A PUBLICATION OF THE SAINT MARY'S STUDENT'S COUNCIL

E.D.B.'S

Friday, January 18th saw the installation of a new Electronic Display Board (E.D.B.) in the Student Centre. The S.R.C. contributed one thousand dollars of this year's student fees toward the purchase, the remainder of the cost was covered by a fund accumulated over the past two years.

The new E.D.B. is expected to help improve communications with students and help promote on campus events.

Any group with a message to communicate can have it displayed on the system. Applications for messages should be turned into the S.R.C. offices, 5th floor Student Centre.

The E.D.B. is part of continuing effort by the Students' Representative Council to beef up communications with on and Off-Campus students.

GEOGRAPHY SOCIETY HAPPENINGS 1985

The second semester of the 1984-1985 academic year holds a variety of events presented by the Saint Mary's University Geographical Society (SMUGS) for its members and the students of Saint Mary's.

The coming months will see the ordering of sweatshirts for society members, on which the crest used shall be the winning design (by Peter Ricketts) of the SMUGS Crest Contest held last year. Also, a public lecture entitled "The Education Of A Geographer", focusing on the Geographer and his oft misunderstood discipline, will be given by Saint Mary's Department of Geography Chairman Brian Robinson in late February.

Just before February study break, SMUGS will hold a Career Day, where Guest Speakers who have had experience applying Geography in their workplaces will entertain students' questions. A wine-and-cheese reception shall follow. Elections for the 1985-1986 SMUGS executive will be held late in March, and to wrap up the Society will celebrate with our third Annual Year End Pub Crawl in mid-April.

All SMUGS events are open to all; for final dates and further information, please check the SMUGS Bulletin Board outside the Map Library on the 2nd floor of the Burke Education Centre, or drop us a note in our Student Council Mail box on the 5th floor of the SUB.

SMUGS would like to wish the best to Saint Mary's students during second term and the rest of 1985. Good Luck!

ART GALLERY NEWS

An exhibition of paintings and drawings by artist, Graham Metson will open at Saint Mary's University Art Gallery Tuesday, February 12, at 8:00 p.m.
 The exhibition will cover Metson's work from the early 1960's, up to, and including the latter part of 1984. An extremely energetic and prolific artist, Metson is more interested in his recent paintings than his past productions. For this reason the exhibition will place greater emphasis on his work from the 1980's. This is an especially strong and dynamic period in Metson's painting career. These colourful, sometimes violent paintings depict subjects ranging from pop satire to religious symbolism. In some instances, Metson has used collage elements to place futuristic-like images, beside, or on top of, images from mythology.
 The exhibition will continue to be on display until March 30th.
 There will be two LIVE ART performances for the month of February. A Poetry Reading by Joseph Sherman, and the Toronto Independent Dance Enterprise will hold a Lecture/Demonstration for children on February 22nd at 12:30 p.m.

Martin is a 21-year old, high-level quadriplegic, who is unable to use any portion of his body from his shoulders down. He lost the use of the lower portion of his body as a result of a diving accident in August 1983.

He has completed his third year of Commerce at Saint Mary's University.

After struggling to live without the aid of a respirator, Martin was discharged from the hospital.

He is presently taking courses at the University of Alberta, where they have the special health care systems he requires. He would like to return to Saint Mary's University, but time and money are restricting him to Alberta. "It's my goal to be able to come home to Nova Scotia and graduate from St. Mary's."

In order for Martin to live as independently as possible, that is, with a live-in aide, he is going to need a considerable amount of equipment which is very costly.

Martin's present means of financial income is through social services as his accident was not covered by any insurance policies. Aside from existence funding, social services has no funds for any "extras" for people like Martin. Without the assistance of a supporting group, the chances of Martin obtaining funds for the needed equipment is nil.

The Fund invites your participation and support.

The following regulation was passed by Saint Mary's University Senate on January 11th, 1985 and will come into effect on September 1st, 1985:

- In a two-semester course no single test given in a regularly scheduled class period (50 to 75 minutes) shall contribute more than 20% of the overall evaluation for that course.
- In a one-semester course no single test given in a regularly scheduled class period (50 or 75 minutes) shall contribute more than 35% of the overall evaluation for that course.

ROCK TALK

The Atlantic Geoscience Symposium, attended by students and professors representing both St. Mary's and the Geology Society, enjoyed an eventful weekend conference held at the Old Orchard Inn, Wolfville. Both the talks and poster displays presented by St. Mary's representatives were second to none. This year's symposium was the largest in its brief history, which passes a bright outlook to next year's meeting.

The D. Hope-Simpson Geology Society will be holding a smoker on Feb. 15th and will draw for the winning ticket for a week long trip for two to Jamaica at Montego Bay resort. If the winner is in attendance at the function a small complimentary beach package will be presented for use on the warm, sun-soaked beach area. However, the ticket holders need not be present to win the trip, just if they are interested in the complimentary surprise package. Some of the funds raised from the draw will be donated to the Martin Gill Trust Fund, the Killam Children's Hospital Burn Unit and the purchase of needed equipment for the Geology Department.

The Geology Society Hockey and Broomball teams have secured both types of matches against the respective Geology Societies of both Dalhousie and Acadia. Hopefully St. F.X.U. will be on the agenda later this month, so as to keep up our inter-universities rivalry.
