Jesuit Fathers: (standing, left to right) Terrence Prendergast, Patrick G. Malone, William P. Lonc, Austin Pianfetti, William J. Browne, Lawrence F. Murphy, J.R. Brown, Paul F. Granville, Clarence P. Hinchy, William J. Stewart; (seated, left to right) Charles S. Bathurst, Michael J. O'Donnell, James W. Dyer, John J. Hennessey. Missing is Father James W. Murphy, who was away when the photograph was taken.

Few universities excite so much enthusiasm in their faculty that they come out of retirement voluntarily to head up the Dramatic Society or maintain office hours until 3 a.m. But not many universities in Canada have the Jesuits in their midst.

The formidable men of the Society of Jesus remain a major factor in making Saint Mary's the special place it is. It seems to have less to do with their numbers than it does with their presence.

Saint Mary's Chancellor Most Rev. James M. Hayes says that although their numerical strength and influence in the University's administration have declined since 1940, the Jesuits still symbolize the religious roots of the University and its special service to Roman Catholics.

Rev. Lawrence Murphy S.J., Professor of Religious Studies, considers the Jesuits role is "... to work with the whole University community and to establish an atmosphere of sharing, caring and happiness in which the human potential of each person can be realized".

Father Murphy and Rev. William Lonc S.J., Professor of Physics, the only two full-time Jesuit teachers still on staff, take the stated goals of the University seriously. Among them is the desire to promote learning and knowledge with emphasis on the Christian tradition and the values of higher education. As with their

Storm warning

Since this seems to be the year of the "big snow" it might be useful to review the University's policy regarding operation in severe weather conditions.

It is the University's general policy to remain open and in full operation. Only under the most severe conditions will a decision to restrict operations be made. Serious difficulties arise from such a disruption of lectures and scheduled tests and examinations.

In the event of an overnight snowstorm in the Halifax-Dartmouth area, listen to the local radio stations for information about the cancellation of classes and general closure of the University. Personnel and students are advised not to call the University switchboard because the operators may not be able to get to work and, in any case, a flood of calls will overload the switchboard.

The decision to close the University is usually made by the President. Once the decision is made that the University is closed, the Director of Information and Public Relations will call the news media so that the fact can be publicized.

If a serious snowstorm develops during the day, the Personnel Office, after getting word from the President, will inform all employees if the University is closing. Telephone calls may be directed to that office for information.

\$1.8 million in federal aid to Pan Am Wheelchair Games in Halifax

Federal financial assistance of \$1.8 million for the 1982 Pan American Wheelchair Games to be held in Halifax, Nova Scotia, was announced by the Honourable Gerald A. Regan, Minister Responsible for Fitness and Amateur Sport.

The federal contribution will be used for the installation of a synthetic surface, lighting and fencing, and an all-weather track at Huskies Stadium. The assistance over a two-year period, will be provided from Fitness and Amateur Sport lottery revenues.

Besides their use for the Pan American Wheelchair Games, the new installations will be used for the annual Atlantic Bowl and other track and field, soccer and field hockey competitions of a local, regional, or national character.

Fitness and Amateur Sport will also make an operating contribution of \$120,000 to the Halifax Games, with like amounts coming from the Government of Nova Scotia and the City of Halifax, for the transportation, accommodation and other related costs of disabled athletes participating in the Games.

Mr. Regan explained that of all the regions in Canada, the Atlantic provinces remain the only area without an all-weather synthetic playing surface or track. This has sharply

restricted the use of the natural grassed facilities to amateur, school or community sport groups in the Region, because of the high rate of deterioration when used during inclement weather.

"There is ample evidence that having an all-weather surface increases its availability and use to all groups, which is consistent with the federal government's objectives of encouraging, promoting and developing amateur sport across Canada," Mr. Regan added.

Mr. Regan also noted that Saint Mary's University had pioneered the development of facilities for the disabled and that the new surface and track would increase the participation of disabled athletes in sport activities in the Atlantic area.

Provision of the assistance is one element in the federal program recognizing 1981 as International Year of Disabled Persons.

The Pan American Wheelchair Games were initially held in Winnipeg in 1967. Subsequent sites were Buenos Aires, Argentina (1969), Jamaica (1971), Lima, Peru (1973), Mexico City (1975), and Rio de Janeiro, Brazil (1978). Some 500 disabled athletes from 20 countries of the Western Hemisphere are expected to participate in the 1982 Halifax games.

Groundwork laid for serving the disabled

by Paul Gouett

By now most people are aware that 1981 is the International Year of the Disabled Person (IYDP). This year has been set aside by the United Nations so that attention may be given to that group of individuals who are considered to be disabled. In Canada that group includes 45,000 paraplegics, 7,000 quadraplegics, 23,000 deaf persons, 35,000 people who are classified as being blind, and 690,000 people who have some degree of mental retardation.

1981 represents an opportunity for the disabled to focus public attention on the problems and barriers they face in day-to-day living. These people do not want sympathy, they want action. Some of that action will come from the disabled, themselves, but much of it must be provided by the able-bodied members of the community.

Education is one area of normal life that is often out of the reach of the disabled person. Barriers presented to the individual may be physical, such as stairways or inadequate transportation facilities, or they may result from insufficient learning aids and lack of public support.

The Honourable Monique Begin, Federal Minister for Health, acknowledged this problem in an address to the International Congress on Rehabilitation. She said, "There is no doubt that disabled persons do not share in our very high Canadian educational establishment, and the fault is ours, not theirs."

Saint Mary's recognizes that the educational problems facing disabled individuals are often not academic, but are the result of poor planning. The University offers many facilities that meet the varied needs of the disabled. New residences are equipped with special washrooms and lower counters; many buildings are connected by bridges and tunnels; most public washrooms contain cubicles for wheelchairs; and all buildings have elevators. The Patrick Power Library houses a Tape Resource Centre that offers the facilities to record texts, reference material, and other printed matter for blind students, and for those whose disabilities prevent them from reading.

There are areas of the University that require some alterations for them to be made accessible to all handicapped students, including the gymnasium, which is inaccessible to wheelchairs; the pool, which cannot be used by many of the disabled; and some washrooms, which do not accommodate these students.

Saint Mary's has the potential of meeting all the needs of the disabled. It is located in a quiet area of Halifax, although it is on a public transit route. The campus is fairly flat, making it easier for students in wheelchairs and for those with ambulatory difficulties to manoeuvre about. There is little car traffic on campus that could inhibit the movements of the blind and the deaf students. The University is close to a major fire station and the largest medical complex in Eastern Canada. Most important, however, there exists in the University the physical foundation for a completely accessible university. The buildings are already joined and set up for the disabled individuals.

Saint Mary's has a definite role to play in the 1981 International Year of the Disabled Person. A commitment has been made to provide an education for the disabled. Public awareness and the momentum generated in 1981 should serve to support the University in following through on its commitment to provide a high level of education for all students, for those who are able-bodied and for those who are physically handicapped.

Alumnus wins scholarship

Saint Mary's University graduate Nicola Noel Hubbard (B.A. '79) has been awarded an I.O.D.E. Scholarship.

The Scholarship, valued at \$6,500, will enable her to continue her studies at Oxford University, England, where she is enrolled in a Doctor of Philosophy program, specializing in prehistoric archaeology.

Nicola (Nicki) Hubbard is the daughter of Dr. and Mrs. David King of Halifax. She attended Queen Elizabeth High School before being admitted to Saint Mary's, where she majored in anthropology.

An outstanding student, she was on the Dean's List and was considered for a Rhodes Scholarship. At university she was an active member of the Dramatic and Anthropology Societies.

Ten I.O.D.E. Scholarships were awarded to Canadian students in 1980. These post-graduate awards, named War Memorial Graduate Scholarships, were established by the National Chapter of the Canadian I.O.D.E. after World War I. They are intended as a lasting tribute to those who lost their lives for their country.

Father Stewart heads Student Services

Father William Stewart, who retired in May 1980, has returned to Saint Mary's to take over the position of Acting Director of Student Services.

"My retirement was short-lived," he explained. "I retired last summer and so I guess I was officially retired for only the fall."

His students know Father Stewart never left Saint Mary's. He still teaches an introductory course in philosophy, and he is the technical advisor for the Dramatics Society.

Father Stewart says his present position as Acting Director of Student Services is not very demanding because of the capable people heading up the departments under his jurisdiction. "I am mostly coordinating, counselling, and making decisions," he said.

Robert Hayes, the Director of Student Services, is on leave, working with the Department of Fitness and Amateur Sport in Ottawa. At the request of Dr. Ozmon, Father Stewart took over from the Interim Director, Dr. Peter March, who resigned from the position at the end of 1980.

Asked if he ever intends to retire, Father Stewart admitted that although he did not know when he would leave, he knew he could not stay on indefinitely. He intends to continue teaching his introductory philosophy course, and will probably continue to be involved with the Dramatic Society. He would relinquish the latter position if someone could be recruited who had the technical expertise.

"Someone who can build sets, arrange lighting, and handle a hammer and nails," he explained.

Father Stewart came to Saint Mary's in 1950 to substitute for a philosophy lecturer who had been taken ill. He has been here ever since. During his tenure at Saint Mary's he has built up a reputation of almost legendary proportions, not only as a teacher and thespian, but also as an administrator. He has held virtually every major administrative office at the University, including Acting President, Dean of Arts, Dean of Studies, University Librarian, and Acting Academic Vice-President.

Father Stewart has been the "heart and soul" of the Saint Mary's Dramatic Society, and he has been active in the Nova Scotia Drama League, the Dominion Festival, and the Cultural Federations of Nova Scotia.

Father Stewart holds the title Professor Emeritus in Philosophy.

Dalton Camp

will be presenting the 1981 Simpson-Sears Annual Lecture,

"The Perpetual Dilemma: The Right Men at the Wrong Time"

on leadership of the national Progressive Conservative Party

Saint Mary's University Art Gallery

Monday, February 16 at 8 p.m.

Mr. Camp will also be meeting informally with any interested students and faculty on Monday, February 16 at 3 p.m. in the TV Lounge, O'Donnell-Hennessey Student Centre.

Security Officer appointed

"I think the campus police force is great," is the optimistic note on which Don Lord assumed his position as chief of Security at Saint Mary's.

Mr. Lord is a former RCMP officer. He retired from the Force after 27 years, during which he worked in nearly every province from Manitoba to Newfoundland.

He was born in Halifax, and it was family commitments and a desire to settle down in his home town that prompted his retirement. His last posting was in Fredericton.

He admits that as a younger man he had romantic ideas about being a Royal Canadian Mounted Policeman.

"It was a lot of hard work and not nearly as romantic as people think," he says, "but I wouldn't have changed a thing."

"The biggest worry was domestic squabbles but I never drew a gun in anger."

Regarding security at Saint Mary's, Mr. Lord says since he has been here only two months it is too early for him to assess the problems thoroughly.

"Vandalism is a problem on campus, not necessarily with our own students, but everyone on campus has got to take some kind of responsibility for security."

"We need help from the ones who see other people damaging property . . . I don't want a police state . . . but if we're going to prove it (vandalism) then we need those people to come forward. It will save the University money in the long run."

He added that he thinks vandalism is decreasing.

"Parking is also a problem on campus. I think most people realize that there are more parking stickers than places, and although it can be

Don Lord

frustrating, if people use common sense they won't get a ticket. I hate handing out tickets."

On the whole Mr. Lord says that the cooperation he has received at Saint Mary's has been great.

Mr. Lord has two children: his daughter is a student at Saint Mary's, and his son is in his final year at Queen Elizabeth High School.

Bank to close Saint Mary's branch

The Saint Mary's University branch of the Royal Bank will close on May 1, 1981. A release sent out and posted by the Bank said, "After long and careful assessment of the present and future economic potential of our operations, it is with regret that we announce a decision has been reached to close our Saint Mary's University branch at the end of this academic year. Operations from these premises will cease on May 1, 1981 and will then be merged with our Spring Garden and Queen Street branch. Our clients are encouraged to contact the branch prior to the closure date so that they can discuss with our manager and staff any questions or concerns they may have."

The University's regret over the action has been voiced by the President, Dr. Ken Ozmon. He expressed concern for the loss of service to the whole University community but especially to the handicapped persons who live in residence. The University is trying to find another bank to establish a branch on campus.

The *Times* spoke to Doug Baxter, Regional Manager for the Royal Bank, and to Gordon Fraser of the Bank's Public Relations office. Although neither official would give figures relating to the operations at the Saint Mary's branch, both said that the operation had always been marginal in terms of financial return to the Bank. Mr. Baxter also said that in the last few years, the branch has been operating at a loss and that it has been under close consideration for some time. He said that 1980 had been an especially difficult year for profitability in the banking business in general. This was reflected at the Saint Mary's branch and ultimately led to the decision to close in 1981.

According to Mr. Fraser, "It's never made money . . . and looking at it, past, present and future . . . it's just not an economically viable operation."

Mr. Baxter added that he felt badly about the need to close, saying, "We don't like closing branches."

The Saint Mary's branch opened in 1968 and at one point, in 1975, the premises were actually expanded.

Patrons of the branch expressed disappointment at the closure but they also acknowledged that the type of business carried on is probably not profitable for the Bank.

Bank officials said they had considered more economical alternatives to the present operation but that limited service such as that of "sub-branches" is not very satisfactory. They also said they could not reduce staff or days of operation per week because of the volume of traffic.

Clients who have not made new arrangements with the Bank by May 1 will have their accounts automatically moved to the branch at Spring Garden and Queen.

Continued from page 1

predecessors in the Order who worked out their academic and priestly commitment on campus, their concern lies not only with knowledge but with the weighing and evaluation of its worth for the good of society. Perhaps the recent establishment of the Institute of Human Values at Saint Mary's is indicative of the kind of concern that has permeated the whole University.

The vitality of the Department of Religious Studies, is another example of the attitude toward learning with which the Jesuits have endowed Saint Mary's.

However, the Jesuit contribution has not been confined in the realm of ideas. Equally important has been the impact of their personalities on students and staff. Rev. J.J. Hennessey S.J., until a stroke curtailed his activities six months ago, was so popular with students despite his 70 plus years that he maintained office hours for counselling from 9 a.m. until 3 a.m. daily. Rev. Michael "Buck" O'Donnell S.J. is retired, but still Moderator of the Alumni Association, and remains unforgettable to many former Saint Mary's students for his policing of smoking rules. The extraction of a one-dollar fine from every illegal puffer of cigarettes in the old days won him the student nickname "Buck" O'Donnell. Rev. James Murphy S.J. and Rev. William Stewart S.J. are so highly regarded that they each hold the title Professor Emeritus.

Father Stewart still teaches one course in Philosophy, but he came out of retirement totally this year to fill the post of Acting Director of Student Services until May and to continue his responsibilities as Moderator of the Dramatic Society. Jesuits such as Father Stewart remain models of dedication, not only for their academic excellence but for their loyalties to the goals of the institution they have served. The Chancellor says "this quality cannot help but be a challenging example to students in a society that has become largely self-oriented."

Jesuit links with the University go back 40 years. They arrived at the request of Archbishop McNally to take over direction of St. Mary's College, which was then a school for men on Windsor Street. The institution, founded in 1802, was more than a place of learning; it was a social-political statement that confronted religious intolerance with hope. When the school was founded, there was no government support for schools except those established by the Church of England, and while Saint Mary's was primarily set up to serve the Catholic community, it never required a test of an applicant's religious affiliation.

Under the Jesuits the College moved to its present site; the institution became a full-fledged university, and became corporately distinct from the Archdiocese of Halifax. A Faculty of Education was introduced, as was a separate Faculty of Science; evening credit courses were offered, and the University enjoyed affiliation with other institutions of higher learning such as the Maritime School of Social Work, Ignatius College in Guelph, and Regis College, Toronto. A summer school was also begun and the co-educational nature of Saint Mary's which had always existed in the evenings gained official sanction during the day-time by 1968.

During the years of Jesuit administration, which lasted until 1970, the University not only grew in size and scope but it also produced more than its share of successful graduates. Father Stewart describes today's much-diminished size of the Jesuit community as "a rear-guard action". Attrition within the Order itself and the more secular nature of the University have kept the numbers small. Only 15 Jesuits now live in Halifax and some have no direct affiliation with the University. Rev. Terrence Prendergast S.J. is a Professor of Scripture at the Atlantic School of Theology; Rev. J.R. Brown S.J. is the Port Chaplain and religious advisor to the Sisters of Charity; Rev. Paul Granville S.J. is Senior Chaplain at the Victoria General Hospital and Jesuit priests Clarence Hinphy, William Browne, and Austin Pianfetti serve Canadian Martyrs' Parish. Yet because they have all traditionally lived under

Saint Mary's roof in the south wing of the McNally (administration) Building, in some sense they have also been claimed by the University. The nature of that claim, however, will change next month. By independent action of the Jesuit community, they have decided to pack their bags and head for less spacious accommodation in a newly-acquired eight-suite apartment building at 1061 Wellington Street. For many their removal will be an occasion for regret. The action, however, according to Father Murphy is late coming in comparison with contemporary Jesuit practice in North America which has seen the advantage of separating the home from the workplace.

Eleven years ago when the Jesuits gave up the responsibilities of administering the University there were concerns that the values for which they stood would go with them. Now, with their announced plan to vacate their long-time residence, some of the same fears have resurfaced. But those who would maintain such views do not know the Jesuits or Saint Mary's. The Jesuits say a longer walk to the campus will not keep them from Saint Mary's, which after all continues to be the object of their sustained labours.

Homegrown exhibition a success

Approximately 600 people attended the Faculty, Alumni, Staff and Student Art Exhibition in the first three weeks of its run in the Saint Mary's University Art Gallery. 190 people attended the opening. About 35 persons have been visiting the Gallery each day (a fairly high number of visitors per day for an exhibition of this kind).

According to Leighton Davis, Curator/Director of the Gallery, there was an excellent response to the exhibition. He said that the community as a whole has always supported the Gallery. This exhibition was intended to help increase support by faculty, staff, and students. "It was planned as a social event for people in the community to get to know another side of their friends and colleagues."

Mr. Davis said he was "amazed to find how good the calibre of the work submitted was." Every piece of art submitted was accepted.

He went on to say that the Exhibition will be held annually and that next year the submission of more crafts will be encouraged.

The Exhibition was reviewed in the Chronicle-Herald and the Mail-Star. The review is reprinted here with the permission of the Halifax Herald.

by Elissa Barnard

Saint Mary's University faculty, alumni, staff and students' exhibition, at the Saint Mary's Art Gallery until Feb. 1, is an adventure in variety, in the range of subject matter and talent.

From professional to amateur artists, from abstract sculpture to typical fishing village oils, the surprisingly large show is a statement of what art holds for and means to different people.

Lunch with strings

"Lunch with Art", a performance series sponsored by the Saint Mary's University Art Gallery, will feature violinist Anne McIlveen Rapson and violist Burt Wathen on February 13. The recital will be held in the Art Gallery at 12:30 p.m., Friday, February 13. The program of duets by Hoffmeister, Mozart, and Martinu will be recorded by CBC Radio for broadcast on "Music East" in the spring.

Anne McIlveen Rapson is a native of Saint John, New Brunswick. She began her music studies in Saint John at the age of five. She moved to the southern United States at age fourteen and continued her violin studies there. Ms. Rapson studied at the New School of Music in Philadelphia and the Eastman School of Music in Rochester. Following three summers with the National Youth Orchestra and one with the World Youth Orchestra in West Germany, she made her first appearances with the Atlantic Symphony Orchestra in 1971 and 1972 as a guest artist in the ASO's Young Artist series. She graduated from the University of Toronto in 1972 with her Bachelor of Music in Performance. She spent one year with the Toronto Symphony

A good cure for the winter doldrums, when Haligonians are necessarily snowbound, are slides by Keith Vaughan, faculty member of the chemistry department, and Anthony J. Farrell, chairman of modern language and classics, whose two shots of Spain capture the essence of old Spanish buildings and the mellowlight of a Spanish sun.

Vaughan's slides, all excellent in their composition and bright or dimly glowing light, span close-up nature shots, the soft faces of children, Nova Scotia ocean landscapes and travel pictures of Scotland and Western Canada.

Particularly striking in this exhibit are Leighton Davis's three watercolors. He shows an amazing control of the medium using watery paint like dry acrylic for well-defined shapes and shading. "David" is a highly realistic portrait of the profile of an old, balding and wrinkled man with light cast on the front of his face. The blue of his eyes, of his shirt and of the background complement one another for a soft, even and appealing painting.

With the most on exhibit is James Darley, faculty member of the department of psychology. He has three oils on panels on exhibit, semi-abstract scenes of trees and rocks in vertical movement done in browns, whites and blues with a palette knife.

Motion is also the key to his chunky pine and driftwood sculptures, particularly one of two figures intertwined. The large smooth curves of wood form rounded limbs as if they a natural growth of the wood.

Professional artists, C. Anthony Law, former artist-in-resident, and Jane B. Shaw put in an appearance at the show. Law's glossy oil painting "Vanishing Face of Old Halifax" is

and five years with the Vancouver Symphony before returning to the Maritimes to join the Atlantic Symphony in 1979. In 1980 she won the post of concertmaster for the ASO and has just begun her first full season in that position.

Burt Wathen, a native of Sydney, Nova Scotia, received his early music education in Saint John, New Brunswick. He received scholarships to continue his studies at the Royal Conservatory of Toronto and the University of Toronto, studying under Victor Martin and Uri Mayer. He has also been awarded grants from the Nova Scotia Trust Fund and the Canada Council. During 1975-76, while a student in Toronto, he was principal violist with the National Youth Orchestra and remained with the Orchestra for another two years as a viola instructor. He was Professor of Music at the Accademia Nazionale di Santa Cecilia in Rome from 1978 to 1979. In September, 1980, Mr. Wathen began his first season as Assistant Principal Viola with the Atlantic Symphony Orchestra.

Art Gallery doors open at 12:10. Admission is free.

Stevens

Dr. Jim Darley discusses a piece of his sculpture with Greg Sedgwick, a Commerce student at Saint Mary's.

excellent because of its composition. The eye moves from an old docked tug in the foreground to colourful, low buildings to highrises at right and left, to the Old Town Clock and finally up to the snowy bank of Citadel Hill to the Citadel fort itself. The picture is reminiscent of Group of Seven city scenes in its crowding of buildings of varied height and bright color.

Jane Shaw's "Parade" is a green, silver and gold linoleum sculpture of ducks in formation, some cut out and pasted on and others cut into the linoleum.

In a show which is understandably not very innovative or dramatic it is refreshing to see Nova Scotia College of Art and Design student Sara Newman's rather experimental pieces dealing with the actor's problem of having to put on the masks of other personalities. In "Actor's Altar" a mirror with a painted smile beckons the actor to put on make-up while a group of partially melted candles sit on the floor.

Also different are department of anthropology Harold Franklin McGee, Jr.'s design drawings done in coloured pencils and ink. In bright colour and incorporating Eastern designs these have the feel of ancient Chinese or Arabic art.

Legacy for the Art Gallery

Alice B. Hall, of Meaford, Ontario, has bequeathed a share of her Estate to the Art Gallery of Saint Mary's University. The sum of \$5,739 has been left to the University for the purchase of art works.

Mrs. Hall was born in Hungary and escaped to Canada following the ill-fated uprising in that country. She became acquainted with Saint Mary's through the kindness of a member of the faculty. Though she moved to Ontario, she remembered Saint Mary's and has given this money to enrich the art holdings of the University.

Saint Mary's to host housing officers

The Annual Conference of the North East Association of College and University Housing Officers will be held at Saint Mary's University from June 7 to 9, 1981. This is the first time the Association will meet outside the United States.

A number of University administrators will make presentations during the Conference: Guy Noël, Director of University Services; David Leitch, Counsellor; Graham Black, Counsellor; Belinda Gallagher, Financial Aid Officer; Dr. James Morrison, Director of the International Education Centre; Patricia Lyall, Conference Coordinator; Keith Hotchkiss, Director of Residences; and Mario Lisi, Director of Food Services. The coordinators for this year's Conference will be Keith Hotchkiss and Clay Fowler, Assistant Director of Residences.

Art Gallery features photographs

Two exhibitions of photographs will be on view next at Saint Mary's University Art Gallery.

A display of black and white photographs by Gary Wilson will open at 8 p.m. on Thursday, February 5. Mr. Wilson is a Halifax photographer and instructor at the Nova Scotia College of Art and Design. This show of 40 works will be exhibited in the main gallery until March 1.

Works by Michel Dompierre of St. Fabien, Québec will follow from March 4 until March 22.

"art in a small space"

A new series of exhibitions—"art in a small space"—will also be introduced on the evening of February 5. First in this series will be paintings by Philip Willey of Wolfville, Nova Scotia. This exhibition continues until March 15. The series is curated by Sandra Hamm, Curatorial and Administrative Assistant at the Art Gallery.

Winter Break

The Art Gallery will be closed from Monday, February 23 through Saturday, February 28 during the Winter Break. During that time the public is invited to attend the Kiwanis Music Festival competition which will be taking place in the main gallery. However, visitors will be able to view the current exhibition only during breaks in these sessions.

Music Festival during Winter Break

During Winter Break, February 23 to March 1, the Art Gallery will be closed as far as regular operation and viewing are concerned. However, the Kiwanis Music Festival will be held in the Gallery from Monday, February 23 to Friday, February 27 and this competition will be open for public attendance.

Admission is 35 cents for a single ticket; children will be admitted free. A Season Ticket is available for \$2.00 and includes admission to the Rose Bowl Competition (vocal) and the "Stars of the Festival" concert.

While Festival details were not available at press time, the general program is as follows: Monday—cello classes; Tuesday—cello and recorder; Wednesday morning—no classes; Wednesday afternoon—intermediate piano; Thursday morning—intermediate piano; Thursday afternoon—senior piano;

"Evening with Art" presents two plays

Donna Butt as Therese

Rising Tide Theatre, a new company from Newfoundland, will be the Evening with Art presentation at Saint Mary's University on February 11. Two one-person, one-act plays, each approximately one hour in length, will be presented in the Saint Mary's Theatre Auditorium at 8:30 p.m.

Therese's Creed, written and directed by Canadian playwright Michael Cook and performed by Newfoundland actress Donna Butt, is set in Therese's kitchen as she does her morning wash. A widow and mother of eight children, she relives her life in a small fishing community. As she recalls the hardships and joys, the funny and sad moments of a lifetime spent in an isolated outport, she speaks truths that transcend time, age, and space.

The Romeo Kuchmir Story features David Ross as Romeo Kuchmir—hustler. Raised in the

David Ross as Romeo Kuchmir

shadow of a Calgary poolhall, ex-boxer, wrestler and promoter Kuchmir is as tough as the prairie winters that have spawned him, but with a tenderness only the truly strong can afford. He's a man who's seen it all, done it all, and likes to talk about it. Based on George Ryga's novel, *Night Desk, The Romeo Kuchmir Story* has been adapted for the stage by David Ross and Ken Smedley, and is directed by Mr. Smedley.

This performance by Rising Tide Theatre is sponsored by Saint Mary's University Art Gallery with the assistance of the Nova Scotia Department of Culture, Recreation and Fitness. Tickets are \$3.50 regular, and \$2.50 for students and senior citizens. They are available in advance at the Art Gallery and at the door on the night of the performance. The Theatre Auditorium doors will open on Wednesday, February 11 at 8:00 p.m.

Distinguished graduate passes

Reverend Father R. Eric O'Connor, S.J. died on December 20, 1980. Father O'Connor, a native of Halifax, graduated from St. Mary's College with a B.A. degree in 1926. He entered studies in the Society of Jesus and obtained a Ph.D. degree from Harvard University. A scholar of distinction, he taught mathematics at the Loyola campus of Concordia University.

An associate, Edwin Williams (B.A., St. Mary's, 1928) said of Father O'Connor, "He was not just another graduate of St. Mary's; his was probably the most brilliant intellect to be nurtured there during the tenure of the Irish Christian Brothers. Father O'Connor was regarded as one of the top mathematics scholars on the continent, frequently conducting seminars in the United States at which the heads of mathematics departments of major American universities were kept abreast of the latest developments in that branch of learning."

Father O'Connor is survived by a sister, Mrs. Helen Hudson-Allen of Halifax. Interment was in the Jesuit Cemetery in Guelph.

Friday—strings, mostly violin.

The public may enter only while music is not in progress. The audience is requested to make as little noise as possible, so as not to disturb competitors or adjudicators.

For further information call Shirley Baker, Executive Director of the Festival, at 443-2471.

Dramatic Society open house

Saint Mary's University Dramatic Society will hold an open-house display on Wednesday, February 11, and Thursday, February 12, from 10:00 a.m. to 4:00 p.m. in Room MM 309 (Drama Room). The display will be a combined presentation of costumes, props, set models, and photographs from the Society's current and past productions, arranged to offer an integrated sense of the theatrical work recently done at Saint Mary's. The public is invited to attend.

Of particular interest will be a collection of set drawings by local artist C. Anthony Law, Saint Mary's artist-in-residence from 1967 to 1980. Commander Law's work has been highly regarded throughout his career, and his paintings have been exhibited in Canada's principal art galleries. Over the past ten years, he has designed and painted the sets for many of the Society's productions. This collection is being displayed publicly for the first time.

In addition, there will be four screenings of a videotape made of the Dramatic Society's most recent production, "Love Tales Told in Vain", two one-act plays (Stephen Leacock's *The Raft*, and *The Lost Silk Hat* by Lord Dunsany), presented in the Art Gallery last month. The tape will be shown twice each day, at 11:30 a.m. and 2:30 p.m. on the 11th, and at 12:00 noon and 2:00 p.m. on the 12th.

The Dramatic Society's spring production, Alan Ayckbourn's *The Norman Conquests*, is currently in rehearsal, and will run from March 17 to 22.

Noteworthy notes

MURRAY BAILLIE (Library) attended the annual seminar of the University of King's College Public Relations Association held November 7-8, 1980.

PROFESSOR RON CONNELL (Management) presented a paper entitled "Motivation of Children" at the Atlantic Schools of Business Conference in Sydney, Nova Scotia in October, 1980.

PROFESSOR MALLIKA DAS (Marketing) and DR. T.P. HARI DAS (Management) had a paper entitled "Ethnocentrism and Attitudes Toward Foreign Products: Some Preliminary Thoughts" accepted at the annual conference of the International Association of Cross-Cultural Psychology in Orissa, India. The paper was presented by Dr. Hari Das.

DR. T.P. HARI DAS (Management) presented a paper entitled "Implications of Scarcity of Resources for Conflict Management Styles and Values: Some Preliminary Thoughts" at the International Registry of Organization Development Consultants in Lennox, Massachusetts in October, 1980.

DR. FRANK DOUGHERTY (Accounting) presented a paper entitled "Accounting for Nonbusiness Organizations: A Topic for Research in the Eighties" at the Atlantic Schools of Business Conference in Sydney, Nova Scotia in October, 1980.

DR. MICHAEL J. HERRICK (Education) conducted a workshop entitled "Beginnings: *The Crystals*—An Approach Designed for the Gifted" for the Manitoba Association of Teachers of English in Winnipeg on October 17, 1980.

DR. HERRICK conducted a workshop entitled "A Media Approach to the Novel" for the Association of Teachers of English of Nova Scotia in Halifax on October 24, 1980.

DR. WENDY KATZ (English) presented a paper entitled "Editing an anthology for introductory students" at the Atlantic University Teachers of English Conference in Corner Brook, Newfoundland, October 31 - November 1, 1980.

DR. RONALD G. LANDES (Political Science) presented a paper entitled "The Political Socialization of Political Support in Canada" at a conference on "Political Support in Canada: The Crisis Years" at the Canadian Studies Center of Duke University, November 21-22, 1980.

FATHER WILLIAM LONC (Physics) presented a paper entitled "Microprocessors in Physics at Saint Mary's University" at the 1980 Annual Computer Science Seminar: "Microprocessors in Higher Education" at the Technical University of Nova Scotia on November 1, 1980.

FATHER LONC and DR. NORMAN SCRIMGER (Astronomy) conducted a number of workshops in radio-astronomy for high-school students in October and November, 1980.

DR. JOHN R. MACCORMACK (Director of the Institute for Human Values) conducted a workshop on values education at Dartmouth High School on January 14, 1981. The workshop centred on a kit for values education developed by the Institute of Human Values.

Gary Hodson and JUDY MATHEWS (a graduate student in Psychology) presented a paper entitled "Behavioral Medicine" at the Association of Psychologists of Nova Scotia Workshop in honour of Jean Piaget in November, 1980.

DR. HUGH MILLWARD (Geography) was guest speaker at the 1980 Annual Institute-Convention of the Nova Scotia Industrial Arts Association in Halifax in October, 1980. His topic was "Technology in Space".

DR. JAMES MORRISON (International Education Centre) gave an address entitled "Perspective: West Africa—Culture, Education and Development" at a conference organized by the Canadian Bureau for International Education in Quebec City, November 16-18, 1980. Proceedings of the conference will be published.

DR. KENNETH OZMON (President) chaired a panel discussion on The Leslie Report, *Universities 1980 and Beyond*, at a meeting of the Association of Atlantic Universities in St. John's, Newfoundland.

DR. SHRIPAD PENDSE (Management) presented a paper entitled "Keeping Organizations Efficient: A Methodological Approach" at the Atlantic Schools of Business Conference in Sydney, Nova Scotia in October, 1980.

DR. EARL J. ROBINSON (Finance and Management Science) chaired a session of the Operations Research Group at the Atlantic Schools of Business Conference in Sydney, Nova Scotia in October, 1980.

DR. H. SCHROEDER (Management) presented a paper entitled "Adam Smith and Corporate Social Performance: The Impact of an Ancient Assumption on Corporate Policy and Purpose" and chaired a session of the Business Policy Groups at the Atlantic Schools of Business Conference in Sydney, Nova Scotia in October, 1980.

DR. HERMANN F. SCHWIND (Management) presented a paper entitled "Obstacles to Effective Performance Appraisal Systems" and organized and chaired a symposium on "Problems with Performance Appraisals" at the Atlantic Schools of Business Conference in Sydney, Nova Scotia in October, 1980.

DR. NORMAN SCRIMGER (Astronomy) and DR. DAVID DUPUY (Astronomy) conducted a consulting session with a group of Dartmouth science teachers on the use of the portable planetarium recently acquired by the Dartmouth school system.

DR. STEPHEN J. TURNER (Finance and Management Science) presented a paper entitled "Possibilities for Generating Sampling Plans Using Turner's Random Variable" at the Atlantic Schools of Business Conference in Sydney, Nova Scotia in October, 1980.

Debating Team receives grant. The Saint Mary's University Debating Team received a grant of \$750.00 from the Nova Scotia Department of Culture, Recreation and Fitness to help the Team take part in a debating meet at McGill in February.

Accounting scholarship established. The Thorne Riddell firm of Chartered Accountants has established a \$500.00 annual scholarship at Saint Mary's in support of the Accounting programs in the Faculty of Commerce. Saint Mary's is the tenth university in Canada to receive a Thorne Riddell Scholarship. In addition to the establishment of this annual award, the local partners of the firm have made a contribution to the support funds for the Accounting program.

Saint Mary's hosts Student Services meeting. The Atlantic Association of College and University Student Services held its first executive meeting for 1980/81 at Saint Mary's University in October, 1980. The University is represented in the Association by Belinda Gallagher, representative for the Financial Aid Officers, and Keith Hotchkiss, Past President of the Association.

N.S.E.R.C. grants announced

Eight members of the Faculty of Science at Saint Mary's University have been awarded research grants from the general research funds provided to the University by the Natural Sciences and Engineering Research Council (N.S.E.R.C.).

Those who have received the awards are:

Name and Department	Project Title	Amount
J. Dostal Geology	"Uranium and Thorium in Nova Scotia"	\$ 6,000.00
D. DuPuy Astronomy	"Faint Astronomical Observations with CCD Direct Imaging System"	9,000.00
K. Hill Psychology	"Illusory Memory of Cognitive Processes"	1,800.00
I. Lenzer, Psychology	"Effect of Cessation of Alcohol Treatment during Pregnancy on Fetal Outcome"	3,400.00
W. Lonc Physics	"Size-Effect in Cavity-Perturbation Measurements"	2,800.00
Q. Siddiqui Geology	"Studies on some Cenozoic Ostracods"	1,000.00
K. Vaughan Chemistry	"Synthesis of open chain Triazines, potential anti-cancer agents"	3,000.00
M. Wiles Biology	"Population and Parasitological Studies of Nova Scotia Estuarine Fishes, especially Striped Bass"	3,000.00
		\$30,000.00

Commenting on the awards, Dr. D.H. Williamson, Dean of Science, said, "Requests amounting to over \$100,000.00 were submitted by faculty, which has meant that, with our present level of funding, we have not been able to support the research proposals received on anything like the scale envisaged by the applicants. This is a matter of regret as some of those we are unable to support, either partially or totally, merited better treatment."

Dr. Williamson went on to say, "Although the amounts are modest, it is encouraging to note the diversity of research interests amongst our faculty. Most of these people are also being supported by external funding research agencies."

AIESEC to hold dinner

The first Annual Business Dinner of AIESEC Saint Mary's will be held on Wednesday, February 25, at the Halifax Board of Trade. The guest speaker will be Andrew G. Kniewasser, President of the Investment Dealers Association of Canada, who will speak on "The Canadian Securities Market: A Financial Game".

Mr. Kniewasser has had a distinguished career with the Department of Industry, Trade and Commerce. He has held senior positions with the Department, both in Ottawa and overseas. In 1960 he was appointed Commercial Counsellor to the Canadian Embassy in Paris, France. From 1963 to 1968 he was the General Manager, and subsequent Director, of the Canadian Corporation for Expo '67.

During the 1970's, Mr. Kniewasser was a director of a number of organizations including the Export Development Corporation, the Canadian Standards Association and the Standards Council of Canada, "Cours Claudel" in Ottawa, the Canadian Securities Institute, the Atlantic Council of Canada, and the Queen Elizabeth Hospital in Toronto.

Guests are asked to arrive at 6:00 p.m. for 6:30 p.m. Tickets are \$14.00 and are available from the AIESEC office on the 5th floor of the Student Centre (422-3390).

Former Belle to join National Training Squad

Monica MacKenzie

Monica MacKenzie, former member of the Saint Mary's University Field Hockey team, has been selected to the 24-member National Training Squad.

The National Training Squad will choose two travelling groups of 16 players each to compete in two separate tournaments—January and February in Germany for the European Zone Indoor Championships and March and April in Argentina for the World Cup. Each trip will include a pre-tournament training period in Toronto.

Miss MacKenzie was Most Valuable Player of the Saint Mary's team in 1978 and 1979, and an A.U.A.A. All-Star in 1979. She was a member of the 1980 Nova Scotia Under 23 team and Canada Games squad. As a member of the Nova Scotia Senior team, Miss MacKenzie played a vital offensive and defensive role in the National Tournament in Edmonton. She was also a member of the 1980 Canadian Under 21 club that competed in Colorado.

Other areas of field hockey have also benefited from Miss MacKenzie's knowledge; she operated the 1980 Camp of Champions Summer League and has worked at numerous clinics.

Getting fit for spring

If the winter blues are getting you down and your body feels tired and sluggish, then now is the time to shape-up for spring.

A Fitness Training Program for non-student members of the University community is underway, under the coordination of Helen Castonguay, women's basketball coach and coordinator of Women's Intramurals. A number of programs have been planned for both men and women, and all the programs have been designed for fitness and fun.

A Fitness Training class meets every Tuesday and Thursday from 12 noon to 1:00 p.m. This class is very popular with those who wish to tone-up and enjoy it at the same time. Floor exercises are done to music and, for those who wish it, special fitness activities can be arranged—such as running, skipping or swimming.

For those who would prefer to train on their own there is the Individual Training program. Ms. Castonguay will work out a schedule suited to the individual's needs, and will offer concise explanations of the critical components of fitness: strength, flexibility, and cardio-vascular efficiency. This program is run on a strictly one-to-one basis.

Mondays and Wednesdays are reserved for coeducational team sports. This winter a modified form of volleyball is being played, with seven departmental teams comprised of six members for each. The team members may be increased to eight so that more people may enjoy the game. There are two sets each day, beginning at 12 noon and 12:45 p.m. Although registration was to have been completed by January 23, any one who wishes to play will be placed on a team.

"The games are structured in a way and are competitive to a degree, but the idea is to have fun and enjoy playing," added Ms. Castonguay.

Volleyball is proving to be very successful and will continue until at least March. New games may be organized in the spring, such as a modified form of basketball or non-contact floor hockey.

Fitness Awareness sessions will start shortly. These will be semi-weekly lunch-time presentations by various local fitness experts, in coordination with the Halifax Fitness Council. The topics will relate directly to employee fitness. They are intended to make the participants in the other fitness programs more aware of the complexities of total fitness. Dietitians will discuss nutrition and there may be a demonstration of fitness-testing. It is a "bring your own lunch" affair, and time will be allocated for a question-and-answer period. A schedule of topics to be discussed will be available soon, but suggestions by interested persons would be welcome.

Ms. Castonguay will start these sessions once the other fitness programs are well underway and the participants are more aware of their personal fitness, or lack of it.

"We want to give them a nibble of fitness before we throw too much at them," she said.

Ms. Castonguay would like to encourage all employees to at least come and see what is going on. No one who has joined a program so far has left, and she hopes that most who come to see will stay and join up.

Further information and registration forms are available from Helen Castonguay's office, Room M19, basement floor, McNally Building.

Andrew Kniewasser

Group Equity Values

For the information of Saint Mary's faculty and staff concerned with pension contributions, the following figures are provided by Dr. J.J. Vorstermans, Department of Economics:

24 October 1980	—872.28
7 November 1980	—873.60
14 November 1980	—898.36
21 November 1980	—922.27
28 November 1980	—938.98

Intercollegiate athletics

Basketball Huskies second in tough season

After a shaky pre-season showing, the Saint Mary's Basketball Huskies have earned a respectable second-place standing in the A.U.A.A. Their win-loss record at press time was 5-2 with one loss to first-place Acadia and a recent upset loss to UNB. The Huskies have been playing recently with a severely weakened team resulting from bouts with the flu and from injuries. Ron Blommers has missed a number of games due to a broken hand, but his earlier record has kept him in the top ten scorers and the top ten rebounders. Other Huskies ranking high in the league are Bob Oostveen, in the top ten rebounders, and Rick Plato, among the top ten scorers. The Huskies have seven games left in the regular season.

Belles hold third, look to second

The Saint Mary's University Belles are currently placed third in the A.U.A.A. women's basketball league but working hard at gaining second place now held by UNB. The league is led by Dalhousie with a 9-0 win-loss record. The Belles have won 6 and lost 4, 2 to Dal and 2 to UNB. Dianne Chiasson leads the league in rebounding and scoring. Karen McKellar and Sharon Simpson are both among the top ten rebounders in the league. In the six games left (at press time) Coach Helen Castonguay hopes to move to second place for playoff time and a meeting with the fourth-place finisher to start the playoffs.

Hockey Huskies hold second place

A 10-5 win-loss record has placed the Saint Mary's Hockey Huskies second in the A.U.A.A. hockey league with 6 games left to play in the regular season. The league is led by Université de Moncton. Darren Pickrem is among the top ten scorers in the league.

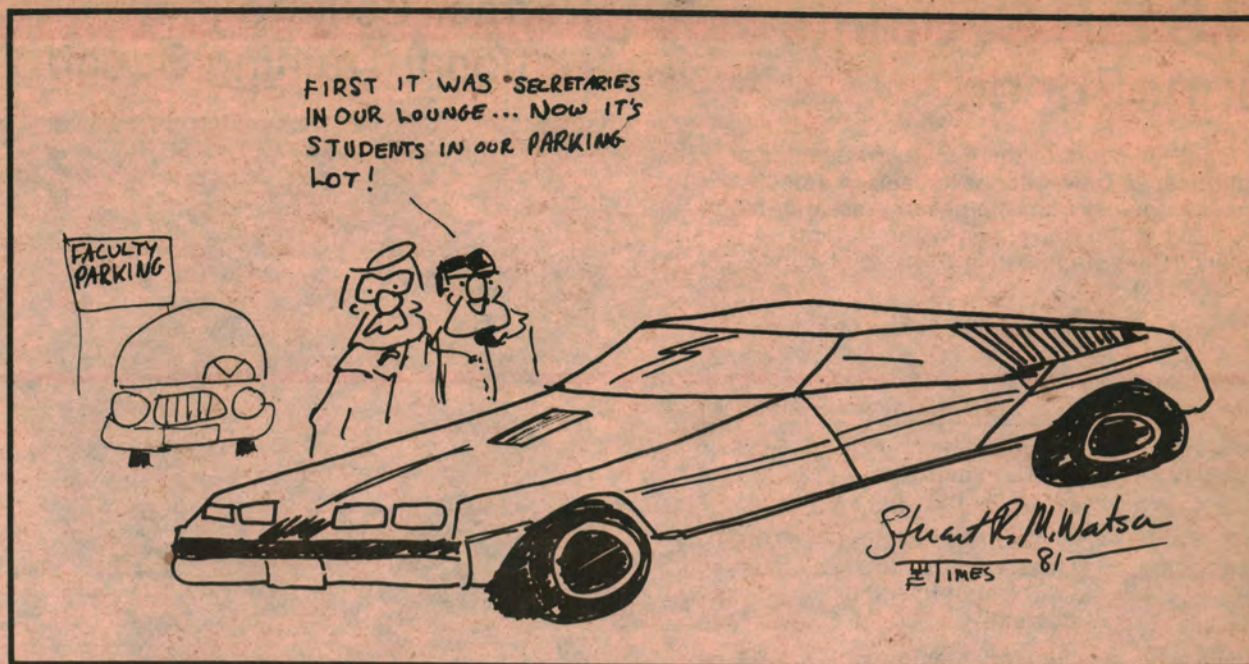

Basketball Huskies on TV

Saint Mary's Basketball Huskies games are featured on Halifax Cablevision, Channel 10, each Monday at 9:00 p.m. The schedule for the rest of the regular season is as follows:

February 9	St. F.X. at Saint Mary's
February 16	Acadia at Saint Mary's
February 23	St. F.X. at Saint Mary's
March 2	Saint Mary's at Acadia

President's Holiday Monday, February 16

The University will be closed for this full-day holiday. Normal switchboard service will be maintained.
