

Love is like war;
you begin when you like
and leave off when you
can.

Spanish proverb

Special events highlight Theatre opening

Nancy White

Lady Windermere's Fan

Peter C. Newman

Robert C. Ragsdale

An exciting array of talent has been lined up to stave off the winter doldrums, ward off icy March winds, and give you a chance to visit the Saint Mary's newly renovated Theatre Auditorium.

Anyone who has not been into the Theatre since last May is in for a surprise—the Auditorium has been turned right around. What was the stage is now rows of tiered seats while what was the back is now the front and contains a new stage, with new curtains and dressing rooms. Above and behind the stage is a costume room and workshop designed so that heavy sets may be lowered directly onto the stage.

The lobby or foyer to the Theatre, built where the back of the old stage once was, is brightly lit and newly furnished with little niches for ticket sales and possibly a bar.

All the seats are removeable to give the Theatre more flexibility. The tiered seats can be taken out to allow greater seating capacity on the carpeted floor and the lower level seats can be removed for conferences or to elongate the stage.

Marriott Dumaresq of Dumaresq and Bryne, the architects who designed the renovations, explained some of the other new, but not so visible features.

Above the Auditorium is an acoustic drop cloud ceiling which both reflects and absorbs sound. The rear wall is also carpeted to help absorb noises, especially echoes. There is a mechanical air handling system which, though not an air conditioner, will keep air circulating through the Auditorium by means of fans. A new sound system with an intercom connecting the foyer to the back of the stage area has also been installed. Everything is new from carpet and paint to the roof. Only the lighting, which Father Stewart provided from the existing lighting system, is being reused.

For those who are safety conscious, the one remaining structure of the old Theatre Auditorium is the three exits: through the McNally Building, into the side courtyard and down the east steps behind the stage.

The Theatre Auditorium is now complete, except for curtains due to arrive shortly, and is ready to stage the events planned to mark the opening.

On Monday, March 1 at 4:30 p.m., it will be officially opened by the Honourable Terence Donahoe, Minister of Education.

That same day, singer and songwriter Nancy White will present a concert at 8:00 p.m. in the Theatre Auditorium.

A native of Prince Edward Island and a former Halifax resident, she is perhaps best known for her work on the CBC radio program "Sunday Morning". She has performed in cabarets, radio and television specials, and has won three ACTRA awards. Through all her success and fame (if not fortune) she remains "the singer with a conscience", the "star" who has not forgotten her roots in P.E.I., the women's movement, the struggles of working peoples in Canada or as far away as South America. She is perhaps best known in Canada for her satirical, witty observations of Canadian life.

Nancy White will be accompanied by the band "Professional Help".

Lady Windermere's Fan, by Oscar Wilde, will be presented by the Saint Mary's University Dramatic Society from March 10-14, at 8 p.m.

This stylized comedy is set in London at the turn of the century. Wilde built his plot around the pertinent issue of scandal and marital infidelity in Victorian upper-class society. Popular belief has it that the character of Mrs. Erlynne in the play is based on Lilly Langtry, who was one of Oscar Wilde's closest friends. When the play was first performed in 1892, Mrs. Langtry was so outraged that she broke off all communications with Wilde and it was many years before the rift between them mended.

Lady Windermere's Fan will be the Society's first production in the new Theatre Auditorium.

Set designers are Anthony Law and Jane Shaw; the costumes are by Doris Butters, and the production is being directed by Faith Ward.

Canadian author and editor of *MacLean's*, Peter Newman, will present a public lecture on Tuesday evening, March 16, as part of the Visiting Speakers Program.

Mr. Newman is the author of *The Canadian Establishment: Volume 1*. He has also written various other books about Canada including *Flame of Power* (1959); *Renegade in Power* (The Diefenbaker Years) (1963); *The Distemper of our Times*; *Bronfman Dynasty: The Rothchilds of the New World* (1975), *The Acquisitors—The Canadian Establishment: Volume 2*, and *Home Country*.

His television credits include a documentary that was awarded a CBC Wilderness Award and *The Tenth Decade*, winner of the Michener Award for Journalism.

Mr. Newman's lecture is entitled *The Power Elite of Canada*. It is free, open to the public, and will be held in the Theatre Auditorium at 8 p.m.

For information about tickets to these events, please call ext. 161 or 162.

Chinese student attends Saint Mary's

Xuding Wang (right) from the People's Republic of China, is shown some of the elements of Canadian ice skating by Keith Hotchkiss, Director of Student Services.

Our bitter cold and western ways are still bewildering to Xuding Wang, an exchange student from the People's Republic of China.

Mr. Wang, a lecturer at the Shandong Teachers' University in Shandong Province, arrived January 4 to study English literature and teaching methods at Saint Mary's University. Incorrect processing of his visa delayed his trip to Canada: he should have arrived last September. Although he has to pick up classes after the first semester, he will stay until the end of 1982. For this semester he is auditing five full courses in English and is registered in a half-credit course in teaching methods. He intends to devote himself full time to his studies, completing all class assignments and examinations despite his status as an auditor because, as the first exchange student from his country to attend Saint Mary's on a full time basis, he believes he has a precedent to set and a high standard to maintain.

It is too early, he admits, for him to have formed an opinion on the quality of either life or courses at Saint Mary's, though he did admit that his residence accommodation would have been shared by three or more students in China.

Mr. Wang's sojourn to Canada began after arrangements were made between Dr. Kenneth Ozmon, President of Saint Mary's, and the directors of the Shandong Teachers' University for an exchange student to be sent to Halifax. Dr. Mary Sun of the History Department, who was then Cultural Attache to the Canadian Embassy in Peking, helped to facilitate the exchange. Mr. Wang was chosen from among the applicants because of his high marks on a qualifying exam.

All this notoriety has made him a celebrity since he is the first person from his rural village

to study abroad. At home he left a bride of 10 months, his parents, three brothers and three sisters.

"It is probably harder on my wife," said Mr. Wang, who speaks impeccable English, "because she is left behind while I am so honoured."

Mr. Wang then went on to elaborate on the educational system in China and how it differs.

Shandong Province, between Peking and Shanghai, boasts Shandong University as well as the Teachers' University. Xuding Wang explained that less than 5% of all pupils are accepted into Chinese universities and colleges. Since chances for advancement and mobility are dependent on a university education, competition between students (or pupils as they are known in China) and among schools is fierce. It is not uncommon for rural schools to hold classes all day, seven days a week to prepare students for the gruelling university entrance examination. Mr. Wang explained that having a pupil from a country school accepted at university gives that school prestige but, more important, without a college education a person from the 'countryside' (as he described it) has no hope of moving to the city or even to another province. He is one of the elite from the countryside who have achieved a university career.

Mr. Wang went on to explain that although courses offered at various schools may differ across China, the government's basic aim is to train pupils in thought (how they perceive their world), health (preventative medicine) and study. At all schools, pupils are taught political science and physical culture (or physical education).

Before the Cultural Revolution (pre-1966), pupils attended elementary and high school for a total of 12 years, much as they do today. However, during the mid-1960s, the leaders of the Cultural Revolution, with their lack of emphasis on the value of education, decreed elementary school last for only five years and high school for only four.

Courses studied today by Chinese high school pupils include, in addition to political science and physical culture, fine arts and music, mathematics, chemistry, physics, biology, geography, Chinese and one other language.

The content of the curriculum has changed perceptively since the recent awareness of Western knowledge. More traditional courses, such as calligraphy, the Chinese art of writing, have dwindled since 1949 and the Chinese Revolution.

Mr. Wang explained that once accepted to a university, it is not difficult to graduate, provided students apply themselves to their studies. A diploma or undergraduate degree can usually be obtained in about three years.

However, when he attended university, all students were required to spend five months in physical labour, either on a farm, in a factory, or in an army unit. Thus, in his case, he studied English for only two and a half years before graduation.

Mr. Wang explained that his command of English evolved from hard study and interaction with 'foreign experts' at the Teachers' University, mainly academics from English-speaking countries and Japan.

The foreign experts are paid about 750 Chinese yuan or \$500 (Canadian) a month by the Chinese government but they also receive free room, board, transportation and entertainment. Only food, costing about \$90 a month, need be paid for.

Mr. Wang has been teaching at the Shandong Teachers' University since he graduated in 1977 but much of the first year was spent overseeing students doing their physical labour on a state farm run by the University. During the second year, he coached students and acted as interpreter to an Australian foreign expert.

For the past two years, he has been teaching extensive reading in English to students training to be high school and junior high teachers. He used as textbooks, six volumes of the *Readers' Digest Condensed Books*, which provided short, clear, informative stories. Other English classes taught at the University include intensive reading (selective readings), an introduction to American and British literature and composition, and oral English and grammar.

Mr. Wang explained that the methods of teaching English in Chinese schools and colleges are staunchly traditional, relying heavily on learning by rote, vocabulary lists and literal translation work. Some lecturers do employ more progressive methods, picked up from the foreign experts on an ad hoc basis. Mr. Wang hopes his classes in teaching methods at Saint Mary's will enable him to introduce more progressive methods to his University. He considers himself to be a teacher first and a linguist second.

While at Saint Mary's, he will concentrate on his studies, leaving little time for leisure except, perhaps, for a day or two around the summer sessions. He does plan, however, a visit to San Francisco and Tokyo on his return home early next year.

Visa and Master Card accepted here

Ray Folkins, the University Comptroller, announced that the University will now accept payment of students' accounts, tuition fees, or purchases at the Bookstore with either Visa or Master Card. These cards will be accepted for payment at the Business Office, the Office of Continuing Education and the Bookstore.

Mr. Folkins explained that he hoped this means of making payments would be a convenience to students attending Saint Mary's.

Holidays . . . holidays

Winter break: Monday, February 22 to Saturday, February 27, no classes scheduled.

President's holiday: Friday, March 19, no classes scheduled.

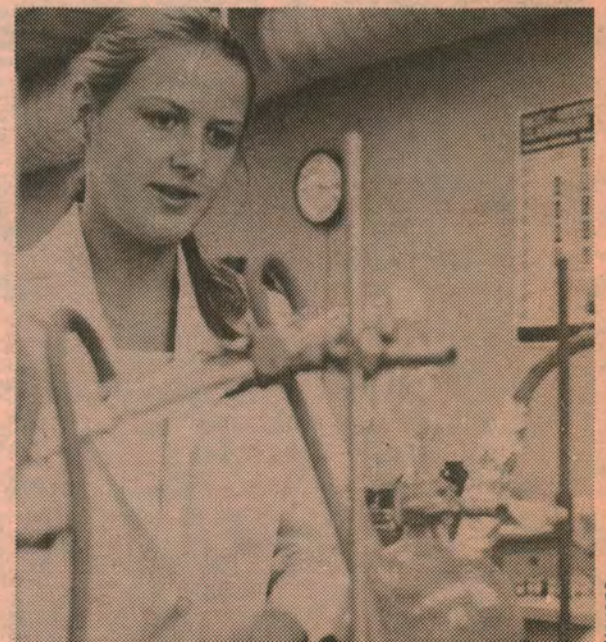

Hinman Bursary winner plans doctoral study in chemistry

The first Charles Hinman Memorial Bursary has been awarded to Kim M. Baines, a final year Chemistry honours student and a native of Dartmouth, Nova Scotia.

Ms. Baines, 21, is working on a thesis project with Dr. Keith Vaughan of the Chemistry Department on *The Reactions of Triazines to 5-Hydroxytriazoles and their Subsequent Rearrangement to Alpha-diazoamides*.

Next year she hopes to enter a doctorate program in chemistry at the University of Toronto. An exceptional student, Ms. Baines has applied for a Natural Science and Engineering Research Council (NSERC) Post-graduate Scholarship and was recently interviewed for a 1967 Centennial Scholarship. The latter scholarship, engendered to celebrate Canada's Centennial, is administered by NSERC and awarded to only 50 post-graduate students from Canada each year.

The Charles Hinman Memorial Bursary was established with a contribution to the University from the parents of the late Charles Hinman (B.Sc., Saint Mary's, 1977), who died in late 1980 after a short illness.

Kim M. Baines, a final year honours Chemistry student, at work in the laboratory.

Noteworthy Notes

DR. JAMAL BADAWI (Management) is presenting the seventh in a series of programs entitled "Islam in Focus" on Dartmouth Cablevision, Channel 10, each Sunday at 3 p.m., and each Thursday at 6:30 p.m. The programs examine the social, economic and political aspects of Islam.

Videotapes of past shows are available for individual or classroom use.

DR. GENE BARRETT (Sociology) presented a paper at the annual meetings of the Atlantic Association of Sociology and Anthropology at Mount Allison University, in March 1981. The paper, entitled "Structure of monopoly capital in the fishing industry of Nova Scotia", was presented as part of a panel on the fishing industry.

In May, DR. BARRETT presented a paper on "The State and capital in the fishing industry: the case of Nova Scotia" before the annual meetings of the Canadian Political Science Association (Political Economy Session), at Dalhousie University.

DR. RICHARD BEIS (Philosophy) delivered a paper entitled "Objective Values" at the annual Atlantic Philosophy Association conference which was held in Corner Brook, Newfoundland, in October 1981. DR. BEIS also delivered the paper before the Dalhousie Philosophy Seminar on November 13.

PROFESSOR GAVIN BOYD (Political Science) will deliver a paper on the "Politics of a New International Economic Order for the Pacific" at the International Political Science Association meeting in Rio de Janeiro, Brazil, in August 1982.

PROFESSOR BOYD has organized a panel on the effects of political change on foreign policies for the American Political Science Association annual meeting in Denver, Colorado, September 2-5, 1982.

DR. VEDAT N. BADAR (Marketing) acted as a discussant at the annual meeting of the Academy of International Business in Montreal.

ELIZABETH A. CHARD (Registrar) attended the annual conference and meeting of the Canadian Bureau for International Education in Toronto, November 15-17, 1981. During the annual meeting she was elected to the Bureau's Board of Directors for a two year term.

As President of the Canadian Interuniversity Athletic Union (CIAU), MRS. CHARD participated in the many activities which comprise the College Bowl Festival in Toronto, November 24-28.

DR. M. PATRICIA CONNELLY (Sociology) acted as a discussant at the session on "White-Collar Labour Processes and Women at Work", Political Economy Sessions of the Learned Societies Conference in Halifax. She also was chairperson/organizer of the session on "The Reserve Army of Labour: Recent Research Trends", Canadian Sociology and Anthropology Association Meetings, Learned Societies Conference.

DR. CONNELLY delivered a paper (with Martha MacDonald) entitled "Women's Work: Domestic and Wage Labour in a Nova Scotia Community" at Women's World: International Congress on Women, University of Haifa, Haifa, Israel, December 27, 1981 to January 1, 1982.

DR. LINDA CHRISTIANSEN-RUFFMAN (Sociology) presented a paper entitled "The Environmental Movement in Nova Scotia: An Alternative View of Issues and Perspectives" at the Atlantic Association of Sociologists and Anthropologists, March 27, 1981 (invited paper).

DR. CHRISTIANSEN-RUFFMAN presented a paper entitled "Ideologies and Counter Ideologies of Citizen Participation" at the Canadian Sociology and Anthropology Association, Halifax, May 28, 1981.

DR. CHRISTIANSEN-RUFFMAN presented a paper entitled "Women and Political Action in Canada" at a session jointly sponsored by the Society for the Study of Social Problems and Sociologists for Women in Society, Toronto, August 23, 1981 (invited paper).

At the Learned Societies meetings, DR. CHRISTIANSEN-RUFFMAN was a discussant at a session on Women in Rural Development at the Canadian Sociology and Anthropology Association. She chaired a session at the Canadian Communication Association entitled "The New World Information Order: Atlantic Canada Replies", and she was chairperson of the local arrangements committee for the Canadian Communication Association.

DR. RONALD COSPER (Sociology) was awarded a research grant of \$9,000 by the Arts and Culture Branch Sponsored Research Program (Department of Communications, Government of Canada) for a project entitled "Dimensions of Cultural Interest".

DR. COSPER and Florence Hughes presented a paper at the Third Canadian Congress on Leisure Research, in Edmonton, Alberta, August 1981. The paper was entitled "Occupation and Leisure Participation: A Multidimensional Analysis".

Also at the Third Canadian Congress on Leisure Research, John M. Roberts and DR. COSPER presented a paper on "Limited Game Type Combinations and Occupational Diversity"; and DR. COSPER and Susan Shaw presented a paper entitled "The Validity of Survey and Time-Budget Data on Cultural Participation".

DR. RONALD COSPER and David Elliott presented a paper on "Public Drinking in a Metropolitan Canadian Region: A Comparison of Survey and Time-Budget Data" at meetings of the International Research Group on Time-Budgets, in Sophia, Bulgaria, in October 1980.

DR. RONALD COSPER and Judith Grant prepared a report for the International Education Centre at Saint Mary's as part of the Multicultural Youth of Nova Scotia Project. The report was entitled "Ethnicity, Religion and Leisure Participation in Halifax: A Test of the Idea of Multiculturalism".

DR. DAVID L. DUPUY (Astronomy) delivered a paper entitled "HR 1225: New Observations and Period Search" at the American Astronomical Society meeting in Boulder, Colorado, January 11-13, 1982.

DR. WAYNE GRENNAN (Philosophy) participated in a Departmental Leadership Workshop held at Brudenell, Prince Edward Island, October 4-8, 1981, sponsored by the Association of Atlantic Universities.

DR. GRENNAN presented a paper entitled "A Defence of Retroactive Legislation" at the Atlantic Philosophy Association Conference in Corner Brook, Newfoundland, in October 1981.

DR. SANDOR HALEBSKY (Sociology) attended the Progressive Summer Seminar in July 1981 at Cornell University, sponsored by the Department of City and Regional Planning of the School of Architecture.

DR. HALEBSKY and DR. I. OKRAKU (Sociology), were co-authors of a paper presented at the annual meetings of the Society for the Study of Social Problems held in August in Toronto. Title of the paper was: "Abortion attitude populations: profiles and attitude context".

DR. KEN HILL (Psychology) was recently awarded a Leave Fellowship by the Social Sciences and Humanities Research Council of Canada, for \$8,265. Dr. Hill will spend the year 1982-83, while on sabbatical, at the Atlantic Child Guidance Centre.

DR. J.G. JABBRA (Academic Vice President) has been named to the Joint AAU/MPHEC Academic Advisory Committee as an AAU representative. The committee reviews and recommends to MPHEC on new academic programs proposed by Maritime universities.

DR. NATHAN D. KLING (Marketing) presented a paper "Access to Cognitive Processes: Sex related differences in predictive accuracy of an attribute salience rating scale", at the annual meeting of the Atlantic Schools of Business Conference in Saint John, New Brunswick.

DR. PETER MARCH (Philosophy) presented a paper entitled "Is Ostensive Definition Recursive?" at the annual Atlantic Philosophy Association Conference in Corner Brook in October 1981.

DR. ROWLAND MARSHALL (Philosophy) presented a paper entitled "An Examination of Some of the Connections Between Art and Justice" at the annual Atlantic Philosophy Association Conference in Corner Brook in October 1981.

DR. ISHMAEL O. OKRAKU (Sociology) presented a paper entitled "An 'Elite' Retires: A Study of Government Pensioners in Ghana", at the Joint Meeting of the Gerontological Society of America and the Canadian Association on Gerontology in Toronto, November 8-12, 1981.

DR. HELEN RALSTON (Sociology) presented a paper entitled "The Christian ashram movement: a new religious movement in contemporary India" at the annual meetings of the Society for the Scientific Study of Religion, in Baltimore, Md., on October 31, 1981.

DR. HERMAN F. SCHWIND (Management) chaired a session and presented a paper "A Comparison of Three Instrument Formats for Instructor Evaluation: A Preliminary Report" [with Brenda White and DR. HARI DAS (Management)] at the Atlantic Schools of Business Conference, University of New Brunswick, Saint John Campus.

Dr. SCHWIND was invited by the Canadian Society for Civil Engineering to participate as a resource person at a seminar on Project Management. His topic was "Organizational Requirements for Effective Project Management".

DR. SCHWIND was also guest speaker at a monthly meeting of the Maritime Personnel Association on the topic: "If Japan can, why can't we?".

DR. RICHARD M. SPARKMAN, Jr. (Marketing) presented a paper "The Discounting Principle in the Perception of Advertising" at the annual meeting of the Association for Consumer Research. The meeting was held in St. Louis, Mo.

LIZ STEVENS (Public Relations) has been elected Vice-President of the Halifax Players, a community theatre group.

Group Equity Values

For the information of Saint Mary's faculty and staff concerned with pension contributions, the following figures are provided by Dr. J. Vorstermans, Department of Economics:

20 November	1981—880.94
27 November	1981—895.89
4 December	1981—897.14
11 December	1981—883.20
18 December	1981—881.60
31 December	1981—887.52

(December 31, 1980—918.01 or 3.5% increase)

Upcoming events

Nova Scotia Women in the Arts is a young organization formed in late 1980 to promote and support provincial women involved in any of the arts, including visual arts, writing, dance, film, music and cultural administration.

The organization is requesting ideas for collective or individual performances by women to take place concurrently with *Mirrorings*, an exhibition of works of art by Atlantic women. *Mirrorings* will be at the Mount Saint Vincent University Art Gallery from September 17 to October 11, 1982.

For further information, please telephone Alana Robb at 425-7812 or Jennifer Fisher at 429-0190.

The Chebucto Orchestra will hold its second concert in the Saint Mary's University Theatre Auditorium on Wednesday, February 17 at 8:00 p.m.

The guest soloist, mezza soprano Elvira Gonnella, will sing a selection of songs from *Des Knaben Wunderhorn* (Youth's Magic Horn) by Gustav Mahler.

Other works to be presented by the musical director, James Williams, include Shubert's *Third Symphony* and the *Semiramide Overture* by Rossini.

Admission is \$2.00, \$1.00 for senior citizens and students. Saint Mary's students may be admitted free of charge.

Community Tape Library volunteers honoured

Stevens

In recognition of the International Year of Disabled Persons, staff of the Tape Library showed their appreciation to two of their most faithful volunteers who read for tapes as well as to one visually-impaired student who often uses the Library's services.

Shown here (left to right) are: Rube Hornstein, well-known weatherman; Robert Ganong, a third year student majoring in political science; Monica Johnson, a part-time student; Ron Lewis, Librarian; and Valerie Young, coordinator of the Tape Library.

Atlantic Canada Institute reveals 1982 program

The Atlantic Canada Institute announced its summer program for 1982. The Institute will celebrate its tenth anniversary by expanding its week-long programs into the four Atlantic provinces. Dr. Kenneth MacKinnon, Coordinator of the Atlantic Canada Studies program at Saint Mary's will be the director for the Institute's summer program.

The program offers, at four universities, a week of morning lectures, followed by excursions and entertainment, with residence accommodation and a children's program.

The first week (July 11 to 16) will be at Sir Wilfred Grenville College in Corner Brook, Newfoundland. A course on "The Neglected Coast"—the west coast where the culture still shows a strong influence of Irish and Acadian settlers—will focus on the literature, genealogy and folklore of the area. Director of the week in Newfoundland is Dr. Cyril Byrne of the English Department at Saint Mary's.

The second week (July 18 to 23) will be held at St. Francis Xavier University in Antigonish, Nova Scotia, and will be directed by sociology professor, Dr. Dan MacInnes. This course, entitled "Auld Hame Week", coincides with the 100th anniversary of the birth of Dr. Moses

Library News

Barbara LeGay, Coordinator of Services to Handicapped People in the Public Service Commission, has selected the Community Tape Resource Library as an organization providing a worthwhile service to members of the blind community.

On her recommendation the St. Paul's Church Women donated \$100.00 to the Tape Library.

Tanya Dorcic has been transferred to the Acquisitions Department as a full-time Library clerk. She was previously employed in a part-time position in the Circulation Department.

Bob Cook has been appointed Coordinator of the Bibliographic Searching Unit of the Library as of December 1, 1981. In addition to his Master of Library Science degree (Dalhousie, 1981), Mr. Cook has a Master of Arts degree in History (University of Saskatchewan, 1977) and a Master of Arts degree in Modern Social History (University of Lancaster, 1974).

Coady, leader of the Antigonish Cooperative and Community Development Movement. The Coady Institute and Celtic presence provide themes for lectures and tours.

Week three (July 25 to 30) is scheduled for Mount Allison University in Sackville, New Brunswick. Borrowing its theme from a title by Sir Charles G.D. Roberts, "Tantramar Revisited", the course is planned around the Tantramar Marsh region, which provides a unique natural environment, the industrial area of Amherst, the history of the Acadians, and a distinctive art and architecture. Professor Gwen Davies of Mount Allison is director of the program.

The final week (August 1 to 6) will be held at the University of Prince Edward Island in Charlottetown. The topic, "Waiting in the Wings" has been planned by Jan Zann of Truro, and will revolve around the Island's theatre, fox farming, women artists, and a nature study of the dunes.

Further information on the Atlantic Canada Institute's summer programs may be obtained by writing to the Institute at the University of New Brunswick Artcentre, Box 4400, Fredericton, New Brunswick E3B 5A3.

ERIC who?

ERIC is an acronym for the Education Resource Information Centre, which was created by the United States Department of Education in 1966. Originally the Centre was intended to provide access to research publications in education but in 1968 it was expanded to include other types of information relating to educational knowledge. The Centre presently consists of 16 clearing houses, each of which is responsible for collecting information in a particular field of education.

Last autumn, Bruce Clark, an ERIC representative, visited the Patrick Power Library to talk to staff about the organization of the Centre. Seven per cent of the Centre's content originates from Canada.

The Library's collection of ERIC is housed in the Multi-media Centre on the third floor and presently contains over 350,000 documents on microfiche. All these documents are abstracted in ERIC's *Resources in Education*, which is available from Information Services in the Library along with the *Thesaurus of ERIC Descriptors* and *Current Index to Journals in Education*.

Staff of Library Information Services invite anyone interested in meeting ERIC to come to the Library for a personal introduction.

Book on non-sexist language launched

Stevens

Dr. Wendy Katz (English Department) presented a copy of *Her and His: Language of Equal Value* to Dr. Ozmon. The book, which was written by Dr. Katz, is a Report of the Status of Women Committee of the Nova Scotia Confederation of University Faculty Associations (NSCUFA) on Sexist Language and University, and is published through NSCUFA with financial assistance from the Canadian Association of University Teachers (CAUT).

Lunch with ART presents unique pair of artists

The Lunch with ART program at the Art Gallery will be presenting two very special programs, one in February and one in March.

On Friday, February 19, Don Reider, a clown, will give a performance of the "Acrobat's Smile", a sad and silent tale of an old clown with faded talents seeking a final applause from the audience.

Don Reider is a far cry from the North American concept of a clown, a farcical person dressed in outrageous clothes who combines silly antics for children. Mr. Reider's clowns are sensitive portrayals of those very human traits that are both funny and pathetic simultaneously.

Although an American, now a landed immigrant in Canada, Mr. Reider has spent most of his professional career in Europe, particularly Eastern Europe, where clowning and pantomime are considered sophisticated theatrical experiences, not to be confused with the children's shows so prevalent in circuses or rodeos in this country.

Mr. Reider admits to drawing on the acrobatic and juggling skills of circus clowns but he mixes his performances with characteristics drawn from some of the old silent film stars such as a Buster Keaton and Harry Langdon whom he learnt to appreciate while studying in Czechoslovakia, from mime, in particular coporeal mime, and from the tradition of clowns in Eastern Europe. As he explained, in Czechoslovakia, clown plays are not only rooted in the culture of the country, but are a deeply understood means of expressing contempt of the state government to a politically aware audience without evoking censorship.

Mr. Reider has performed both in North America and Europe to rave reviews. In the 1979 Festival of Clowns, held in France, he was touted by local critics as the one performance not to be missed.

Clown Don Reider strikes a Buster Keaton pose.

His wife, Valerie Dean, a coporeal mime artist from Dartmouth, will perform in the Art Gallery during the lunch hour on Friday, March 26. She will combine her presentation with a lecture on the art form.

Coporeal mime is a newer art than clowning, although both share many of the same characteristics. It does have its origins in clowning but the father of coporeal mime is a Frenchman, Etienne Decroux, who taught during the 1920s and 1930s. The school of mime arose out of general dissatisfaction with the rigid formality of contemporary theatre and dance and was an attempt to simplify theatre through concentration on the fluidity of the body and the infinite gestures that can be made with silent movement.

From Decroux' teachings arose both pantomime and coporeal mime. The former, as practiced by such renowned artists as Marcel Marceau, rely on the performer creating an illusion and then interacting with that illusion. This has, over the years, created a highly stylized set of movements not found in coporeal mime, which uses deliberately chosen props so that the performance becomes an interplay

between the artist and object.

Coporeal mime, explained Ms. Dean, who is also a dancer, requires the artist to understand dance and be totally aware of body movements. There are few conventions tied to coporeal mime, thus allowing the performer complete freedom of movement and expression.

Both Don Reider and Valerie Dean collaborate and draw from each other's training and experience. They are now resident in Halifax and are organizing a company called Klaunida, a Czech word mean clown's play. At the moment Mr. Reider is teaching theatre students at Dalhousie University while Ms. Dean is teaching at the Halifax Dance Association.

Both are rehearsing for a performance of choreographers, in which they are participants, to be held at the Rebecca Cohn Auditorium, March 5, and a solo performance at the Dunn Theatre on April 25. In June they will be leaving for Seattle to complete a year of advanced studies at the Washington High Performance Gallery. They will be returning to the Maritimes in August 1983 to make Halifax the home base for their unique artforms. They hope to combine performing with teaching and consulting in both clowning and coporeal mime.

Mime artist Valerie Dean (crouching) explains body technique to a young student of coporeal mime.

At the Art Gallery

Stevens

You can still discover what many members of the Saint Mary's community do in their spare time. An exhibition of works of art by faculty, alumni, students and staff is on display in the Art Gallery until February 21. Nearly 75 works by 30 artists are being exhibited, including sculpture, lithography, painting in both oil and watercolour, drawing, photography, quilting, ceramics—and more!

An original lithograph donated by the Director/Curator of the Art Gallery, Leighton Davis, will be raffled on Friday, February 19, immediately after the Lunch with ART program scheduled for that day. Tickets are 50¢ each and proceeds will be used to purchase new works of art for the University's Permanent Collection. Some of the works in this growing collection may be seen about campus in such places as the Chaplaincy Office, the Financial Aid Office or Student Services.

During the Winter Break (February 22-26), Kiwanis Music Festival classes will be held in the Gallery.

On March 4, 1982, a new exhibit of black and white drawings by local artist and teacher, Ron Shuebrook, will be opened with a reception at 8:00 p.m. to which the general public is invited. This retrospective exhibition, which shows the artist's development through works dating from 1965 to 1982, will continue until April 11.

January 11 - Faculty, Student, Staff,
February 21 Alumni Exhibition
March 4 - Ron Shuebrook,
April 11 drawings

Lunch with ART

February 12 Joel Zemel and Rick Edgett, jazz guitar duo
February 19 Don Rieder, clown - *The Acrobat's Smile*
February 22 - 27 Kiwanis Music Festival classes
March 5 Donna Hart - piano recital
March 12 John McKenna - guitar recital

Evenings in the Art Gallery

March 12 Chamber Music Recital - David Murray, double-bass, Helen Murray, piano. 8:00 p.m. (free admission)

WIN A RECORD

Saint Mary's University Bookstore

Record Draw will be held on February 26, 1982

With each purchase of a non-deleted album from the Bookstore you will receive a lottery ticket to fill out to win the single record of your choice.

Enter as often as you like!

Saint Mary's University Faculty Women's Association

will hold a

Valentine (Costume) Dance

Sat., Feb. 13 at 8:30 p.m.

in the

Multi-purpose Room

Open to entire University community.

Costumes are encouraged, but not required.

Music, ranging from the 1940s to the 1980s, will be provided. A light lunch will be served at approximately 10:30 p.m.

One admission ticket, at \$10 per person, makes the holder eligible for prizes which will be drawn throughout the evening.

Proceeds are for the Faculty Women's Association Scholarship Fund.

Tickets may be purchased from:
Elizabeth Chard 429-9780, ext. 201 or 423-3245
Belinda Gallagher 429-9780, ext. 454 or 434-0154

Other events scheduled by Faculty Women's Association:

Saturday, March 27 — Sock Hop—Pot Luck Supper and Dance.
Friday, April 23 — End of Year Chowder Luncheon
Guest Speaker—Dr. Mary Sun

Halifax Universities to coordinate education programs

Dr. Frank Phillips, the Acting Dean of Education at Saint Mary's, together with the chairpersons of the Departments of Education at Dalhousie and Mount Saint Vincent Universities, recently announced a decision to cooperate on various aspects of their degree programs in order to avoid duplication.

According to Dr. Phillips the proposal will not affect Saint Mary's directly, which will continue to offer the four basic education degree programs: a one-year Bachelor of Education program for students who already have obtained an undergraduate degree; a Bachelor of Education program for teachers at vocational schools; a one-year program to upgrade the Nova Scotia Teachers' College diploma to a Bachelor of Education; and the Master of Arts in Education program.

Explained Dr. Phillips, "Saint Mary's will not be dropping any of its program because we think the program is very tightly run, as well as being excellent."

He went on to say that with only five full-time professors, each of whom teaches two undergraduate and one post-graduate course, shifting the emphasis or reducing or increasing

course offerings would not lead to any real savings: the Faculty is run as economically as possible.

He added that Saint Mary's students attend Dalhousie and Mount Saint Vincent Universities for classes not offered at Saint Mary's, and, conversely, students at the other two universities may attend Saint Mary's if class enrolments are not full. Also, for a number of years, Saint Mary's education students have attended 'business methods' classes taught by a faculty member from the Mount. Depending on enrolment, this course is taught either at Saint Mary's or Mount Saint Vincent.

Under the new proposal put forth by the heads of the education departments at all three universities a number of changes will be instigated.

Dalhousie will concentrate on graduate studies and on the combined Bachelor of Arts/Bachelor of Education program. It will relinquish both the one-year Bachelor of Education program and the Bachelor of Education in Vocational teaching program once students enrolled in these programs complete their degree requirements. Students who would have applied to Dalhousie for these courses in the past will be advised, instead, to apply to Saint Mary's for essentially the same program of study.

Mount Saint Vincent University, under the terms of the proposal, will concentrate on its Bachelor of Education program for the training of elementary school teachers and will discontinue to offer courses for secondary teachers, with the exception of unique courses such as home economics.

Robinson

Dr. Phillips concluded by emphasizing that the proposal is still at the exploratory stage. Before ratification, more meetings will be required and the proposal will have to be approved by the Senate of both Mount Saint Vincent and Dalhousie Universities.

Senate Regulations Governing Early Registration

At its meeting of December 4, 1981, Saint Mary's University Senate enacted a series of regulations which will in future govern early registration. They can be summarized as follows:

- 1— Early Registration will continue to take place during the month of August;
- 2— a faculty representative from each department, division and subject area will be available in his or her own office for the purpose of providing students with academic advising during the following times:

First Two Weeks	
Monday, Tuesday, Thursday,	
Friday	9:00 a.m. - 12:00 noon
Wednesday	9:00 a.m. - 12:00 noon
	and
	5:00 p.m. - 7:00 p.m.
Second Two Weeks	
Monday, Tuesday, Thursday,	
Friday	1:00 p.m. - 4:00 p.m.
Wednesday	1:00 p.m. - 4:00 p.m.
	and
	5:00 p.m. - 7:00 p.m.
- 3— students will also be allowed to complete their registration by mail during the first three weeks of August;
- 4— students who return to the University on probation will not be able to register by mail. They must register in person during the normal registration period or during a specified week of early registration;
- 5— the week immediately following the Spring Break will be set aside for the purpose of advising students on their course selection for the summer sessions and for the 1982-1983 academic year;
- 6— all faculty members will participate in this period of preliminary course selection during their regular office hours; and
- 7— A complete timetable of summer school courses and a reliable list of courses to be taught in each semester of the 1982-1983 academic year will be available for the purpose of advising students on their course selection during the week following Spring Break.

WUSC Caravan to visit Saint Mary's

Hang on to your cheque books and credit cards, the WUSC Caravan is visiting Saint Mary's on Thursday, February 18.

The World University Service of Canada (WUSC) organizes the Caravan, a sale of handicrafts from Third World countries.

The sale, which is being sponsored by the International Education Centre, will be held at the Burke Education Building from 10:00 a.m. to 6:00 p.m. Mrs. Betty Ozmon, wife of the University President, will open the sale at 10:00 a.m. and all proceeds will go to WUSC.

WUSC is the Canadian branch of World University Service, founded in Europe in 1920 to promote student emergency relief and educational exchanges. WUS Canada was founded at the University of Toronto in 1921. It is a non-profit non-government organization which fosters community development and refugees assistance. Through its programs WUSC links the academic community in Canada with overseas institutions and organizations, recruiting technical personnel for postings in developing countries. The Service cooperates with the United Nations and its agencies and other international non-governmental organizations.

Reception to honour retiring members of the Board of Governors

Richard Nicolle

Shown here (left to right) are four members of the Board on the occasion of their retirement: Reverend Monsignor Colin Campbell, Canon F. Melvin French, Dr. Robert Napier and Mr. P.J. Connolly.

Achievement Scholarship awards

The University recognizes exceptional academic performance by the awarding of scholarships based on final grade point average. Students maintaining a grade point average of 3.50 or better may be eligible for this recognition. To receive these awards, eligible students may apply in writing to the Financial Aid Officer before May 31, 1982.

Successful applicants will be notified in writing before the resumption of classes in September 1982. For further information, please consult the Financial Aid Officer in the Business Office, Room 119, McNally Building or telephone 429-9780, extension 509.

High school principals visit Saint Mary's

Stevens

Featured here (left to right) are: Michael Campbell, St. Patrick's High School; Jim Aucoin, Cole Harbour Senior High; Jean C. Murray, Ambrae Academy; Dr. Kenneth Ozmon, President of Saint Mary's; and Frank Mitchell, Coordinator of Senior High Education, Department of Education.

Pan American Wheelchair Games Committee unveil flag

On January 15, Dr. Kenneth Ozmon, President of Saint Mary's, and Mr. Ken MacRae, Vice-Chairperson of the VII Pan American Wheelchair Games, with the aid of two boy scouts, raised the Games flag on the flagstaff outside the McNally Building.

Despite the snow and icy winds, the flag unveiling was a warm reminder that the Games are only a few months away. Similar ceremonies will be held in the next few weeks at Province House and City Hall.

The Executive Committee of the Games is gearing up its activities. The 26 members of the Board of Directors, under the chair of Dr. Basil J. Grogono, have organized 16 committees and sub-committees, which will eventually involve more than 800 volunteers.

A number of members of the Saint Mary's community have already volunteered their time and talents, including Al Keith (Athletics), who is Secretary of the Games Executive Committee, and Pat Lyall (Conference Office) and Keith Hotchkiss (Director of Student Services), who are in charge of accommodation and security, along with Don Lord (Chief of Security). Mike Tingley (Computer Services) will arrange the computer facilities and Paul Gouett (alumnus) is handling housing in the residence complex.

Dr. Ozmon helps Ken MacRae, Vice-Chairperson of the Pan American Wheelchair Games, unfurl the flag for the 1982 Games, with the aid of a boy scout.

Observatory observes 10th anniversary

The anniversary of an important milestone at Saint Mary's University nearly slipped passed on January 14, 1982. On that day, 10 years ago, astronomy technician Randall Brooks first put his eye to the telescope in the Burke-Gaffney Observatory, thus signalling the start of a new era in the study of astronomy at the University.

The 16-inch (40-cm.) reflecting telescope, the only professionally-equipped one of its size in Atlantic Canada, stands atop the Loyola Building at Saint Mary's, surrounded by an array of highly technical equipment that has been especially designed and constructed for its use.

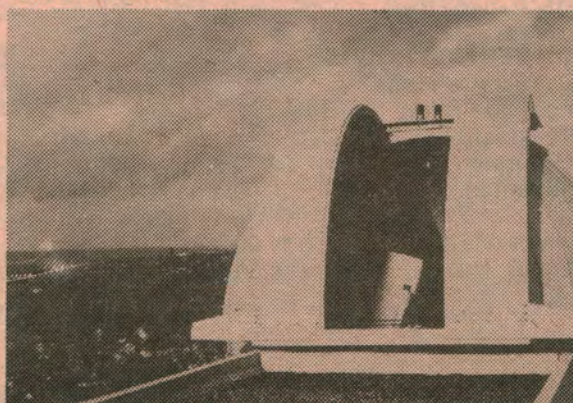

In 1972, the only ancillary equipment was a simple camera. However, with funding, most of which was proved by grants from the Natural Sciences and Engineering Research Council (NSERC) and the Department of Regional Economic Expansion (DREE) from 1977 to 1981, the Astronomy Department was able to invest in equipment.

Now the Observatory boasts a new and sophisticated camera with an image tube that allows exposure time to be reduced by one-tenth; photometers for measuring colour and brightness of stars; and a spectrograph for photographing the spectrum of a star. This last piece of equipment is valuable to researchers since the spectrum of a star is its own unique signature. By analyzing photographs of spectra, astronomers can determine the size, age and temperature of stars.

Outside the Observatory, other equipment has been designed and built to enable analysis of photographs taken with the telescope. In the

laboratory room is an iris photometer for taking photographs and measuring the diameter of stars: the diameter of star is a measure of its brightness. Other equipment includes a micro-densitometer, which is used in conjunction with the spectrograph to analyze the spectra of stars and computing facilities with terminals, digital plotting equipment and desk top computers.

The telescope is the largest of its kind in the region, although four other Maritime universities have observatories and there are at least six others in Canada that are larger. It is a fair weather telescope; it can be used only at night when the skies are clear. Problems do arise when a long exposure of a number of hours is required and the weather clouds over in the interim. Like all telescopes, it is programmed to compensate for the Earth's rotation and once set, needs only minor adjustments during exposure time.

R. Brooks

The Burke-Gaffney Observatory

Mr. Brooks explained that the general public is invited to visit the facilities at the Observatory. There are tours every Saturday evening which include a display of photographs and a slide presentation and, if weather permits, a chance to view the stars through the telescope. Special tours can also be arranged by groups.

About 2,500 people visit the Observatory each year, 65% of whom are members of school groups. On the two days that marked the opening of the facilities in 1972, more than 2,000 individuals attended. However, the most popular event since then was the passing of Kohoutek Comet in early 1974. Nearly 350 people flocked to the Observatory each night and Mr. Brooks expects a similarly enthusiastic response when Haley's comet returns from its solitary sojourn through the solar system in 1986.

Although the Observatory is an integral part of the program presented by the Astronomy Department, the Department was not founded until 1974. However, it now flourishes with more than 80 graduate and undergraduate students enrolled in its programs.

Departmental research is gaining international recognition. Funded with NSERC operating grants, Dr. David DuPuy and Dr. Gary Welch are completing work on a charged couple device for taking photographs of the universe at low light levels and Dr. George Mitchell and Dr. Jack Ginsberg are continuing their research on interstellar molecules and comets.

Sports update

Coach Gary Heald
of the Huskies
Basketball team.

The Men's Basketball Team, with coach Gary Heald, are to be congratulated on their excellent seasonal record. Over the Christmas-New Year period, the team won three annual tournaments: the Carleton Invitational Tournament at Carleton University, the Centennial Tournament at Concordia University and, closer to home, the Stu Aberdeen Tournament at Acadia.

Leroy Davis, a defence player, was voted Most Valuable Player at the Acadia Tournament for scoring an impressive 26 points.

So far this season the team has lost only three exhibition games and, at the time of writing, has won all league games, ranking them number one in the Atlantic Universities Athletic Association (A.U.A.A.) and second only to the University of Victoria in Canada.

The Women's Basketball Team is holding onto a respectable second place in the A.U.A.A. league standings, but are some considerable distance behind first-ranking Dalhousie University.

Meanwhile, the Hockey Team, reeling under the adverse publicity of January 17's fiasco against the University of Prince Edward Island, are still in fourth place, with only a few points separating them from the lead.

The Representative Volleyball and Basketball teams are doing well in their respective leagues; the Volleyball team being in first place.

Representative sports, according to Debi Woodford of the Athletics Department, have been recently introduced to Saint Mary's for the enjoyment of individuals who are not members of teams playing in the A.U.A.A. leagues.

The teams are not subject to the rules of the A.U.A.A., nor are their members limited to students; other members of the University community may also join. However, the teams do play league inter-varsity matches.

University hosts high school counsellors

Saint Mary's recently hosted a reception for local high school guidance counsellors. Shown here with Leo R. MacDonald (left), Director of Admissions at Saint Mary's, are: Terri Bussey, Sackville High School; Elizabeth Brown, Dartmouth High School; and Robert Hill, Queen Elizabeth High School.
