

*If she undervalues me,  
What care I how fair she be?*  
—Sir Walter Raleigh

## PROJECT "I-DENT"

The week of January 14-18 saw the Student Campus Police out in full force, visiting practically every office, lab and classroom on the Saint Mary's campus. Their objective was not apprehension or investigation, but prevention. The Campus Police volunteered their services (over 250 man-hours) to assist the Halifax City Police Department and the University's Security staff in marking all equipment owned by Saint Mary's University.

Thousands of objects were marked with a special identification code number with an electrical engraver. The code number is filed with the City Police Department and the Solicitor General's Department.

The program is similar to the one offered to the general public during the past two years. Stolen or lost articles are much easier to trace if they have been marked with an identification code number. Knowledge that such identification has been done also serves as a deterrent to would-be thieves.

A Department of Geography stereoscope has its "I-DENT" code number engraved by Campus Police Chief, David Aucoin. With him are Sergeant Al Boudreau of the Halifax Police Department (left) and Dawn Allen, Geography Department cartographer and map librarian.

## In Case of a Blizzard . . .

The next time an overnight snowstorm hits the Halifax-Dartmouth area, listen to the local radio stations for information about the cancellation of classes and general closure of the University. Telephone calls to the University switchboard may not work because the operators may not be able to get to work and a lot of calls will overload the switchboard.

The decision to close the University is usually made by the President. Once the decision is made that the University is closed, the Information Services Director will call the news media so that the fact can be publicized.

If a snowstorm occurs during the day and gets progressively worse, the Personnel Office, after getting word from the President, will inform all employees if the University is closing. Telephone calls may be directed to that office for information.

## Universities and Colleges —A Public Point of View

How do citizens of the Maritime provinces view post-secondary education in the region? Is the public satisfied with the universities and colleges and their individual functions? Which areas of study are considered most important by the public? How well are the institutions carrying out their functions? What priority does the taxpayer give to public funding of universities and colleges in the region? Are tuition levels too high? Are there too many programs and institutions presently offered in the Maritimes? These and other questions are examined in a detailed study entitled "Public Attitudes Toward Post-Secondary Education in the Maritime Provinces".

The landmark report was authored by Dr. Andrew S. Hughes of the Atlantic Institute of Education, Halifax, on behalf of the Association of Atlantic Universities.

It is the first large-scale study of public attitudes towards post-secondary education in either the Maritime provinces or Canada as a whole. It emerged from a general concern that while frequent reference is made about higher education to the *public* interest, the *public* good, *public* funding and the *public's* view, very little is known about how the public actually feels.

"Public opinion is very much talked about, but it has received very little consideration in terms of

actual systematic investigation," Dr. Hughes said. "The danger remains that what is advanced as the public's view is, in fact, representative of the special rather than the general interest."

The survey was carried out during July and August, 1979. A response rate of 88.7 percent was achieved. Surveys of this nature are typically considered successful when response rates exceed 50 percent.

Following are the major findings of the report:

Close to 80 percent of Maritimers (78.2%) are opposed to cutting back on the public funds allotted to education. In Nova Scotia 74.9 percent are opposed to cutbacks, while in New Brunswick the figure is 82.0 percent and in P.E.I. it is 80.2 percent.

Government funding of post-secondary education is ranked behind Public Schooling, Health & Medical Care and Job Creation Programmes but on a par with Regional Development and Consumer Protection in importance.

Tuition costs in the Maritimes are considered too high by 40.0 percent while 34.4 percent feel them to be appropriate. Only 3.6 percent think they are too low. There is a relatively high proportion—(21.3 percent) who were unable to offer an opinion. Clearly, there are significant numbers of people who are either not aware of

current tuition levels and/or lack any basis for making a judgement.

Publicly supported universities and colleges are considered to benefit society by 78.4 percent of the respondents with only 8.1 percent disagreeing.

When asked to provide specific examples of how society benefits, 29.6 percent could offer no answer while 27.3 percent thought that public funding provided greater accessibility to higher education.

Health Services (73.6%) and Agriculture & Forestry (73.5%) are rated as the subject areas of greatest priority to the Maritimes.

Technical fields (58.8%), Teacher education (54.2%) and Law (50.0%) are rated as the second order of priority.

Only 17.6 percent considered Fine Arts to be of great importance. These findings indicate that members of the public seem well able to differentiate between various areas of study which they consider as being of greater and lesser importance.

On the important question of public satisfaction with universities and colleges 20.3 percent are "very satisfied" and 55.3 percent are generally satisfied. Only 10.7 percent are unhappy with the region's institutions.

THE TIMES

The Times is produced by Information Services, Saint Mary's University. Deadline for next issue is February 18, 1980. Editor—Liz Stevens.

# Mordecai Richler at Saint Mary's

## Something Fresh to Say?

On Wednesday, January 23, Mordecai Richler gave a public lecture entitled "Canadian Nationalism and Canadian Literature" in the Saint Mary's University Theatre Auditorium. Dr. Andrew Seaman of the Saint Mary's English Department was asked by the Times to review Mr. Richler's address.

An enthusiastic audience of about 500 people seemed, on the whole, pleased with Mordecai Richler's talk on Wednesday night. Many who had come simply to see the man himself went away happy to have been entertained by the master of anecdote. But there were those in the audience who had come for a rather more serious purpose, and who were seriously disappointed, if not somewhat alarmed. They could see very little relevance to the advertised subject in after-dinner jokes about MacKenzie King and Mike Pearson. Mike Pearson was one of the most up-to-date references in the speech. At one point Mr. Richler interrupted a political reference he was making to say that this was, of course, 1976. It's not, Mordecai, its 1980. Some of us had heard the speech before. Apparently Mr. Richler was once advised by a successful speaker to have one good speech and use it all the time. He does. And he has—it's a good Rotary Club after-dinner amusement.

But did the serious members of a university audience come there to hear that everyone outside Canada finds us boring? Or that writers of the previous generation had to prove themselves abroad because the Canadian audience was too small and scattered? Or that when he was a young man the world happened elsewhere unless you were a hockey player? Or that Canada fell under the influence of American economic imperialism after World War I? Or, for that matter, that there is more good and honest writing being done in Canada now than there was twenty years ago? Agreed, but by whom, and with what impact on Canadian identity? Do we really not know that Canada will always be heavily influenced by the United States? No, they came to hear something about what is happening on the Canadian literary scene which might be a counterbalancing force to these obvious clichés of Canadian inferiority.

It is Richler's opinion that the chief evil abroad on the Canadian literary scene today is the tendency of the "nationalists" (unspecified) to declare all Canadian literature usable. Is that not a very good thing? Will it not lead to a more fair assessment of Canadian literature than could ever have come about while we use only what

Mordecai Richler

someone else has declared good? The real evil on the scene is the tendency of a clique to declare second-rate Canadian literature to be great. Witness Marion Engel's *Bear* as the recipient of a Governor General's award. But Mordecai offered us no opinions about the current scene.

Instead, Mr. Richler assured us that Canadian writers want to be read, not because they are Canadian, but because they have something fresh to say. No kidding!

The main drift of Richler's talk was plain enough, and it is something that, in simple terms, few people would argue. If Canadian writers are really great, their work will stand the test of comparison with any of their peers writing in the English language. It will not suffer from being Canadian any more than James Joyce suffers from being Irish. Their provincial origin is the well-spring of their genius. Nor would we argue that Canadians are not sometimes guilty of "self-indulgent cultural nationalism". But great literature is not the only worthwhile literature. And there is a kind of excellence which does not always catch the attention of the international scene, governed as it is to a large degree by literary fashions. We need to declare all Canadian literature usable for the purpose of assessing Canadian literature, and we need to develop a more vital critical climate which will be capable of distinguishing the value of that literature in its larger context. Toward that worthwhile goal Richler made no contribution.

He had begun his talk by saying that he suspected that writers should be read and not heard. In an amusing way, he proved the point. Richler's novels are excellent. They deal in no such clichés as the one to which he led us through a tangle of anecdotes in his well-practiced address. Canadian writers have one great advantage, he told us. Their house has no ghosts. Their only predecessors are the amiable Leacock or the dispensable De La Roche. Canadian literature is virgin land up for grabs.

## Lecture Series "The Government and Us" At Saint Mary's

The Atlantic Canada Studies Program at Saint Mary's University wishes to announce a mid-winter stimulant for minds congealed by any combination of icy winds, hot-blast electioneering, or stay-at-home blahs. For three Thursday evenings in February and two in March five speakers will challenge the theme "The Government and Us".

For years a standard cliché in the Atlantic region has been that, in economic matters, we have become a "foster child of federalism" or a "kept woman of confederation". For some pundits, the future of the region appears as depressing as the past and they expect that we will continue as wards of increasingly less benevolent governments. Others who are more optimistic see the region as emerging and announce that we are about to break the bonds of government by virtue of an oil/gas-induced self-reliance.

To air these issues on the role of government in our lives, the Atlantic Canada Studies Program at Saint Mary's University has invited a number of distinguished speakers to discuss aspects of this central theme "The Government and Us". The public is invited to attend these lectures and might consider the experience as a mid-winter mini-course.

Admission to the lectures is free. They will be held in Room 152 of the Loyola Building and will begin at 7:30 p.m. Dr. Daniel MacInnes, Coordinator of the Atlantic Canada Studies Program, will introduce the respective speakers and will be pleased to provide further information on the series (phone 422-7331, ext. 154).

The first lecture in the series takes place on February 7 with Dr. Jim MacNiven, Executive Vice-President of APEC, speaking on "Big Government and Big Business: Is there a choice between two evils?"

Other speakers participating in the series are: Kell Antoft, Director of the Institute of Public Affairs, Dalhousie University - February 14; Louis Comeau, President of E.M. Comeau et fils (1977), Metaghan - February 28; Tom Kent, former Director of DEVCO - March 6; and the final speaker, Dr. Alex MacDonald, Director of the Coady International Institute - March 13.

## SCIENCE SATURDAY

The Saint Mary's Science Faculty will host its 3rd Annual Science Saturday on February 9. Students, teachers and guidance counsellors from 51 schools across Nova Scotia have been invited to attend. Approximately 300 visitors are expected.

Science Saturday is planned to give high school students and teachers an idea of what university science is about and, more specifically, what the Saint Mary's Science Faculty actually does. To this end, the visitors follow a specific program of activities which allows them to visit several departments, and provides interaction between University faculty and visiting students.

Registration begins at 10 a.m. in the Saint Mary's Science Building. At 10:30, Science Dean Jack Ginsburg will welcome the visitors, who will then divide into small groups for department tours. Each group will be able to visit three displays from among these departments: Astronomy, Biology, Chemistry, Engineering, Geology, Mathematics, Physics and Psychology. Campus tours will be conducted during the lunch hour. The day concludes with a tour of the Burke-Gaffney Observatory.

Among the large number of varied displays offered are: a demonstration of techniques used to study galaxies; a tour of specialized biological facilities—animal quarters, electron microscope, aquarium room; a model of an oil spill together with methods of characterizing the type and source of the oil; a display of gold in Nova Scotia; computer graphics and computer games; experimental psychology work in animal learning—principles of learning, training animals to do complex work.

Anyone interested in further details may contact Lois Flemming, Office of the Dean of Science, 422-7361 Ext. 241.

# For 1980, I resolve to . . .

It is the beginning of a new year, and it is a time when many people make resolutions. The following are just a few that were heard around the Saint Mary's community:

**Bob Boucher**, Hockey Coach: To try to win some hockey games in overtime.

**Corinne Duffy**, Marketing: Keep all files current; answer business mail the same day; do the laundry and clean house one morning per week; grocery shop *one* day per week; before making any purchase, ask the following question, "What do I have now that would do?"; join Big Sisters.

**Bob Hayes**, Director of Student Services: To stop smoking "cork-tipped" cigarettes.

**Father J.J. Hennessey**, Counsellor: Not to ring false alarms; not to throw my cigarette ashes on the floor, (especially not on the floor).

**Father John Mills**, Chaplain: To be more open, more often, with more people.

**Dan MacInnes**, Sociology and Atlantic Canada Studies: I resolve to stop smoking intermittently, drink only when the situation is serious, and refrain at all times from University politics; correspondingly, I hope to curb my tendency to ingratiate myself with University administrators.

**Ken Ozmon**, President: I hope to be trained well enough to outrun Father Hennessey in this year's Natal Day Race; by the next academic year to stop calling Fred Young "Mike" (and stop calling Mike Wiles "Fred").

**Arnie Patterson**, President and Managing Director, CFDR (Class of '50): To participate in successful elections only.

**Brian Robinson**, Geography: To stop "bugging" Information Services.

**Howard Solverson**, Information Services: I firmly resolve that, in 1980, I will complete my thesis . . . or at least start it . . . well . . . I'll definitely decide on a topic; and, having achieved my 1979 ambition to ride down the main corridor of the McNally Building on my bicycle, I hope to ride the corridor again in 1980, this time on a horse.

**Liz Stevens**, Director of Information Services: I resolve to clean up my office; and not look "harried".

**Kay Tudor**, English: I resolve not to swear during Senate meetings.

**J. Vorstermans**, Economics: To improve the world by beginning with myself; not to repeat anymore this lie, "I love my neighbour as myself."

**Peter Weal**, Manager, Printing Services: With the continual requests received from all areas of the University regarding the status of various printing jobs, I feel that this year that I should be more decisive and try to give a definite "maybe".

**Keven Webb**, Accountant: To reverse my bowling scores and my golf scores.

**Sherry Wyse**, Student: I'm going to start writing all my appointments in my calendar.

# International Education Centre Calendar

**January 30, 12 Noon**

Lunch Hour Forum on International Issues, "Detente: Afghanistan and the Strategic Balance"

Speaker: **David Jones** (educated at Dalhousie, Duke and Oxford Universities; lectured in England, USA and Canada; editor of the *Soviet Armed Forces Annual Review* and *The Military and Naval Encyclopedia of Russia and the Soviet Union*; Director of the Russian Research Centre of Cambridge, Nova Scotia)  
Venue: IEC, Burke Education Centre (Bring your own lunch; coffee will be served.)

**January 31, 8 p.m.**

Public lecture,

"Soviet Intervention in Afghanistan: Implications for the Moslem World"

Speaker: **Aminur Rahim** (received undergraduate education in Bangladesh; received a master's degree in comparative politics; currently acquiring Ph.D. from the University of Toronto; interested in the question of nationalism in Asia)  
Venue: Theatre "B", Burke Education Centre

**February 9, 1-5 p.m.**

**Chinese New Year Workshop**  
"Twentieth Century China"

1-2 p.m. — "Introduction to China" — **Mary Boyd**, lecturer in Chinese language, Saint Mary's University

2-3 p.m. — "Politics: Women's resistance movement in China, 1902-1949" — **Bobby Siu**, lecturer in sociology, McMaster University

3-4 p.m. — coffee  
— film: "Misunderstanding China"

4-5 p.m. — "Legal Concepts in Modern China" — **Don Clark**, researcher in Chinese law  
Venue: Theatre "B", Burke Education Centre

**February 13, 12 noon**

Lunch Hour Forum on International Issues  
"African Attitudes towards the Commonwealth"

Speaker: **Dr. Yussuf Bangura**

Venue: IEC, Burke Education Centre (Bring your own lunch; coffee will be served.)

**February 27, 12 noon**

Lunch Hour Forum on International Issues  
"Multicultural Mirages"

Speaker: **Tony Burton**

Venue: IEC, Burke Education Centre (Bring your own lunch; coffee will be served.)

Watch for the IEC's forthcoming publication, **Your World**. *Your World* will be published semi-annually, containing news from the IEC and articles pertinent to international education, in a new interesting and illustrated format. The first issue will be available, free, early in February. For copies, drop into the IEC in the Burke Education Centre or write: International Education Centre, Saint Mary's University, Halifax, N.S. B3H 3C3.

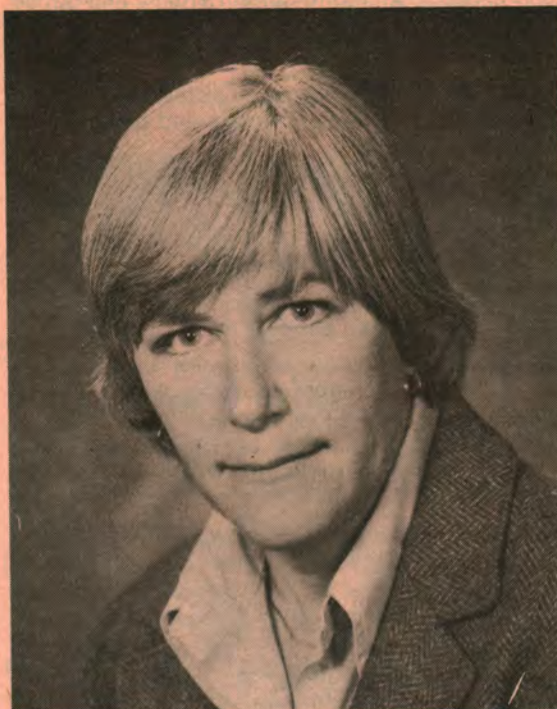

### In Sympathy

Senior Commerce student, Joanne Violet Prest of Halifax, died January 10 in the Izaak Walton Killam Hospital.

The entire University community extends sympathy to her parents, Reg and Joyce (Sears) Prest, and to her sister Susan, who is also a student at Saint Mary's.

# Notes from the Library

## New Head of Library Public Services

Margot Schenk, Head of Public Services, Patrick Power Library.

Margot Schenk joined the staff of the Patrick Power Library at Saint Mary's University as Head of Public Services on November 1, 1979. Ms. Schenk recently has been Head, User's Services, Maritimes Regional Library, Fisheries and Oceans Canada.

Ms. Schenk received her B.Sc.N. Degree from the University of Western Ontario in 1960. After practising Public Health Nursing in Wisconsin for three years, she moved to Halifax and became a Catalogue Assistant at Mount Saint Vincent before returning for her Master of Library Science Degree which she received in 1973 from Dalhousie University.

As Head of Public Services, Ms. Schenk will be responsible for the organization and effective operation of the Information Services (Reference), Circulation and Reserve Departments of the Library.

### Group Study Rooms

The Group Study Rooms are once again open on a trial basis. For information regarding bookings please contact the Information Desk in the Library.

### Retirements

Mrs. Mona Stewart retired as Head of Reserves, effective January 4, 1980. Mrs. Irene MacDonald retired from the Circulation Department effective January 11, 1980.

### Extended Library Hours for Exam Period in Question: A Special Note to Students

During the Christmas exam period the Patrick Power Library extended its hours on a trial basis. Following are some observations made by Library Staff:

It is felt that, generally, students did not take advantage of the service. The extra hour from 11 p.m. - 12 midnight did not seem to be appreciated. However, the weekend extended hours seemed to attract more students.

The following suggestions are a result of the staff's observations:

- 1) Announce the library special hours earlier and publish the information widely. Students may not have been aware of the extended hours as they were a quick response to student requests.
- 2) Concentrate staff time on the two weekends before exams by opening from 9 a.m. - 11 p.m. Saturday and Sunday; 8:15 a.m. - 11 p.m. Monday - Friday.
- 3) Consider having Reference Service and Reserve Reading Room open 9 a.m. - 10 p.m. on Friday, Saturday and Sunday for the Students' convenience.

Your comments will be welcomed by the Library Staff.

## Atlantic Math Days

The third annual Atlantic Mathematics Days were held October 26-27, 1979, at Saint Mary's University. The theme of the conference was "Mathematics in Use" with talks presenting applications of mathematics accessible to undergraduates. There were approximately eighty participants from the Atlantic provinces and the northeastern United States. The two invited lectures were "Modern Applications of Elementary Combinatorics", given by Professor Anton Kotzig, (Université de Montréal) and "Something Old, Something New, Something Borrowed, Something Blue", a lecture discussing mathematical modeling of fish populations, by Professor Frederick Y.-M. Wan (University of British Columbia). In addition, eight shorter talks were given by mathematicians from the region.

On the first day of the conference an undergraduate mathematics competition was held with students from nine Atlantic universities participating. In this year's competition, first prize was won by James Loveys of Saint Mary's University, with the trophy for the top university team going to Dalhousie University's team of Robert Dawson and Lorne Whiteway.

Atlantic Mathematics Days is sponsored by the Atlantic Provinces Inter-University Committee on the Sciences (APICS), an organization which brings together scientists from all the Atlantic provinces universities, as well as several government labs, to consider problems of mutual interest.

Previous Atlantic Mathematics Days were held at the University of New Brunswick, Fredericton, in 1977, and at the University of Prince Edward Island, in 1978.

## Physics, Astronomy Workshops Held

Workshops on Radio Astronomy for high-school students were held on three occasions during the first semester, under the joint auspices of the Astronomy and Physics Departments. Each workshop consisted of an introduction to radio astronomy by Dr. George Mitchell followed by a laboratory period during which the visiting students verified some of the basic ideas of radio astronomy in the laboratory with Dr. William Lonc. Following the laboratory exercise, the students were then taken up to the roof of the Administration Building to inspect the Saint Mary's radio telescopes. Each group consisted of some twelve students and a teacher; the groups were from Halifax Grammar School (Grades XII and XI, on separate occasions) and the Musquodoboit Rural High School. Two similar workshops are already planned for the second semester, for two different classes from the Sir John A. MacDonald High School.

In addition to the Workshops on Radio Astronomy, a Digital Electronics Workshop under the auspices of the Physics Department was held in December for a return visit by the group from Musquodoboit and two more are planned for the two groups from Sir John A. MacDonald High School. The workshop again involved about three hours of combined lecture and laboratory exercises, both given by Dr. Lonc. Both the Radio Astronomy and Digital Workshops arose from contacts made with high school teachers on the occasion of last year's Science Saturday and on the occasion of the Nova Scotia Science Teachers' Convention in October.

# CUSO Recruiting Volunteers to Work Overseas

The CUSO catch-phrase "involvement that lasts a lifetime" is more than just a slogan to Jim Morrison, Director of the International Education Centre (I.E.C.). Although it's been more than ten years since he went to Ghana as a CUSO volunteer he has vivid memories of his experience. It led him to a Ph.D. in African history from a Nigerian university and eventually to the I.E.C. at Saint Mary's.

Dr. Morrison is also a member of the Saint Mary's CUSO Committee which is stepping up its recruitment program. CUSO, a non-profit, independent development agency, sends Canadians skilled in the fields of education, health, agriculture, business and technology, to help developing nations train their people to cope in a fast-changing technological world.

Jean Mitchell, chairman of the Saint Mary's CUSO Committee, said it has been some time since a Saint Mary's graduate has chosen the CUSO alternative and she would like to make the university community more aware of what kinds of positions are available overseas.

"There are teaching jobs for those with degrees in English, mathematics, chemistry, physics and education," she said.

Although teacher training is preferred, CUSO still places untrained teachers if they have a degree in a required subject.

CUSO also has postings for graduates in commerce and economics.

Dr. Morrison taught English and math in a teacher training college in Aburi in Ghana.

"That was almost an urban experience. Aburi was not far from Accra so we had easy access to the stores and conveniences of a big city. When Sheila (his wife) joined me the second

year we were posted to what CUSO's call 'bush'. There we had to travel 100 miles for basic supplies," he said.

Dr. Morrison finds that many potential volunteers worry about climate and possible medical problems.

"CUSO provides you with a good orientation regarding your physical health and if you use common sense—don't drink unboiled water, for example—you will be fine.

"However, no amount of reading can prepare you for the cultural shock," he said.

He points out that teachers going to Africa are surprised to find that many things are very similar to home. Fellow teachers often dress in western-style clothes and the classrooms and curriculum may be similar. However, the way of doing things and attitudes are quite different.

"You really have to feel your way along. The longer I stayed the less I knew. The answers and solutions you bring with you are inapplicable and you will realize that within a month if you have any sense at all. Those easy, logical solutions based on your western orientation just don't apply," he said.

Most CUSO volunteers sign two-year contracts and are paid by the host country. The salaries are not equivalent to Canadian salaries but provide a comfortable standard of living overseas. CUSO pays health and life insurance costs, travel expenses and resettlement allowances.

For anyone interested in learning more about CUSO opportunities, the Saint Mary's Committee is holding an information meeting on February 11, 7:30 p.m. at the International Education Centre.

## Mardi Gras Night

Sponsored by  
Saint Mary's University  
Faculty Women's Association

**Saturday, February 16, 8 p.m. - 12 midnight** in the Multi-Purpose Room  
Tickets are \$7.50 per person. Raffle tickets will be on sale during the evening—\$5.00 each—giving you the opportunity to win many prizes. **Grand prize**—a trip for two to Montreal and return donated by Quality Travel Service will be drawn at midnight.

Other attractions include: costume prize, live entertainment, dancing, music, buffet, cash bar.

Music by **Northern Lights** and performances by Caribbean Society.

Master of Ceremonies for the evening—**Professor G.B. Hallett**.

All proceeds are for the Faculty Women's Association Scholarship Fund.

Tickets may be purchased at the Mini Mart; Belinda Gallagher's Office, Student Centre; Information Services, Room MN 216; Dean of Commerce Office; Anne Jopling (429-1883); or from any member of the Faculty Women's Association.

Come in costume, if you wish—but it isn't necessary.

## Income Tax Receipts

INCOME TAX FORMS, covering payment of tuition fees and the \$50.00/month Education Deduction (form T2202A) will be mailed from the Business Office beginning February 4, 1980.

Please note that the above-mentioned forms will be mailed only if the student provides the Business Office with a self-addressed envelope. Envelopes will be available at the counter in the Business Office.

Students requiring Income Tax Receipts for periods other than the academic year 1979/80 and the Summer Sessions of 1979, must make a specific request in writing to the Business Office, Attention: Accounts Receivable.

## Reading Dynamics Course Offered

Continuing Education is offering a mini-course in reading dynamics starting in February. This course is designed for students interested in developing their existing reading skills.

Using a workshop format, sessions focus on the following topics: relationship between vocabulary and comprehension; techniques for the successful reading of textbooks; research reading skills; reading-study tools; using graphic aids effectively; and developing efficiency in reading skills—flexibility and rate.

Dates: February 5 to April 15, 1980  
Time: 7 to 9 p.m., Tuesdays  
Place: Room L225  
Fee: \$45.00; learning materials \$3.50  
Instructor: Monica Maloney  
Registration: Continuing Education Office, Room M103  
Telephone 422-7361, ext. 252

## Welcome the Year of the Monkey

The Year of the Monkey, 1980, will be ushered in with an evening of entertainment and dining at Saint Mary's University. The Chinese New Year Banquet, sponsored by the Saint Mary's Chinese Students' Association, will be held in the Multi-Purpose Room on Saturday, February 9. Festivities begin at 7:00 p.m. Admission prices are \$7 for Association members and \$9 for nonmembers.

The program will include an authentic Chinese dinner, a lion dance, cultural dance, a kung fu demonstration, and more. "M.T. Pockets", a popular local band, will provide music for dancing until 2:00 a.m. A number of prizes will be drawn, including a round trip airticket to Toronto from Halifax.

Tickets for this popular event are available at the Residence Office and the International Education Centre at Saint Mary's.

## UNIVERSITY SKATING CLUB

Pleasure Skating

Membership open to Alumni and Faculty of Saint Mary's University

For information on location, time, and dues telephone Maureen Faulkner - 443-0795

A dinner was held on December 11, 1979, to honour the outgoing members of the Saint Mary's University Board of Governors. Seen here with Chairperson Monsignor Colin Campbell (right) are (left to right): Douglas Tobin, Father James Dyer, and Dr. C.H. Albuquerque.

# Indo-Chinese Refugee Workshop Held at the International Education Centre

A day-long workshop, "The Indo-Chinese: From Refugee to Citizen" was held at the I.E.C. in November. The aim of the workshop was the orientation of the local community (especially people interested in sponsoring refugees) to the

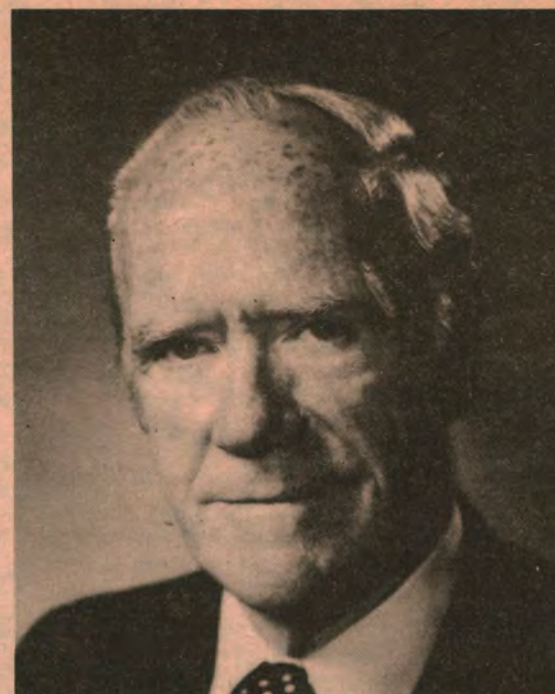

*Cheuk Kwan, Toronto community organizer and Editor of the Asianadian.*

background and situation of the incoming Indo-Chinese refugees. Speakers representing the Indo-Chinese community in Canada, new refugee groups, and the government were included in the discussions.

*Mary Boyd, of the Asian Studies Program, Saint Mary's University and Chau Ho, of the Vietnamese Association of Halifax-Dartmouth.*

# Sixth Annual Commerce Dinner

*Honourable Mitchell Sharp, guest speaker at the Commerce Society Business Dinner.*

The sixth annual Saint Mary's University Commerce Society Business Dinner will be held on Thursday, February 14. The Dinner has become a popular event drawing 350-400 people from the University and business communities to enjoy the banquet and a speech by the featured guest.

This year the guest speaker will be the Honourable Mitchell Sharp, internationally known statesman and business figure.

Presently the Commissioner of the Northern Pipeline Agency of Canada, Mr. Sharp is best known to Canadians for his role in Canadian government from 1963 until 1978 where he held Ministerships in Trade and Commerce, Finance, and Secretary of State for External Affairs. He has also held the offices of Receiver General and President of the Queen's Privy Council.

Prior to his political life, Mr. Sharp worked in the grain trade, served in Ottawa as Deputy Minister of Trade and Commerce and held other Public Service positions. He has been the vice-president of Brazilian Traction, Light and Power Company and in 1962, at the invitation of the United Nations Secretary-General, Mr. Sharp chaired the International Coffee Conference. His academic background includes graduate work at the London School of Economics.

Featuring such highly qualified speakers as the Honourable Mitchell Sharp, the Commerce Dinner has proved to be increasingly successful with each passing year. In addition to giving business people a chance to mingle with faculty and meet students who may be future employees, it gives students a look at the world they will be entering after graduation.

## Universities and Colleges —A Public Point of View continued from page 1

While 19 percent in Nova Scotia and New Brunswick report being "very satisfied", this figure rises to 32.6 percent in P.E.I.

More than half (54.3%) were unable, however, to suggest a way in which Maritime universities and colleges might improve their performance.

Providing special training for part-time adult students through evening extension and correspondence courses is rated "very important" or "important" by 90.0 percent. Preparing students for useful careers is rated "very important" or "important" by 89.6 percent and producing well-rounded students who will be responsible citizens is considered "very important" or "important" by 89.3 percent.

Student athletic events are considered "very important" or "important" by 74.6 percent.

While almost everyone was able to offer an opinion on how important a function ought to be, a considerable proportion (reaching almost 50 percent for some segments of the population) was unable to judge how well a given function is being carried out. This seems to indicate a widespread lack of information about precisely what colleges and universities do and how well they do it.

On the question of whether Nova Scotia supports too many colleges and universities only 12.9 percent of the Nova Scotians answering this question felt there were too many while 71.2 percent feel there are not too many institutions.

The report is available from the Atlantic Institute of Education, 5244 South Street, Halifax, N.S. B3J 1A4, at a cost of five dollars. The statistical appendix to the report is also available at a cost of three dollars and fifty cents.

## Saint Mary's University Job Club

**Meets every Friday afternoon from 3 p.m. until 4 p.m. in room L154, Loyola Building.**

Open to all students—graduates and undergraduates.

**Purpose:** To show you how and to help you get a permanent, summer, or part-time job.

Topics to be covered include how and where to look for a job, job applications, job interviews, resume preparation, employers' point of view, qualifications, self-evaluation, and other job and labour market information and tips.

John Rodgers, Manager of the Canada Employment Centre on Campus, conducts the sessions. Later on personnel people from larger companies will be invited to come and participate.

Students are able to ask questions; suggestions of topics for future sessions are welcome; and students are invited to come to one or every session.

No dues—no fuss—no hassle.

**Every Friday through February.**

# From the Saint Mary's Faculty Women's Association . . .

## Scholarship Endowment Fund

The Faculty Women's Association would like to thank everyone who helped in one way or another to reach the Association's goal of establishing a Scholarship Endowment Fund large enough to award an annual \$500 scholarship to a deserving Saint Mary's student. Within the next few weeks, \$5000 will be deposited in trust in the University Endowment Fund in the name of the Faculty Women's Association. From the annual interest earned on this fund, a scholarship of \$500 will be awarded each year to a Saint Mary's student in accordance with guidelines established by the members of the Association.

Since September 1, 1979 income from sales and raffles amounted to \$3,073.70 and the Students'

Representative Council "Games Week" donation added \$275 to the Fund. Previously purchased investment certificates made up the rest of the Fund's \$5000 total.

## Painting, Quilt Draw

The winning number for the painting donated by Anthony Law was 1740, held by Mrs. E. Baxter of Dartmouth. The winning number for the quilt handcrafted by Association members was 1475, making Kathy Mullane of the Saint Mary's Athletic Department a very happy winner.

Don't forget the Benefit Mardi Gras Costume Party, February 16.

## Saint Mary's University Pension Fund

by J. Vorstermans

If you are a member of the *Old Pension Fund* you should have received by now, Manulife's "Statement of Pension Plan Benefits" as of 1 October, 1979. All members of the *New Pension Fund*, implemented in October 1972, may soon receive their statements. Their jargon may confuse you more than they enlighten you. Don't worry, you are in good company.

The story below is written in the hope that it answers a few of your queries.

### CONTRACT NO. 710

This group pension was in effect prior to October 1, 1972, when the new plan took effect.

Each year members receive a certificate showing the monthly payment for which he/she will be entitled at age 65. You will note a *death benefit*. This represents the amount of cash that would be paid to your estate immediately after death. Since this lump sum becomes subject to income tax, the beneficiaries may prefer a monthly income over either a number of years or for life. Income tax will then be paid only on the income as received.

Aside from the case of death, the law disallows the cashing of final pension funds; one must take it in annuities.

There are 2 figures for "monthly pension" on your statement. The lower figure is your monthly pension at present; it is calculated on the money that was in your fund on Oct. 1, 1979. Since this Fund was closed in 1972, no further salary related contributions are made but each year interest and dividend is added, thus increasing both death benefit and monthly pension. Assuming that current dividends and interest rates are maintained, the company can calculate how much your pension will be on your 64th anniversary. Hence, the higher figure is called "your projected" monthly pension.

Since your compulsory retirement date is at 65, this amount will grow another year and you may even let it grow until you are 71. By law you must then exercise your rights.

### CONTRACT NOS. 2276 & 2277—CERTIFICATE DELAY

You have now received your certificates for contract 710 (the old plan). In order to project the amount of money going into your new pension plan, Manulife needs to know your exact salary on the 1st of October 1979. Because of current contract negotiations, it is not possible to issue your certificates for the

year ending, October 1, 1979, until such time as they have new salary information.

### CONTRACT NO. 2276 (FIXED INCOME)

This contract came into effect in October of 1972. The information provided on your certificate will be as follows: It will first show you how much pension will be purchased, based on your contributions, for the coming year. Then it will show you how much pension has already been purchased to date. Next is shown the death benefit. This is the amount that will be paid your beneficiary should you die before your retirement.

The difference with the Old Fund is that Manulife buys more pension for you every year with that year's contribution. Since interest rates are historically high, at present, they buy a high return paper and future changes in interest rates can no longer affect this pension. So, they know already how much monthly pension they have bought for you up to today—"monthly annuity provided previously"—and they know the "monthly annuity to be provided this year". Projected pension is not given because that depends on your future salary, contributions and the interest rate.

### CONTRACT NO. 2277

To those of you who elected to put some or all of your own contributions into the Equity Fund you will receive a separate certificate. This certificate shows the unit value as at the end of September. Remember, the 1st of October is your new contract year. You will then see how many units were purchased for you in the year, for example, 1979. Then it will show the total units purchased prior to the year 1979. Suppose the total of these two, units purchased this year and units previously purchased amounted to 4.550. You would then take this figure and multiply by the value of the units shown. The resultant figure would give you the exact value of your units based on that one day, September 30, 1979. The exact value of your Group Equity units is published monthly in the *Times*.

The value of these units fluctuates from month to month and your pension depends on this and on the number of units that you will hold when you claim your pension. No pension is bought for you now, in contrast to what is said above under contract 2276.

It is hoped that the above information has given you some clarification but, no doubt, Manulife stands ready to answer any further questions that may arise.

## GROUP EQUITY VALUES

For the information of Saint Mary's faculty and staff concerned with pension contributions, the following figures are provided by Dr. J. J. Vorstermans, Department of Economics.

7 December 1979—658.44  
14 December 1979—664.34  
21 December 1979—678.24  
28 December 1979—683.47

End 1979—683.47  
End 1978—498.80  
Increase—37%

## Business Schools Conference at Saint Mary's

From Nov. 1 to 3 Saint Mary's hosted the annual Atlantic Schools of Business Conference which brought more than 80 professors and deans from all universities of the Atlantic Provinces. The guests were welcomed by Saint Mary's Academic Vice-President, Father William Stewart. The general focus of the conference was on the topic of International Business, but other topics were also addressed. Functional groups (e.g., Accounting, Marketing) met separately to exchange ideas and experiences on teaching methodology, to discuss research projects, and to explore areas of common interest. A panel discussion on International Business brought representatives from business, government and academia together. Publishers of text books and research literature showed their newest editions in a large exhibition in the Multi-purpose Room. The conference closed with paper sessions during which 33 papers were presented in seven different groups. Seven papers were presented by Saint Mary's Commerce Faculty members. The meeting was organized by Dr. Vedat Baydar, Marketing and Dr. Hermann F. Schwind, Management.

# Noteworthy Notes

DR. VEDAT BAYDAR (Marketing) presented a paper entitled "Manufacturer vs. Consumer in Nova Scotia Context: Problems and Opportunities" at the Atlantic Schools of Business Conference, Saint Mary's University, November 1979. Dr. BAYDAR was co-organizer of the conference.

DR. J.K. CHADWICK-JONES (Psychology) read a paper, entitled "Attendance motivation in five occupations", to the British Psychological Society Annual Conference at York University, England on January 5, 1980.

PROFESSOR JOHN CHAMARD (Management) presented a paper entitled "Policy Implications of Declining University Enrollment" at the Atlantic Schools of Business Conference, Saint Mary's University, November 1979.

PROFESSOR RON CONNELL (Management) presented a paper entitled "The Development of Logic Arrow Diagramming in Lieu of Computer Coding" at the Atlantic Schools of Business Conference, Saint Mary's University, November 1979.

DR. HARI DAS (Management) presented a paper entitled "The Issues of Ethical Values in Decision Making" at the Atlantic Schools of Business Conference, Saint Mary's University, November 1979.

DR. J. DOSTAL (Geology) is part of a team led by J.M. Hall of the Dalhousie Geology Department which is undertaking a new investigation of the crest of the Mid-Atlantic Ridge using an electric bottom drill. Dr. Hall's team has been awarded a \$15,000 grant by NSERC.

DR. DOSTAL also is carrying out research (at Saint Mary's) with Dr. R. Riou of the Mineralogisches Institut, Universität des Saarlandes, Saarbrücken, Germany. Dr. Riou, who has been working extensively on the geology of volcanic rocks from the Middle East, will be at Saint Mary's for a six-week period which began January 19.

DR. LILIAN FALK (English) attended the third annual symposium of the Atlantic Provinces Linguistics Association where she presented a paper entitled "The use of *they* with indefinite singular antecedent"

DR. PATRICIA FITZGERALD (Management) presented a paper entitled "Management Process as Exhibited in Hutterite Colonies" at the Atlantic Schools of Business Conference, Saint Mary's University, November 1979.

DR. JOSEPH G. JABBRA (Political Science) presented a paper, co-authored with Dr. Nancy Jabbra, entitled "Ethnicity and Politics Among Lebanese Canadians", at the American Anthropological Association's Annual Meeting held in Cincinnati, Ohio on December 1, 1979.

DR. D.G. KABE (Mathematics) presented a paper, entitled "On a Statistical Model for Wildcat Strikes", at APICS Third Annual Math Days, Saint Mary's University, October 1979.

DR. WENDY KATZ (English) presented a paper, entitled "The Way to a Young Heart: Food in Children's Literature", at the School of Library Services, Dalhousie University, November 9, 1979.

DR. NATHAN KLING (Marketing) presented a paper entitled "Hemispheric Asymetrics, Relative Cerebral Hemispheric Dominance and Information Usage" at the Atlantic Schools of Business Conference, Saint Mary's University, November 1979.

DR. R. KRUSE (Mathematics) presented a paper, entitled "Computers, Groups and Sieves", at the APICS Third Annual Math Days, Saint Mary's University, October 1979.

DR. MICHAEL LARSEN (English) presented a paper on the fiction of Kurt Vonnegut to the Humanities and Technology Association at their Conference in Atlanta, Georgia in October 1979.

COMMANDER ANTHONY LAW, Saint Mary's Artist in Residence, had an exhibition of his paintings at the Mall Galleries, London, England, November 6-17, 1979.

DR. ROGER MACDONALD (English) will be the guest speaker at a meeting of the Medieval and Renaissance Society, Acadia University, on March 5, 1980.

DR. J.D. MCFALL (Mathematics) presented a paper, entitled "Characterizing Hypercubes", to the conference "Combinatorics '79", Université de Montréal, June 1979.

TOM MITCHELL, Geology Major Student, was awarded the 1979 student Membership Prize of the Mineralogical Association of Canada for excellence in mineralogy.

DR. D.S. MURTY (Physics) gave two talks (with demonstrations) to the students of Sidney Stephen Junior High School, Bedford, October 1979.

J.F. PORTER, a Saint Mary's graduate now enrolled as a Senior Mechanical Engineering student at the Nova Scotia Technical College, has been awarded the Weldon Scholarship by the College.

DR. HERMANN F. SCHWIND (Management) presented a paper entitled "How to do and not to do Business in Japan" at the Atlantic Schools of Business Conference, Saint Mary's University, November 1979. DR. SCHWIND was co-organizer of the conference.

DR. SCHWIND had a paper (Co-authored with R.B. Peterson, University of Washington) entitled "Personnel Problems in U.S. and German International Companies and Joint Ventures in Japan" accepted by the Academy of International Business to be presented at the Asia-Pacific Dimensions Conference in Honolulu, Hawaii, December 1979. The paper was presented by the co-author.

DR. K. SINGH (Mathematics) presented a paper, entitled "Order Analysis and Singular Perturbations", to the Department of Mathematics, University of Alabama.

HOWARD SOLVERSON (Information Services) attended the Atlantic Region Conference of the Association of Canadian University Information Bureaus, Mount Saint Vincent University, December 1979.

LIZ STEVENS (Information Services) attended the Atlantic Region Conference of the Association of Canadian University Information Bureaus, Mount Saint Vincent University, December 1979.

DR. D.N. SWINGLER (Engineering) attended the Joint USA-USSR Conference on Hydroacoustic Techniques for Biomass Estimation held in Boston, USA, June 1979.

K.S. TIONG, a Saint Mary's graduate now enrolled as a Junior Civil Engineering student at the Nova Scotia Technical College, has been awarded an Entrance Scholarship by the College.

DR. KATHLEEN TUDOR (English) conducted an in-service day for teachers of English at the St. Peter's District High School, Cape Breton, on November 23, 1979.

DR. STEPHEN TURNER (Finance and Management Science) presented a paper entitled "A Cursory Introduction to Some Possibilities for Applying Fuzzy Set Concepts in a Library Environment" at the Atlantic Schools of Business Conference, Saint Mary's University, November 1979.

DR. D.B. VAN DYER (Engineering) and S.K. Malhotra presented a paper, entitled "Buckling Strength of Braced Timber Columns", at the Seventh Canadian Congress of Applied Mechanics, University of Sherbrooke, May 1979.

DR. VAN DYER and S.K. Malhotra presented a paper, entitled "Buckling Strength and Efficiency of Timber Box Columns", at the 16th Midwestern Mechanics Conference, Kansas State University, September 1979.

DR. VAN DYER and S.K. Malhotra presented a paper, entitled "Analysis and Design of Spaced Timbers Columns", at the Annual Conference of the Canadian Society for Civil Engineers, Montréal, Québec, June 1979.

DR. KEITH VAUGHAN (Chemistry) was recently appointed an honorary adjunct professor in the Faculty of Graduate Studies at Dalhousie University. Responsibilities of an adjunct professor include supervision of graduate students, often in laboratories or facilities outside Dalhousie; membership on these examining committees; and some class teaching at an advanced level.

CONGRATULATIONS and best wishes are extended to NANCY and JOE JABBRA on the birth of their baby son MICHAEL.

MORE CONGRATULATIONS and good wishes are extended to NANCY and RICK LOWERY on the birth of their baby son ANDREW.

A panel discussion on the topic: "The Importance of International Business to Atlantic Canada" took place during the Atlantic Schools of Business Conference at Saint Mary's, November 1-3, 1979. Representatives from business, the Federal and Provincial governments, and academia expressed their views, shared their experiences and tried to develop a framework which would assist

entrepreneurs in the Atlantic Region to be more effective in international trade. The panel was chaired by Dr. Hermann Schwind of the Saint Mary's Department of Management. The panel participants were (left to right): Dr. Donald Patton, Director, Department of International Business Studies, Dalhousie University; Dr. Charles McMillan, Professor at York University; Ed Coolen, Deputy Director,

Federal Department of Industry, Trade and Commerce; Charles Yates, Managing Director, Provincial Department of Development; Dr. Schwind; Joshua John, Director of H.B. Nickerson and Sons, Ltd., Sydney (at the lectern); Richard Frost, Director of Hawker-Siddeley, Ltd., Trenton; Fred Were, Manager of W.H. Schwartz and Sons, Ltd., Halifax; and John Currie, President of Internave, Ltd., Sydney.

## At the Art Gallery . . .

**"Exposed Evidence"**  
an exhibition of drawings  
by **Robert Rogers**  
continues until February 24  
at the Saint Mary's University  
Art Gallery.

# CUSO

### INTERESTED IN WORKING OVERSEAS?

CUSO has positions for graduates  
in English, math, physics, chemistry,  
economics and commerce.

#### CUSO INFORMATION MEETING

Date: February 11

Time: 7:30 p.m.

Place: International Education Centre  
Burke Education Building

# CUSO

## Soccer Coach Honoured

Coach Roy Clements accepted a Merit Award plaque and a watch from Student Services in recognition of outstanding achievement. The presentation was made at the Student Services Christmas party by Mr. John Rodgers, Manager of Canada Employment Centre on Campus. Mrs. Clements received a bouquet of roses.

In his acceptance speech, Mr. Clements said "... this kind of award is something that one hears about often but is not often expected, at least not in my case. While the award is being presented to me, I would like to point out that I also accept it on behalf of the players, because it is they who are out on the field doing all the work. Thanks to all of you for this very proud moment."

The Saint Mary's Soccer Huskies, under the coaching of Mr. Clements, have constituted one of the success stories of the University's inter-varsity athletic program. Always competitive, the soccer team has gained a high level of respect in Canadian university soccer competition. In 1979, Coach Clements' Huskies won the AUAA Championship, the Eastern Canadian Championship and went on to the Canadian finals.

## Atlantic Canada Studies Program Lecture Series

### "The Government and Us"

**"Big Government and Big Business: Is there a choice between two evils?"**

Thursday, February 7 - Dr. Jim MacNiven  
Executive Vice-  
President, APEC

**"Municipal Government: The question of conflicting levels of government"**

Thursday, February 14 - Kell Antoft  
Director, Institute of  
Public Affairs,  
Dalhousie University

**"Small Business: Can they be saved from government/by government?"**

Thursday, February 28 - Louis Comeau  
President, E.M.  
Comeau et fils,  
Meteghan, Nova Scotia

**"The Question of Regional Development: Government as entrepreneur"**

Thursday, March 6 - Tom Kent  
Former Director and  
Chief Executive Officer  
of DEVCO

**"The World Out There: Government's commitment to developing the Third World"**

Thursday, March 13 - Dr. Alex MacDonald  
Director, Coady  
International  
Institute, Antigonish

All lectures will take place in Room L152, Loyola Building, Saint Mary's University, at 7:30 p.m.

## Schedules
