## The School Year Begins— New Faces on Campus

Sherman Hines

Dr. Ken Ozmon, President

Dr. Kenneth L. Ozmon assumed office as president of Saint Mary's on July 1, 1979.

Dr. Ozmon was most recently the Dean of Arts at the University of Prince Edward Island. He received his undergraduate degree from St. Bernard College, Alabama, majoring in Philosophy and History, and graduated magna cum laude in 1955. He received an M.A. degree in Psychology from Catholic University of America in 1963, and a Ph.D. in Psychology from the University of Maine in 1968. He also completed a Senior University Administrators Course at the University of Western Ontario.

Prior to joining the academic staff at the University of Prince Edward Island in 1969, Dr. Ozmon was an assistant professor at California State University. He has also held teaching

positions at Saint Dunstan's University, Prince Edward Island; University of Maine; St. Joseph's Teachers College; Thomas More Institute; Marianopolis College; St. Bernard's College (Alabama); and St. Bernard's High School in Alabama.

Dr. Ozmon has had a number of articles published and has been awarded several grants. In 1970 he was awarded a National Research Council grant to study "Retroactive Effects of Electroconvulsive Shock and Drugs on Imprinting Behaviour in Various Avian Species". He was also awarded a Science Research Council grant to study "Some Personality Correlates of Acceptance and Rejection of Change to the Metric System", and a grant from the Canadian Human Rights Foundation—"Pre-retirement Programs in Canada", and from Comserv PEI (Canada Works Program).

Dr. Ozmon is making his home in the President's House with his wife, Betty, and their two children, Angela and Kendi.

He will be officially installed as Saint Mary's President on October 12.

Although Father Stewart's face is not new to the University community, he is new to the office of Academic Vice-President.

Father Stewart has been at Saint Mary's since 1950, and has held a variety of administrative posts, including Acting President, Dean of Arts, Dean of Studies and University Librarian. For the past 16 years he has been Professor of Philosophy. He has served on practically all of the major administrative committees in the University, and has been a long-time member of the Senate and the Board of Governors.

A native of Montreal, Father Stewart holds the degrees of Bachelor of Arts (Loyola College); Licentiate in Sacred Theology (Regis College); and Licentiate in Philosophy (Immaculate Conception College).

Father William Stewart, S.J., Acting Academic Vice-President

He has published a number of articles, including "Abstraction: Conscious or Unconscious? The Verbum Articles" in *Continuum* (1964).

Keenly interested in drama, Father Stewart has been Moderator of Saint Mary's University Dramatic Society since 1965. He is a member of the Council of the Nova Scotia Drama League. He is also a member of the Board of Directors of the Bit Players (Theatre 1707), and a member of the Theatre Arts Guild. He recently completed two terms as Chairman of the Board of Directors of the Cultural Federation of Nova Scotia.

Father Stewart's appointment is for one year. He succeeds Dr. John B. Owen, who has accepted a position as Bursar, Lincoln College, at the University of Oxford in England. Dr. Owen joined the academic staff at Saint Mary's in 1973.

Dr. Mary Sun

### Top Diplomatic Post For Saint Mary's Professor

Saint Mary's University professor, Dr. Mary Sun, was appointed Sinologist at the Canadian Embassy in Peking. Her appointment became effective on July 15.

Dr. Sun, a member of the History Department and the Asian Studies Program, is the first person from Atlantic Canada, and the first woman, to hold the Peking post. Dr. Sun is also the first woman of Chinese origin ever appointed by the Canadian Government to such a high-ranking diplomatic post.

The Embassy Sinologist is the "resident expert" on China, having good general knowledge of Chinese culture, geography, and official affairs.

Dr. Sun was born in China but left with her family while still a child. Since then, she has not lived in China, but is fluent in Chinese; she visited China in 1976.

Having come to Saint Mary's University in 1969, Dr. Sun has taught in the History Department, and in 1972 she started the Asian Studies Program, the only such program in Atlantic Canada. She states that she is particularly committed to this Program, feeling that because of the importance of Asia in all aspects of today's world, students from all disciplines have reason to be knowledgeable about this vast geographic and cultural area. This strong commitment is also shown by Dr. Sun's active participation in the education programs of the International Education Centre, especially those that extend into the public school system.

The position to be held by Dr. Sun in China deals mainly with Sino-Canadian exchanges of various kinds—in education, sports, science, and so on.

## Art Gallery Appointment

Leighton Davis

The announcement of Mr. J.R. Leighton Davis as Director / Curator of Saint Mary's Art Gallery was made in May.

Mr. Davis is a recent graduate of the Nova Scotia College of Art and Design. He received his Bachelor of Fine Arts degree at the spring convocation.

Born in Winnipeg in 1941, Mr. Davis has also lived in Vancouver and Los Angeles. A former surveyor and town planner, he became a full-time artist in 1973.

He came to Halifax in 1977, and attended Dalhousie University where he took graduate courses in personnel and financial administration. At the Nova Scotia College of Art and Design he majored in lithography and art history.

As a printmaker and watercolourist, Mr. Davis is nationally known for detailed existentialistic nature studies. The theme of these studies represents a concern for the total man in an age of specialization and abstraction. Mr. Davis' work was recently organized in a one-man exhibition that toured across Canada. The seven one-man shows were organized by the Burnaby Art Gallery. Mr. Davis' work has been seen in several exhibitions while he was studying part-time to complete a degree in Fine Art.

In the Maritimes, he has had exhibitions at the Art Gallery of Nova Scotia and Confederation Art Gallery.

## Appointment Announced For The International Education Centre

Saint Mary's University President, Dr. Kenneth L. Ozmon, has announced the appointment of Dr. James H. Morrison, as Director of the International Education Centre. The appointment becomes effective on September 1.

Dr. Morrison was born in Truro and is a resident of Halifax. He received his undergraduate education at Acadia University and was awarded a Doctor of Philosophy degree in History from the University of Ibadan in Nigeria.

Dr. Morrison has presented papers on his graduate work in Nigeria, as well as "Queens County Klondyke: An Oral History of a Nineteenth Century Gold Mine in Nova Scotia", and "Through a Family's Eyes—Oral History and Geography in Newfoundland". He has written several articles on his work in Nigeria, and has completed a manuscript entitled "We've Held Our Own: An Oral and Documentary History of Northern Queens and Southern Annapolis Counties, Nova Scotia" for Parks Canada.

In 1969, Dr. Morrison was awarded a Commonwealth Scholarship to attend the University of Ibadan by the Federal Government of Nigeria. He was awarded a Canada Council grant in 1976 to carry out research with the Benue Valley Oral History Project under Professor J.B. Webster, in Nigeria.

At present, Dr. Morrison is a research historian (Oral Military History), Halifax Defence Complex, Parks Canada. He is a former lecturer in Saint

## Basketball Coordinator Appointed

Gary Heald

Gary W. Heald was recently appointed Basketball Coordinator and Men's Basketball Coach. He succeeds Brian Heaney who has accepted a position with the University of Alberta.

Thirty-nine-year-old Mr. Heald graduated from the University of Maine in 1965 with a Bachelor of Science degree in Physical Education, and he received his Master of Arts degree in Educational Administration in 1978.

From 1965 to 1967 he served as Athletic Director, Physical Education Instructor, and Basketball, Baseball and Track Coach at Potter Academy in Sebago, Maine. From 1967 to 1974 he taught Science and coached basketball and baseball at Camden-Rockport High School in Camden, Maine.

In 1974 Mr. Heald went to the University of Prince Edward Island where he taught Physical Education and coached the men's basketball team. Under his coaching, the Panther basketball program moved into the national spotlight earning tenth and sixth place Canadian rankings in 1976 and 1977, respectively. He guided U.P.E.I. to a 71-29 won-lost record in his three years as Head Coach, and received post-season honours in 1975 as Atlantic Universities Athletic Association Coach of the Year.

Since 1977 Mr. Heald had been with the Regional Administrative School Unit 3 in Prince Edward Island.

He has been a clinician throughout New England and the Maritimes, and has published several articles including "Specifics of Free Throw Shooting" and "Motivating the Athlete".

Administrative experience in the fields of Athletics and Education include Facilities Coordinator at U.P.E.I.; Director of Summer Recreation Program in Camden, Maine; Chairman of the Science Department as Camden-Rockport High School, and Vice-President of the Megunticook Teachers' Association in Camden.

At Saint Mary's Mr. Heald will be responsible for all aspects of the varsity basketball program. Brian Heaney's departure leaves two consecutive Canadian titles to build upon and realizing the challenge awaiting him, Mr. Heald says, "I am delighted to become a part of Saint Mary's University. The fine academic and athletic tradition at the University makes this a very appealing position, and my goal is the continued growth and development of the basketball program."

Robert Hayes, Director of Student Services and Director of Athletics at Saint Mary's, is extremely pleased to have Gary Heald join the coaching staff and is confident the Huskies' winning tradition will continue under his direction.

---

Mary's History Department, and taught History and English for Canadian University Service Overseas in Ghana.

Dr. Morrison has travelled extensively throughout the world. He makes his home in Halifax with his wife and two children. He succeeds Dr. Bridglal Pachai who leaves at the end of August for the University of Sokoto in Nigeria, where he will be head of the History Department.

## New Library Staff Member

Rashid Tayyeb

Mr. Rashid Tayyeb was appointed Head of Technical Services of the Patrick Power Library June 1, 1979. He brings to Saint Mary's seventeen years of Library experience.

Mr. Tayyeb received his Bachelor of Arts degree in 1960 from the University of Karachi, Pakistan. He holds the degrees of Bachelor of Library Science (1963) and Master of Library Science (1973) from the University of Toronto. He has taken several courses in computer applications in libraries, data processing and several programming languages at the University of Toronto and Windsor University.

Prior to joining Saint Mary's University, Mr. Tayyeb was Head of the Cataloguing Department at the Leddy Library, University of Windsor.

He is a member of the Canadian Library Association, Ontario Library Association, and the American Library Association. He has served as editor of *Library Scene* (Boston, Mass.) and as editorial advisor to *OCULA Newsletter* (Ontario College and University Library Association of O.L.A.). Mr. Tayyeb was recently appointed chairman of the Membership Committee of the American Library Association (Canadian region) replacing Norman Horrocks, whose term expires this year.

Among his other accomplishments Mr. Tayyeb has compiled a 'Dictionary of Abbreviations and Acronyms in Library and Information Science' which was published this summer by the Canadian Library Association.

## Faculty of Science Appointment

The President of Saint Mary's University, Dr. Kenneth L. Ozmon, recently announced the appointment of Dr. Jack L. Ginsburg as Acting Dean of Science.

Dr. Ginsburg has been a member of Saint Mary's faculty for ten years. He received his undergraduate education at Temple University in Philadelphia and was awarded a Ph.D. (in Chemistry) from Rutgers University, New Brunswick, New Jersey. He was a Post-Doctoral Fellow at McMaster University, and an Associate at the Center for Astrophysics at Harvard University, in Cambridge, Massachusetts.

Dr. Ginsburg has had numerous articles published on the subjects of quantum chemistry and chemistry in interstellar space. He has presented several papers at conferences including, "A Non-Survey Chemistry Course for Arts Students"; and "Fourier Sensitivity Analysis of Interstellar Molecule Reaction Schemes".

While he has been a member of Saint Mary's faculty, Dr. Ginsburg has been a member of Senate; several Senate Committees; and the University Review Committee. He was President of the Saint Mary's University Faculty Union for two years and until his appointment was a member of that Union's Executive.

Dr. Ginsburg is a member of several professional organizations and is Vice-President of the Nova Scotia Confederation of University Faculty Associations.

## Saint Mary's Professors and The Gathering of The Clans

The Pugwash Thinkers' Conference, held at the Cyrus Eaton Lodge from June 28 through July 1, was one of the feature events of both the local and international "Gathering of the Clans" for 1979. The Conference Program, entitled "The Scottish Role in the Development of Canada: A Retrospective and Prospective View", included not only academic papers on religion, politics, education, literature, business and labour history, but also dramatic readings, receptions, tours, and a church service. In spite of the death of Mr. Eaton, the Pugwash-born industrialist, on May 9, 1979, the Conference organizers, Dr. W.B. Hamilton (Director, The Atlantic Institute of Education), Dr. John Reid (Mount Allison) and Dr. Greg Gass (Mayor of Pugwash) pressed ahead with plans to invite over 40 participants, both Scottish and Canadian, including a number of academics involved in Scottish-Canadian studies.

Two Saint Mary's professors, Dr. Dan MacInnes, Department of Sociology; and Dr. Ken MacKinnon, Department of English; took part in the formal academic sessions of the Thinkers' Conference Program. Dr. MacInnes, Coordinator of the Atlantic Canada Studies Program at Saint Mary's and President of the Canadian Association for Scottish Studies, gave the response to the paper delivered by Don McGillivray (College of Cape Breton) on the Scottish factor in Canadian labour. Dr. MacKinnon gave a paper on the Scot in Canadian Literature, with Robert Campbell of the Department of English, University of Prince Edward Island, making the response. Other Halifax-area people participating in the conference included Dr. Greg Kealey, Graham Whitehead, Dr. D.M. Sinclair, and Dr. Helen Creighton.

Prior to the Pugwash Conference, Dr. MacInnes organized the program for the spring meeting of the Canadian Association Studies at Saskatoon, and Dr. MacKinnon gave a paper there on Scottish tradition in Maritime literature on June 1. Later, in July, Dr. MacKinnon was co-director with Professor Robert Campbell of the University of P.E.I. of the seventh Summer School of the Atlantic Canada Institute. Three one-week programs were once again offered by the Institute, running from July 9 through July 30. Dr. Dan MacInnes gave a series of five lectures on the Nova Scotia Scots in the third week, the feature presentation of the Institute's week-long focus on the Maritime Scots. Lou Collins, Halifax's well-known civic historian, also participated in the Summer School, as did fellow Haligonians Tom Lackey and Neils Jannasch (of the Nova Scotia Museum, lecturing on folk art and The Sea and Ships respectively), Marjory Whitelaw, broadcaster (on Thomas McCulloch and Lord Dalhousie), and architect Allan Duffus (on restoration of historic buildings).

## TOP DIPLOMATIC POST FOR SAINT MARY'S PROFESSOR

Continued from page 1

She hopes that more involvement of Atlantic Canada in these exchanges can be achieved. In the past, such exchanges have tended to concentrate on the West Coast and Central Canada.

In an interview for the *Hong Kong Standard*, she admitted she had to be exceptionally cautious in her work because any failure on her part could spell doom for prospective Canadians of Chinese origin wanting diplomatic posts. She pointed out that she felt an "extra burden" because everyone in Canada was looking to her to see what a "first generation" immigrant could achieve for the country.

While Dr. Sun expects the work in Peking to be demanding, it will afford some opportunity for travel within China (as part of the job); further, she feels that living in China will be an invaluable educational experience in itself and that she will have greater access to resources potentially useful to the Asian Studies Program.

Dr. Sun's contract is for one year, renewable for a second year. Upon completion of her term in China, she will return to Saint Mary's.

## "A Hospital for Paintings"

The Art exhibition, "Eight Contemporary Romanian Painters", will open at Saint Mary's Art Gallery as previously scheduled on September 18. The exhibition will be officially opened by His Excellency, Mr. Barbu Popeacu, the Ambassador of the Romanian Embassy in Ottawa.

The paintings arrived at the Halifax International Airport from a previous exhibition in Mexico, and apparently were left outside the warehouse during a rainstorm. The 14 crates of paintings and two crates of catalogues arrived at Saint Mary's University in severely water-damaged condition. The paintings were given emergency treatment upon instructions from the Canadian Conservation Institute in Ottawa. The backs of the paintings had to be sprayed to arrest a mould growth, and then the paintings were laid flat to prevent further paint loss.

Mr. Peter Vogel, of the Canadian Conservation Institute, flew to Halifax to assess the damage. Nine of the 53 oil paintings were in need of urgent restorative work. The Saint Mary's Art Gallery was turned into a "hospital for paintings". Restorative work is well underway, and Mr. Vogel is confident that the process will be a success. The paintings have been kept under constant surveillance, and the temperature and humidity strictly controlled. A number of fans were brought in to aid in the drying process and to circulate the air.

In some cases the water had become trapped between the canvas and the surface paint, changing the refractive index, which resulted in the paint appearing to be very faded, and colourless. When these paintings were treated, the colours reappeared as the trapped water was released. This is just one example of the processes involved.

Peter Vogel of the Canadian Conservation Institute at work in the "hospital".

The restorative work will be completed in time for the opening on September 18. The Art Gallery is located in the Loyola Building, and the time for the official opening is 8:30 p.m.

## Chinese Students Visit Campus

Three students from the People's Republic of China studied at Saint Mary's University during the summer session. They attended Saint Mary's under the auspices of the Social Sciences and Humanities Research Council. Photographed during a welcoming reception at the University's International Education Centre are, left to right, Miss Wang Chi-hung, Miss Ting Ching-ping and Miss Fu Shou-chao.

# Where the Journey Begins ...

## Orientation '79 September 4-9

### MONDAY, SEPTEMBER 3: INFORMAL MOVE-IN DAY

7:00 p.m.  
Meeting of Student Aides—SRC Offices, 5th Floor, Student Centre

### TUESDAY, SEPTEMBER 4: ORIENTATION BEGINS

9:00 a.m.- 5:00 p.m.  
Freshman Residence Move-In Day

11:30 a.m.- 5:00 p.m.  
Information Alley—in the colonnade of the Loyola Building—Police Department, Fire Department, Student Travel, Blue Cross, Royal Bank, and much more

8:30 p.m.-12:30 a.m.  
Newman Society Coffee House—Residence Cafeteria (coffee, donuts, live music)

### WEDNESDAY, SEPTEMBER 5: ACADEMIC DAY

8:30 a.m.-11:00 a.m.  
President's Breakfast—ALL FRESHMEN URGED TO ATTEND (commuting students sign in; residence students bring meal cards)—Multi-Purpose Room, Room L230, Loyola Building—  
Speeches and Introductions—10-11 a.m.

11:00 a.m.- 2:00 p.m.  
Campus tours and lunch (tours start from Multi-Purpose Room)

2:00 p.m.- 3:30 p.m.  
Faculty Advisory Sessions:  
Commerce—Room L172,  
Arts—Room S310,  
Science—Room L247

3:30 p.m.- 5:00 p.m.  
Afternoon gathering—refreshments served—COME MEET YOUR PROFESSORS!!—Theatre Auditorium, Administration Building

8:00 p.m.- midnight  
Movie Night—Tourist films, information films—FEATURE MOVIE: "Every Which Way But Loose"—Theatre A, Burke Education Centre

### THURSDAY, SEPTEMBER 6: REGISTRATION DAY

9:30 a.m.-11:30 a.m. } Registration and  
2:00 p.m.- 4:30 p.m. } payment of fees  
7:00 p.m.- 8:30 p.m. }

7:00 p.m.- 8:30 p.m.  
Corn boil—on the field behind Huskies Score Board

8:30 p.m.- midnight  
Quiet Evening—Reception in Room 300, Student Centre—ALL ARE WELCOME! (munchies, music, films and slides)

### FRIDAY, SEPTEMBER 7: ROAD TRIP

9:15 a.m.- 5:30 p.m.  
Annual Risser's Beach Trip—Bus leaves at 9:30 a.m.—meet in colonnade, Loyola Building—Bus returns at 5:30 p.m.

8:30 p.m.- 1:00 a.m.  
Disco Night—Student Centre Cafeteria—Dance the night away!!—Cost:\$2.00—AGE I.D. REQUIRED

### SATURDAY, SEPTEMBER 8: SLEEP-IN TILL 11 A.M.

12:30 p.m.- 6:30 p.m.  
Lunenburg Bus Trip—Fisheries Exhibition—Live Outdoor Entertainment—Irish Rovers—Squid Jigger—and more! Bus leaves at 12:30 p.m.—meet at 12:15 p.m. in colonnade, Loyola Building—Bus returns at 6:30 p.m.

8:30 p.m.- 1:00 a.m.  
Nova Scotia Entertainment at its Best—Orientation Bash, Numero Uno!!—Multi-Purpose Room, Room L230, Loyola Building—Cost:\$3.50—AGE I.D. REQUIRED

### SUNDAY, SEPTEMBER 9: FREE DAY

7:00 p.m.- 8:00 p.m.  
Ecumenical Community Church Service—Canadian Martyrs' Church—ALL ARE WELCOMED.

8:30 p.m.- midnight  
Coffee House in Residence Cafeteria

Note: re age I.D. requirement—persons under the legal age of 19 years will be admitted but will not be allowed to consume alcoholic beverages.

## Saint Mary's Mathematicians Tops in Maritimes

In the 39th William Lowell Putnam Mathematical Competition, held in the 1978-79 academic year, Saint Mary's University was, again, well represented.

This competition involved 2,019 students from 339 colleges and universities in Canada and the United States. There were team entries from 246 schools.

The team from Saint Mary's stood among the top third. It was comprised of Jim Loveys of Gander, Newfoundland; John McDow of Stellarton; and Doug O'Hearn of Lower Sackville. The Saint Mary's team placed first among Atlantic Canada entrants.

The competition takes the form of a six-hour examination. The problems are normally very difficult, as evidenced by the fact that in this year's competition a score of better than 10 out of 120 would put a contestant in the top 50%.

Of the individual competitors, Jim Loveys placed highest for Saint Mary's with a score of 17, ranked 455th out of 2019.

Other individual competitors from Saint Mary's were Mike Ward from Vernon, B.C.; Paul Muir of Trenton, N.S.; Johan Koppernaes, Bedford, N.S.; Keith Loveys (Jim Loveys' brother); and Kok Thye Tan and Choong Peng Au-Yong, both of Malaysia.

The winning team was entered by Case Western Reserve University, while the top Canadian entry was the University of Waterloo team which placed third. The top individual was a student from the University of California, Berkeley, with a score of 90 out of 120.

## Rhodes Scholarships for 1980

Eleven Rhodes Scholarships are now open for Canadian students and will be awarded late in November. Applications must be in by October 25, 1979.

These Scholarships are tenable at the University of Oxford, England, and the value is £3,600 per year. They are granted for two years with the possibility of a third year. Scholars may follow courses of study of their own choice. They are required to go to Oxford in October of 1980.

Selection is made on the basis of school and college records without written examination. The qualities which will be considered in making the selection are: literary and scholastic attainment; fondness and success in outdoor sports; qualities of truthfulness, courage, devotion to duty, sympathy for and protection of the weak; kindness, unselfishness and fellowship; exhibition of moral force of character and of instincts to lead and to take an interest in one's contemporaries. Qualities of both character and intellect are the most important requirements for a Rhodes Scholarship and these are what the Selection Committee will seek. Financial need does not receive special consideration.

The eleven Scholarships are allotted, three to the Western Region (Manitoba, Saskatchewan and Alberta), two to each of Ontario, Quebec and the Maritime Region (New Brunswick, Nova Scotia and Prince Edward Island), and one each to British Columbia and Newfoundland.

For further information, contact the Financial Aid Office, 4th floor, Student Centre, Saint Mary's University.

## Exceptional Student Honoured

At the spring Convocation an exceptional student was honoured. With a special, public acknowledgement, the late Reverend David Mackay Nimmo was posthumously awarded the degree of Bachelor of Arts.

While the posthumous awarding of a university degree is reasonably uncommon, it is the nature of this particular degree and the student himself that are exceptional.

Reverend Nimmo began his studies at Saint Mary's at the age of 66 years. In the words of Dr. T. Musial, Saint Mary's Dean of Arts, "The completion of his degree requirements became a compelling objective in his life. Indeed, the completion of his degree requirements became one of the final achievements as Reverend Nimmo died on April 6 at the age of 70. There are few people . . . who have shown greater devotion to learning or to the achievements of the mind."

The degree itself was the highest undergraduate degree that Saint Mary's University can offer—Combined Honours with First Class Distinction. The Combined Honours were in English and French.

Reverend Nimmo was born in New Jersey and was a Church of Scotland and United Church of Canada minister for 40 years. He was a former minister of Port Hood United Church, Cape Breton.

## Library Slide Show

During the 1978-1979 academic year the Library's slide show was viewed by over 1,100 students and faculty members. "Excellent", "superb", "very effective" were some of the phrases used by faculty members and students to describe the show.

The Library has updated the show and will be using the revised version in the University's orientation program this fall. Plans are underway to show the presentation on a large screen in the lobby during the "Coffee stop in the Library"—a scheduled stop during the campus tours on September 5.

The presentation is an introduction to the Library and its services and it is recommended viewing for any potential library user. Anyone wishing to see the show may contact any staff member at the Information Desk or call Administration Local 187. The Library will be happy to arrange showings for groups or individuals. Groups as large as 60 can be accommodated in the Library's Conference Room. For larger groups, the show can be taken to any classroom.

## Library Instruction for Your Class

The Patrick Power Library offers instruction to students who will be required to use the Library to complete a class assignment. The sessions are designed to teach students how to find information in specific disciplines. On request, the Library staff will tailor a session to the needs of a particular class and guide students to the most useful sources of information related to assignment.

Last fall, 274 students participated in library instruction sessions. The sessions were designed for classes studying such diverse fields as environmental chemistry, urban sociology and financial accounting.

If you have any questions about library instruction sessions or would like to arrange one for your class, inquire at the Information Desk or call Administration extension 187.

# How Times Change ...

Paul Gouett received a B.A. from Saint Mary's in 1966; a B.Ed. from Queen's University, and an M.A. in Education in 1978. He describes the life of a guileless freshman in the '60's.

When people see my graduation ring from Saint Mary's they invariably ask, "When did you go there?" It seems that everybody's brother went to Saint Mary's! However, if I were to choose a more difficult question that is often asked in my "adult life", it would have to be, "How did you end up way down here?" The "down here" is, of course, the Maritimes. The unspoken but implied "up there" is Ontario.

My answer is always the same, "it's a long story!", but it does go on from there. For those with the curiosity to endure, here it is: In 1966, in all my juvenile naivety, I bid a tearful farewell to "the Soo" and headed East for Halifax. I felt like Marco Polo, but my plan was different. Mine was to get to Europe. I mentioned naivety because, looking back, that's exactly the main characteristic that I exhibited: I presumed that all I had to do in a seafaring town was go to "the" dock and sign on as cabin boy aboard some foreign vessel bound for a mysterious port "over there". You could easily work passage and perhaps even get Joseph Conrad as a cabin-mate! Unions, experience, passports, inoculations or the mere fact that I was a greenhorn kid from the bush, never really occurred to me.

My initial plan did not, of course, work out, but I did find myself filling out applications at the two universities in town, Saint Mary's and that other one. It was probably too late for official admittance, being early September, but, as was his way, Kevin Cleary (then Registrar) took a chance on me anyway. I soon found myself as a post-secondary Freshman and a pre-college Slave! To explain so "contraemancipation" a phrase, it was the time of year when Freshmen students were auctioned off to the highest bidding Upper Classmen. There was some dubious merit cited for this archaic business practice, but I never did figure it out! An Upper Classman who had purchased your services could make you chew cigarette butts, make you do 100 pushups or any other initiation rite of the Green Berets that suited his fancy. If you were unfortunate enough to go from the block to a conglomerate of "The Elders", you could end up doing chores for each one of your shareholders. Such was the task of a mid-60's Freshman.

It was not until after this gem of an initiation, when I cleaned the peanut butter out of my ears and the stale beer splashes from my glasses, that I took note of where I was: I was on a university campus that had 3 buildings and a rink! There was the Administration Building which held the cafeteria, a residence for students, one for the Jesuits, the classrooms, all the prof's offices, a chapel and the gymnasium. All under one roof! Obviously enough, it was fondly called, "The Main Building". There was the presumptuously-called, "Bio-Chem Building", two stories of blueprints and last, but not least, that "piece de resistance", the "Library"! Rumour had it that one corner was built over a spring and had to be constantly pumped. As a matter of habit, I searched in vain for a girl's dorm . . . "Say what? Girl's dorm! You must be nuts, Freshman! Ain't no girls around here!" . . . I had been tricked. Saint Mary's was in no way related to its namesake in South Bend, Indiana! The writing was on the wall. Celibacy had been imposed on me.

If this in itself was not so mind boggling, I'm sure I would have been completely floored by the next discovery. It stemmed from the origin of my birth. My parents had been long married prior to my arrival so I knew that it had nothing to do with them. I will explain the dilemma I found myself in: When asked by a fellow student and native Nova Scotian where I was from, I promptly replied, "Sault Ste. Marie." When further asked where, in fact, that was, I replied with grace, "Northern Ontario". The response I received was certainly a surprise to me, "Oh, Upper Canadian, eh?" . . . I had heard the term before in gradeschool history but had filed it, and Lord Durham, away in that seldom-used category, Trivia. Who referred to Ontario residents as Upper Canadians anymore? . . . Obviously, I had found the answer.

Saint Mary's Campus in the 60's

But close to the hearts and throats of Santamarians was the shirt-and-tie regulation. You could always tell who the Freshmen were because we were the ones with the clean, white shirts and neatly knotted ties. Upper Classmen were the ones wearing the crumpled plaid shirts and the coffee-stained striped ties. It did, however, make fine gentlemen of us all . . . well, some of us, anyway . . . come to think of it, I don't know anyone who developed those characteristics from a Windsor knot.

For the first-year student, especially the ones from out of town, their new home-away-from-home was perhaps the greatest treasure of all. The old residence, the North wing of the "Main Building", was as strange a place as ever graced a college campus. Though always clean, there still seemed to me to be the lingering odour of a mysterious sweat sock. Beer was strictly forbidden, but always made its appearance in the form of empty bottles littering the foot of the residence wall. In the spring, when snow melted away with squandered finances, shrouded figures could sometimes be seen collecting their potential revenue for "the Nelson".

My first encounter with the "phantom flame" was the most lasting impression I have of the old residence. To explain the term, "phantom flame", I can only tell you that sometimes, when you tried to sneak out of residence in the dead of night, a ghostly glow in minute form could be seen at the

end of the corridor. It frightened me so much when I first saw it, that I withdrew to my room in a flash. On questioning a senior student as to the origin of this eerie phenomenon, I was told that it was one of the tongues of fire of the Holy Ghost. I repeated the story to a friend who gave me the true lowdown. The glow was actually brought about by the presence of the spirit of a former Saint Mary's student who had unsuccessfully tried to sneak out of residence. The truth was dubious to me, but I did not want to risk its authenticity. It was not until months later that I finally found out that it was actually the glow from Father Hennessey's cigarette as he stood in the darkness, hands clasped behind his back, keeping an eye out for truant students!

These are only a few of the many and varied things that made my entrance into the field of higher learning so enlightening. Other instances like pantie raids on the Dal ladies residence, beating curfews at the Mount, reverie at the Lord Nelson Beverage Room, seeing Jim Daniels single-handedly beat St. F.X. on the basketball court, deserve just as much attention. I was exposed to the off-campus dens of older and wiser students, learned to say "cool", the 60's equivalent of "far out", was taught the merits of brogue shoes, cuffed pants and button down collars and even learned to sing, "It's A Grand Old Flag". Some of the lessons I learned, the growing up strategy of the mid-60's, had a bitter taste, but even now, its memory is sweet.

## Saint Mary's Represented in Hawaii

Four professors of the Saint Mary's University Faculty of Commerce were invited to present research papers at the International Conference of the Institute of Management Sciences in Honolulu, Hawaii, recently.

Professor Nathan D. Kling, from the Faculty's Marketing Department, reported on his research on left-right dominance of the brain and its influence on a person's decision-making. "Self-insight Into Decision Processes: Effect of Lateralization of Cerebral Functions and Relative Hemispheric Dominance" was the title of his paper.

Professor Frederick C. Miner, Management, drew on his experience as a consultant to talk about "The Effectiveness of Outside Consultants in Dealing With a High Quality-High Acceptance Problem".

Professor Harold J. Schroeder, Management, who is involved in research on Canadian Business Policy, presented a paper entitled "Corporate Policy in Canada: Its Basis and Impact on Some Social Values".

Professor Hermann F. Schwind, Management, who is presently researching Performance and Training Evaluation, discussed "The Relevancy of Trait Versus Behavior Criteria for Performance Appraisals".

Saint Mary's was the only Canadian university at the international meeting represented by four faculty members.

### I.D. Cards

Initial fee for card	\$2.00
Replacement fee	\$5.00

No card will be issued or validated without your registration form.

A replacement card costing \$5.00 will be issued with a photocopy of the registration form or with a form stamped "I.D. ISSUED".

New Faculty and staff require authorization from Dean or Department Chairman, or Supervisor to obtain a card. Authorization forms are available only in the Circulation Department of the Library.

# Saint Mary's Faculty Receive NSERC Grants

Natural Sciences and Engineering Research Council (NSERC) grants amounting to one hundred and twenty-one thousand, two hundred dollars (\$121,200) have been awarded to Saint Mary's University Science faculty for 1979-80. Such grants were formerly administered by the National Research Council of Canada (NRC).

The largest single grant, worth twenty-two thousand dollars (\$22,000), went to Dr. J. Dostal of the Geology Department. Dr. Dostal's work deals mainly with study of the geochemistry of various kinds of rocks. Dr. C.A. Albuquerque, also of the Geology Department, received a grant of seven thousand, two hundred dollars (\$7,200).

Faculty members of the Saint Mary's Astronomy Department received a total of thirty-three thousand, eight hundred dollars (\$33,800). The largest portion of this total is a team grant to Astronomy's Dr. G.F. Mitchell and Dr. J. Ginsburg of the Chemistry Department. Their research is theoretical study of formation of molecules in interstellar space, combining expertise from the fields of astronomy and chemistry. Part of the work takes place at the Jet Propulsion Laboratory in Pasadena, California. Dr. D. DuPuy, Director of Saint Mary's Burke-Gaffney Observatory, has a grant to continue his work in the study of star clusters and the structure of our galaxy, the Milky Way. Astronomy Department Chairman, Dr. G. Welch, also received a grant to support research projects dealing with clusters of galaxies, the kinds of

stars that make up different galaxies and how the formation processes differ from galaxy to galaxy.

Four professors of the Chemistry Department received grants totalling thirty-eight thousand, five hundred dollars (\$38,500). Recipients include Dr. D.J. Phelps whose research will deal with the critical chemical transfer process of the genetic code, called translation. A model of the translation will be produced which can be more easily studied by biochemists and biophysicists.

A grant of five hundred dollars (\$500) will go towards travel expenses in the research on lubrication of rock drills by Dr. W.P. Boyle, Division of Engineering, while he is on sabbatical in Capetown, South Africa.

Of the total grant money of ten thousand, five hundred dollars (\$10,500) going to Mathematics Department faculty, the largest single grant goes to Dr. D.G. Kabe for his research in statistical methods in mathematical programming. Some parts of the work are already published (in collaboration with Dr. P.F. Scobey) in *Industrial Mathematics*.

Psychology professor, Dr. H.W. Chang, will receive a grant of eight thousand, eight hundred dollars (\$8,800) to study auditory stimulus complexity as a determinant of infant attention.

The total value of the NSERC grants for 1979-80 of \$121,200 represents an increase of twenty-five percent over last year's total.

## Noteworthy Notes

DR. PATRICIA CONNELLY (Sociology) was co-chairperson with Father Malcolm MacDonnell, Commissioner of the Canadian Human Rights Commission, of a conference on "Human Rights and the Workplace—Institutional Discrimination in Employment", held June 22-24 at the University of New Brunswick. The conference was sponsored by the Canadian Human Rights Commission.

DR. JOHN R. MacCORMACK (Institute of Human Values) has been invited to attend a one-day workshop of Directors of Institutes of Ethics and Values at Westminster College, University of Western Ontario, on September 28.

PROFESSOR ROD SYKES (Philosophy) received his Doctorate (D. Phil.) from the University of Oxford in June. He leaves this fall for Emmanuel College where he will study for his Master of Divinity degree.

DR. KEITH VAUGHAN (Chemistry) was elected to the Fellowship of the Royal Institute of Chemistry, effective May 11, 1979. As a Fellow of the Institute, he is entitled to use the designatory letters "C. Chem., F.R.I.C." (C. Chem.—Chartered Chemist). The fellowship is the senior membership grade of the Institute recognizing maturity and senior responsibility in the practice of the profession.

DR. VAUGHAN attended the Fourth Lakeland Heterocyclic Symposium of The Chemical Society (London), in Grasmere, England, May 10-14.

DR. VAUGHAN presented two papers at the 62nd Chemical Conference and Exhibition of the Chemical Institute of Canada which was held in Vancouver June 3-6: "The Correlation of Structure and Anti-Tumor Activity of Monoalkyltriazenes" (co-authors J.A. Hickman and M.F.G. Stevens) was presented at the Medicinal Chemistry Symposium; and "13 C and 1H NMR Spectra of Hydrazones in Solution" (co-author D.L. Hooper) was presented at the Organic Chemistry Symposium. He also presented a paper entitled "University First-Year General Chemistry By the Keller Plan (PSI)" at the 3rd International Conference on Chemical Education, at Trinity College, Dublin, Ireland, August 27-31.

## Faculty Publications

HARI DAS (Management) and Mallika Das, "One More Time: How Do We Put a Value Tag on Our Employees?", *Human Resources Planning*, 1979 (in print).

HARI DAS (Management), "Impact of Crisis Situations on Organizational Decision-making", *Indian Journal of Industrial Relations*, October 1979 (in print).

J.M. MOORE (Library), "On-line users' group: five years experience". Presented at the 8th Mid-year meeting of the American Society for Information Science, Banff, Alberta, May, 1979.

KURIAN K. THOMAS (Biology), "Isolation and Partial Characterization of the Haemolymph Lipoproteins of the Wax Moth, *Galleria Mellonella*", *Insect Biochem.*, Vol. 9, 211-219, Pergamon Press Ltd. 1979.

## Saint Mary's Faculty Women Elect Officers

At its annual spring tea, the Saint Mary's University Faculty Women's Association elected Anne Jopling as President for the 1979-80 academic year.

Other executive officers elected were: Ann Cameron as Secretary, Doris Sanborn as Treasurer, and Pat Erickson as Social Convenor. Elizabeth Chard, Nancy Jabbra and Nancy Lowery were elected as members-at-large.

Convenors of the Association's several interest groups were also elected for the new year. Dorothy Perkins will convene the Book Discussion group; Peggy McCalla will coordinate Couples Bridge; Nancy Weeren, Cooking; Jeanine Batiot, French Conversation; and Ketty Rojo, Stitch and Chat.

Also at the annual spring tea, it was announced that the Association would make donations this year to support two of the University's programs.

Mrs. Phyllis Owen, the outgoing president of the organization, announced that a \$100 book prize would be awarded at the beginning of the new academic year to a third-year Saint Mary's student. This amount is double the size of the award presented last year.

The presentation of a cheque to the Saint Mary's students' KAMP program was also announced.

Monies for both of these awards were raised by the Faculty Women's Association through sales at their fall boutique and from their spring sale of baked goods and new-to-you items. These activities also provide a service to the University community by offering original and quality items at low cost.

Saint Mary's Faculty Women's Association Executive Officers: (left to right) Ann Cameron, Secretary; Nancy Jabbra, Member-at-Large; Anne Jopling, President; Patricia Erickson, Social Convenor.

## Notes From The Library ...

### FASTCAT—New Cataloguing System at Library

The Cataloguing Department of the Patrick Power Library has initiated fast cataloguing procedures designed to speed up the processing of new books. Staff will continue to catalogue fully the vast majority of newly-received materials. The FASTCAT system will be used only to process items for which complete cataloguing data is not readily available. The new procedures will enable the Library staff to prepare many books for circulation which are now relegated to back-log shelves.

Fast cataloguing books are easily recognizable. They are shelved on the third floor of the library on stacks located between the last section of periodicals and the Dewey classified books. FASTCAT books have distinctive spine labels on which the call number is found. The first line of the call number is the word "FASTCAT"; the second line is a letter or letters taken from the Library of Congress classification system, and the third line is a number.

e.g.: FASTCAT  
GN  
23

The second line is probably of greatest interest to library users. Books ordered by each Academic department at Saint Mary's are assigned the letter or letters in the LC classification system used for

a similar subject area. For example, FASTCAT books ordered for the Chemistry Department will have the letters QD for the second line of their call number. Most regular library books in the subject area of Chemistry, fully catalogued and classified according to the LC System, have the same letters, QD, as the first line of their call numbers. Similarly, FASTCAT books ordered by the Anthropology Department will be located in the GN section of the FASTCAT shelves, the same place where most books in the field of Anthropology are found in the regular LC stacks on the second floor.

The library staff hopes that this arrangement will encourage users to browse in the subject areas of their interest. Lists of the subject areas and corresponding letters can be found at various points in the building. Periodic browsing in the appropriate parts of the FASTCAT stacks can alert a faculty member to material not completely accessible through the main card catalogue.

With the help of the University Computer Centre, the library hopes in the near future to produce a printout of author, title and call number of the FASTCAT items. This would greatly increase their accessibility to users.

For assistance please call Administration 186 or 187.

## Computer Search Services

The Patrick Power Library has access to over 100 data bases made available through CAN / OLE, DIALOG, ORBIT & QL Systems. A computerized literature search can provide a list of recent articles, reports or books on almost any topic.

Effective September 4, 1979, computer search services will be available to Saint Mary's University faculty, students and staff at the following rates:

- STANDARD SEARCH** — flat fee of \$7.00  
—one data base searched  
—up to 10 descriptors searched  
—choice of output:  
15 citations printed here on our terminal immediately  
50 citations printed off-line at the computer site and delivered by mail usually within 10 days  
100 abstract numbers printed here on our terminal immediately
- SPECIAL SEARCH** —fee—actual cost of search (data base connect time, communications and printing)  
—no restriction on number of data bases searched, number of descriptors used or output

## Saint Mary's Receives "Salmon Book"

Ronald Lewis (centre), Saint Mary's Head Librarian, receives 'The Salmon Book' from Gary MacDonald (left) and Bruce Hendsbee of Fisheries and Oceans Canada.

Fisheries and Oceans Canada recently presented "The Salmon Book" to the Saint Mary's Patrick Power Library. "The Salmon Book" is a Limited Edition Portfolio published, in the interest of the salmon's survival, under the auspices of the Fisheries and Marine Service of the Department, formerly called Fisheries and Environment Canada.

The portfolio consists of a book entitled *The Salmon*, five Gouache Paintings of the Pacific Salmon which are 19th Century prints, from Reverend Houghton's *British Fresh-Water Fishes*, Edinburgh, 1879, courtesy of David M. Lank, and five silk screen prints by Bill Reid of Indian Paintings.

## Conferences

Murray Baillie attended the Atlantic Books Festival held at the Hotel Nova Scotian April 6-7. The theme was regional publishers and the textbook market with Paul Robinson of the Atlantic Institute of Education as the keynote speaker.

Three staff members were among the 140 delegates who attended the 40th annual conference of the Atlantic Provinces Library Association held at the Université de Moncton May 4-6. The conference program included workshops on government publishing, conservation of library materials, as well as a business meeting and an Awards Banquet.

Joan Moore attended the 7th Annual Conference of the Canadian Association for Information Science held at Banff, Alberta, May 12-15. The conference theme was "Sharing resources—sharing costs". Over 215 information specialists gathered to share experiences and present ideas on dealing with budget restraints and expanding needs.

Joan Moore attended the 8th Mid-year Meeting of the American Society for Information Science held at Banff, Alberta, May 16-19. The theme of the meeting was "North American Networking". Over 300 delegates heard 37 papers dealing with the technical and intellectual aspects of networking.

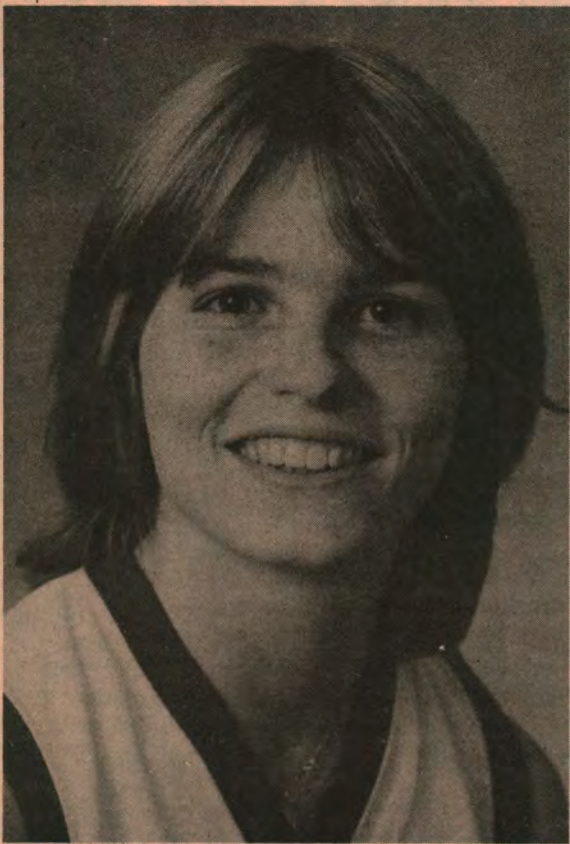

## Interlibrary Loans

Effective September 4, 1979 the Patrick Power Library will cease Interlibrary Loan activity with local libraries with which we have reciprocal borrowing privileges. These libraries are:

Atlantic Institute of Education  
Killam Library  
Macdonald Science Library  
Maritime School of Social Work  
Mount Saint Vincent University  
Nova Scotia College of Art & Design  
University of King's College

All of the above libraries honor valid Saint Mary's University I.D.'s for library borrowing.

## Becky Stark Top Golfer

Becky Stark

Saint Mary's Commerce student Rebecca "Becky" Stark won the national junior women's golf championship in Corner Brook, Newfoundland, August 17. Becky led the field throughout the 3-day competition and it marked the first time in the event's 25-year history that a Maritimer had led throughout. Her record 76 in the opening round play had earlier helped lead the Nova Scotia team to its first inter-provincial title in team competition. Nova Scotia won the event by two strokes over the British Columbia entry.

Becky is a member of Saint Mary's University Women's Basketball Team.

## Tax Seminar at Saint Mary's University

The Faculty of Commerce in cooperation with the Canadian Tax Foundation will host the Annual Atlantic Provinces Tax Seminar on the University's campus Friday, September 28 and Saturday, September 29, 1979. Designed for practicing accountants and lawyers and others interested in tax matters, the Seminar is hosted by Saint Mary's University each odd numbered year and Dalhousie University in the other years.

Canadian Tax Foundation Governor Kenneth Mader, F.C.A., of the Maritime Life Assurance Company will welcome participants from all four Atlantic Provinces on Friday afternoon at 2 p.m. with registration taking place at 1:30 p.m.

The initial portion of the Friday afternoon session will be devoted to the tax implications of "Family Transactions". Chairman of this session will be Lawrence J. Hayes, Q.C., Governor of the Canadian Tax Foundation and a partner in the firm of McInnes, Cooper & Robertson. Panelists will be David G. Barry (Clark Drummie & Company) and Ms. Jill Hamilton (Dailey, Black & Moreira).

The second Friday afternoon session will cover the tax aspects of "Executive Compensation in Canada" with Chairman Edwin C. Harris, Q.C., of the Faculty of Law at Dalhousie University and a partner in the firm of Dailey, Black, & Moreira. Panelists will be Willard Strug (Blois, Nickerson, Palmetter and Bryson) and Patrick C. Copeland, C.A. (Coopers & Lybrand) and Philip M. Robinson (P.M. Robinson and Associates, Limited).

Guest speaker for the evening session will be Robert A. Friesen, C.A., of the Toronto office of Coopers & Lybrand. He will speak on the topic of "Artificial Transactions" and the tax laws. Chairman for this session is H. Lawrence Doane, F.C.A., partner in the firm of H.R. Doane & Co.

The Saturday session will be devoted to "Current Issues in the Valuation of Shares of Private Businesses" with R.A. McCulloch, C.A., partner in the firm of Clarkson, Gordon and Company as Chairman.

## I Wonder What the New President Is Going To Do About ...

Since Dr. Ozmon became President of Saint Mary's on July 1, a number of people have, no doubt, a number of questions they'd like to ask him. THE TIMES editor, Liz Stevens, asked a cross section of people in the Saint Mary's community—students, staff and faculty—if they had one question they would like answered. The following four questions were the ones that kept being repeated in a variety of ways. Dr. Ozmon's replies are reprinted here unedited.

1. What do you hope Saint Mary's will be like in 5 years time?

Since Saint Mary's is first and foremost an academic institution, naturally I hope that we can build on the well-established tradition in that area. I hope also that we can capitalize on the fact that we're a small university and take a more personal approach to the development of our students.

2. Are you going to lobby for better recreational facilities on campus?

I've already spoken with a number of people, both inside and outside the university, for better recreational-cultural facilities. I've also spoken with Government officials, and I intend to pursue it further.

3. What role do you think Senate should play in governing the University?

Senate is the body responsible for academic policy at the University; as a consequence Senate's decisions in this area, in my estimation, have to be considered as setting the direction for the University with respect to the academic programs.

4. What do you think Saint Mary's should contribute to the community?

Saint Mary's already contributes to the community in a variety of ways, not the least of which is in providing education for those persons who will be leaders in the community tomorrow. In addition to the classroom activities, professors, students and staff are involved in a great number of activities related directly to the welfare of the citizens of Nova Scotia. In my estimation, both the community and the University must continue to draw on the vitality of each other.

## "Social Rules and the Rules of Art"

Charlotte Townsend Gault

The Department of Anthropology will sponsor a public lecture on September 19 at 8 p.m. in the Art Gallery. The speaker will be Charlotte Townsend Gault who will be visiting from Scotland. "Social Rules and the Rules of Art" is the title of the lecture.

Her lecture has been described by her as "... an investigation of the social origins of some of the constraints on artistic production in various societies and the consequences, other than mere relativism, for our notion of individual creativity".

Ms. Townsend Gault was born in Hertfordshire, England, and received a B.A. (honors degree in English) from the University of Sussex. She also has a postgraduate diploma in Social Anthropology from University College, London, where she was awarded a M. Phil. in the same subject.

She is a former lecturer at the Nova Scotia College of Art and Design in the Art History Department, and was director of the Mezzanine Gallery, and has lectured throughout the United Kingdom. She was an archival assistant in Fredericton, New Brunswick for the Provincial Archives, and an art critic for the *Vancouver Sun*.

She has won awards from the Canada Council and the Social Sciences Research Council in England.

Ms. Townsend Gault has organized several art exhibitions and has published extensively on the subject of Art and Anthropology.

The time of her lecture again is September 19, at 8 p.m. in the Art Gallery.

## Saint Mary's University Art Gallery

18 September—14 October  
8 Contemporary Romanian Painters

18 October—18 November  
Mr. Jackson's Mushrooms

24 November—16 December  
Sunrise Titles and Twills

Art Gallery hours:  
1-7 p.m.—Tuesday, Wednesday, Thursday  
1-5 p.m.—Friday  
2-4 p.m.—Saturday and Sunday  
Closed Mondays

Please note: All members of the University community are invited to the Art Gallery Openings.

## FALL TEA

Sunday, September 23—2:30 p.m.  
Saint Mary's University Art Gallery (in the Loyola Building)

## "New-To-You" Sale—September 4

Saint Mary's students traditionally set up housekeeping during this time of year and will be looking for suitable items at low cost. Anything and everything saleable is welcome, especially baked goods and fudge, bibelots, books and paperbacks, pictures and wall decorations, plants, records, etc.

Items may be dropped off at Anne Jopling's, 1038 Robie Street, between Monday, August 27 and Saturday, September 1, or items may be brought to the colonnade area on the morning of the sale—September 4.

## Schedules

A summary of schedules—hours of operation for dining halls, Burke-Gaffney Observatory, Bookstore, etc.—will be published separately early in September and will be available from Information Services, room MN216.

# Saint Mary's University Staff Picnic A p

Although most of these photos speak for themselves, you might not know that the three Paul Curren (Psychology technician) and his friends David Williamson and David Bishop, right corner, Mrs. Debbie Josey won the "door prize"—a lobster feast worth \$50.00.
