## Huskies breeze past X-Men 52-14

### Winless Capers in town this weekend

By T. Paul Woodford

The Saint Francis Xavier X-Men were simply in the wrong place at the wrong time.

One week after being upset by the Mount Allison Mounties the Saint Mary's Huskies let out their frustrations on the previously unbeaten X-Men with a 52-14 win in front of 3,000 fans Saturday at Huskies Stadium.

Because of the unbalanced schedule SMU's win is worth four points and puts them in a first place tie with Mount Allison who won a four point contest against UCCB with a 23-10 win in Sackville, both teams sport 3-1 records and have eight points. The X-Men are also 3-1 but only have 6 points.

The Huskies assaulted the X-Men on the ground and through the air as the No. 4 ranked team in the nation scored almost at will in the opening half. Matt Nealon's four yard TD reception capped an eight play, 75 yard drive that put the Huskies up 7-0 3:19 into the game.

Flynn returned to his old form on Saturday and connected for aerial scores with Nealon (7-112-2), Calvin Scott (4-97-1) and Ian MacDonald (2-43-1). Flynn's fourth quarter touchdown toss to MacDonald was the 73rd TD pass of his career, eclipsing the old record of 72 held by Bill Robinson, offensive coordinator of the Huskies. The fourth year pivot completed 15 of 31 attempts for 266 yards and ran for another 56 yards on 10 carries.

Also scoring majors for the Huskies were Sean Mongey on runs

of 15 and 6 yards and backup QB Scott McMenamin on a one yard plunge. David Sykes converted all seven touchdowns and connected on a 30 yard field goal.

While Flynn was leading SMU's aerial attack sophomore running back Sean Mongey was tearing apart the X-Men on the ground. The Missassauga, Ontario native racked up 155 yards on 22 carries. Mongey's job was made easy by the phenomenal blocking of the Huskies' offensive line.

"On some plays it was hard to believe how big the holes were, the O-line did a great job today," said Mongey. "I don't think we run it enough, but it's nice to know that we can fall back on the running game if we have to," said the 5'10", 185lb Arts student.

Xavier quarterback Joe Jurus had a poor outing in the face of a tenacious SMU pass rush. Jurus completed only 4 of 13 attempts for 42 yards and threw one interception before being replaced by Khan Ozol.

The X-Men did their scoring late in the first and fourth quarters. Jurus dove in from one yard out in the second quarter while Lee Hoyt hauled in a 15 yard Greg Callaghan pass with 17 seconds left in the game.

The Huskies' balanced attack accumulated 258 yards on the ground and 266 through the air. The X-Men were held to 157 passing and a dismal 63 yards rushing.

"I think they were mentally more prepared to win a football game than our kids were," said St.

Running back Sean Mongey rushed for 155 yards as the Huskies rolled past the St. Francis Xavier X-Men 52-14 in AUFC action last Saturday at Huskies Stadium. (Ken Moore Photo)

F.X. coach Mark Heidebrecht. "It seemed to me that we were a little intimidated and I don't understand why we would be, maybe it was national television. We thought we were a much better football team than we showed today. Hopefully we'll be able to turn it around and

make the playoffs."

SMU coach Larry Uteck was impressed with the Huskies balanced attack.

"I was just glad that we had a good mix on offence today. Finally everybody got to see what I've been saying all along that Sean is a really

good running back. I think he has been underutilized in our offence but he certainly showed what he can do today," said Uteck.

The Huskies resume play this Saturday when they host the winless UCCB Capers at 2:00PM at Huskies Stadium.

# INTRAMURALS

## MEN'S SOFTBALL

Results from Monday October 1st are as follows. Undefeated steamrolled the Smu Bru Cru 21-1. Undefeated hit 3 consecutive home runs in the 1st inning and never looked back. Sean Fullman and Todd Parker each hit 2 homeruns to pace the Undefeated. The Basa's took on the Big Red Machine and with the help of a two run homerun from Greg McQuarrie won 7-4. Summer Knights went down to Immigrant Posse to the tune of 9-3. Seasoned SMU veteran Rob McCarthy hit 2 round-trippers to help the Posse to victory. Blackhorse took on Cell Block C and won 13-6. Shawn Wells' first inning 2 run homerun helped spark the Horse on to triumph. John Pino chipped in a home run for the "Tank" Cell C.

In other games, the Simpsons defeated Schpoffing Men 21-9 and Rice Sux narrowly topped Bart's Boys 10-9. Dirty Sox III won 21-2 over We Suk and Chisword FA's defaulted to Sadam Hussein's All Stars.

Games were also run October 8th and the results are as follows: Flaming Smurfs 11, Hussein 7 SMU Jays 7, Chisword Fa's 0 Undefeated 16, Bookies 7 SMU Bru Cru 10, Young Guns 5 Sweaty Banshees 14, Posse 1 Politel Violent 11, Sum. Knights 1 Don't Hv'a Cow 8, Cell Block C 3 Blackhorse 9, MBA 3 Standings for this league will be printed next week.

## MEN'S SOCCER

On October 2nd, The Simpson's triumphed over the

Rangers by a score of 3-2, and the Basa's blanked the Summer Knights 7-0. Action on October 4 saw the Simpsons winning over the Oldtimer by default and the Rangers emerging victorious 4-2 over Summer Knights.

The standings for this league as of October 4, 1990 are as follows:

Team	W	L	T	P
The Simpsons	2	0	1	5
The Basa's	2	0	0	4
Benzene Ringers	1	0	0	2
Zombies	1	0	0	2
Rangers	1	2	0	2
Liverpool	0	1	1	1
Moosehead Dry	0	0	0	0
Summer Knights	0	2	0	0
Old Timers	2	0	0	0

## WOMEN'S TOUCH FOOTBALL

Action continued Wednesday as the Rice Rockettes defeated Bart's Babes 13-0 with touchdowns by Tanya Innes and Rhonda Phillips. FUBAR and 4th Loyola tied at 1-1.

The Hoisters walked over Women at Work 22-0. Scoring for the Hoisters were Jennifer Murphy with 2 touchdowns and Carla Brake with 1. The Losers...Not beat out the Rice Rockettes 12-6. The Losers...Not were aided by touchdowns from Joelle Dagley and Monique. Scoring for the Rockettes was Beth Hopkins.

The competition in this league is heating up as can be seen by the standings.

Team	W	L	T	P
Div. A				
The Hoisters	2	0	0	4

The Simpsons	0	1	0	0	MBA	2	0	0	4
Women at Work	1	1	0	2					
The Rude Dogs	0	1	0	0	Div. B				
					Simpsons (Muisse)	0	1	0	0
Div. B					Commerce Soc.	0	1	0	0
Losers...Not	2	0	0	4	Politely Violent	1	0	0	2
She-Devils	0	0	0	0	Engineering	0	0	0	0
The Rice-Rockettes					Peas	0	0	0	0
Bart's Babes						1	0	0	2

Div. C	W	L	T	P
We're Awesome				
Granny's Gals				
FUBAR				
4th Loyola				
(Ox's Fox)				

## CO-ED SOCCER

Commer Muffy' Kicker Meistr Hoot by D. defeated the Scoring for the Eng... Donald MacNeil. In other Liverpool won 2-1 against Benzene Ringers and the Oka Warriors kept the Summer Knights scoreless to win 1-0.

## CO-ED SOFTBALL STANDINGS

As of October 1, 1990, this is the way that the co-ed softball divisions looked:

Team	W	L	T	P
Div. A				
Team of Excellence	0	1	0	0
Summer Knights	0	0	1	1
Simpsons (Dugway)	0	0	1	1
The Bedspins	0	0	0	0
Simpsons (Redmond)	0	1	0	0

Div. F	W	L	T	P
Hooters	0	1	0	0
2 Rude Crew	0	0	0	0
Journalistic Integrity	1	0	0	2
AIIESEC 1 default	0	1	0	0
The Eradicators	1	0	0	2

No games were played this past weekend due to the Holiday. Play resumes next week. Good luck in all games this week.

# RECYCLING AT SMU

## Recycling Kick-Off At Saint Mary's

On Monday, October 15 the University will host a tree-planting ceremony to mark the kick-off of the Saint Mary's University recycling program. The event will begin at 10:30 a.m. near the main doors to McNally East, just across from Huskies Stadium. University President, Dr. Kenneth Ozmon, will be on hand to officially launch the program which will spread to every office and possibly many residence floors, on campus.

All members of the University are invited to

attend and are requested to bring along a box of recyclable paper, to be collected in a large Blue Barrel. This will be the first official paper collection for recycling at the University.

Following the ceremony, all department offices will be provided with Blue Barrels, from Hanna Paper Recycling Ltd. in Dartmouth. Many departments will receive desktop collection baskets and all will be asked to look for the Blue Barrels in photocopy rooms. These

barrels will serve as central collection points. Also, newspapers and corrugated cardboard will be collected in a separate bundle.

Professors, staff, and administration will be encouraged to have a personal box near their desks. Once personal boxes are filled, they can then be dumped into the department Blue Barrel. Physical Plant will be distributing the boxes to offices around campus and will be holding information sessions throughout the year about paper recycling.

### *Dos and Don'ts of Paper Recycling:*

Fill your recycling box to the top with:

Keep these out of your recycling box:

- white and coloured bond paper
- letter-head paper
- general typing paper
- photocopying paper
- computer paper and laser printed paper
- white and coloured glossy paper
- white envelopes without plastic windows or labels
- brochures and University flyers
- Envelopes with plastic windows (unless you want to remove the plastic.)
- Carbon paper
- Coloured newsprint (this includes the flyers)
- Chemically treated paper i.e. fax paper, thermofax paper, etc.
- Blueprint paper
- Kraft or Manilla envelopes (the big, brown ones)
- Cardboard and boxboard

Newsprint and corrugated paper can be recycled but must be collected separately!

## Students Interested in Recycling...

Students who are interested in recycling should contact the Students' Association, who currently operate a small-scale paper depot, or the Environmentally Concerned Students Society.

ECOSS can be reached through the student mailboxes (Mailbox #1) or by approaching a member of the society.

The University plan will not bring the residences into the recycling movement until a system for barrel placement can be devised. Individual floors who are considering some sort of plan can contact Hanna Recyclers of Dartmouth for more information.

## THINK TWICE

Reuse and Recycle.

The Clean  
Nova Scotia  
Foundation

The Ecology Action Centre focuses on the following issues. If any of them interest you, give them a call. The Ecology Action Centre may be the perfect place for you to direct your energy:

- Conservation and renewable energy policy
- Global warming
- Ozone depletion
- Air pollution
- Transportation alternatives (trains, bicycles and ferries)
- Conservation of wild places
- Recycling, waste management, and reducing consumption
- Forest issues
- Ocean, coastal management, pollution
- Hazardous wastes and toxic chemicals
- Acid rain
- Harbour pollution
- Environmental municipal planning
- Healthy agriculture practices

*Unsure of what  
can be  
recycled?*

**Special Pull-Out section!**

Call  
**Physical Plant.**

The Motto of the '90's is...

# Reduce, Re-use and Recycle

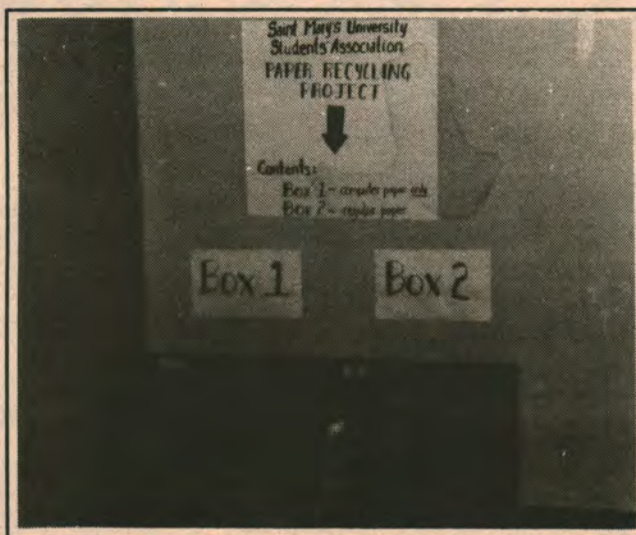

Environment Canada has established an Environmental Choice Program to help Canadians identify products (both goods & services) that are environmentally preferable. Once a product or service has been certified, it may use the EcoLogo. An independent board determines product categories and establishes the criteria that the product must meet in order to use the EcoLogo.

Buy non-hazardous or least-hazardous products, such as organically grown fruit and vegetables. Study the labels on products to help you choose.

Buy only those environmentally hazardous products you really need, and buy them in quantities you will be able to use up completely, so that you will not need to dispose of the leftovers later.

Buy the ingredients - baking soda, vinegar, lemon juice, borax, and white ammonia - to mix safe homemade cleansers.

Paper Recycling boxes are presently set up on the fifth floor of the Student Centre. Hanna Paper Recycling Ltd. is the company who picks up the paper collected

## BARREL PLACEMENT

Barrels will be placed in photocopy rooms throughout the university and in certain high-volume offices. The barrels will be emptied by Hanna Recycling, but desk baskets must be emptied into the barrels regularly.

## Tips for Shoppers

- Avoid products with excessive packaging. You'll have to make fewer trips to the curb on garbage day. Items packaged in lots of fancy wrap is often awkward to carry home.
- Buy juice in bottles instead of throw-away packages. The bottles can be used again for Kool Aid, party punch, or to store your favourite colour of Smarties!
- If you buy milk in bags, don't throw away the bags when the milk is gone. Instead, cut the top off the bag, wash it and use it again. Milk bags make great freezer bags.
- Buying in bulk saves on excess packaging. When you're done, you can re-use or recycle the bags. (The Bulk Barn has a special barrel in each store for bags to recycle.)
- Look for products that do not contain CFC's or phosphate. Many products now make a note of telling consumers, on the label, that the product is environmentally friendly.
- Look for paper products (i.e. paper towel, paper table napkins, etc.) that are made from recycled paper.

# PREPARE TO RECYCLE!

## A Dozen Great Reasons to Own an Enviro-Friendly Plastic Mug:

1. They hold two beer.
2. They have also been known to hold a triple rum and Coke.
3. They're great for dorm parties because you can carry your 'beverage' from room to room and no one will be the wiser.
4. They're small enough to hold that little cup of water needed on 'the morning after'.
5. They come equipped with those little sticky rubber things on the bottom of them for clumsy people who are constantly knocking things over.
6. They don't make that skin-crawling noise that styrofoam makes when you drink from it.
7. You can 'wow' your friends with the latest fall accessory (they do come in all your favorite colors!)
8. It's the latest thing to replace wineskins at all football games. (Not that you'd be drinking any wine or anything...)
9. They're great as a conversation piece with that certain 'someone' you've been watching from across the room! (Romeo, Romeo, art thou pro-enviro?)
10. We heard a rumour that certain varsity football players own them!
11. Bart Simpson uses one, why don't you?
12. You can pass them on to your favorite truck driver when you die.

## HOW TO GET THE MOST FROM OFFICE AND SCHOOL SUPPLIES

- Short memos can be on half a sheet of paper, not a full sheet. Short memo forms can be set up on a typewriter or word processor and photocopied.
- The first draft of all letters can be written on the back of old memos, letters, or notices.
- phone messages can also be written on the back of old memos, only cut the old memo into quarters, that way, you can write down four messages instead of just one.
- re-use as much paper as possible before putting it in the Blue Barrel. You end up getting 'more for your money', so to speak.
- all letters sent to another person on campus should be in an inter-departmental mail envelope, simply because these can be re-used many times over.
- cardboard boxes that hold stationery, etc. can be taken home by office staff and used to wrap Christmas presents or store things in, that is, of course, if you don't recycle the boxes right away.
- all departments who need to send memos can reduce the number sent to one or two and ask that they be placed in a central spot where they can be seen.
- double-sided photocopies can be made. Yes, it's a bit of a pain right now, because there are very few double-sided copiers at the University, but it's much easier to do if you copy all the odd pages (1, 3, 5...) first and then all the even pages (2, 4, 6...). You save time and sanity.
- whenever possible, use the telephone instead of sending a note or memo.
- blank sheets of computer print-out paper can be made into scratch pads
- laser printer toner cartridges can be recycled and so can some photocopier cartridges.
- pens with cartridges (i.e. a Shaeffer, not a Bic) look more distinguished and don't get lost easily because you make a point of knowing where it is.

# Why the Concern?

Why is conservation becoming one of the watchwords of the new generation? Why are more people than ever looking to the common sense of the past to solve the problems of today? Our forefathers knew that waste was a sure-fire route to ruin, and waste-not-want-not had much more meaning than our disposable society has come to understand.

In the name of the planet, and as a little eye-opener, check out these statistics on why everyone must do their part to protect the environment and the life it sustains.

An average of 143 elephants are slaughtered for their ivory tusks every day in Africa. At this rate they will be extinct in 25 years.

An average of three species of plants and animals disappears from the face of the earth every day.

The carcasses of dead Beluga whales in the St. Lawrence are so contaminated with chemical pollutants that they must be treated as toxic waste when being examined by scientists.

Of an estimated 250,000 Blue Whales that populated the southern hemisphere before commercial whaling, between 200 and 1,100 remain. Many experts believe that this remnant population is too small and scattered to make a comeback despite protection as an endangered species. The Blue Whale is the largest animal to ever inhabit the planet.

In the industrialized world, acid rain has killed 31 million hectares of trees - an area roughly the size of Saskatchewan.

Even if production and use of chlorofluorocarbons were to end tomorrow, degradation of the ozone layer would continue for a century from CFCs already in the atmosphere.

Since the U.S. Congress passed the Endangered Species Act in 1973, more than 300 kinds of plants and animals have vanished from the United States.

Eleven million hectares are cleared every year for logging.

World Wildlife Fund lists 103 Canadian wildlife species that are either extinct, endangered, or threatened.

French agronomist Rene Dumont claims that at least 1 million people died in

1988 as a result of droughts caused by global warming.

Acid rain has killed or adversely affected 150,000 lakes in central and eastern Canada.

## Community Week Celebration

Saint Mary's University will celebrate Community Week October 15-20, 1990. We invite you to join us on campus for one or all of the following events. Call our Community Week Hotline at 420-5513.

### Saturday, October 13

◆ University of Cape Breton Capers vs. Saint Mary's Football Huskies, 2 pm, Huskies Stadium.

### Monday, October 15

◆ Tree planting ceremony - 10:30 am - marking the commencement of the Saint Mary's University Recycling Program.  
◆ International Education Centre, Burke Education Building, 12-1:00 pm, Video, "Tradition and the 20th Century," bring your lunch, coffee and tea provided.  
◆ Keeping Safe, public lecture on safety procedures for women, Private Dining Room, Loyola Building, 7:30 pm.

### Tuesday, October 16

◆ International Education Centre, Burke Education Building, 12-1:00 pm, Video, "Hush of Silence," bring your lunch, coffee and tea provided.  
◆ Saint Mary's at the World Trade Centre will celebrate its first anniversary with a reception, 5:00-6:30 pm. Call 420-5638 for further information.  
◆ Fisheries Seminar Series, "Native Fisheries and Native Rights," Theatre Auditorium, 7:30 pm.

### Wednesday, October 17

◆ "The Human Face of AIDS," public lecture, 11:30 - 1:00 pm Theatre Auditorium.  
◆ International Education Centre, Burke Education Building, 12 - 1:00 pm, Video, "The Business of Hunger," bring your lunch, coffee and tea provided.  
◆ The Saint Mary's University Point Pleasant Day Care will celebrate its first anniversary. Call 425-8263 for further information.

### Thursday, October 18

◆ International Education Centre, Burke Education Building, 12 - 1:00 pm, Video, "Small Happiness," bring your lunch, coffee and tea provided.  
◆ "Seeing 'wonderful life': Field work on the Burgess Shale in the Canadian Rockies," 1 pm, Theatre Auditorium.

### Friday, October 19

◆ International Education Centre, Burke Education Building, 12 - 1:00 pm, Video, "Girls Apart," bring your lunch, coffee and tea provided.  
◆ "Keeping Safe," public lecture on safety procedures for women, Theatre B, 12-1:30 pm.

### Saturday, October 20

◆ Giant Parking Lot Sale, Gorsebrook Avenue Parking Lot, 9 am - 12 noon. The faculty, staff and students of Saint Mary's will buy and sell their "treasures". Part of the proceeds will help the Atlantic Centre of Support for Disabled Students. All are welcome. Rain date October 27. For further information, contact 420-5784.

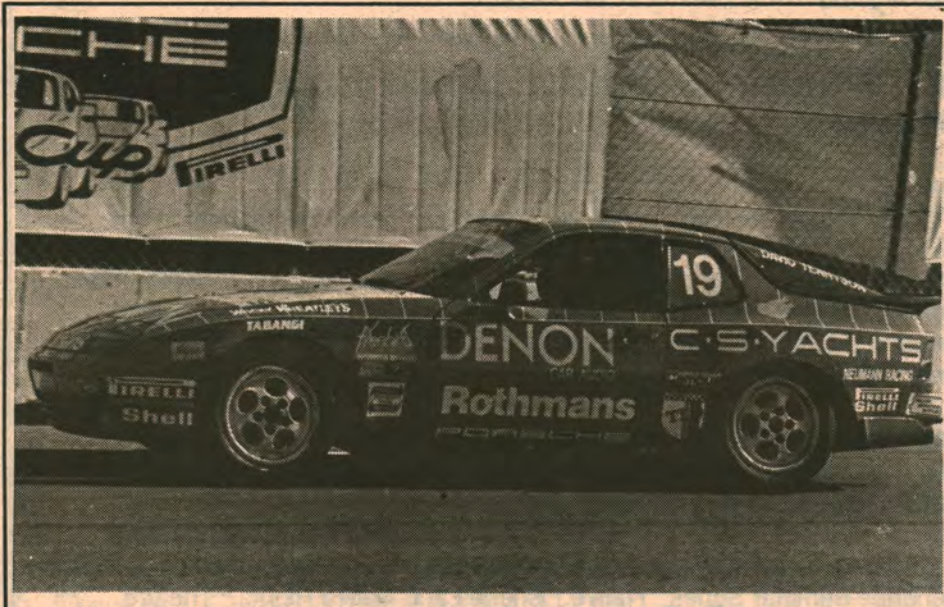

**Where Tradition Meets the Future**

# Grand Prix

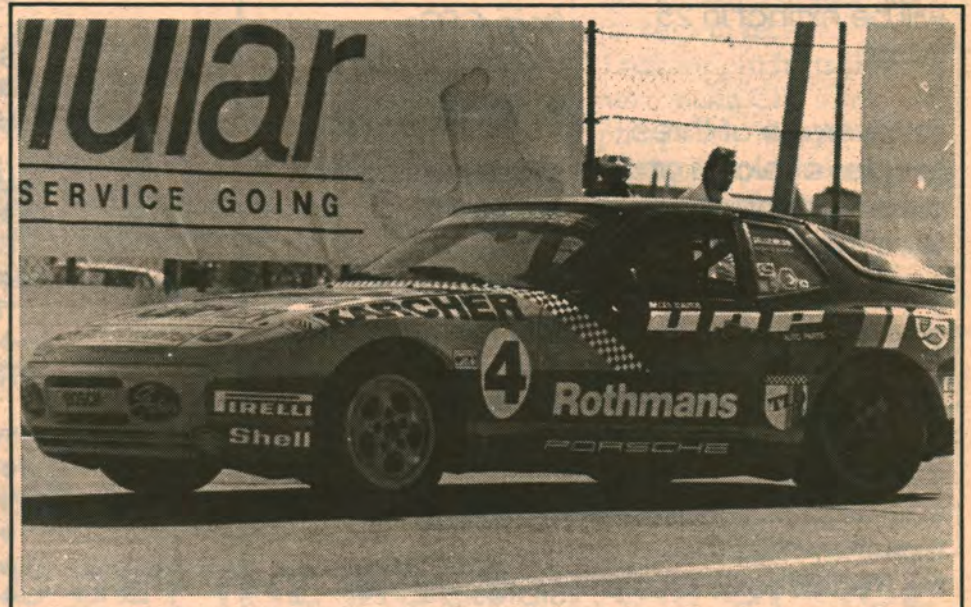

## Halifax Hosts Atlantic Canada First

Bill Temporo of Fort Collins, Colorado claimed the first Halifax Grand Prix, held this weekend.

David Tennyson of Thornhill, Ontario weathered a bizarre race to win the Porsche Turbo Cup.

After a controversial ending, Jacques Lelievre settled for second place in the Porsche Turbo Cup.

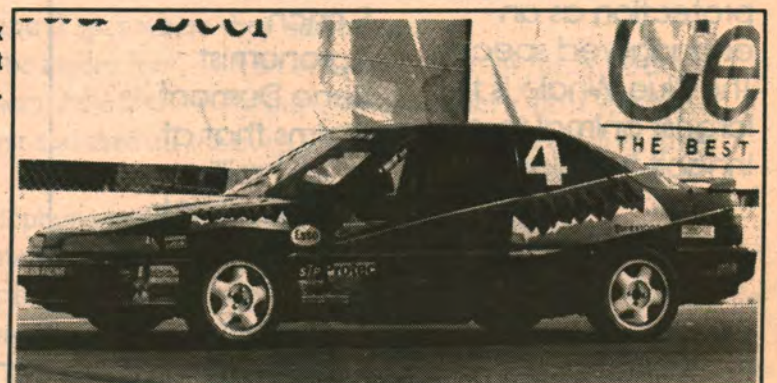

Joe Simmons of Sepulveda, California finished in the bottom of the order in the Indy Car Series.

Local Driver, Dave Smith of Bedford, Nova Scotia finished ahead of the rest to win the CASC GT1/GT2 race.

The Moosehead Grand Prix drew the best and fastest racecars in the country.

Eugene Pettipas, of Armdale, Nova Scotia drove his vintage Corvette to a fine second place finish in the CASC GT1/GT2 race.

## VARSITY ROUND - UP

The Saint Mary's men's Soccer Huskies lost a critical 2-1 decision to arch-rival Acadia last Wednesday in Wolfville.

The loss leaves the ailing Huskies with a 6-2-1 record on the season. That record is good enough for first place in the East Division but just barely.

The Huskies, two time defending AUSC champions, lead the surging Axemen by a mere point as Acadia now sports a 6-1 record on the year. Thus Acadia has two games on hand on Saint Mary's. The Dalhousie Tigers are still in the play-off hunt with a 4-1-2 record on the year. The winner of this three team dog fight not only finishes first but gains the rights to host this season's AUAA Championships. At the moment, the odds are definitely in the Axemen's favour.

Fortunately for the Huskies, the most challenging portion of the schedule is over. Saint Mary's has four games remaining in the 1990 campaign including two matches versus the last place UCCB Capers and another against the falling St. Francis Xavier X-Men.

### Women's Soccer

The Saint Mary's women's soccer Huskies lost a hard fought 2-0 decision to the nationally ranked Acadia Axettes. The loss drops the Huskies record to 3-2 on the season. Acadia remains unbeaten with a perfect 7-0 slate. No team in the AUSC has scored on the mighty Axette machine as of yet while Acadia has recorded an astonishing 40 goals thus far this season.

The Huskies will try to get some type of groove going this weekend. Saint Mary's heads north on Saturday and Sunday as they take on St. Francis Xavier and the University College of Cape Breton. St. FX is currently 2-3-1 while the Capers are 0-6-1.

### Field Hockey

The Saint Mary's Field Hockey Huskies remained undefeated this season as they narrowly defeated the improving University of Prince Edward Island Panthers last Thursday at Huskies Stadium. The win leaves the Huskies with a 5-0-3 record on the year, one point

behind the undefeated University of New Brunswick Red Sticks. The Sticks are currently riding an unblemished 7-0 record on the year.

The Huskies will face the defending conference champion

UNB squad in their final three games of the season including a critical back to back series this weekend in Fredericton. The outcome of these contests will determine the regular season champion.

Regardless of the position they finish, the Huskies will host this seasons AUAA Championships. The AUAA had granted the SMU campus the rights to host the championships before the season began.

## ELECTION RESULTS

Nova Scotia  
Foundation

## Flynn sets new CIAU passing standard

By T. Paul Woodford

Chris Flynn beefed up his claim as the best quarterback in the history of the Canadian Interuniversity Athletic Union by becoming the leader in career touchdown passes last Saturday against St. Francis Xavier.

Flynn's fourth quarter TD pass to Ian MacDonald was the 73rd touchdown toss of the fourth year pivot's career. Flynn also holds the single season record of 30 touchdown passes, set last season.

Saint Mary's offensive coordinator Bill Robinson, who quarterbacked the Huskies in the early 70's, held the old record of 72 TD tosses.

"It's been 16 years and just to hold a record for that long is a real honour," said Robinson. "To have someone who you've worked with for four years break your record is exciting, it's also nice to have two guys from Saint Mary's up there."

What is more amazing than the number of touchdown passes thrown by Flynn is the time it has taken him to accomplish the feat. Flynn has thrown his 73 aerial scores in just over three seasons (18 games). All other players close to the record took five full seasons of football to reach their totals.

The importance of last Saturday's four point game made Flynn oblivious of the record.

"I wasn't even aware that I was close until coach told me that I needed one more to tie the record," said Flynn. "If I threw three touchdowns and we lost the game, who cares."

"There always seems to be

some kind of record that comes up, but I didn't want to think about any touchdown records and I definitely didn't want to talk about it. If we had lost this game we might even have missed the playoffs, so that was the only thing that was on my mind," said the Buckingham, Quebec native.

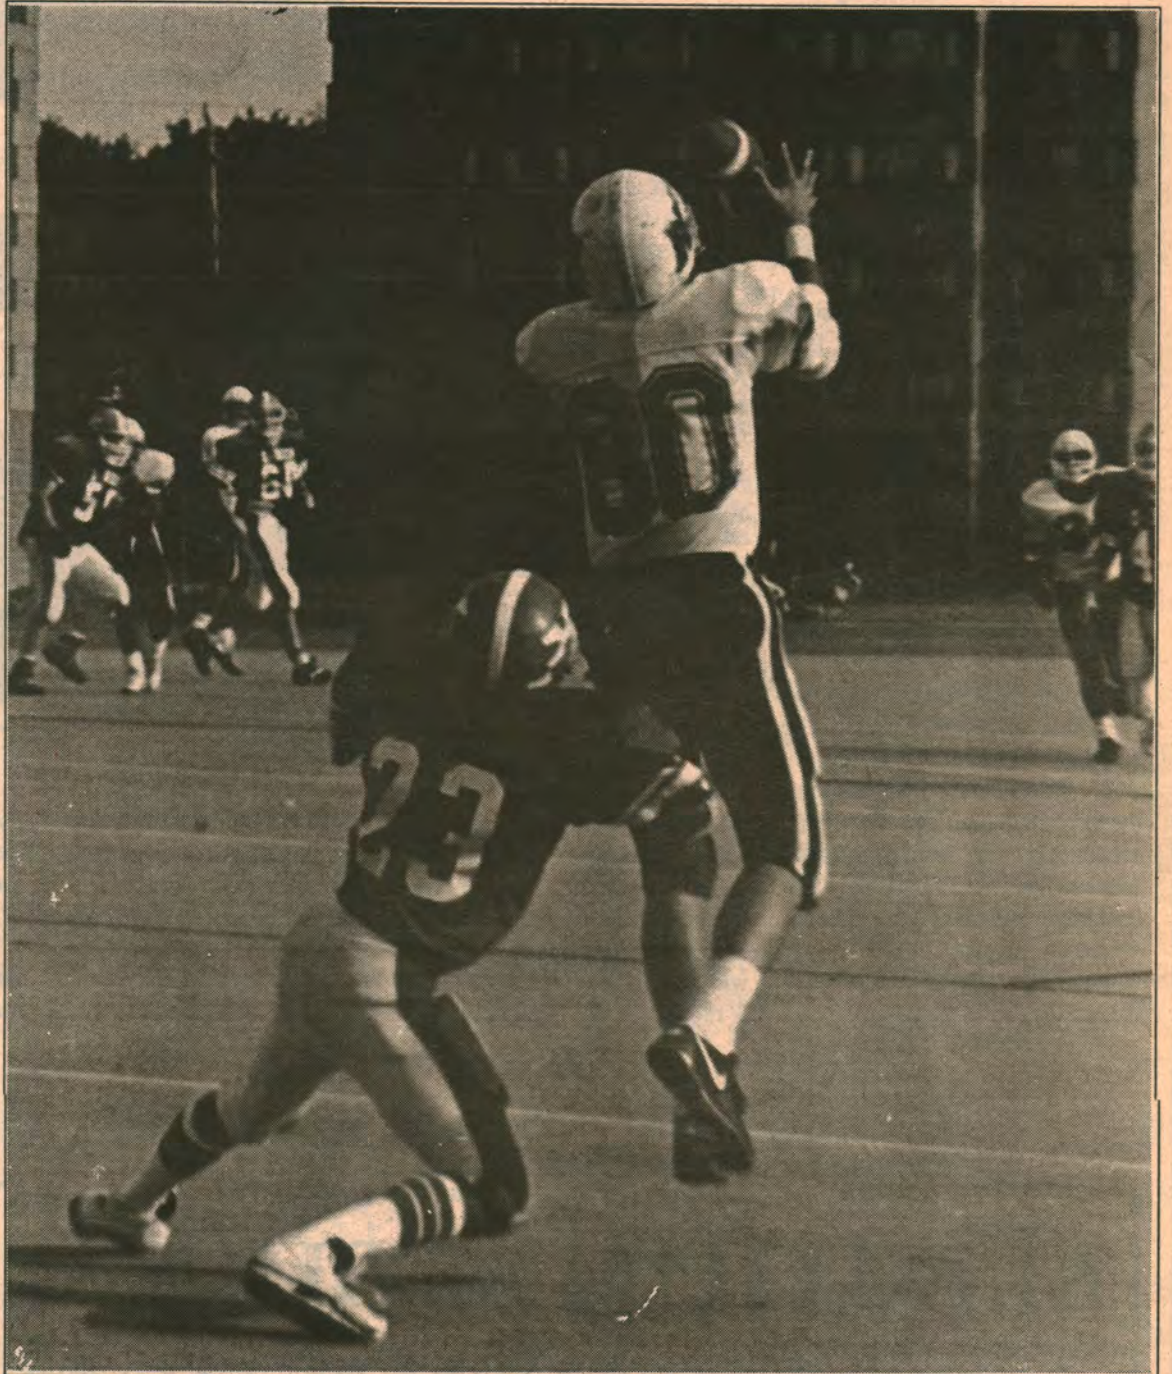

St. F.X. coach Mark Heidebrecht had nothing but praise for Flynn who has quarterbacked the Huskies to three straight AUFC titles.

"Chris Flynn is one of the best football players in the country and when he's healthy he is just unbelievable," said Heidebrecht. "He puts an unbelievable amount of pressure on the defence, not only with regards to his throwing but his scrambling ability as well."

"He has given the AUAA great national exposure for the last couple of years and that is really important for the league. He's a high profile individual and he's great for Canadian university football. I'm glad that he's in the league even though we have to play against him," said the Xavier gridiron boss.

Robinson himself had some hefty compliments for Flynn, who he has tutored for the past four seasons.

"He was a wild and scrambling type of quarterback in his first year but he has really learned to stay in the pocket in the last two years," said Robinson. "There hasn't been too many athletes like Chris around anywhere and I certainly couldn't run like Chris. That's a dimension he adds to the game and it's exciting to watch," said Robinson.

Veteran SMU receiver Ian MacDonald (80) hauled in this record setting pass from Chris Flynn in last Saturday's win over St. F.X. The pass was the 73rd TD toss of Flynn's career. (Moore Photo)

The Acadia Axettes ran their winning streak to seven games with a 2-0 win over Saint Mary's last week at Huskies Stadium. (Moore Photo)
