CIDA awards major grant to the International Education Centre

The International Education Centre at Saint Mary's University in Halifax has received a \$436,000 grant from the Canadian International Development Agency (CIDA) to enable the Centre to broaden its role in international development education. The grant, payable over three years, will give the Centre a degree of financial stability that it has not enjoyed in the past, according to the Centre's director, Dr. George Schuyler.

Dr. Schuyler explained that in previous years the Centre has received yearly funding from CIDA and

Dr. George Schuyler

Photo '87

other government agencies to maintain its varied programs but without stable financing it has been difficult for staff to put into place any long-term plans. Now, with the injection of the three-year CIDA grant, Dr. Schuyler hopes to be able to broaden the base of the IEC's activities.

He went on to say that the Centre's goal or 'mission' is to educate Nova Scotians, in particular the young, about international development issues. In an area as rich in ethnic diversity as this one, he believes it is important that people learn not only to appreciate one another's cultures but also to understand the issues facing the Third World countries from which many Canadians have arrived. In this interdependent world, events in areas such as Asia, the Middle East or Central America inevitably affect Canada.

The IEC achieves its aim of informing Nova Scotians about development education through community programs involving public lectures, conferences, workshops and seminars; and through the schools' program composed of a speakers' bureau, teachers-in-service programs and the development of the Resource Centre for use by school personnel and the general public.

Dr. Schuyler hopes that the CIDA grant will enable the Centre to expand its services in three key areas.

Firstly, he would like to extend the Centre's programs, particularly the speakers' bureau, into more outlying districts of Nova Scotia and, if possible, into New Brunswick or Prince Edward Island. Speaking tours of other provinces can pose problems however, because of differing school board policies. Until now most of the Centre's activities have been restricted to Nova Scotia, in particular the area surrounding Halifax. However, the IEC is beginning to co-sponsor some events with out-of-province organizations. The forthcoming conference on "Rethinking Development in the 1980s" will involve non-governmental organizations (NGOs) from New Brunswick, Prince Edward Island and other provinces.

Secondly, Dr. Schuyler would like to further encourage communications among all Atlantic organizations involved with development education. Halifax-area groups meet regularly but there is a need to include organizations from other Nova Scotian regions and other provinces. The IEC and OXFAM-Serveric are also seeking to coordinate more closely in the improvement of their resource centres. Dr. Schuyler wants to encourage better cooperation and to avoid duplication of resources.

A third area of great importance to Dr. Schuyler is the strengthening of support to teachers in international education, particularly in rural districts not now serviced by the speakers' bureau. This can be achieved by extending present programs to provide the resources and speakers requested by these teachers to increase their knowledge and understanding of Third World countries. He also hopes to initiate a series of summer programs for teachers interested in teaching about international issues.

Local Corporation Campaign kicks off

Wamboldt Waterfield

Bob Shaw, an alumnus and President of Clayton Developments Ltd., kicks off the local corporation part of the Capital Campaign. Mr. Shaw is Local

Corporations Committee Chairman. Holding the ball is Development Director Donald Keleher. Standing by is University President Dr. Kenneth Ozmon.

Increase in Enrollment at Saint Mary's

Enrollment at Saint Mary's University has increased again this year. Total enrollment for full-time students now stands at 3,290; that's an increase of 96 students over last year. While official statistics aren't available until December 1, the latest figure isn't expected to fluctuate greatly. Enrollment for part-time students has dropped slightly over last year.

According to the President, Dr. Ken Ozmon, most of the increase in full-time students is in the Faculty of Arts.

"The reason for this may be because of the great demand for places and the lack of space, we've had to limit enrollment in several disciplines, such as engineering and commerce. The Faculty of Education has reduced the number of new students it will take because of the limited job opportunities for teachers. If the increased demand continues, then enrollment in the other departments will be limited as well".

Saint Mary's is a small university and the classrooms weren't made for the size of the classes it has now.

"As far as facilities are concerned," Dr. Ozmon says "we're taxed to the limit. Space is one of the biggest problems. We're coping but I think we've reached our limit as far as enrollment is concerned.

"There is a tradition at Saint Mary's... small classes, professors who know each student by name; it's a small university, and we intend to maintain that quality of education."

In the past five years there has been an increase of 40% in student enrollment. The largest number of students are in the Faculty of Commerce.

Saint Mary's recently embarked on a major fund-raising campaign in order to meet some of the needs created by increased enrollment and underfunding.

Noteworthy Notes

(Submissions to this section should be typed and must include the sender's name and department. It would be appreciated if the format used below could be followed.)

DR. JAMES AHIKPOR (Economics) presented a paper on "The Success and Failure of Dependence Theory: The Experience of Ghana" at the Canadian Association of African Studies Conference, held in Antigonish, May 9 to 12.

Dr. Ahiakpor was a session chairperson for a panel on "Rural Development in Northern Ghana" at the same conference.

Dr. Ahiakpor presented a paper on "The Nationality of Firms and their Capital Intensity in a Less Developed Country: Ghana" at the Canadian Economics Association meetings, held in Guelph, May 27 to 29.

Dr. Ahiakpor was a discussant of three papers at the History of Economic Thought session at the aforementioned meetings in Guelph. The papers were: "From Price Adjustment to Output Adjustment: Keynes' Lectures on 'The Monetary Theory of Production'" by R. W. Dimand, Carleton University; "J.S. Mill on Expectation" by E. Forget, University of Toronto; and "Real Bills, Forced Currency and the Restriction Period in Britain" by G. Poitras, St. John's University, New York.

DR. JAMAL BADAWI (Management) has been participating in a series of lectures organized by the International Education Centre and presented at the Halifax Regional Library as part of "Our World in the Eighties".

PROFESSOR GAVIN BOYD (Political Science) gave a paper on "Pacific Community Formation: The Scope for Political Entrepreneurship" at the American Political Science Association annual meeting in Washington, D.C., August 30 to September 2.

Professor Boyd gave a paper on "Pacific Community Formation: The Scope of Innovative Service Enterprises" at an Academy of International Business meeting in Singapore, June 14 to 16.

Professor Boyd gave a paper on "Pacific Regionalism: Problems of Institution Building" at the annual meeting of the International Studies Association, Atlanta, May 28 to 31.

DR. J. K. CHADWICK-JONES (Psychology) has been elected a Fellow of the Canadian Psychological Association for contributions to the advancement of the science of psychology.

PROFESSOR JOHN CHAMARD (Management), DR. VICTOR CATANO (Psychology) and T. Moore have received a \$6400 grant from Fitness Canada for a research project on "Development Cooperation among Small Businesses to Promote Physical Fitness".

Professor Chamard and DR. ARUN MUKHOPODHYAY (Economics) have received a \$400 grant from Senate Research Committee for a research project on "Risk Sharing as a Component of Profit

Sharing".

Professor Chamard has received a \$5000 grant from the Canadian Federation of Independent Business for unspecified research in small business.

Professor Chamard presented a paper on "Small Business: A Large but Problematic Market for Co-operative Education" at the Conference of the Canadian Association for Co-operative Education, Halifax.

Professor Chamard was chairperson for a seminar on "Co-operative Education and Small Business" at the same conference.

Professor Chamard has been appointed treasurer of Andre Gunder Frank Seminars, Halifax, 1984.

Professor Chamard is chairperson of a workshop on "Entrepreneurial Development in Education Institutions, Third Conference Council for Small Business — Canada, Toronto.

Professor Chamard reviewed papers submitted to the International Council for Small Business, World Conference, Chicago, 1984.

DR. THEODORE B. CIUCIURA (Political Science) presented a paper on "Imperial Unity and Ethnic Diversity in the Habsburg Monarchy: Hungarian Independence Without Separation and Provincial Autonomy of Galicia and Bukovina" to the Central and East European Studies Association of Canada, Learned Societies Conference, Guelph, June 1984.

Dr. Ciuciura held a one-week public affairs seminar on "Socialism and the Emancipation of Dependent Peoples, 1864-1924" at the Ukrainian Free University, Munich, August 1984.

DR. HARI DAS (Management) chaired a policy session in the Administrative Sciences Association of Canada meeting, Learned Societies Conference, Guelph, May 1984.

Dr. Das presented a paper on "Impact of culture, class and personality in nonwork: a conceptual model" at the 11th International Congress of Cross-Cultural Psychology, Acapulco, Mexico, September 1984.

Dr. Das chaired a session at the same meeting.

Dr. Das was recently elected into the Program Committee for Canada of Association for the Advancement of Policy, Research and Development, Washington, D.C. This Association is dedicated to the promotion of science, technology, policy and research through the advancement, exchange and generation of practical solutions to problems of development facing Third World governments and people.

DR. RONALD LANDES (Political Science) was interviewed by *Time* magazine in preparation for their story on the 1984 general election, which appeared in the September 17, 1984 issue.

DR. GEORGE MITCHELL (Astronomy) has been elected a Director of the Canadian Astronomical Society for a three year term.

Dr. Mitchell presented a paper on "Shocks in Low Density Gas: The Synthesis of Interstellar CH" at the 164th meeting of the American Astronomical Society, Baltimore, Maryland, June 10 to 13.

DR. TIMOTHY O'NEILL (Economics) presented a

paper on "Canadian Initiatives Aimed at Maintaining Community Economic Viability/Vitality" at the Nations Conference, University of Aberdeen, August 1984.

DR. RICHARD PERKYN (English) presented a paper at the Association for Canadian Theatre History Conference in Vancouver on "Two Decades of Neptune Theatre". An article based on this paper, together with a complete checklist of all Neptune productions in the first 20 years of its history, will be published next spring in *Theatre History in Canada*.

DR. HERMANN F. SCHWIND (Management) chaired a symposium on "Profit Sharing in Canada" at the Administrative Science Association of Canada meeting, Learned Societies Meetings, Guelph, June 1984.

Dr. Schwind presented a paper on "Changing Values of Japanese Management Trainees" at the Academy of Management meeting in Boston.

ELIZABETH STEVENS (Public Relations) spoke at the national meeting of PACE (Public Affairs Council for Education) on "What Editors Throw Out", Chateau Halifax, June 1984.

Ms. Stevens worked as a part time editor for CBC Radio News while on leave of absence during 1983-84.

DR. KAY TUDOR (English) attended various writers workshops and conferences during the summer of 1984, including St. Thomas University, Fiction Workshop, University of New Brunswick, Writers' Workshop, St. Lawrence College, Queen's University, and a writers' conference at Middlebury College, Vermont.

Dr. Tudor has been elected to the Writers' Council of the Writers Federation of Nova Scotia, spring 1984.

DR. ENRIQUETA UNTURBE-ROJO (Biology) presented a paper on "Finger Dermatoglyphics in Acadians of Nova Scotia" at the 4th Congress of the European Anthropological Association, Florence, Italy, September 5.

Dr. Unturbe-Rojo presented a second paper on "Critique of the proposal on dermatoglyphics methodology" and formed part of an international panel of discussion on methods of techniques and analysis of Dermatoglyphics at the Congress on Dermatoglyphics, Poppi, Italy, August 1984.

DR. TERRY WHALEN (English) presented a lecture on "Philip Larkin and Samuel Johnson: An Influence" in the Visiting Speakers' Series at the University of Ottawa, January 1984.

Dr. Whalen was a panel member at a conference on "Small Publishing in the Atlantic Region" at Acadia University, February 1984.

Dr. Whalen has been appointed as a panelist to the Canada Council's Selection Committee for its Book Purchasing Programme.

Dr. Whalen was moderator for a paper on "Tree of Hell: Phyllis Webb's Agonized Feminism" by Michael Estok during the ACUTE sessions at the Canadian Learned Societies Conference, Guelph, June 1984.

Dr. Whalen has been elected to the Writers' Council of the Writers Federation of Nova Scotia, July 1984.

Cooperative Education at Saint Mary's: the first graduates look forward to Convocation

Shawna Burgess, a sociology major in the Cooperative Education program, expects to graduate in May 1985. Most of her work experience took place at the Cobequid Multi-Service Centre, and she has been offered a job at the Centre for next summer.

The Cooperative Education program at Saint Mary's is now entering its fourth year. Next May the first potential graduates of the program, two geography students and one from sociology, hope to be marching with the rest of the graduates. All three students have put the three compulsory work terms behind them and now have just two semesters of academic work to complete.

The cooperative program at Saint Mary's arose out of a joint decision between Dalhousie, Mount Saint Vincent and Saint Mary's to coordinate cooperative endeavours. It was decided that Dalhousie University would offer the program for students in chemistry and computer science; Mount Saint Vincent in public relations, home economics and business administration; and Saint Mary's in the liberal arts. With the enthusiastic support of Dr. Robert McCalla in geography and Dr. Linda Christianson-Ruffman in sociology, the program has been initially offered to students enrolled in these two departments. At present there are two sociology students and five from geography. The qualifications for the program are high; potential students must maintain a 'B' average or better. The work, too, is hard. In addition to the normal qualifications for a Bachelor of Arts degree, students must successfully complete three work terms and write work reports for grading after each term. This

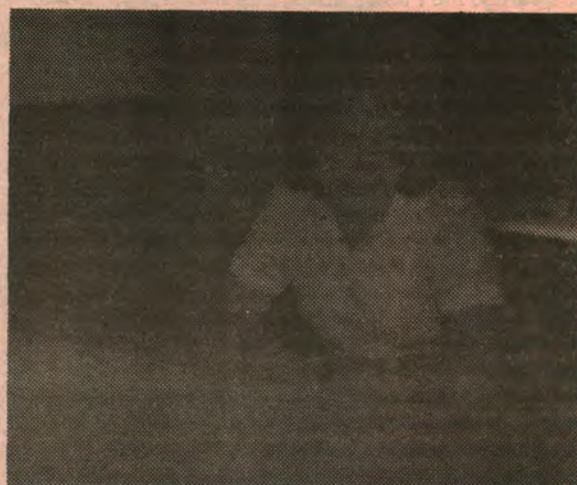

means the students must be prepared to devote an extra calendar year to their studies. However, the rewards include a Cooperative Education notation on their degrees and the advantages of previous related work experience on their resumes.

Joan Christie, a former elementary school teacher, now directs the Cooperative Education program from her office in the Student Centre. She admits there has been a relatively high drop-out rate recently but adds that each student has had a good reason for deciding not to continue with the program. Some change their majors while others have switched universities. A few find it financially difficult to commit themselves to the extra year of study. Although the students are paid during the work terms, often they receive only minimum wages yet may have to support themselves away from home. However, those students now in the program, and in particular the three approaching graduation, have received glowing reports from their employers, many of whom request more students each year.

Employment is usually in the public sector, explained Mrs. Christie. Employers include the Bedford Institute of Oceanography; the Nova Scotia Department of Energy, Mines and Resources; Canadian Hydrographic Survey; Cobequid Multi-Service Centre; Oceanview Manor; the Federal

Andrew Jones, one of the geography students in the program looking forward to graduation at the next Convocation ceremonies, has worked for the Department of Municipal Affairs, the provincial Department of Mines and Energy and the Dalhousie Institute for Resource and Environmental Studies.

Valerie Conrod, a geography major who hopes to graduate next May, has been working at the Bedford Institute of Oceanography for the Atlantic Geoscience Centre and Canadian Hydrographic Services.

Department of Fisheries and Oceans; the Provincial Department of Municipal Affairs; and the Dalhousie Institute for Resource and Environmental Studies.

While the value of the present program is acknowledged by both employers and students, there is room for growth according to Dr. James Morrison, Dean of Arts. He explained that under the terms of the University's mandate he is able to look at means of consolidating the program. Dr. Morrison is currently talking with the other deans about the possibility of involving the Faculties of Commerce and Science, and is enquiring about government assistance to give the program greater long-term financing. The program may also be expanded to include disabled students. In the meantime, any student majoring in geography or sociology and who meets the criteria for admission to the program may apply. The deadline for applications is mid-January but the sooner a student shows a definite interest, the sooner Mrs. Christie can begin the task of finding suitable employment to meet the student's interests and ambitions.

For more information, please refer to Joan Christie in Room 413 of the O'Donnell-Hennessey Student Centre (the Canada Manpower Office).

Notice

Volunteer tutors are needed at the North Branch of the Halifax City Regional Library, 2285 Gottingen Street, to work with adults who are learning to read. The program meets on Tuesday and Thursday mornings from 9:30 to 11:30 a.m. For more information, please call the North Branch Library at 421-6988.

Rethinking Development in the 1980s: Perspectives from the Caribbean and Atlantic Canada

The Honourable Michael Manley, former Prime Minister of Jamaica, will deliver a public lecture on Saturday, October 27 at 7:00 pm in the Theatre Auditorium. Mr. Manley's lecture will be one of the highlights of a conference that will be held at Saint Mary's from October 25 to 28 on "Rethinking Development in the 1980s: Perspectives from the Caribbean and Atlantic Canada".

More than 60 experts on international trade and political, economic and social development issues from across Canada and throughout the Caribbean will attend the four-day conference. They will discuss critical development trends and concerns in their respective areas, and will examine various initiatives in theory and policy which could lead to economic improvement for both regions.

In addition to Mr. Manley's address, the conference will feature a series of keynote presentations and workshops led by Canadian and Caribbean representatives of government, industry, labour, banking and investment interests, research institutes, social development organizations and political parties.

It is being co-sponsored by the Canadian Foundation for Caribbean Development and Co-operation (Atlantic Region); the Gorsebrook Research Institute, the International Education Centre and the

Institute of International Relations of the University of the West Indies in Trinidad. Financial assistance has been provided by a grant from the Canadian International Development Agency (CIDA) and the Atlantic Provinces Economic Council, the Bank of Nova Scotia, the Council of Maritime Premiers, the Nova Scotia Department of Development, the Nova Scotia Department of Education (Ethnic Services) and the Social Sciences and Humanities Research Council of Canada.

For more information, please refer to either Ken Persau or Dr. Henry Veltmeyer at 429-2374.

Keynote Speakers:

Michael Manley, former Prime Minister of Jamaica
Herb Addo, Institute of International Relations
Peggy Antrbus, University of West Indies
Dale Bishnauth, Canadian Council of Churches
Cheddi Jagan, former Prime Minister of Guyana
Norman Girvan, United Nations Development Projects, New York
Frances Mitchell, President of the Farmworkers Union of St. Lucia
Robert Moore, former High Commissioner of Guyana to Ottawa
Rex Nettleford, University of West Indies

Ricky Singh, Caribbean News Agency
Jean Stubbs, Historian for the Government of Cuba
Louis Wiltshire, President of Caribbean Economic Community (CARICOM)
Jean Augustine, President of Black Professional Women of Canada
Marie Burge, Farm Workers Union of PEI
Richard Cashin, Food Fishermen and Allied Workers Union of Nfld.
William DeRoacher, U.S. Department of Commerce
Tom Kent, Public Administration, Dalhousie University
Kari Levitt, Centre of Development Area Studies, McGill University
Dan MacInnes, Professor of Sociology, St. Francis Xavier University
Alexa McDonough, Leader of the New Democratic Party for the Province of Nova Scotia
James Petras, University of New York at Binghamton
James Sacouman, Professor of Sociology, Acadia University
Giles Theriault, President, Maritime Fishermen's Union
Other speakers include 30 specialists from the Commonwealth Caribbean and Cuba with an equal number from across Canada.

(For a tentative schedule of events, please see page 8)

Government Grant Aids Business Collection

In response to a March 1984 application, the Social Sciences and Humanities Research Council (SSHRC) has awarded the Patrick Power Library a \$30,000 grant to enhance its retrospective files of business periodicals. The Saint Mary's business collection met SSHRC guidelines as a "regional resource" through the relative balance of its book collection and the support of a 7500-volume corporate financial reports collection. The grant, although less than requested, will enable the purchase of microfilm backfiles of basic business journals as indexed by *Business Periodicals Index* and the *Canadian Business Periodicals Index*. Under SSHRC criteria, these backfiles may complement, but should not duplicate, periodical holdings at other local libraries. In addition, the grant is limited to back runs, and cannot be applied to new subscriptions.

This is the first grant of its type awarded to the Library. Similar grant applications are possible. Documentation on the SSHRC criteria is available from the University Librarian's office.

Library Open House 1984

Douglas Vaisey, Head of Information Services, talks to students during the Open House on September 11.

Dramatic Society to present suspense thriller

by Claire Milton

Saint Mary's University Dramatic Society will be presenting *Wait Until Dark*, November 7-10, 1984, in the Theatre Auditorium. Gary Vermeir, a native of Antigonish, with extensive theatrical experience in the Maritimes, will direct the production.

Wait Until Dark is a masterfully constructed thriller by Frederick Knott, which moves from one moment of suspense to another as it builds toward an electrifying, breath-stopping final scene. As an assurance that there will be sympathy along with the tingling terrors, the object of its sinister activities is a blind girl, but don't think she has to be pitied. The intended victim of the machinations is a courageous and enterprising young woman who can handle a scoundrel better than the next one and finds the threatening forces of evil a challenge to her wits and guile as well as a terrifying peril. Even before she reaches her basement home in a Greenwich Village apartment house, somewhat annoyed at her photographer husband for going on an assignment that evening, ominous things are taking place there. Three slinking fellows have been lurking about, one of them rather resembling in appearance the Marquis de Sade. Although what they are searching for is merely a doll, it is important enough to them to have resulted in the killing of someone who has betrayed them. It would be against all the rules if we told you much more about what happens in the course of the blind girl's next harrowing two days. It should be enough to say that, with her husband still on that assignment, she has to fend off the mysterious scoundrels with only some slight but valuable aid from

a prying little girl who lives upstairs. And, for all her skill and bravery, the young wife is in for some frightening moments, including a startling shock in the final act.

Saint Mary's University student Claire Milton takes on the role of the blind woman, while Jamie Bradley plays the evil ringleader.

Tickets for the performance will be \$3.00 for students and senior citizens, \$4.00 for adults. Mark your calendars!

Institute of Human Values Conference

The Social Sciences and the Humanities: Isolation or Interdependence? will be the subject of a conference at Saint Mary's University to be held by the Institute of Human Values, November 8 to 10, 1984.

There will be a number of sessions on topics related to the humanities and social sciences. Among the session speakers will be:

George Anastaplo, Professor of Law, Loyola College

Donald Verne, Professor of Philosophy, Emory

Serge Lusignan, Professor of History, Université de Montréal

H. P. Rickman, Professor of Philosophy, City University of London

Arthur Kroker, Professor of Political Science, Concordia University

Wallace Lambert, Professor of Psychology, McGill University

Edward Blodgett, Professor of English, University of Alberta

Gordon Inglis, Professor of Anthropology, Memorial University of Newfoundland

Brian Joseph, Professor of Sociology, University College of Cape Breton

John O'Neil, Professor of Sociology, York University

Hugh MacLennan, Canadian author

Eva Kushner, Professor of French Literature, McGill University

Werner Smitheram, University of Prince Edward Island

David Cook, University of Toronto

There will be a reception for delegates, sponsored by the Canadian Federation for the Humanities and the Social Sciences Federation of Canada on Thursday, November 8. The conference will conclude on Saturday, November 10 with a panel discussion on "Problems and New Directions". Taking part in the discussion will be: George Bowering, Donna Hart, Donald Hebb, Eva Kushner, Viviane Launay, John O'Neil, Jacques Monet and Frederick Vaughan.

For more information on the conference, please refer to Dr. John MacCormack, Director of the Institute of Human Values.

Our World in the Eighties: The Moslem World Discussion Series

Our World in the Eighties, a Thursday noon-hour discussion series co-sponsored by the International Education Centre and the Halifax City Regional Library, has returned this fall with a focus on the Moslem world.

On September 27, Dr. Gamal Badawi of Saint Mary's and Chairman of the Islamic Information Foundation started the series with a discussion of similarities and differences between Islam and Christianity with County Court Judge O'Hearn. Other topics covered by Dr. Badawi included "Women and the Family in the Islamic Social Order", "Theocracy, Democracy and Islamic Government" and "Jihad: Is it Holy War?". On October 25 the final discussion on "Islamic Revival: Implications for the West" will be led by Dr. Badawi and Dr. Joseph Jabbara, Academic Vice-President.

Our World in the Eighties takes place at the Halifax Main Library on Spring Garden Road. The program is free and everyone is welcome to attend.

Engineering scholarship established at Saint Mary's

Lavalin Cheque Inc., Canada's largest engineering consulting group, has established an Engineering Scholarship at Saint Mary's University as part of the Capital Campaign. Shown here are Lawrence Zimmering, Regional Vice-President of Lavalin (middle) and Marcel Aucoin, General Manager of Fenco Shawinigan Engineering, a division of Lavalin,

presenting the first installment of a five-year pledge of \$12,500. Dr. Kenneth Ozmon, President of Saint Mary's, accepts the cheque on behalf of the University. Marcel Aucoin, an alumnus of Saint Mary's, received a Diploma in Engineering from the University in 1967 and graduated with a Bachelor of Science degree the following year.

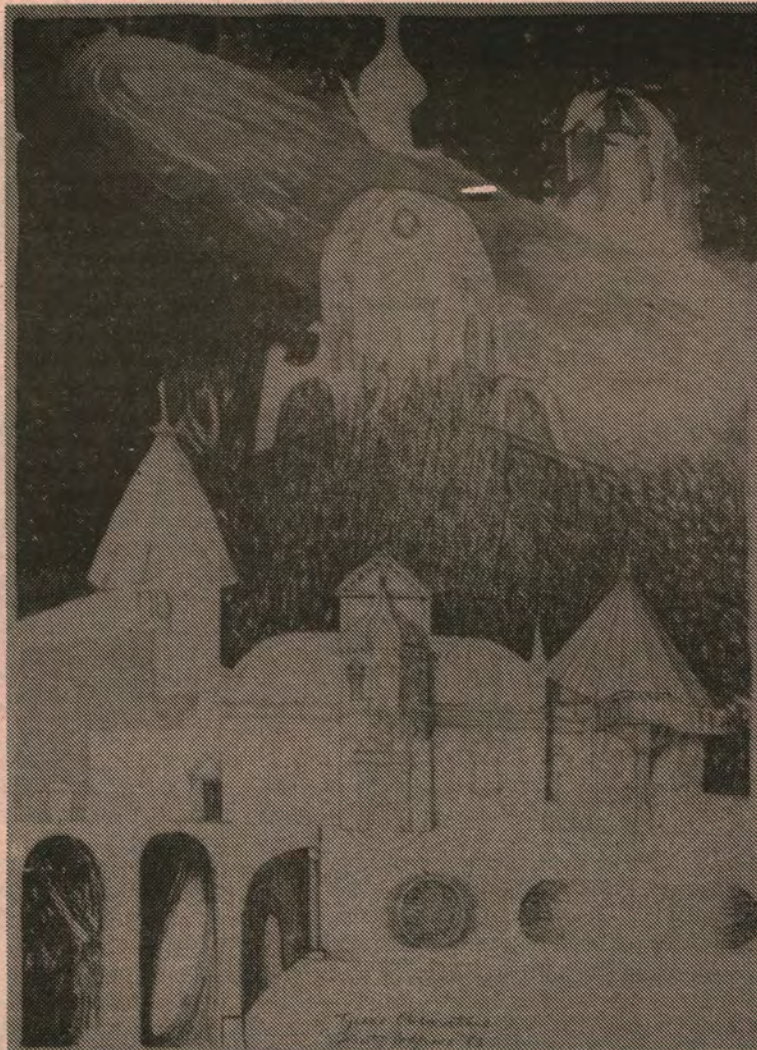

At the Art Gallery Night/ Spaces with Felicity Redgrave

An exhibition of recent paintings by Felicity Redgrave, entitled *Night/ Spaces*, will open at the Saint Mary's University Art Gallery on Wednesday, October 24 at 8:00 p.m.

Redgrave is a well known Nova Scotian artist and an active member of the arts community. She has served on the Board of Directors of both the Art Gallery of Nova Scotia and the Nova Scotia Art Bank. She is a former chairman of Visual Arts Nova Scotia, and has been a guest curator for the Art Gallery of Nova Scotia. She also contributes art criticism to *ArtsAtlantic* and *Arts Magazine*, and is the Chairman of Canadian Artists Representation (CAR/FAC).

Felicity Redgrave has had numerous exhibitions of her works throughout the Atlantic provinces. This exhibition, *Night/ Spaces*, is a response to her observations of the summer sky at night as seen from her studio on the south shore of Nova Scotia. As with her previous works the underlying theme is environmental in nature. She now approaches it through astronomical imagery. Through an ambitious quantity of work and in a wide range of mediums, Redgrave has transformed a rather overwhelming and expansive subject of night space into carefully structured imagery. Her paintings are organized formal arrangements containing the dynamic and unpredictable qualities of nature. In order to prepare for this exhibition she took a basic course in astronomy at Saint Mary's University last year. She wanted, she explained, to feel overwhelmed by the sky and in awe of its magnitude.

The exhibition continues until December 14 and then will tour to Acadia University and to Moncton, New Brunswick.

Tycho's Observations, Felicity Redgrave

Major anthology of Canadian drama

In his introduction to *Major Plays of the Canadian Theatre: 1934-1984*, Dr. Richard Perkyns of the English Department at Saint Mary's suggests the anthology arose because of drama authority Martin Esslin's contention in 1980 that "Canadian drama . . . had little separate identity from American drama". In this collection Dr. Perkyns has tried to band together plays that are representative of the diverse geography and history of this country.

His interest in Canadian drama, however, dates back to a 1975 Neptune production of *The Donnelly's*, at which time he first met the author, James Reaney. Thus began an interest in Reaney's works that led to those of other Canadian playwrights. He soon realized there were few anthologies of Canadian plays and that those in existence often did not contain the best plays. So, he decided to produce his own anthology, with the support of the Association for Canadian Theatre History.

The road to publication was not without potholes. No sooner had Dr. Perkyns assembled a list of what he considered to be the best Canadian plays than he ran up against the difficulties of obtaining permission to include them. Time upon time he could not get the rights to reproduce this or that play. Talonbooks, who publish most Canadian drama for instance, refused all requests because they were about to edit their own anthology. Other plays, such as those by Michel Tremblay, were not available in English translation. Some playwrights expected hefty royalty arrangements while others feared sales of single editions of their plays would decline if they were available in an anthology.

Finally, Dr. Perkyns settled on 12 major Canadian plays. They range from the earliest, Herman Voaden's *Hill-Land* to the last, James Reaney's 1983 drama, *The Canadian Brothers*. Each entry is preceded by an introduction by Dr. Perkyns in which he unites the play with the overall theme of the anthology. From the Maritimes comes Michael Cook's *The Head, Guts and Soundbone Dance* and *Of Fields, Lately* by David French. Neither author is a Maritime writer, however.

With 12 plays lined up, he looked for a publisher. Clarke Irwin expressed interest but just as an

agreement was to be signed, the Canadian publisher went into receivership. It was then bought by The Book Society of Canada, owned by John Irwin who is the son of the original Irwin. The Book Society, in turn, became Irwin Publishing.

With a publisher arranged, Dr. Perkyns turned to editing the material. Many problems arose in striving for consistency of presentation. A number of the plays have never been published in this format before. Gwen Pharis Ringwood's *Drum Song* originally appeared as three one-act plays and had to undergo a number of changes before it could appear as one three-act play. Aviva Ravel's *Dispossessed*, a Jewish play, contained numerous Yiddish references that had to be properly annotated. Other plays, such as Reaney's *Canadian Brothers*, have never been published before. However, when Ms. Ravel wrote to express her pleasure in the anthology, Dr. Perkyns began to feel the effort worthwhile.

Major Plays of the Canadian Theatre, in addition to the complete text of 12 plays with an introduction to each by Dr. Perkyns, contains a foreword by Robertson Davis, eminent playwright and Master Emeritus of Massey College, University of Toronto.

Community Tape Resource Library at Saint Mary's seeks volunteer readers

The Community Tape Resource Library at Saint Mary's University is looking for experienced volunteers to read text material onto cassette tapes for use by visually-impaired and print-handicapped students attending Maritime universities.

The Tape Library is the only centre in the Atlantic region that provides recordings of print material for post-secondary students and professionals. Any individual who cannot read because of a physical handicap, and that includes both the visually-impaired and paraplegics who cannot hold a book, may request recordings for study or professional use.

All readers are volunteers drawn from the University and local community who can offer the time to complete recordings. Each volunteer is asked to complete a sample recording to ensure they can read clearly and at a good speed, with correct intonation and no discernible accent. How much time is required depends on the nature of the recording. Short passages from textbooks may take only an hour or two of a reader's time; full texts or difficult passages explaining graphs may take a week or longer to complete.

Interested persons should call the Community Tape Resource Library at Saint Mary's University, 429-9780, ext. 449.

Attention: U.S. citizens at Saint Mary's

Americans in Canada can easily participate in their presidential election — but they must act now. U.S. citizens are advised to write to their district consular offices immediately for voting information. All that is required is a *Post Card Registration and Absentee Ballot Request* form and the voting instructions of the state in which they last resided. There is a U.S. district consular office in Halifax.

Gorsebrook Institute to publish bibliography

The Social Sciences and Humanities Research Council has approved a \$63,337 grant for the compilation of a bibliographic guide to Atlantic resource industries by the Gorsebrook Research Institute for Atlantic Canada Studies.

The two year project will provide a comprehensive listing of material relating to agriculture, forestry, farming, mining, oil and gas in the region. While there are other bibliographies on Atlantic Canada, this one is unique because it focuses on the resource industries and because it will include government documents, books, monographs, articles from popular magazines and journals, reports, pamphlets and graduate theses published since 1867.

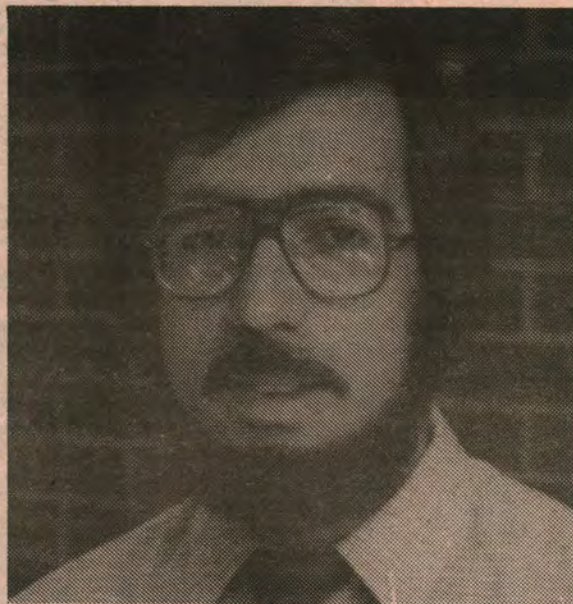

Dr. Colin Howell, Coordinator of the Atlantic Canada Studies program, is administering the project. Dr. Henry Veltmeyer of the Sociology Department will be the first co-investigator, responsible for sources relating to mining, oil and gas. Dr. Tony Winson, Director of the Gorsebrook Institute, will be the second co-investigator, responsible for sources relating to agriculture, fishing and forestry. There is also a part-time librarian who is responsible for on site visits to libraries and repositories having collections of relevant source material, and three graduate students who will assist in the collection of source material. As well, two librarians have agreed to act as project consultants.

In the first year efforts will be concentrated on accumulating bibliographic information on source material for Nova Scotia and New Brunswick. Attention will be turned to Prince Edward Island and Newfoundland during the second year.

As the project progresses new information will be published in the *Atlantic Canada Research Letter*. The bibliography will also be stored on computer files so that it can be continuously updated and accessed on line.

"It is not something to get excited about," said Dr. Winson. "But it is something that serious students will want to get their hands on."

The bibliography is by no means the only project underway at the Institute. A number of critical studies have been published recently and the next will be *Oil and Gas Development in Have-Not Regions: Some Lessons for Nova Scotia*. Based on the mini conference by the same name which was held by the Gorsebrook Institute last March, this publication looks at the effects of the development of fossil fuel resources on the economies of a number of Caribbean countries and

Dr. Tony Winson

Scotland. As with other Institute occasional papers, this one will be stored on computer files and will be printed in single copies as required.

The Gorsebrook Institute is growing. The staff has increased slightly. In addition to the part-time employees associated with the bibliography, a research assistant, Cindy Morrison, has been hired through the Canada Works program. Ms. Morrison is responsible for a number of projects such as expanding and cataloguing the Resource Centre holdings and working on the publications program. She is also organizing a pilot schools' program. It will be based on the program in effect at the International Education Centre. Speakers, drawn from local resource industries or graduate students in Atlantic Canada Studies, will be invited to address school classes on issues of regional importance. Interest in the program has already been expressed by schools from Yarmouth to Cape Breton.

Office space for the Institute still remains cramped. However, room for the Resource Centre has been created by blocking off the end of the second floor in the north wing of the McNally Building. This at least gives students access to Resource Centre material, says Dr. Winson.

Geography student wins prestigious scholarship

Shelley Conrad, a third year honours student in geography, has been awarded the only Canadian undergraduate scholarship offered by the National Council for Geographic Education. The Council is an American non-profit organization established to foster and increase the effectiveness of geographic education. It awards ten scholarships annually, one of which is reserved for a Canadian undergraduate. The scholarship is valued at \$1000.

Shelley, from Dartmouth, Nova Scotia, is studying urban planning at Saint Mary's. When she completes

Shelley Conrad

her Bachelor of Arts degree in 1986 she plans to continue with graduate studies in urban planning.

The 21-year-old student came to Saint Mary's in 1982 on an Entrance Scholarship. A straight 'A' student, this year she received a University Achievement Scholarship valued at \$1500 and the \$1000 Alumni Christian Brotherhood of Ireland Scholarship.

Shelley and her mother will be travelling to Toronto on October 21 for the award presentation, which will be made at a banquet during a conference of the Ontario Geography Society and the National Council for Geographic Education.

Saint Mary's to host the 1984 Atlantic Universities Geological Conference

by Glenn Cameron

The oldest university conference in Canada will convene this year on the campus of Saint Mary's University in Halifax on the weekend of October 25. The D. Hope-Simpson Geology Club at Saint Mary's will be the hosts.

First held in 1951 at Dalhousie University, the conference's original members included only Nova Scotian universities, technical schools and various regional geological and mining groups. However, some years later increased interest allowed the organizers to expand membership to other parts of the Maritimes. This move caused the society to don the unlikely acronym of MUGS (the Maritime Universities Geological Society). This was its title until 1965 when Memorial University of Newfoundland joined the society, forcing organizers to once again revamp their identifying idiom to the present one — AUGC (the Atlantic Universities Geological Conference). It was shortly thereafter that the conference took on an international flavour with participation by geology students from Ricker College of Holden, Maine, who were the hosts once in the early 1970s. However, after a few short years students from Ricker College withdrew their membership.

The conference now involves geology students from the universities of Acadia, Dalhousie, Memorial, Mount Allison, Saint Francis Xavier, the University of New Brunswick and Saint Mary's. Each year the conference is held at a different host university. Last year it was the University of New Brunswick; next year it will be Acadia University.

The 1984 conference will be a three-day event with the main focus on undergraduate studies. One student representative from each of the participating universities will present a seminar on a topic of personal choice, one that usually pertains either to summer employment or a thesis project. A panel of

regional geologists will then make three awards to the students making the best presentations, based on a criteria that includes the individual's oratory skills, method of presentation, ability to rebut questions and knowledge of the topic in question.

In addition to the student seminars, the conference will also include one day excursions to the Cobequid Mountains and to the Ovens in Lunenburg County, a former gold district and an excellent site for viewing structural geology. The field trips will be led by Howard Donohoe, Jr. of the Nova Scotia Department of Mines and Energy and Dr. John Waldron of the Geology Department at Saint Mary's respectively.

Guest speakers invited to attend the conference

Killam Lecture Series, Dalhousie University

The Killam Lecture Series at Dalhousie University this fall consists of three distinguished feminists. The series this year is entitled: "Feminist Visions".

The purpose of this series is to increase understanding and appreciation of feminist theory. The lectures will explore some of the controversies within feminism debates and will provide an opportunity to learn about feminist scholarship. It is hoped the series will increase public awareness of how feminist perspectives contribute to and alter academic pursuits.

The series began on October 11 with a lecture by Marge Piercy. On October 18 Shiela Rowbotham will deliver the lecture, followed by Mary Daly on October 25. All lectures are being held in the Rebecca Cohn Auditorium at Dalhousie University.

For more information, please refer to Dr. Martha MacDonald in the Economics Department at Saint Mary's.

include Bernard Pelletier of the Geological Survey of Canada in Ottawa and Mike J. Keen of the Bedford Institute of Oceanography and director of the Atlantic Geoscience Centre.

If at first you don't succeed, try 'triazene'

or "Chemical Studies of Heterocyclic and Open-Chain Nitrogen Containing Anti-Tumour Agents"

In the last issue of *The Times* there was an article summarizing some of the research projects at Saint Mary's University being funded by the Natural Sciences and Engineering Research Council. Dr. Keith Vaughan's project in chemistry was not included because when the information for the article was assembled last spring he was on sabbatical leave.

NSERC have awarded Dr. Vaughan \$18,253 per annum over three years for a research project entitled "Chemical Studies of Heterocyclic and Open-Chain Nitrogen Containing Anti-Tumour Agents". The emphasis is on the *chemical* study involving the synthesis of new molecules based on the heterocyclic triazine and open-chain triazene structures. Some of the compounds have shown significant anti-tumour activity towards cancer cells in animals and in culture. Dr. Vaughan is presently trying to persuade the pharmaceutical industry to look seriously at developing one or more of the compounds for clinical trial. Most of the present work in the laboratory involves basic organic chemistry such as devising novel synthetic procedures for new molecules.

Said Dr. Vaughan of his research, "Our motto is 'If it hasn't been made before, let's do it (rather like climbing a mountain) or 'If at first you don't succeed, try triazene!'"

Soviet academics to visit Saint Mary's

A delegation of Soviet academics will be visiting Nova Scotian universities in late October. Following a conference at the Atlantic Christian Training Centre in Tatamagouche, October 26 to 28, on the subject of *Preparing for Peace*, the dignitaries from the U.S.S.R. will spend three days at Saint Mary's.

The Tatamagouche seminar is aimed at providing an informal setting for sharing information and in-depth discussions about the prevention of nuclear war and the building of trust, respect and peace. The stated objectives are:

- * To establish cordial interpersonal relations between Soviet delegates and the participants from Atlantic universities;

- * To affirm common interest in building trust, cooperation and peace, and to explore different possible strategies for the prevention of nuclear war;

- * To discuss concerns about the ecological, medical and psychological effects of war preparation and nuclear war, and to gain insight into the fears and inhibitions that prevent the establishment of trust, respect and peace;

- * To discuss how universities and other institutions in our societies (media, volunteer organizations, political parties, schools, research organizations) are able to make distinctive contributions to overcoming the present impasse;

- * To propose specific strategies (education programs, negotiation training, research needs, cultural exchanges) to be initiated by the universities of Atlantic Canada and the Soviet Union.

Saint Mary's will be sending four delegates to the seminar.

The Soviet delegation will be visiting Saint Mary's from Monday, October 29 to Wednesday, October 31. The purpose of the visit is to meet with faculty

members informally and to conduct a select number of seminars on topics of vital concern to both the Soviets and people of Canada. The following is a tentative schedule of events. For further information, please refer to Jim Sharpe in the Division of Continuing Education.

Monday, October 29

10 am Faculty of Commerce seminar on **Role of Academic Institutions in the USSR**
 12 noon Luncheon — Boardroom
 3 pm Faculty of Arts seminar

Tuesday, October 30

Dr. Kuzin, Director, Vishnevski Institute of Surgery
 Dr. Sharkov, Faculty of International Relations
 Academy of Social Sciences
 9:30 am Individual & small group consultations
 Faculties of Arts & Science
 12 noon Luncheon — Boardroom
 2:30 pm Open lecture for students and faculty
 Science Building
Arms of mass destruction and their influences on environmental ecology and the human organism

Wednesday, October 31

Dr. Pivovarov
 10:30 am Meeting with high school classes and Muriel Duckworth
Education and the spirit of peace in the Soviet and Canadian school
 12:30 pm Luncheon — Boardroom
 4 pm Seminar for Faculty of Education and teachers

University receives \$50,000 pledge

J. Rod McLeod, President and General Manager of Oland Breweries Ltd., presents Dr. Kenneth Ozmori, University President, with a pledge for \$50,000 on behalf of Oland Breweries and John Labatt Ltd. Each company will contribute one-half of the pledge.

AUCC Elects New Vice-President, Board Members

Saskatoon — McGill University Principal David L. Johnston was elected Vice-President of the Association of Universities and Colleges of Canada (AUCC) at a meeting here October 4. Dalhousie University President W. Andrew MacKay began the second year of his two-year term as Association President at the meeting.

Johnston was elected Vice-President after having served the first year of a two-year term as a representative of Quebec universities on the 11-member AUCC Board of Directors. The remainder of that term will be filled by Concordia University Rector Patrick Kenniff.

Elected to the Board for Ontario was University of Guelph President Burton Matthews. Myer Horowitz,

President of the University of Alberta, was elected to represent the Western region. Leslie Harris, President of Memorial University of Newfoundland began his second year as a representative of the Atlantic region.

Other members of the 1984-1985 Board are: University of New Brunswick President James Downey, representing the Association of Atlantic Universities; Université de Sherbrooke Rector Claude Hamel, representing the Conference of Rectors and Principals of Quebec Universities; McMaster University President Alvin A. Lee, representing the Council of Ontario Universities; University of Manitoba President Arnold Naimark, representing the Council of Western Canadian University Presidents; and AUCC Executive Director Allan Gillmore.

SALVATION FOR HIGHER EDUCATION IN CANADA

The Canadian university system is rushing headlong down the road to hell according to the authors of *The Great Brain Robbery, Canada's Universities on the Road to Ruin*. "Salvation . . . lies not in faculty unionism, not in the continued existence of senates structured as they currently are, but in a courageous admission that a strong dose of elitism and genuine shared authority are the best way to run a university." Authors David Bercuson (University of Calgary), Robert Bothwell (University of Toronto), and J. L. Granatstein (York University) label tenure a four letter word and recommend that a system of five-year renewable contracts be substituted for tenure. Other recommendations contained in the publication: a return to the principle of "publish or perish", raising entrance standards, imposition of a core curriculum, restructuring of the governing bodies, and a rethinking of the funding and content of cross-disciplinary "studies" programs — Canadian studies, women's studies, native studies, etc. *The Great Brain Robbery* is available in Canadian bookstores or from the publisher, McClelland and Stewart. Cost is \$12.95.

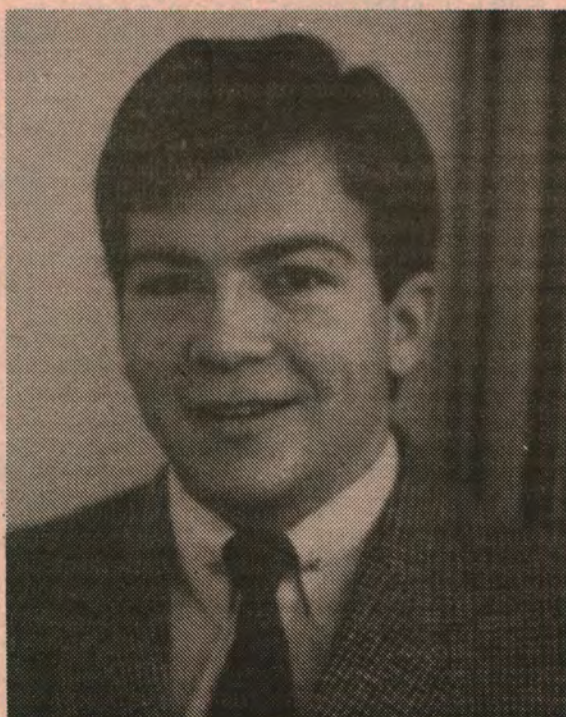

Math student awarded \$5000 scholarship

Stephen Mansfield, has been awarded one of only two Canadian scholarships provided by the Fessenden-Trott Trust. The scholarship was established in 1979 in memory of the late Professor Reginald Aubrey Fessenden and his wife Helen May Trott, and is administered by the Association of Universities and Colleges of Canada (AUCC). Two scholarships, each in the amount of \$5000, are awarded annually and each scholarship is renewable until the recipient's first degree is obtained or for a maximum of three years. The award criteria includes high academic standing, potential leadership qualities, participation in extra-curricular activities and good moral character.

Stephen Mansfield is the first Saint Mary's student to win this award. He is currently enrolled in the second year of the honours mathematics program in the Faculty of Science, and he is maintaining a straight 'A' average. He came to Saint Mary's on an Entrance Scholarship and this year has been awarded both an Achievement Scholarship, valued at the full \$1500, and the Joseph Edmund Donahue Scholarship for \$500.

Stephen spent last summer working on basic computer programs for the Dartmouth School Board and assisting in the teaching of summer courses for school children. This year he is marking papers for the Mathematics Department and working as a laboratory demonstrator in the Computer Terminal Room.

The son of Heber and Jean Mansfield, Stephen is a graduate of Dartmouth High School.

Stephen Mansfield

Storm Warning

"Think of the storm roaming the sky uneasily like a dog looking for a place to sleep in, listen to it growling."

Elizabeth Bishop

Before the heavy snows fly, it is time to review the University's storm procedures. Saint Mary's will remain open if at all possible so that there will be no disruption of scheduled lectures, tests or formal examinations. However, if a severe storm develops, the following policies remain in effect:

- * In the event of an overnight storm, the President will decide whether to close the University. This information will be relayed to the media by the Public Relations Office. Please listen to local radio stations and do not call the switchboard. This serves only to clog the circuit.
- * Should a storm develop during the day, information regarding University closure will be forwarded to faculty and staff by the Personnel Officer.

Tentative Schedule of Events

(continued from page 3)

Thursday, October 25 4:00 pm	Registration — Burke Education Building Opening addresses: Dr. Dale Bisnauth Dr. Robert Moore		Organizing Primary Producers Legal Issues/Diplomacy in Development NGOs (Non-government organizations) in Development Fisheries and Agriculture in Development Management in Development Organizing for Change — Social Movements
Friday, October 26 7:00 pm	Two critical overviews: "Development Models and Theories: An Assessment" and "Regional Development, Issues and Resources." Banquet, hosted by the Nova Scotia Department of Development. Keynote speaker: Rex Nettleford		Keynote plenary address by Dr. James Petrie on "The 1980s and Beyond".
9:30 pm	Caribbean Dance		Luncheon hosted by the Council of Maritime Premiers. Guest speaker will be Dr. Louis Wiltshire. The Honourable Michael Manley will deliver a public lecture in the Theatre Auditorium. A reception, featuring Maritime and International entertainment will follow.
Saturday, October 27 7:00 pm	Workshops will be held on the following topics: The Role of the State in Development Women and Development Industrialization as Development Development Finance and Aid Labour: Employment and Unemployment Megaprojects as Development Race and Class, Labour and Migration Community Development/ Revitalization Caribbean/Atlantic Canada Trade		Plenary addresses by experts from governments in the Caribbean and Atlantic Canada on local development issues. This will be followed by an open forum round table discussion on various related issues.
		Sunday, October 28	

International Community Network

(Information provided by the International Education Centre.)

Monday, October 22

12:30 pm — Centre for African Studies Lunchtime Seminar series: 'Ghana's Agricultural Crisis' with Cyril Daddieh. 1444 Seymour Street. For further information call 424-3814.

Monday, October 22

7:30 pm — First in the Nicaraguan Information series, sponsored by DEVERIC, a film, 'The Uprising' an exciting drama depicting one village's experience of revolution in Nicaragua. \$2.50, N.F.B. Theatre, Argyle Street. For further information call 429-1370.

UNICEF Fall Meeting — further details from 422-6000.

Wednesday, October 24

12:15 pm — First in a 4 week noon-time 'chew and view' series: the film 'Nicaragua: Report from the Front' (1984). Free. DEVERIC, 1649 Barrington Street. For further information call 429-1370.

7:30 pm — United Nations Association of Canada (Halifax Branch) organizational meeting. International Education Centre, Saint Mary's University. For further information call 429-9780 ext. 498.

Thursday, October 25

12:00 pm — Muslim World series sponsored by the Halifax City Regional Library and the International Education Centre: 'Islamic Revival: Implications for the West' with Dr. Badawi, Chairman of the Islamic Information Foundation and Dr. Joe Jabbra, Academic Vice-President of Saint Mary's University. Halifax City Regional Library, 5381 Spring Garden Road. For further information call 429-9780 ext. 497.

Thursday, October 25

Friday, October 26

Saturday, October 27

Sunday, October 28

'Rethinking Development in the 1980's: Perspectives From The Caribbean and Atlantic Canada' an International Conference sponsored by the Sociology Department of Saint Mary's University. For further information contact Henry Veltmeyer, 429-9780 ext. 431.

Saturday, October 27

UNICEF MALL PROMOTION: Have fun helping UNICEF at Hallowe'en again this year at Simpsons and Penhorn Malls. Pumpkin auction, Pumpkin Carving competition, Face painting and guest appearance of Hallowe'en Honorary Chairman Ron Zima of CJCH are a few of the events which will be going on. For further information call 422-6000.

5:00 pm — UNICEF Film, "A Child Survival Revolution" will be shown on Halifax/Dartmouth cable television. For further information call 422-6000.

Sunday, October 28

2:00 pm — Fun and Games at the Nova Scotia Museum: Project Room Staff of the Nova Scotia Museum will be playing Games of the World again this year in the foyer of the Museum. There will also be a giant pumpkin to carve and a fascinating exhibition of bats to browse through. For further information call 422-6000.

Tuesday, October 30

5:00 pm — UNICEF Film "A Child Survival Revolution" and "Remember Me" will be shown on Halifax/Dartmouth Cable Television. For further information call 422-6000.

Wednesday, October 31

10:15 am — UNICEF Film "When the Water Comes" will be shown on the CBC School Broadcast. For further information call 422-6000.

12:15 pm — Second in a four-week noon-time 'chew and view' series: slide tape show 'Tools for Peace: Canadian Support in Nicaragua' (1984). Free. DEVERIC, 1649 Barrington Street. For further information call 429-1370.

HALLOWE'EN NIGHT. Be sure to have your coins ready when the children come Trick or Treating. The coins you put into UNICEF collection boxes on Hallowe'en directly benefit UNICEF's projects in the developing world.

Evening — Public Presentation sponsored by Dalhousie's International Students Association "The International Connection — Dalhousie's Role in International Development". Multi-purpose Room, SUB. For further details call 424-3814.

Saint Mary's University Hosts A.U.A.A. Women's Soccer Championships

The 1984-85 A.U.A.A. Women's Soccer Tournament will be held at Huskies Stadium, and hosted by Saint Mary's University, on Friday and Saturday, October 19th and 20th. Of the 10 Atlantic schools in the A.U.A.A., seven will compete for the title. They are: Acadia University, Dalhousie University, Memorial University, Mt. Allison University, University of New Brunswick, St. Francis Xavier University, and the host club Saint Mary's University.

A total of nine contests will be played to decide the championship, beginning at 10:00 a.m. on Friday and ending with the title game at 3:00 p.m. on Saturday. All competition will be on the AstroTurf field.

"LEST WE FORGET"

Remembrance Day Holiday
— November 12, 1984 —

The University will be closed. No classes scheduled.
