

... never-resting time leads summer on
To hideous winter...

—Shakespeare

Stevens

"Well, it's better than shovelling snow." Doug Dawson works in Saint Mary's Maintenance Department.

ENERSAVE on campus

If you should see strangers loitering around the boiler room, examining the ventilation systems, and staring at the windows and doors—don't be alarmed. They are part of the University's energy conservation program, trying to identify areas on the campus where energy is being wasted.

"Quick-fix" measures, as Director of University Services Guy Noël calls them, have been operating for several years at Saint Mary's—the conversion to fluorescent lighting from incandescent in the gym, arena, and corridors; the shutting down of the fan systems in the evenings and during the summer vacation; the reviewing of operations in the boiler room for more efficient functioning. But these are short-term measures. For the University to economize on a long-term basis, new heating and ventilation systems with new controls will probably have to be installed.

That's where the ENERSAVE program comes in. The program, operated by the Nova Scotia Energy Council, provides a grant for consultants to conduct an energy management study at Saint Mary's. The study will review the operation of the various mechanical and electrical systems on campus, and will propose changes that should result in significant energy savings over the years.

(Based on a 12% increase in energy costs in 1980, the consultants, Webber, Harrington & Weld Ltd., estimate an energy bill for the University of \$620,000 for this year. By 1985, if

energy usage is unchanged, the bill would rise to more than \$1 million.)

The consultants' study will show what the University can save over the years by implementing changes. Estimates will show cost savings against cost of implementation divided into three categories:

- 1) Items which can be carried out using in-house labour with only minor costs;
- 2) Low capital investment, recovered in up to two years;
- 3) Investment recovered in two to four years.

The consultants will also make a feasibility study of an automation system to control all major items of mechanical equipment in the eleven buildings. It will compare the economics of a central automation system (which controls all systems from a central unit) to the use of time-clocks or micro-processors in each building.

The study will also identify areas where a further, more detailed engineering study is warranted. This might include a major "retrofit"—replacing an inefficient system, such as air conditioning, entirely.

Although the study is not due to be completed until March, 1981, the University need not wait that long to start saving on energy costs. The consultants are already advising on changes which could be made immediately, such as re-setting hot water temperatures and changing the running time of equipment.

Where to Eat at Saint Mary's . . .

With the recent changes in the availability of the Faculty Lounge in the McNally Building, a lot of people who used to frequent the popular "spot" now find themselves looking for some place else for lunch and coffee breaks.

Apparently the Lounge is suffering from its own success. The small canteen facility and the size of the room can't cope with the large number of people buying sandwiches, coffee, soup and drinks.

According to the Administration, the Lounge was originally intended for use by the Faculty, and it's the only place they have to go on campus for a quick lunch, whereas students have their own cafeterias and support staff have their respective lounges.

The line-ups at the canteen are becoming larger and longer at lunch time, and tables more scarce. The room is too small to accommodate everyone.

As it stands now the Lounge is intended for the use of Faculty and Administration, which includes personnel in management positions. The support staff may use the canteen facility. The Secretarial Lounge is now available for all secretarial and support staff.

Several faculty members have complained to Dr. Joe Jabbara, Saint Mary's Academic Vice-President, about the lack of privacy in the Lounge.

"If a couple of faculty members want to discuss some student-related problems or something to do with classwork, the Lounge is the only place

available to them, and I think they feel uncomfortable discussing things like that in the Faculty Lounge now," he said.

"The problems were discussed with the President, Dr. Ken Ozmon, and the Director of University Services, Guy Noël, and a decision was made.

"I hope that no one feels there is any kind of discrimination involved. We have 222 full-time and part-time faculty here and they have no suitable place for a quick lunch so we're trying to create one, that's all," he added.

However, the secretaries are not too happy about the changes. Ann Gilfoy, speaking on their behalf, said that most of the secretaries like to mingle with the other employees and don't like being segregated, and also they complain about the Secretarial Lounge not being heated, and feel that it is too large and impersonal.

However, Guy Noël says that he is aware of these problems and that the Lounge is now going to be known as the Secretarial and Support Staff Lounge, since it is large enough, and hopefully the other problems can be worked out.

Dr. Guy Chauvin, President of the Saint Mary's University Faculty Union, says that the general feeling amongst the faculty is that the Faculty Lounge ought to be for the faculty, a place where they can talk freely without other people eavesdropping. "But," he added, "I think a lot of us have personal feelings about it and like to mingle with everyone."

Here's what is available on campus:

Residence Dining Room: mainly for students but open to everyone, located in the Residence complex;

Cafeteria: mainly for students but open to everyone, located in the O'Donnell-Hennessey Student Centre;

Private Dining Room: open to all staff, located in the Loyola Residence.

There are also sandwiches and coffee available in the Mini Mart, and at a coffee cart in the colonnade area.

Staff lounges are provided for the library, maintenance, secretarial and support staff, faculty, and a residence staff lounge for the custodial staff.

Here is what is available at some other local universities:

Mount Saint Vincent (2,500 students*)
two cafeterias: mainly for students but open to everyone;
small dining room: for faculty and staff;
there are several lounges on campus for students and staff.

Technical University of Nova Scotia (878 students)
one cafeteria: mainly for students but open to everyone;
Faculty Lounge: Faculty and Administration personnel in management positions;

Continued on page 3

Saint Mary's student peat moss expert

If anyone in the Halifax-Dartmouth area needs an expert on peat moss, he or she should get in touch with Sherry Wyse. Sherry has watched it grow, seen it harvested, and knows how it's processed into everything from "growing boards" for greenhouses to fuel for industrial furnaces.

Sherry's expertise in peat moss came as a result of a two-month stint as an exchange student to Finland during the summer. Under the auspices of AIESEC (the Francophone acronym for the International Association for Students of Economics and Commerce) she spent June and July compiling a report on the products produced by VAPO (Valtion Polttoainekeskus), a state-owned corporation experimenting with peat moss and timber as substitutes for oil in fueling heavy industry.

AIESEC is an international student-managed organisation operating on more than 400 campuses in 58 countries, from Mexico to Hong Kong. It aims to complement students' theoretical university education with practical management experience, and to promote an international exchange of management techniques and philosophies. Students provide businesses with short-term managerial talent for temporary projects or seasonal workloads and in return make contacts for long-term training and employment after graduation. Each local committee works to find jobs for visiting AIESEC students while their own members go abroad. When Sherry, a fourth-year Commerce student at Saint Mary's University, went to Finland, students from Germany and Kenya came to work in Halifax.

Finnish AIESEC students met Sherry at the airport in Jyväskylä, north of Helsinki, and she was accommodated in a university residence there, along with other AIESEC students from the United States, Poland and Ireland. AIESEC members introduced her to her employers, and arranged sight-seeing tours and picnics for her free time.

Sherry started off her job at VAPO typing and operating the telex machine in the office, but soon convinced her employers that she'd be of more use to them if she used her skills in marketing research. (Through her interviews with staff, she was also able to help them improve their English.) She flew to sites around the country where the peat is grown (it takes three years to ready it for processing), watched

Sherry Wyse

it being gathered, and learned how it is compressed into peat logs for fireplaces and peat "charcoal" for barbecues, and milled to a powder for industrial use. Bales are sold for fertilizer, and "growing boards" of peat are used in greenhouses to start new plants. As part of her study of timber products, Sherry visited a sawmill in Lapland.

The company paid Sherry \$700 a month, a sum that didn't stretch as far as it would in Canada, with Cokes at 80 cents a can and ice-cream at 75 cents a cone. But the summer was a memorable one (the hottest one in 100 years, her Finnish friends told her, with temperatures reaching 90 F). She spent week-ends at their lake-side cottages enjoying the inevitable saunas, and tried to get used to 23 hours of daylight in June, with the sun streaming in the window at 3 a.m.

Following graduation in May, Sherry would like to work in the development and marketing of new products. After her summer's experience, she's more than willing to travel again.

CIDA grant awarded to IEC

A grant to promote public awareness of international issues and to encourage public participation in international development has been awarded to the International Education Centre at Saint Mary's University by the Canadian International Development Agency.

Dr. Wallace Mills, chairman of the Board of Directors of the IEC, said the grant of \$76,200 will be used to promote the Centre's community service and school visitation programs, as well as workshop and information sessions for teachers and other interested groups. The Centre regularly provides speakers, many of them from Third World countries, to schools throughout the Province. Recent presentations, illustrated with films and slides, were on apartheid and South Africa, Uganda, Palestine, Israel, the Inuit, Third World economics, and eastern religions.

The Centre also hosts a weekly series on Halifax Cablevision dealing with international issues and ethnic groups in Atlantic Canada. Its facilities in the Burke Education Building house an expanding collection of audio-visual and printed resource materials.

New Directors for IEC Board

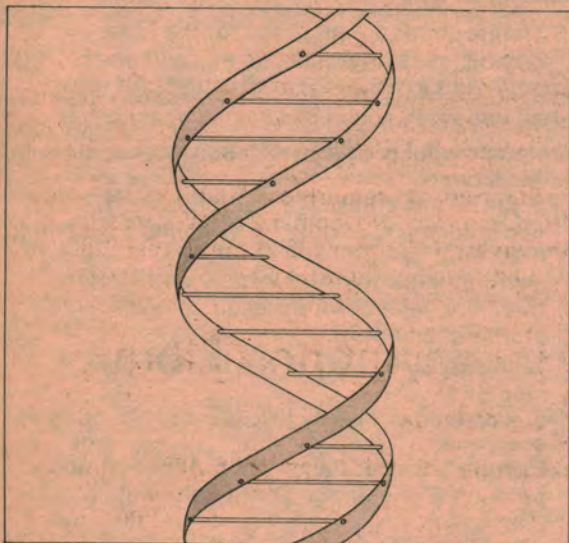

Dr. Helen Ralston of the Department of Sociology and Dr. Harold McGee of the Department of Anthropology at Saint Mary's University have been appointed to the Board of Directors of the International Education Centre at the University.

Dr. Ralston has recently returned from five months in India, where she studied Christianity as a minority religion. She had also studied post-school education among Australian aborigines, and has completed the first stage of research related to the education of Micmac Indians in Nova Scotia.

Dr. McGee's interests are in political anthropology and ethnic relations. He is the editor of *The Native Peoples of Atlantic Canada*.

The IEC board is composed of Saint Mary's faculty members as well as representatives of the Nova Scotia Department of Education, the Multicultural Association of Nova Scotia, organised ethnic groups, and other interested persons in the Atlantic region.

Atlantic Camera Trio in Concert

On Wednesday, December 3, the Atlantic Camera Trio will present a concert of chamber music ranging from Baroque, through Classic and Romantic, to twentieth century works. The concert will be held in the Saint Mary's Theatre Auditorium and will begin at 8:30 p.m.

Formed in 1977 by flautist Stephen Pedersen, pianist and harpsichordist Monique Gusset, and double-bassist Elizabeth Wallace, the Atlantic Camera Trio is perhaps the most versatile music ensemble in the Maritimes, with a repertoire encompassing all styles of music from the Baroque to Contemporary.

They have performed at the Annapolis Valley Blossom Festival, for Contact East, and in 1977 the Trio taped the musical score for the CBC Radio detective series "Zwicker", composed by their leader, Stephen Pedersen. The summer of 1980 saw them appearing at the Atlantic Folk Festival, for Musica Sacra at St. Matthews United Church, at the Grafton Street Café, and at Province House on the occasion of the visit of the Duke of Grafton. Besides formal concerts, the Trio has given numerous school concerts under the auspices of the Dartmouth Department of Recreation.

Tickets for the concert will be on sale starting November 19 at the Saint Mary's University Art Gallery and the Student Centre. Admission is \$3.00 regular; \$2.00 for students and senior citizens.

The Atlantic Camera Trio: (left to right) Stephen Pedersen, Monique Gusset (seated), and Elizabeth Wallace.

Psychology students study aging

Age was no barrier to Pablo Picasso or Agatha Christie—they kept on painting and writing well into their '80s. But for many people, aging means inactivity, loneliness, and isolation. Growing old has become almost an insult in our youth-oriented culture.

To try and dispel some of the myths and stereotypes associated with growing old, three Saint Mary's University students have assembled "The Aging Circle", an audio-visual presentation that deals with different aspects of the aging process. The students, Colleen Hourihan, Catherine Ryan and Jeanette Emberly, all studying psychology, worked under the direction of Dr. Irmgard Lenzer, with funding from the Department of Health and Welfare. Because attitudes formed in the early years often determine our behaviour later on, the presentation is aimed at a large target group, from high school students to senior citizens.

Keeping in mind the many health-related problems faced by the elderly, the slide show emphasizes the importance of proper nutrition as we grow older, noting that many people tend to fall into the "tea and toast syndrome", where the diet consists mostly of convenience foods containing calories devoid of nutrients. It lists some of the more common ailments resulting from nutrient deficiencies—night blindness, dry skin, anemia, and gastro-intestinal disorders.

Because people over 65 consume more prescription drugs than any other age group, they face special risks from drugs that deplete vitamins and minerals in the body. Aspirin and barbiturates deplete Vitamin C; diuretics may cause a potassium deficiency. Emphasis is on planning a diet that makes up for deficiencies that may be caused by taking drugs.

The slide show contains information that questions studies that have been done depicting a decline in learning as a result of aging. Although it appears that the speed of learning decreases with age, ability does not. Performance in a testing situation may be slower, but changes in performance do not mean that we are no longer able to learn. In fact, some intellectual functioning may improve into very old age. A rapidly growing field is "educational gerontology", which reviews and coordinates research in the fields of learning and memory in the later years.

Psychology students (left to right) Colleen Hourihan, Cathy Ryan, and Jeanette Emberly (seated in foreground) have assembled an audio-visual presentation entitled "The Aging Circle".

The presentation shows how social changes affect older people most dramatically. Mandatory retirement or the death of a spouse may significantly change a person's role in society. He or she may have to cope with living alone on a fixed income, and may be deprived of the sense of productivity and usefulness a job brings and the social support of work-mates. The "activity theory" of aging is supported—the idea that people who deal with aging most successfully are those who maintain high levels of activity and social involvement.

In short, the presentation attempts to show that aging need not be a time of stagnation. If older people are encouraged to be active, to give their time, energy, and talents to community groups and organizations such as the Red Cross, then they—and the rest of us—can benefit from the involvement.

Notes from the Library . . .

Cataloguing Department eliminates backlog

During the past few years the Cataloguing Department of the Patrick Power Library has been striving to catalogue a backlog of books in addition to cataloguing books currently being received. This undertaking now has been achieved. Jane Archibald, Head of Cataloguing since November 1978, reported that the Department has processed more than 24,000 new volumes in the last 23 months. Over 10,000 volumes of this total number were from the backlog. The remainder were books received by the library during this time period.

According to Ms. Archibald, the Department's FASTCAT system, initiated over a year ago, has been a tremendous help in eliminating the backlog. The Cataloguing staff used FASTCAT procedures to process only those books for which full cataloguing records were not readily available. The Department fully catalogued almost 20,000 volumes of the over 24,000 volumes processed in the past 23 months and sent approximately 4,500 volumes to the stacks via FASTCAT.

Library staff members offer instruction sessions

During September and October over 200 students participated in library instruction sessions at the Patrick Power Library. Members of the Library Information Services staff conducted the sessions designed to teach students how to find information in specific disciplines. Sessions have been given for classes studying fields as diverse as European prehistory, microbiology, Canadian constitutional history and management information systems.

Questions about library instruction sessions and requests for class sessions should be directed to the Library Information Desk, Administration local 187.

Extended Library hours

The Patrick Power Library will extend its hours on the weekends immediately before and during the December 1980 examination period. Extended hours of service will also be offered for the Reserve Book Reading Room and the Information Desk.

Extended hours, 9:00 a.m. - 11:00 p.m. will be in effect on the following weekend dates:

Saturday, November 29
 Sunday, November 30
 Saturday, December 6
 Sunday, December 7
 Saturday, December 13
 Sunday, December 14

For students requiring extra hours for study from Saturday, November 29 to Wednesday, December 17, Room 133 in the Loyola Building will be available from 11:00 p.m. to 1:00 a.m.

Holiday period Library hours

December 15, 1980 - January 5, 1981

December 15 - 17	8:15 a.m. - 11:00 p.m.
December 18 - 19	9:00 a.m. - 5:00 p.m.
December 20 - 21	Closed
December 22 - 24	9:00 a.m. - 5:00 p.m.
December 25 - 31	Closed
January 1 - 4	Closed
January 5	Regular hours resume (8:15 a.m. - 11:00 p.m.)

Realistic replicas received

Fossil casts recently acquired by the Physical Anthropology Laboratory at Saint Mary's wouldn't fool a trained physical anthropologist but they are the next best thing to having the original fossils from East Africa, according to Dr. Paul Erickson, Chairman of the Anthropology Department.

The new acquisitions are realistic replicas of human skeletal fragments showing what fossils are like before they are reconstructed. They are made of natural-colour fiberglass to look authentic and are manufactured by the Casting Section of the National Museums of Kenya in Nairobi.

Dr. Erickson said, "The Casting Section offers many casts of items discovered in East Africa, most of them casts of fossil hominids (humans) from the period 3-1 million years ago. The specimens are inscribed with their National Museums of Kenya catalogue number, as is done in 'real' anthropology research before fancy names like *Australopithecus*, *Homo erectus*, and 'Zinjanthropus' are assigned. This is the precise, cautious scientific approach to human evolution."

About their use at Saint Mary's, Dr. Erickson said, "The casts are to be used by students chiefly in physical anthropology classes; students will confront the 'nitty gritty bitty' evidence that forms the basis for the generalizations about human evolution presented in introductory textbooks. This year, for example, I have written *Physical Anthropology Laboratory Manual* for use in ANT 380.0 Physical Anthropology. The *Manual* contains 21 exercises involving Physical Anthropology Laboratory equipment, one of which involves the Kenya Museum's specimens."

Dr. Paul Erickson, Chairman of the Anthropology Department, (left) and Nancy Clarke, a senior-year Anthropology student, examine part of the newly-acquired fossil cast collection.

The casts were purchased from the Department's 1979-80 non-space equipment grant at a cost of more than \$3,000 for the approximately 50 items.

Canadian Content on PBS

"Canadian Commentary", a weekly thirty-minute current affairs program series, will premiere on the Maine Public Broadcasting Network (MPBN) television on November 5.

The program will follow a panel-discussion format, the panel being comprised of members of the History Department of Saint Mary's University. For each "Canadian Commentary" program, three or four significant events or issues which have occurred or arisen within the week will be selected for debate and discussion.

According to G. Frederick W. Young, one of the four panel members, "We expect to deal with one topic on Canadian affairs, one topic on American or North American affairs, and one on the international or world scene. The idea is to provide a Canadian perspective on topics that are current and in the news."

Dr. Young, Chairman of the History Department at Saint Mary's, is a specialist on Europe and Latin America. The other panel members are: Robert Bollini, an expert on modern state structures; Wallace Mills, who is particularly knowledgeable in Canadian politics and African relations; and Burkhard Kiesekamp, whose field includes Canadian and Maritime affairs.

While the program is designed to provide indepth and intelligent discussion by academics, Dr. Mills stresses, "The discussions will be dynamic and definitely non-academic."

Director and Technical Advisor for the series is Bob Atkinson, Media Specialist at Saint Mary's University.

"Canadian Commentary" will be presented over the Maine Public Broadcasting Network each Wednesday at 8:30 p.m. Atlantic Time beginning November 5. The series will run for 25 weeks.

United Way under way

The United Way campaign got under way at Saint Mary's on October 23 and United Way Day was held on Wednesday, October 29, with an organization representative on campus to provide information.

Last year Saint Mary's had the highest participation level (34%) among universities in the local area. Within the University, the staff of the Patrick Power Library received a bronze award in recognition of a participation level of 82%.

Contributions to the United Way may be made by cash, cheque, or enrollment in the Payroll deduction scheme. According to Dan Stone, Saint Mary's Personnel Officer and on-campus coordinator of the United Way campaign, Payroll deductions appear to be the most popular method for contributors.

Mr. Stone said that due to the lack of volunteer canvassers, "... it may not be possible to contact each employee personally; however, where possible this will be done." Queries about United Way should be directed to Mr. Stone.

Poetry Competition

The Nova Scotia Poetry Society is conducting a province-wide competition which will run until March 15, 1981.

Entries must be original work of the competitor and must not have been previously published or broadcast.

There are three classes in the competition:
 Class I— Poems on Nova Scotia, of any length or form, celebrating our "storied province", well-known or family legends, beauty spots, etc.
 Class II— Sonnets of classical or modern form.
 Class III— Everyday verse: humorous, satirical, social observations.

Entries should be sent to: Nova Scotia Poetry Competition, Post Office Box 2227, Station M, Halifax, N.S. B3J 3C4

Panel to discuss personnel management and the handicapped

"Personnel Management: Its Responsibilities for the Handicapped" is the topic of a panel discussion to be held at Saint Mary's University on Tuesday, November 25, under the chairmanship of Dr. Hermann F. Schwind of the University's Department of Management.

The problems of hiring, firing, counselling, interpersonal relations, special services, and general work environment for the handicapped will be discussed.

Making up the panel will be Jean Clayton, Human Rights Officer; Michael Harper, Employment Counsellor with the Canadian National Institute for the Blind; Mrs. Jane Bagnell, Counsellor with the Halifax Association for the Deaf; and Mrs. Jane Farquharson, Counsellor with the Metropolitan Mental Health Planning Board.

The meeting will take place in Room 153 of the Loyola Building, and will begin at 7:00 p.m. Everyone is welcome.

Holidays

November 11

—Remembrance Day, general University holiday

December 8

—Patronal Feast of the University, general University holiday

Christmas/New Year's holiday period

In addition to December 25, 26, 1980 and January 1, 1981, the University will provide staff with an extended closure during this period. It is hoped that this extended closure will assist those employees having to make travel arrangements over the Christmas/New Year's break.

All offices of the University will officially close at 5:00 p.m. on Wednesday, December 24, 1980 and will re-open on Monday, January 5, 1981.

Telephone Switchboard service will be provided on December 29, 30 & 31, 1980 and January 2, 1981.

Conservation of fuel and electrical energy during this period of closure will be emphasized in that temperatures in all buildings (with the exception of Residence) will be reduced and night lighting only will be utilized.

Since this is the last issue of the Times until the New Year, we'll say it now... have a

MERRY CHRISTMAS

Art Gallery News

"Lunch with ART" features soprano

Ruth Prentice-Norton

The "Lunch with Art" program at Saint Mary's University Art Gallery will feature Ruth Prentice-Norton, soprano, with Helen Murray, piano accompanist, on November 7 at 12:30 p.m.

A native of Springhill, Nova Scotia, Ms. Prentice-Norton completed her bachelor's degree in Music Education at Dalhousie University in 1978. She has studied in Halifax with Elvira Gonella and Sheila Piercey, and also with Dodi Protero at the Banff School of Fine Arts. In 1978 she won the Provincial title in vocal competition at the Kiwanis Music Festival and was chosen to represent Nova Scotia at the National finals in Toronto. In 1979 she took first place in the voice category at the national finals of the Canadian Music Competition.

Her recital this Friday will include works by Handel, Mozart, Turina, and Fauré.

Other live performances coming up in the Friday lunch-time series include Halifax poet Greg McSweeney reading his own works, and a concert of early, medieval, and renaissance music by a Halifax recorder ensemble.

The Art Gallery opens at 12:30 p.m. on Fridays. Admission is free and coffee is provided.

Fireworks at the Art Gallery

David Mackenzie

This earthenware plate by Pam Birdsall of Mahone Bay, Nova Scotia is part of the "Fireworks 1980/81" exhibition. This piece, with a composition of coloured slips under the glaze, is one of several pieces by the artist, who was given an honourable mention by the jurors.

"Fireworks 1980/81" is a joint exchange exhibition of pottery and glass, between the Ontario Potters Association and the Nova Scotia Designer/Craftsmen. The exhibition will be presented at Saint Mary's University Art Gallery, opening November 13 and running until December 3.

The exhibition consists of approximately 50 pieces in porcelain, glass, stoneware, raku, and earthenware. They range from highly functional designs of such items as bowls, plates, and tea-sets to designs which are mainly ornamental and decorative.

The collection was chosen from over 600 submissions by a panel of jurors from Ontario and Nova Scotia. In the exhibition catalogue, it is described as "... what five different professional potters and glassblowers think are typical examples of contemporary work in clay and glass in two provinces."

The exhibition is made possible by a Special Projects Grant to the Nova Scotia Designer/Craftsmen (NSDC) from the Nova Scotia Department of Culture, Recreation and Fitness.

"Fireworks 1980/81" will be officially opened at the Saint Mary's Art Gallery by the Honorable Greg Kerr, Minister of Culture, Recreation and Fitness for the Province of Nova Scotia. The opening will take place Thursday, November 13 at 8:00 p.m. Everyone is welcome.

December 5 Recorder Ensemble
Concert of Early, Medieval, and Renaissance music

The performers featured in January are all connected with the University either as staff, faculty, or students, to complement the Faculty, Alumni, Staff & Students Art Exhibition which will be showing during that month.

- January 9 Howard Solverson, folk singer and guitarist
This event coincides with the official opening of the Exhibition
- January 16 Willie Forbes, country music artist
- January 23 Saint Mary's Folk Choir
- January 30 Saint Mary's Drama Society—
Improvisations / Skits

Performance series to complement January exhibition

The Saint Mary's University Art Gallery will present an exhibition of works of art by faculty, alumni, staff, and students of the University in January. According to Sandra Hamm, assistant to the Director / Curator, works are still being welcomed and they can be in any medium. Forms outlining the procedure and requirements for submissions are available at the Art Gallery and submissions will be accepted January 5, 6, and 7. "We felt that leaving the deadline until then would allow people to complete projects over the holiday period," she said.

The exhibition will open on Friday, January 9 at noon. It is felt that a noon-hour opening will give more staff members the opportunity to attend. The opening will coincide with a "Lunch with ART" program which will feature Howard Solverson, folksinger and guitarist, who works in the Saint Mary's Information Office. This performance begins a special mini-series of "Lunch with ART".

For the month of January, the "Lunch with ART" series will be tailored to complement the "family" exhibition. The Friday noon-hour programs will feature performances by members of the University community. On January 16, the featured performer will be Willie Forbes, country music artist, who works for Saga Foods in the Faculty Lounge. The Saint Mary's Folk Choir will give a concert on January 23. On January 30 the Saint Mary's University Dramatic Society will present improvisations and skits. Alison Chipman, coordinator of the "Lunch with ART" series, said, "It seemed appropriate to present some of the performing talent at the University while this exhibition is in the Gallery. I think we can expect performances that are quite lively—good lunch-time fare."

Solverson

The Xerox Canada MBA Fellowship for 1980-81 has been awarded to Gary Richardson, a student in the Master of Business Administration program at Saint Mary's University. Photographed at the award presentation were: (left to right) Dr. Ken Ozmon, President of Saint Mary's; Mr. Richardson; and Stephen P. Brecher, Regional Manager of Xerox Canada Ltd.

The Honorary Degrees Committee is requesting assistance in finding suitable candidates for honorary degrees. Nominations should be sent, with supporting documentation, to the Chairman of the Committee, Dr. Ken Ozmon, by November 15, 1980.

Noteworthy Notes

DR. V.M. CATANO (Psychology), DR. R.J. KONOPASKY (Psychology), and D.S. MAZMANIAN, a student in the Psychology Department, presented a paper entitled "Observational Learning in Rats: Model Consistency and Response Rate Effects" at the 88th meeting of the American Psychological Association, Montreal, September, 1980.

DR. CATANO has been elected a Director of the Association for Birth Psychology.

DR. J.K. CHADWICK-JONES (Psychology) has been elected to an honorary Fellowship at the University of Cambridge for the academic year 1980-81.

DR. LINDA CHRISTIANSEN-RUFFMAN (Sociology) spoke on the topic "Appropriate Methodology: Avoiding Common Problems in Research Proposals" at the Atlantic Association of Sociologists and Anthropologists conference on Social Welfare Research in Atlantic Canada held in Sydney, March, 1980.

DR. CHRISTIANSEN-RUFFMAN presented a paper entitled "Social Sciences in the 1980's" at the Social Policies for the 1980's conference sponsored by the Canadian Council on Social Development, in St. John's, Newfoundland, June 17-19, 1980.

DR. THEODORE B. CIUCIURA (Political Science) was an invited panelist at a Symposium on Changing Eastern Europe (Study Group Jaegerhorn), July 1980 in Vienna, while engaged in his research on inter-ethnic co-operation and conflict in old Austria and in present-day Switzerland.

DR. CIUCIURA held a one-week public law seminar (his seventh under different titles since 1971) on Austrian Constitutionalism and Autonomy of Galicia and Bukovina, 1861-1918 at the Ukrainian Free University, Faculty of Law and Economics, Munich, August, 1980.

DR. PATRICIA CONNELLY (Sociology) presented a paper entitled "Women Workers and the Family Wage in Canada" at the Nato Symposium, Women and the World of Work, in Lisbon, Portugal, August 2-6, 1980.

DR. SAMUEL JOPLING (Dean of Commerce) has been elected President of the Maritime Provinces Chapter of the Financial Executives Institute 1980-81.

MR. DAVID MANNING (Library) attended the fall conference of the Nova Scotia Library Association in New Glasgow, October 3-5, 1980. For the past year MR. MANNING has served on the Aims and Objectives and Membership Committees of the Association.

MR. MANNING attended the Serials Collections Workshop at Mount Allison University in October.

DR. GEORGE F. MITCHELL (Astronomy) and MICHAEL B. SWIFT, a graduate student in the Astronomy Department, presented a paper entitled "Models of cometary comae" to the Canadian Astronomical Society, Halifax, June 25-30, 1980.

DR. MITCHELL, S.S. Prasad, and W.T. Huntress presented a paper entitled "Chemical model calculations of C₂, C₃, CH, CN, OH, and NH₂ abundances in cometary comae" at the 12th annual meeting of Division for Planetary Sciences of the American Astronomical Society, Tucson, Arizona, October 14-17, 1980.

DR. JAMES MORRISON (International Education Centre) attended the national conference on "The Role of the Voluntary Sector in the Integration of Immigrants" at Lake Couchiching, Ontario, October 5-7, 1980.

MS. CYNDI MURPHY (Library) attended the Conference of the International Association of Marine Science Libraries and Information Centers in Halifax, October 20-22, 1980.

MS. MARGOT SCHENK (Library) moderated a session on Bibliographic Access in the Marine Sciences at the Conference of the International Association of Marine Science Libraries and Information Centers in Halifax, October 20-22, 1980.

MR. DOUGLAS VAISEY (Library) attended the Conference of the International Association of Marine Science Libraries and Information Centers in Halifax, October 20-22, 1980.

DR. HENRY C. VELTMEYER (Sociology) took part in discussions on three papers in the Founding Conference of the Canadian Communications Association, Learned Societies, June 1980 in Montreal.

DR. D. WEEREN (Education) conducted a workshop on "Sharing our faith with young people" at St. Pius X Parish, September 15, 1980.

DR. WEEREN conducted a workshop entitled "Religious education in the public school" as part of the program of workshops offered by the Archdiocese on Catechetical-Sunday, September 21, 1980.

Group Equity Values

For the information of Saint Mary's faculty and staff concerned with pension contributions, the following figures are provided by Dr. J.J. Vorstermans, Department of Economics:

5 September 1980—852.43
12 September 1980—864.74
19 September 1980—866.46
26 September 1980—856.39

Since the method of calculating these figures has been changed, the above figures are not comparable to the previous months. Anyone wishing further clarification should get in touch with Dr. Vorstermans.

Remember When . . .

. . . "My bed was right over there," says Frank Acevedo (right) as he and Bill Murray (left) visit the office of Professor Roger Crowther. Resident rooms of Saint Mary's College and High School twenty-five years ago are now faculty offices.

Twenty-five years ago Bill Murray and Frank Acevedo graduated from Saint Mary's High School. Both were boarders, Bill having come in 1952 and Frank in 1953, and they were best friends.

Earlier this autumn they came back to visit the Saint Mary's University of today. Things had changed a lot.

Although the McNally Building had been opened for use in 1951, not all of the construction was completed until a few years later. In 1952 the Jesuit residence was incomplete so the Jesuit priests lived in the north wing which was to be the student residence. Even in the north wing the fourth and fifth floors were unfinished. Bill and Frank were two of about 40 High School residents. The total High School population numbered approximately 100 students. There were also college students resident at Saint Mary's.

Bill and Frank happily relived many memories and marvelled at the changes. Frank Acevedo, now a vice-president in the Bell & Howell corporation and based in Miami, was in Halifax to attend a convention. He had called his old friend Bill Murray, corporate manager with the Fraser pulp and paper firm in Campbellton, New Brunswick to see if a meeting could be arranged. Bill quickly agreed and the two spent a few days in Halifax with much of the time spent looking around Saint Mary's.

Bill and Frank even happened to run into an old girlfriend from their high school days. For them social life had consisted mainly of dances held on campus (which provided some opportunity to meet girls), movies downtown, restaurants, visits to friends' homes and walks in the local parks. There was not a lot of time for socializing off-campus, but Saturdays and Sundays usually provided some free time, as long as you had stayed within the demerit quota (if you collected more than the set limit of demerit points during the week, you could be confined to the campus).

About the typical day of the Saint Mary's High School student, Bill explained, "Everything was organized from the time you got up right through until you went to bed. You had a little free time after school from 3:30 to 5:00." As near as they could recall, the day shaped up like this: wake up at 6:30; Mass at 7:00; breakfast at 7:30; study period from 8:15 to 8:45; "We just had enough time after study period to beetle down to the basement to the Canteen and get a candy bar" (the Canteen is now the mail room); then classes began; classes finished at 3:30; study period from 5:00 to 6:00; dinner at 6:00; free time until about 7:30; study period from 7:30 to 9:30; to bed at 10:00. In addition, extra religious study periods and services were scheduled on some evenings, and an active athletic program took up much of the afternoon.

Bill had come from Campbellton, New Brunswick; Frank came from New York but had

lived in Caracas, Venezuela and attended school in Puerto Rico before coming to Saint Mary's. Both boys had come to Saint Mary's because of its excellent reputation, as had boys from eastern Canada and United States, and beyond. "Being a Jesuit school, it had a good reputation. Back in those days a lot of the kids, not all of them but some of them, were sent here by their parents because they were problems at home and wanted that old Jesuit training to straighten them out a little bit." The reputation was not only for discipline but for good education as well. Bill said in his case the decision was mostly his own and ". . . not because I was causing any problems. . . ."

"Like me," Frank threw in with a chuckle. Frank's parents sent him to Saint Mary's with some consideration for the discipline, but he found the greatest shock was the size of Halifax (he had hoped to go to Loyola in Montreal) after living in New York and Caracas.

They both feel the experience was good and they lament the fact that similar education is now hard to find and much more expensive—a year's total cost (tuition, board, etc.) in 1952 was about \$500.

Nearly all accommodation for the High School boarders consisted of double rooms (now offices in the McNally Building north wing). Bill and Frank shared a room until they became too troublesome as a pair. Each floor had supervising priests to counsel, tutor, and keep order. The relationships between priests and boys varied. Some priests were very warm, friendly, and a few were even playful; others were very strict disciplinarians. According to Frank, priests, especially Jesuits, were seen to have a powerful, almost mystical, aura by many boys and for him it still remains to some extent.

Bill and Frank laughed a lot about "hi jinx" among the boarders—things like sneaking out or sneaking in via the windows and the scaffolding that still remained on the north wall. But when pressed on the subject, they admitted that their own activities were pretty reserved, like trying to get into a tavern with the college boys. Most other demeanors were probably quite normal—being late, missing Mass, smoking in the halls (smoking was allowed in appropriate places), dressing improperly (proper shirts, ties, and jackets were required), and flinging pats of butter at the dining room clock (their dining area is now the psychology lab area).

The image conjured by the recollections of Bill and Frank is generally attractive. Most boarders adjusted well to the rigorous but active life and very few really disliked the school. The students of Saint Mary's High School were well thought of in the community and Bill and Frank believe they did better than they would have done in their home public schools.

Those were good times, very good times.

Hockey Huskies on their way to the top

The Saint Mary's Hockey Huskies have a new image this year with a new coaching staff, new captain, and new players in the lineup. Head Coach Brian O'Byrne and his two assistants, Dave Power and Gerard Gibbons, believe their pre-season competition is an indication of a banner year with a 6-2 victory over the Dalhousie Tigers on October 12th, and their third championship in four years at the Université de Moncton Tournament on October 18th and 19th.

In Moncton the Huskies eliminated the Dal Tigers 7-4 in opening-round competition. In the championship game, veterans accounted for six goals with Steve Axford and Larry O'Donnell each tallying for two, and Pickrem and Friesen each scoring one. Rounding out the scoring were Leverman and Payne with one apiece. Final score was 8-4 in favour of the Huskies. Darren Pickrem was chosen Most Valuable Player of the tournament.

The Huskies will take a serious run at the A.U.A.A. title this year, relying on the combined efforts of their returning players and newcomers. Experience will be the key to their campaign. Captain Kevin Reinhart will lead the club along with Assistant Captains Moochie Friesen and Darren Pickrem. All-Canadian goaltender Mark Locken, Tom McDonnell, and Steve Axford will provide the team with experience and stability.

The performance of four rookie defensemen will play an important role this season. Jeff Leverman and Dale Stienburg will add needed size to the blueliners and Ken Hoppner and Robert Raftus give the Santamarians extra defensive power. One rookie to watch for this season is Jeff Payne. Payne has scored eight goals in their first five games and tallied at least once in every game. Payne's play has been outstanding and he promises to get even better.

HALIFAX INDEPENDENT THEATRE

presents

Friday Night in the Crypt

Third series of dramatic readings

8:00 p.m.

The Crypt Theatre

All Saints' Cathedral, College Street entrance

Admission \$2.00 regular

\$1.00 students & seniors

November 7

Specially for Remembrance
"When Will They Ever Learn?"

A miscellany of words and song
on the theme of war
devised by Enid Owen

November 14

Do You Believe? and other stories
by K. Tudor

read by Cyril Byrne and Kay Tudor

November 21

"Reincarnation"

A selection of new poetry written and
performed by James MacSwain

The Garden Party and
The Daughters of the Late Colonel

two stories by Katherine Mansfield
adapted as plays for voices by
D. & R. Perkyns

Use of English examination

will be written

Friday, November 14 at 2:30 p.m.

Further information may be obtained from the
English Department Secretary.

Football Huskies stay alive

After defeating each opponent (Acadia, Mt. Allison, St. Francis Xavier, and University of New Brunswick) once in league play, the Saint Mary's Football Huskies enjoyed an undefeated 4-0 record and sole possession of first place in the Atlantic Universities Athletic Association Football Conference. Their next three games were recorded as losses to the St. F.X. X-Men, the Acadia Axemen, and the UNB Red Bombers, which left the Huskies with a 4-3 record and one remaining regular season game against the Mt. A Mounties.

It was a virtual necessity for the Huskies to win their last regular league game to ensure a berth in the playoff. Their win over Mt. A., 15-4, gave them a second place finish in the league while the Acadia Axemen clinched first place.

This sets up an AUFC championship encounter between the Huskies and the Axemen in Wolfville on November 15. The winner of that game will go on to represent the Atlantic Conference in the Atlantic Bowl at Saint Mary's Huskies Stadium on November 22.

Soccer Huskies come close

The Saint Mary's Soccer Huskies, 1979 AUAA Champions, finished the 1980 regular league schedule in second place. However, a league ruling removed the Dalhousie Tigers from their first-place finish (it was ruled that they had used an ineligible player for a number of their games) and the Huskies were on top as they entered the playoffs.

In AUAA semi-final action, the Huskies won over the Memorial Beothuks, 2-1, but lost in the championship match to the UNB Red Shirts, 3-2.

Field Hockey Belles miss playoffs

Heading into the final game of the AUAA Field Hockey schedule, the Saint Mary's Belles were in a tight race for second place. Their record to that date was 5-4-2 and the Belles had to win to make the playoffs.

The game was lost to Dalhousie, 2-1, and the Belles missed the playoffs by one point.

The AUAA Field Hockey championship eventually went to the University of New Brunswick.

Field Hockey action as the Saint Mary's Belles host Université de Moncton.

Wamboldt-Waterfield

The Times is produced by Information and Public Relations, Saint Mary's University.
Editor—Liz Stevens
The next issue of the Times will be February 1981. Deadline for submissions for that issue is January 19.

Schedules

ARENA

Students, faculty, staff skating
Monday, Wednesday, Friday
12:00 noon-2:00 p.m.
Sticks and pucks allowed
Tuesday and Thursday 8:00 a.m.-2:00 p.m.

ART GALLERY

Monday closed
Tuesday to Thursday 1:00 p.m.-7:00 p.m.
Friday 1:00 p.m.-5:00 p.m.
Saturday, Sunday 2:00 p.m.-4:00 p.m.

BOOKSTORE

Monday, Tuesday, Thursday, Friday
9:00 a.m.-4:30 p.m.
