. Guy Noël, Director of University Services, was a panelist discussing "Conferences and Conventions as an Important Source of University Revenue". The other members were F.J. Elderkin, Vice President (Administration) of Acadia University, and John W. Graham of Dalhousie University.

Mr. Keith Hotchkiss, Director of Residences, was a member of a panel "When the Convention is Sold Then What? The problems from the physical side". Betty Buchanan from Calgary was also a panelist.

Mr. Frank Gilette of Saga Management conducted a workshop on "Food Service, It Can Make or Break a Conference".

Dr. D.O. Carrigan delivered the keynote address "The Changing Role of the University".

Liz Stevens, Director of Information Services, conducted an advertising seminar "How Far Do We Go".

## Enrolment Drop at NSCAD

The total student enrolment of the Nova Scotia College of Art and Design is down slightly from last year although numbers within certain areas of the College have increased.

The 1978 enrolment is 460 compared with 487 last year. The small drop appears to be mainly in the area of returning undergraduate students because the foundation program admitted its full quota and the number of graduate students in the Master programs increased considerably.

Scott MacDougall, Director of Admissions for NSCAD, said there was no evident cause for the 27 student difference between 1977 and 1978 and suggested various reasons for students not returning, e.g. lack of finances, change to another school, taking time off for practical experience, etc.

NSCAD has recently completed its move to Historic Properties and both full-time and extension courses are now underway.

## Conferences Mean Revenue

The role of the conference coordinator is becoming more and more important as universities look for new sources of revenue.

The University of Manitoba booked so many conferences into its residence facilities during the summer of 1977 that residence fees were cut by \$65 for each student. In 1978 the residence was so busy that the administration hopes to be able to reduce residence fees by \$80 per student. The residence office at the University says it's not concerned about making a profit because that's almost impossible with the amount of fixed overhead on the buildings, but does hope to continue expanding its summer services to offset the cost of rooms to the winter students.

# Faculty Publications

Ervin Doak (Economics) "On the Simultaneous Alleviation of Unemployment and Inflation: Some Principles and the Canadian Economy", Selected Papers, *Sixth Annual Conference of the Atlantic Canada Economics Association, Sackville, New Brunswick, September 1977* (ISSN 0319-003X).

K.P. Satinder and P.M. Valliant (Psychology), "Scopolamine interacts with reactions to cat and genotypic emotional reactivity in rat", *Pharmacology, Biochemistry and Behavior*, (in press, 1978).

P.M. Valliant (Psychology), M.A. Persinger, K.P. Satinder, "Long term effects of pre-weaning taurine injections in rats: Interactions with strain and gender", *Development Psychobiology*, (in press, 1978).

The new edition of Copp Clark-Pitman's book *The Canadian Landscape* contains four chapters by geographers at Saint Mary's University. Dr. Douglas Day and Dr. Hugh Millward wrote the chapter on the siting of villages, land abandonment and land use conversion in the Margaree Valley (Cape Breton) and Dr. Day authored a study on the port of St. John's, Newfoundland. Robin Crickmer, a part-time geography professor at Saint Mary's, contributed chapters on development of the port and industry at the Strait of Canso and the P.E.I. National Park.

## Dr. Pepin's Paper One of Best

Dr. Fernande Pepin (Modern Languages) attended the first International Symposium on the Semiological Study of the *corpus romanesque* of "La Francophonie hors de France", sponsored by the Centre d'étude des Littérature d'expression française at the Université de Sherbrooke, Québec, October 6-7-8. Dr. Pepin presented a paper treating the novels of the Canadian author Anne Hébert. Fernande Pepin's paper was classified as one of the four best presented out of twenty-two participants.

The best received papers were given by:

Mr. Alexandre L. Amprimoz, University of Windsor, Ontario.

Mr. Léo A. Brodeur, Université de Sherbrooke, Québec.

Mr. Gérard Etienne, Université de Moncton, New Brunswick.

Dr. Fernande Pepin, Saint Mary's University, Nova Scotia.

The members of the CELEF intend to carry on their respective research project on French national literature in the years to come.

## Union Ratifies Contract

Members of the Saint Mary's University Faculty Union ratified a one-year contract on October 4. The vote was 87 to 14 in favour of the agreement. The agreement is retroactive to September 1; the current agreement expired on August 31, 1978.

According to Union President, Dr. Victor Catano, the main changes in the new contract are the salary increases and the formation of a Staffing Committee.

The overall increase in Faculty salaries totals approximately \$265,000, with an average increase of 7½%. The amount for those faculty members progressing through the ranks ranges to a high of 9½%.

As part of the new agreement, the University includes a letter of intent with regard to the formation of a Staffing Committee. This Committee will study staffing needs and staffing policy, with the aim of recommending to the Board of Governors and Senate appropriate guidelines for the allocation of all teaching resources within the overall allocation determined by the Board.

# Rookie Sensation Topples C.I.A.U. Scoring Record

Soccer Huskie Ross Webb

A freshman-student athlete at Saint Mary's University has recently broken the National all-time season scoring record and tied the Atlantic Conference single game scoring record in the game of soccer. All this in his rookie season!

Ross Webb, a twenty-one year old athlete from Sackville, Nova Scotia, has been constantly showered with accolades since his soccer career began in 1965 at age seven. At Sackville High School in 1974 he established a new season scoring high of 60 goals in 17 games; then went on to score a record 160 goals in his three-year high-school career (49 games) to lead his team to the Metro and Provincial Championship for three consecutive years. He became a member of the Nova Scotia Canada Games Team in 1977 and led the team in scoring with 30 goals in their 25 game schedule, including five goals in the four games played in Newfoundland.

During the summer of 1978, he played with Scotia Olympics Soccer Club in the Nova Scotia Senior League, leading his team to the championship while scoring 30 goals in their 18 games.

His freshman year with the Saint Mary's Huskies of the A.U.A.A. has been a continuation of dominance in scoring—30 goals in seven scheduled games (with five conference games yet to be played), smashing the former C.I.A.U. scoring record of 25 goals in an eight-game schedule set in 1975 by Mark Sosnowski of Concordia University. Webb tallied at least twice in each of the Huskies seven victories to date, and has turned in single game performances of six goals, seven goals, and eight goals. His eight-goal scoring spree on Sunday, October 8 at home against the Université de Moncton Blue Eagles tied the Atlantic single game scoring record established in 1968 by Tom Gamblin of the University of New Brunswick.

Ross Webb's career total now stands at 562 goals in 280 games (seven seasons of Junior High, High School, Senior, and College action). A talented young player with the North American Soccer League in sight, he could be heading toward a professional contract upon his graduation from the Commerce Program at Saint Mary's.

# Coming Events

- November 1—Sociology Lecture—Donald Pollock in the Theatre Auditorium—8 p.m.
- November 7—"Photography and You"—Professor Allan Sabean in Room M204, McNally Building—12:30 p.m. (Photography Display in Library Foyer)
- November 8—Faculty Women's Association Sale—Collonade of Loyola Building—starting at 9:30 a.m.
- November 8—Plant Party—Guest: Ann Kincaid of Flower World—Art Gallery—7 p.m.

- November 16—Inside Outside Alice—Theatre Auditorium—8 p.m.
- November 17—Inside Outside Alice—Theatre Auditorium—8 p.m.
- November 18—Matinee—Inside Outside Alice—Theatre Auditorium—2 p.m.
- November 19—Inside Outside Alice—Theatre Auditorium—8 p.m.
- November 22—Macramé demonstration—Guest: Belinda Gallagher—Art Gallery—7 p.m.

# Varsity Athletic Schedule

## Hockey

Sat.,	Nov. 4	Dal at SMU (Ex)	8:00 p.m.
Sat.,	Nov. 11	SMU at Mt. A.	3:00 p.m.
Sun.,	Nov. 12	SMU at UPEI	2:00 p.m.
Sat.,	Nov. 18	UNB at SMU	1:00 p.m.
Sun.,	Nov. 19	U de M at SMU	3:00 p.m.
Fri.,	Nov. 24	Mt. A. at SMU	7:00 p.m.
Sat.,	Nov. 25	UPEI at SMU	2:00 p.m.

## Soccer

Sat.,	Nov. 4	AUAU Playoffs at SMU
Sun.,	Nov. 5	
Fri.,	Nov. 10	CIAU Playoffs at Concordia
Sat.,	Nov. 11	
Sun.,	Nov. 12	

## Field Hockey

Thurs.,	Nov. 2	CIAU Playoffs at U. of Toronto
Fri.,	Nov. 3	
Sat.,	Nov. 4	

## Football

Sat.,	Nov. 4	AUAU Playoff	1:00 p.m.
Sat.,	Nov. 11	Atlantic Bowl at SMU	1:00 p.m.
Sat.,	Nov. 18	College Bowl at Varsity Stadium	1:00 p.m.

## Men's Basketball

Mon.,	Nov. 13	Concordia at SMU at Metro Centre (Ex)	8:00 p.m.
Thurs.,	Nov. 16	SMU at Duke U. (Ex)	8:00 p.m.
Fri.,	Nov. 17	SMU at Eastern Carolina U. (Ex)	8:00 p.m.
Sun.,	Nov. 19	SMU at Fairfield (Ex)	2:00 p.m.
Fri.,	Nov. 24	Boston C. at SMU at Metro Centre (Ex)	8:00 p.m.
Wed.,	Nov. 29	Athletes in Action at SMU at Metro Centre (Ex)	8:00 p.m.

## Women's Basketball

Wed.,	Nov. 8	Alumni at SMU	7:00 p.m.
Wed.,	Nov. 15	N.S. Canada Games at SMU	7:00 p.m.
Sat.,	Nov. 18	UNB at SMU	4:00 p.m.
Tues.,	Nov. 21	Mt. A. at SMU	6:30 p.m.
Thurs.,	Nov. 23	St. F.X. at SMU	7:00 p.m.
Sun.,	Nov. 26	Dal at SMU	7:00 p.m.

# Schedules

## ARENA

Student "free skating"  
Monday-Friday 10:00 a.m.-2:00 p.m.  
Students, faculty, staff "public skating" (no hockey)  
Monday, Wednesday and Friday  
12:00 noon-2:00 p.m.

## ART GALLERY

Monday and Friday 1:00-5:00 p.m.  
Tuesday, Wednesday and Thursday  
1:00-7:00 p.m.  
Saturday, Sunday, holidays 2:00-4:00 p.m.

## BOOKSTORE

Monday to Friday 9:00 a.m.-4:30 p.m.  
Wednesdays only 7:00 p.m.-9:00 p.m.

## CHAPLAINCY SERVICES

Rev. John Mills  
Room L200, Loyola Building  
422-7361 ext. 181 or 157
