

Theatre Auditorium opened by Minister of Education

The Theatre Auditorium was officially opened on Monday, March 1 by the Honourable Terence Donahoe, Minister of Education. On hand for the ceremonies were (left to right) Monsignor Colin

Campbell, chairperson of the Board of Governors, Mr. Donahoe, Les Kirpatrick, chairperson of the Board Property and Development Committee, and Dr. Kenneth Ozmon.

The Honourable Terence Donahoe, Minister of Education, officially opened the newly renovated Theatre Auditorium at Saint Mary's University on Monday, March 1 at 4:30 p.m.

Renovations to the Auditorium, which were reported in the last issue of *The Times*, were made possible, in part, by a grant of \$575,000 from the Maritime Provinces Higher Education Commission.

The opening ceremonies included a well-attended performance by singer-songwriter Nancy White, in concert with her band, Professional Help.

This weekend the Dramatic Society is presenting *Lady Windermere's Fan* by Oscar Wilde in the Theatre Auditorium. Tickets for all performances are still available.

On Tuesday, March 16, noted Canadian author and editor of *MacLean's Magazine*, Peter C. Newman, will give a free public lecture on "The Power Elite of Canada".

Differential fees to increase next year

Differential fees for foreign students attending Maritime universities will increase by approximately 25% next year.

The Council of Maritime Premiers recently approved the increase from the present rate of \$750 per annum for a full-time equivalent student to \$1000 for the 1982-83 academic year. This increase, proposed by the Maritime Provinces Higher Education Commission (MPHEC) was "recommended in order to bring the supplement for foreign students in accordance with the original intention that it be approximately equal to the regular tuition fee level."

According to the Registrar, Elizabeth Chard, Saint Mary's University is obliged to pass this increase on to the foreign students. In effect it

means that the University's per capita grant is being reduced by the MPHEC by \$1000 for each foreign student. Those students involved will fall into the same category as those who paid differential fees for the present academic year.

The outgoing president of the International Students' Association, Teh Boon Heng of Malaysia, expressed concern and said he would draw it to the attention of the new executive of the Association. He is worried that the increase, coupled with this year's 82% hike in the Blue Cross insurance premiums paid by foreign students, will make it difficult for many non-Canadian students to attend universities in Canada. Universities in Quebec, Ontario and Alberta also pass differential fees on to the students.

Teh Boon Heng added that tuition fees for foreign students in Canada are low in comparison with most American universities and much lower than those in the United Kingdom. However, the fees are not as attractive as they once were and Australia now remains one of the few English-speaking countries that offers relatively inexpensive higher education for foreign students.

Support Staff contract nears ratification

The Saint Mary's University Support Staff Union is close to signing its first contract with the Administration.

According to Randall Brooks, Astronomy technician and Union president, most of the issues have been resolved and only minor clarifications remain to be ironed out.

The agreement is for a two year contract, retroactive to July 1981, and will cover the 109 employees of the University who are members of the Union.

The University Administration has offered the Union a basic 17% increase, back-dated to July 1981, with an additional 14% in July 1982. The Union will be responsible for apportioning the money made available by the Administration to its membership.

Mr. Brooks pointed out that since this is the Union's first contract, on which future

negotiations will be based, it was necessary to take the time to be thorough.

Other terms agreed to include a job evaluation program, to be administered by the Personnel Office. Thirty-five per cent of the Union's membership are unclassified at present but will be within six months of signature of the contract. Although the Union will not undertake the job evaluation scheme, members will be on the Appeals Committee and all employees in the Union will have the right to appeal their classification.

Other clauses cover the Christmas holiday period, with provision for equivalent pay or leave for those required to work during the holiday season; a systematic procedure for leave applications, including sick or maternity leave; a labour-management relations committee; and provisions for term and part-time employees.

(Story on page 8)

Development Director appointed

The new Development Director will be familiar to many on campus. Donald P. Keleher, President of the Saint Mary's Alumni Association, has been appointed to the position, effective March 1. He replaces Charles Vaughan who has taken up an appointment as chairperson of a Royal Commission.

Mr. Keleher's ties with Saint Mary's go back to the 1960s, and he has fond memories of his student days ranging from Freshman Orientation Week when he was elected 'Frosh of the Year' to Father Hennessey's notorious \$1.00 fines for incorrect University attire.

Don Keleher graduated in 1970 with a Diploma in Engineering and a Bachelor of Science degree. He then went on to the Technical University of Nova Scotia and graduated in 1972 with a Bachelor of Engineering degree.

Since then he has held a number of senior management positions with local corporations. His most recent appointment was as Special Projects Manager for the North Atlantic Trading Company (NATCO). He worked as part of a

management team on projects related to problems-solving at three of NATCO's subsidiaries.

Mr. Keleher is a member of the Association of Professional Engineers of Nova Scotia and a director of the Canada Progress Club of Halifax.

He is delighted to be back at Saint Mary's, although he admits that given the present economic climate in Canada, his job will be tough. Many corporations who in the past have contributed generously to the University may now be forced to show restraint, and alumni, although supportive of the University, may not be in a position to contribute as freely as they would like. He added that most of Saint Mary's alumni are young and just getting their careers established. However, older members of the Alumni Association, those who graduated in the 1940's through 1960s, although few in number, more than make up for it with their loyalty to the University.

Mr. Keleher and his wife, Linda, live in Halifax with their six-year old daughter, Tara.

Banquet in Honor of Dr. D.O. Hebb

On March 26, 1982, the Saint Mary's University Psychology Society will be holding a banquet to honor the distinguished Canadian psychologist, Dr. Donald Olding Hebb.

Dr. Hebb was born on July 22, 1904, in Chester, Nova Scotia. He attained his undergraduate degree from Dalhousie University, his master's from McGill, and his doctorate from Harvard University. He worked as a researcher at Montreal's Neurological Institute from 1937 to 1939. In 1939 he became a lecturer at Queen's University. From 1942 to 1947, he was a research fellow at Yerkes Laboratories of Primate Biology, Orange Park, Florida. In 1947, he became a professor of psychology at McGill and stayed on until 1972. From 1970 until 1974 he was Chancellor of McGill University. In 1978 Dalhousie honored Dr. Hebb as professor

emeritus. Currently, he holds the position of President of the Canadian Psychology Association.

Dr. Hebb was one of the pioneers responsible for the merging of neurophysiology and psychology. The term neuropsychology was first alluded to by Dr. Hebb in 1949 in his book *The Organization of Behavior*. His discoveries have become the guidelines of modern neuropsychology. Thus, he has been referred to as the "Father of Neuropsychology".

The banquet is to salute Dr. Hebb on his achievements and on his retirement to his birthplace of Chester. The dinner will be held at Saint Mary's University, March 26, 1982. Tickets will be available from the secretary of the Psychology Department.

Upcoming Events

The Halifax Club of Business and Professional Women is sponsoring a Speech Contest on "Young Women in a Changing World".

The Contest will take place in the Nova Scotia Public Archives on Tuesday, March 30, 1982 at 7:00 p.m. All contestants must be aged between 18 and 26 and entries must be submitted by March 15, 1982.

For further information, please telephone Hillary Grant at 835-2795.

ASO offers tickets to students

The Atlantic Symphony Orchestra, through the generosity of a number of its patrons, is offering complimentary tickets to university students for some of the performances remaining in the current season.

All concerts begin at 8:00 p.m. in the Rebecca Cohn Auditorium, Dalhousie University.

Tickets for the following performances may be picked up from Allison Chipman in the Saint Mary's University Art Gallery on presentation of student identification:

Main Series:	
March 22-23	Patricia Grant Lewis, pianist
April 12-13	Anne McIlveen Rapson, violinist
May 10-11	Tsuyoshi Tsutsumi, cellist
Great Composers series:	
March 28	Emanuel Borok, violinist
April 25	Anne Krabill, oboist, with Victor Yampolsky, violinist and conductor
May 16	John Browning, pianist, with Robert Marcellus, guest conductor

If you accept a complimentary ticket, please write a courtesy letter to at least one of the ASO patrons who provided the tickets. A list of their names is available in the Art Gallery.

Xerox Fellowship awarded

The 1981-82 Xerox of Canada Limited Fellowship was awarded to Gregory O'Brien, a second year student in the Master of Business Administration program. Shown here (left to

right) are: Steve Brecher, branch manager of the Xerox company; Mr. O'Brien, of Hampton, New Brunswick; and Dr. Kenneth L. Ozmon, President of Saint Mary's.

Notes from AUCC

Increased Funding Announced for SSHRC

Communications Minister Francis Fox announced January 4 a 36% increase in funding for the Social Sciences and Humanities Research Council (SSHRC) over the period 1980-81 to 1982-83. The council will receive an additional \$1 million in 1981-82, and an additional \$5 million (1981 dollars) in each of the next two fiscal years. This will bring the total 1982-83 budget to \$56.7 million. While continuing to support all existing research, council will provide increased funding for research in designated areas of national concern. First, council will support more projects in Canadian studies. Second, increased funding will be available for research themes already in place: ageing of the Canadian population; the Canadian family and the socialization of children; and the human context of science and technology. Planning is underway to introduce support for research on women in the work world and native studies. Increased funding will also be available for training researchers, improving research resources, research programs in small universities, and the dissemination of research results.

New Report on Foreign Academics in Canadian Universities

A report released in December by Max von Zur-Muehlen of Statistics Canada documents hiring trends in Canadian universities up to 1980-81. The report shows that in 1977-78, 74% of full-time professors were Canadian citizens; new appointments from 1977-78 to 1980-81 were 75.2% Canadian citizens and 9% permanent resident at the time of the appointments. An estimated additional 9% obtained permanent resident status in conjunction with their university appointments. (In 1972-73, only 59.1% of new appointments were Canadian citizens.) The study also projects an inadequate supply of Canadian doctoral graduates to 1985 in certain disciplines (management, computer science, veterinary medicine, engineering and agriculture). Regional differences in legal status of new appointments is documented showing that the highest number of employment permits were issued to foreign academics in the English-speaking universities of Quebec, 14.8% of the Canadian total. The highest number of

Noteworthy Notes

DR. M. PATRICIA CONNELLY (Sociology) and DR. KENNETH A. HILL (Psychology) are the recipients of fellowship awards from the Social Sciences and Humanities Research Council.

DR. DOUGLAS DAY (Geography) presented a paper on "Relative and Absolute Change in Nova Scotia Fisheries, 1956-1976" at the annual meeting of the Canadian Association of Geographers in Corner Brook, Newfoundland, August 1981.

DR. DAY and DR. ROBERT McCALLA (Geography) have been appointed co-chairpersons of the Canadian Association of Geographers Study Group on Marine Studies and Coastal Zone Management. This group is responsible for arranging special workshops and paper sessions in these fields, and for publishing the proceedings. PROFESSOR PETER RICKETTS (Geography) has been appointed editor of the publications produced by this study group.

DR. DAY, who served as president of the Halifax Youth Soccer Association from 1979-1981, was elected as the Halifax representative on the Board of Soccer Nova Scotia at a meeting between Senior and Youth Soccer delegates on February 11, 1982. He has also

been appointed to Soccer Nova Scotia's Player Development Committee.

DR. KENNETH L. OZMON (President) has been elected Chairperson of the Council of Nova Scotia University Presidents.

DR. OZMON has been elected Chairperson of the Nova Scotia Educational Computer Network Board of Directors. The Board, which includes the Chairperson of the Maritime Provinces Higher Education Commission, coordinates computer activities of member institutions and makes recommendations on purchases of computer equipment.

PROFESSOR ZAHOORUL HAQ QURESHI (Marketing) recently visited Kuwait, Saudi Arabia and other Middle Eastern countries on a consultation trip. He spoke to business people in these areas regarding business opportunities and investment in Canada.

PROFESSOR PETER RICKETTS (Geography) has been appointed as Research Associate with the Institute for Environmental Studies at Dalhousie University. As such, he will coordinate production of an *Atlas of Marine Resources in the Gulf of Maine and the Bay of Fundy*.

Accounting professor honoured

Professor Dr. David Hope was named a Fellow of the Institute of Chartered Accountants of Nova Scotia (F.C.A.) on February 6, 1982. This is an honorary title conferred on the recommendation of the Council of the Institute.

foreign academics were appointed in the fields of engineering (11.1%), and in mathematics and the physical sciences (11.5%).

AUCC is Critical of Labour Market Report

The AUCC response to the report of the Task Force on Labour Market Development in the 1980s, submitted to Minister of Employment and Immigration Lloyd Axworthy November 19, was critical on several points. Job training must be an inseparable part of total education which, according to the AUCC brief, should develop graduates with the flexibility to repond to changing employment demands. The brief emphasizes the importance of a core of basic disciplines and research programs as a base for applied and professional programs. AUCC questions several aspects of the report including the assumed validity of current manpower planning techniques and the relevance of the cost/benefit analyses used by the task force to evaluate university programs. The brief concludes that the suggestions of the task force for actions affecting the universities should not be accepted as the basis for federal government policies without much more consultation than was possible in preparing the report.

AUCC responds to the Allmand Report

AUCC has responded to the October 1981

New IEC lecture series scheduled for Halifax Library

Our World in the 80s: Behind the Headlines is a new series of lectures to be held at the Halifax Regional Library on Spring Garden Road at noon on Thursdays until March 25.

The series, which is co-sponsored by the International Education Centre and the Halifax Library, will present an in-depth analysis of some of the trouble spots of the world by academics who are experts in their respective fields.

Topics include:

- | | |
|----------|--|
| March 18 | <i>Central America—The Reality Behind the News</i> , with Dr. John Kirk of the Spanish Department of Dalhousie University. |
| March 25 | <i>The Middle East—A Palestinian Perspective</i> , with Michael Lynk, Halifax lawyer recently returned from a study tour of the Middle East. |

Admission is free and the general public is invited.

report of the Parliamentary Task Force on Employment Opportunities for the '80s, *Work for Tomorrow*, which resulted from a study conducted under the chairmanship of MP Warren Allmand. AUCC notes the report's lack of a link between the "meagre analytical content", the testimony and the statements and recommendations relevant to higher education. A contradiction is identified between statements that do not limit higher education to a job training function and subsequent policy recommendations. AUCC disagrees with suggestions that education planning be based on manpower forecasting techniques which have proved to be an inaccurate gauge of demand. The report advocates a move away from general education, but AUCC defends the versatility of the basic arts and science programs and refutes the myth of widespread unemployment and underemployment among university graduates. AUCC suggests that, if the federal government opts for support of occupation-specific training in the universities, such intervention should be brief and should be confined to obvious bottlenecks in the supply of manpower. Copies of the AUCC response are available on request. The Allmand report is available from the office of the Parliamentary Task Force on Employment Opportunities for the '80s, 180 Wellington, Room 524, Ottawa K1A 0A6 (613-992-0469).

Art Gallery News

The Saint Mary's University Art Gallery hosted some of the events scheduled for the thirty-fifth Nova Scotia Kiwanis Music Festival. The festival, held during winter break (February 22-27), featured young musicians from across the Maritime provinces.

Here, Stephen Turner, aged 11, is shown how to adjust his violin by the adjudicator, Dr. Robert Skelton. Stephen, of Moncton, New Brunswick, competed in the intermediate violin solo event for entrants under the age of 14.

Abstract exhibition on display in Art Gallery

The exhibition *Ron Shuebrook: Black and White Drawings 1965-1982* opened at Saint Mary's University Art Gallery on March 4, 1982.

Although much of his work has dealt with painting and sculptural forms, Shuebrook has worked consistently throughout his career with black and white drawings, with its drama and its strong positive and negative tensions.

The exhibition traces the development of his career from his earliest landscape and figurative work which evolved from woodblock prints, through the years during which he dealt largely with abstract expressionism and the ideas of Hans Hofmann.

"I began to understand how spatial tension was possible," said Mr. Shuebrook. "To allude to space while holding the picture plane amazed me. When I realized that pictorial possibility, I really started to get hold of Hofmann's ideas

and found that you could have it both ways, that you could refer to three dimensional space while maintaining the two dimensional surface. That was like magic to me".

Ron Shuebrook was born in Fort Munro, Virginia and educated at Kutztown State College, Haystack Mountain School and Kent State University. He has won many awards for his drawing and painting, including a Canada Council Grant and recently a Fellowship to the MacDowell Colony in New Hampshire.

In Canada, Shuebrook has taught at the University of Saskatchewan, Acadia University, York University, and is presently the Chairman of the Studio Division at the Nova Scotia College of Art & Design.

The exhibition will continue until April 11, 1982.

Lunch with Art

(This concludes the Lunch with Art schedule for the 1981-82 academic year).

March 12: John McKenna, guitarist, will perform original compositions as well as works by J.S. Bach, Fernando Sor, Hector Villa Lobos and bossanova composer, A.C. Jobim.

March 17: St. Patrick's Day Special—dramatic readings of Irish literature by Cyril Byrne and Dominic Larkin. Note: for this occasion only, Lunch with Art will take place on a Wednesday, not on a Friday.

March 26: Valerie Dean—a discussion and performance of corporeal mime, a study of line and the dynamic quality used to portray thought in space combining elements of ballet, aerobatics and theatre.

April 2: Jim McSwain—a response to the current exhibition *Ron Shuebrook—Black and White Drawings:1965-1982*.

Special Events

March 12: Chamber music recital—David Murray, double-bass, and Helen Murray, piano. 8 p.m. Admission free.

March 25: Voice recital—Eric Hominick, bass-baritone, with Ruth Norton, soprano. 8 p.m. Admission free.

April 14: Chamber music recital—Mark Friedman, violin. 8 p.m. Admission free.

Raffle

The winner of the lithograph by Leighton Davis was Allan Breen, R.R. No. 1, Afton, Antigonish County. The draw was made on February 19. Over \$100.00 was raised for acquisitions for the University's permanent collection. The Art Gallery would like to thank everyone for supporting this fund-raising event.

Library News

On Saturday, February 5, Margot Schenk (Public Services) convened a workshop entitled "Management Communications for Librarians". The Halifax Library Association sponsored the seminar which was held at the Public Archives of Nova Scotia. Other Library staff in attendance were Rashid Tayyeb (Technical Services), Doug Vaisey (Reference), Jane Archibald (Collections) and Gwyn Pace (Circulation). Dr. Patricia Fitzgerald (Management) conducted the workshop.

The Association of Atlantic Universities Librarians' Council held a conference on "Planning for the Future" at Dalhousie University on February 15 and 16. Catalogue support systems, resource sharing and other areas of mutual concern and cooperation were discussed. Ron Lewis, Saint Mary's Librarian and chairperson of the AAULC, presided. Other Saint Mary's University librarians present were Margot Schenk (Public Services), Rashid Tayyeb (Technical Services), Jane Archibald (Collections), Robyn Zuck (Cataloguing) and Bob Cook (Bibliographic Searching Unit).

University Scene, a program dealing with some of the highlights and some of the problems facing Maritime universities in the 1980s and hosted by Dr. Ozmon, is being televised on Cablevision Channel 10.

Shown here in a studio interview are (left to right): Derek Mann, Director of Public Relations at Dalhousie; Liz Stevens, Director of Public Relations at Saint Mary's; and Dr. Kenneth Ozmon, President of Saint Mary's.

News from the International Education Centre

Sociologist to speak at the I.E.C.

Dr. James Petras, a sociologist at the State University of New York at Binghamton, will give a public lecture on "U.S. Policy in Central America: Myth and Reality" on Thursday, March 25 at 8:00 p.m. in Theatre B of the Burke Education Building.

Dr. Petras has written extensively on Latin America and has travelled throughout the region, most recently in Nicaragua. He is acknowledged as one of the leading authorities on contemporary social and political change in Latin America. His publications include *Class, State and Power in the Third World* (1980), *Critical Perspectives on Imperialism and Social Class in Third World* (1978), and *Politics and Social Forces in Chilean Development* (1969). His current research concerns Nicaragua and the process of post-revolutionary transition.

Dr. Petras' visit to Halifax is sponsored by the Department of Sociology and the International Education Centre at Saint Mary's, as well as the Latin American Information Group.

Bookstore announces summer hours

During the first and second summer sessions 1982, the bookstore will remain open for extended hours as follows:

First Summer Session

Tues., May 11 9:00 a.m. - 9:00 p.m.
Wed., May 12 9:00 a.m. - 9:00 p.m.
Thurs., May 13 9:00 a.m. - 9:00 p.m.

Second Summer Session

Mon., July 5 9:00 a.m. - 9:00 p.m.
Tues., July 6 9:00 a.m. - 9:00 p.m.
Wed., July 7 9:00 a.m. - 7:30 p.m.

Regular hours will apply during the remainder of the summer sessions:

Mon. to Fri. 9:00 a.m. - 4:30 p.m.
Except Wed. 9:00 a.m. - 7:30 p.m.

Social News

by Murray Baillie

A number of library staff gathered at the home of Jane Archibald on Thursday evening, February 18. The occasion was a baby shower in honour of Denise Wong-Check (library assistant) who just happened to be pregnant.

Mrs. Wong-Check was assisted in opening the gifts by Alice Hum of the Cataloguing Department. Murray Baillie (Information Desk) read the cards.

Refreshments were served by Doug Vaisey, also of the Information Desk.

Other men who attended were the Inter-Library Loans Director, Peter Lambly, and newly appointed head of the Bibliographic Searching Unit, Bob Cook.

A good time was had by all. "A shower with all those women," commented Mr. Baillie, "is a lot of fun."

Both of Bob Hayes's friends at Saint Mary's would like to send their best wishes to him as he enters his fiftieth year on March 29.

The Broadsheet

poetry by Saint Mary's students and faculty

Hearing impaired students visit campus

Three hearing-impaired high school students contemplate courses offered at Saint Mary's. The students seated are (left to right): Sharon McInness of Prince Edward Island; Sharon MacKinnon of Liverpool, N.S.; and Bruce Irving of

Moncton, N.B. Overlooking their shoulders are Cooper Nickerson, a first year student at Saint Mary's, and David Leitch, Coordinator of Counselling Services at the University.

The Atlantic Provinces Resource Centre for the Hearing Handicapped organized a career week for hearing-impaired students enrolled in senior high schools throughout the Atlantic region. A number of the students visited Saint Mary's University among other post-secondary institutes in the Halifax-Dartmouth area. After introductory remarks by Dr. T. Musial, Dean of Arts, the students were conducted on a tour of

the campus, including the observatory. A number expressed interest in applying to Saint Mary's for the upcoming academic year.

The University currently houses the Post Secondary Education Association for the Deaf, which is in the process of reviewing the educational and social needs of hearing-impaired students attending university.

Economist to speak at Saint Mary's

Economist Carl E. Beigie, President of the C.D. Howe Institute, will be speaking at Saint Mary's University on Thursday, April 1 at 8:00 p.m. in the Theatre Auditorium. His topic will be "Canada and the United States: the Troubling Links" and will deal with 'made in Canada' inflation.

During the 1981-82 academic year, Mr. Beigie has taken a leave of absence from the Howe Institute in order to accept an appointment as the Claude T. Bissell Professor of Canadian-American Relations at the University of Toronto. He is also a part-time Associate Professor in the Faculty of Management at McGill University.

Mr. Beigie received his education at Muskingum College, Ohio and the Massachusetts Institute of Technology, where he carried out doctoral level studies in economics. He has worked in the past for the

Irving Trust Company in New York City, where he became assistant vice president and international economist, and for the University of Western Ontario, where he was a lecturer in the Department of Economics.

Mr. Beigie has written a number of monographs and articles covering a wide range of topics, including the auto pact, telecommunications regulatory policy issues in Canada, and energy problems in Quebec and the rest of Canada. Over the past several years he has been the editor of two major series on Canada-U.S. resources and other relationships. He is a frequent commentator and lecturer in Canada on current economic policy issues.

Among his activities, Mr. Beigie is a director of Fraser Inc. in New Brunswick, of Zinor Holdings Ltd., and of the Canadian Foundation for Economic Education.

For those who missed it . . .
another chance!

Finger Math for the visually-impaired

Chisanbop is a method of using the fingers for calculating that is revolutionizing mathematic calculations for visually-impaired children.

The system, Korean in origin, is based on the abacus and was devised by mathematician Sung Jin Pai, an expert on the abacus. His son first introduced the method into the United States and, after national exposure on American television programs such as *Johnny Carson* and the *Today* program, Chisanbop took the country by storm. Television hosts showed youngsters of five or six using Chisanbop to out-calculate university professors with calculators.

What perhaps was lost in all the attention was the practical application of the Chisanbop

method for the blind. The system is basically simple once mastered. Each finger on each hand is assigned a number. On the right hand, each digit is worth one point and the thumb equals five. On the left hand, the digits are worth 10 each and the thumb is equivalent to 50. Calculations are made by pressing fingers onto a tactile base. Thus, the number 8 is represented by pressing down the right thumb (5) and three fingers (3). Using this method, blind children can feel the calculations they cannot see.

At Saint Mary's University the Faculty of Education has been offering a series of workshops on Chisanbop for education students. Approximately 50 students enrolled in

the Bachelor of Education program have been attending these sessions, which are being taught by Judi Johnson, a Master's degree student who uses Chisanbop to teach at the Halifax School for the Blind.

According to Professor Bette Hanrahan of the Faculty of Education, these workshops are valuable to students as part of their repertoire of teaching methods as they will enable them to teach in areas other than their main discipline. More important, Chisanbop introduces the education students to another way of remediate basic skills.

The workshops are being held on Wednesday in Room 216 of the Burke Education Centre until March 17.

I.E.C. people battle Cape Breton weather

February in Cape Breton? It may not be everyone's idyllic winter hideaway, but for twelve resource people from the International Education Centre at Saint Mary's University, it was a very unusual place to find themselves during the winter break from classes.

The group were touring schools in the Port Hawkesbury, Baddeck, Sydney and Glace Bay areas to conduct workshops and speak to high school students on a range of topics from agriculture in the Third World to the Iranian revolution.

Many of the twelve were facing their first winter in Canada and bravely withstood the storms and icy weather conditions to speak to the students. Srenni Keshava, who recently arrived from India, spoke on trade and aid in Third World countries. Wang Xuding, an exchange student from the People's Republic of China, waded through Canadian snowdrifts to talk about education in China.

Other foreign students in the group included Commerce student Boon Heng Teh of Malaysia, who talked on Malaysian culture, education and geography, and Karanja Njoroge from Kenya, who discussed development issues in Third World countries.

One thing all who took part in the tour agreed upon: the trip to Cape Breton was reciprocal. They had an excellent opportunity to learn about Cape Breton's history and development by visiting local schools and centres such as the Alexander Graham Bell Museum in Baddeck and the Beaton Institute of the College of Cape Breton.

These school tours are one of the functions of the International Education Centre to assist with school workshop programs throughout the province. This is a free service provided to teachers through the courtesy of grants from Saint Mary's and the Canadian International

Development Agency (CIDA). The workshops focus on 'international education', which is broadly defined as presentations on development issues in Asia, Africa, Latin America and the Caribbean.

The benefits of the program for the high

school students are numerous: not only may they listen first hand to accounts of Third World problems from people who have lived in those countries, but they are encouraged to look around the globe and better appreciate their place on it.

Students tour Saint Mary's

Students from Prince Andrew High School in Dartmouth recently toured the Saint Mary's University campus.

Here, they are shown around the Engineering Department by the Director of Engineering, Professor Dermot Mulrooney (centre).

VII Pan American Wheelchair Games

by Paul Gouett

The following article on the Pan American Wheelchair Games is reprinted with permission of the author and the Games Executive.

The prospect of seeing several hundred world class athletes competing together is indeed exciting. Add to that the fact that they are all in wheelchairs and the spectacle becomes awesome!

August 20-29, 1982, this spectacular sporting experience will take place in Halifax, Nova Scotia. The VII Pan American Wheelchair Games will once again have come to Canada. The first Games in 1967 were hosted by Winnipeg, Manitoba. Since then, they have been held in Buenos Aires, Argentina; Kingston, Jamaica; Lima, Peru; Mexico City, Mexico; and Rio de Janeiro, Brazil.

Twenty-three Pan American countries from North, Central and South America have been invited to take part in the 1982 Games. The estimated 500 athletes will compete in events ranging from archery and swimming, to basketball and track and field events. As has been the case in past Games, several world records are expected to be set.

For those who have never seen wheelchair athletics previously, there could, perhaps, be the thought that these competitors could not be as capable as their able-bodied counterparts. The idea couldn't be further from the truth. For many of these disabled athletes, their level of skill far outdoes that of the perfectly healthy.

The Halifax Games are being funded by tri-level participation of the municipal, provincial and federal governments, each contributing an equal share. Dick Loiselle, Executive and Technical Director of the Games has estimated that 40,000 - 50,000 people will visit the area to attend the competitions. The revenue generated from tickets, etc., will provide some of the funding needed to further cover the cost of the Games. Any additional funding has come from grants and contributions from the business and private sectors.

The Canadian Wheelchair Sports Association (C.W.S.A.), who were in charge of awarding the Canadian location, are confident that these Games will be the best to date. Halifax offers excellent facilities at Saint Mary's University where the athletes will be housed and the outdoor venues located; nearby Dalhousie University for the basketball; Centennial Pool for the aquatics and the Metro Centre where the basketball finals and Closing Ceremonies will be held. The Opening will be staged at Huskie Stadium at Saint Mary's University. All these areas are perfectly wheelchair accessible, presenting one of the main reasons why Halifax was chosen.

A welcome is extended by the City of Halifax to all those who will attend the Games. Athletes and fans alike are sure to enjoy a high spirited and skilled level of competition.

SSHRC awards Fellowships to two faculty members

The Social Sciences and Humanities Research Council recently announced that 350 Leave Fellowships will be offered to Canadian scholars. Of the eight scholars selected from Nova Scotia, two are members of the Saint Mary's University faculty: Dr. M. Patricia Connelly, chairperson of the Sociology Department and Dr. Kenneth A. Hill of the Psychology Department.

Dr. Connelly explained that her research will be a continuation of research already in progress and an extension of earlier work published in her book, *Last Hired, First Fired: Women in the Canadian Work Force*.

Her research is broken down into two parts. The first is a series of case studies of women's domestic and wage work in Atlantic Canada communities. This research is already underway with the support of a Saint Mary's Senate Research Grant. Dr. Connelly, with colleague Martha MacDonald, presented a paper on the subject at "Women's World: International Congress on Women", held at the University of Haifa in Israel, January 1982.

The second part is an examination of government social policies as they affect women's work in particular and the family in general. This will involve a six month stay in Ottawa. Preliminary work on this research has been done and Dr. Connelly was invited to present a paper on "Women and the World of Work" at a North America Treaty Organization (NATO) symposium in Lisbon, Portugal, August 1980.

Dr. Hill will also take a year's leave. He will be working with troubled children and their families at the Atlantic Child Guidance Centre in Halifax. His leave takes effect from September 1, 1982 until August 31, 1983.

The SSHRC Leave Fellowships are offered to researchers who hold full-time faculty appointments at Canadian universities.

Candidates are selected by juries of specialists in the various disciplines. The jurists' recommendations are then reviewed by the Council's Advisory Academic Panel before being submitted to the Council for approval.

Chemistry graduate on faculty of U.B.C.

Michael W. Blades was no ordinary chemistry student while at Saint Mary's.

Dr. Blades, who graduated with a Bachelor of Science degree in 1975, went on to obtain his doctorate from the University of Alberta and is now an assistant professor of analytical chemistry at the University of British Columbia.

His current research is in the general area of analytical spectroscopy and instrumentation for spectrochemical analysis. He is presently working on a fundamental investigation and characterization of the inductively coupled plasma (ICP) as a source for atomic emission spectroscopy.

Dr. Blades attributes a part of his success to Dr. Clive Elson, who was his faculty advisor at the time and is now chairperson of the Chemistry Department at Saint Mary's.

Skating up a dream

Eleven-year old Paulette Weal, daughter of Peter Weal (Printing Services) has just returned from her thrill of a lifetime.

Some months ago she wrote to the producers of the television program, "Thrill of a Lifetime", explaining that her dream was to skate with Tracy Wainman, the 14-year old Canadian skating star.

Her wish was granted and just before Christmas she flew to Toronto to skate with Canada's young superstar. Last month she returned to Ontario to tape the studio portion of the program and stayed with the show's producer and his wife.

Paulette is a member of the Figure Eight Skating Club. The show will be televised in the early spring.

New security system in force

The University Security Service reminds members of the community that a central radio base station has been established at the Residence Desk in the Loyola Building. Members of the Canadian Corps of Commissionaires on duty are equipped with radio transmitters and receivers that enables them to remain in direct contact with the base station at all times.

In case of emergency, the Security Service may be reached at the Residence Desk by calling local 205 during normal working hours or by dialing 423-7419 after hours and on weekends.

Don Lord, Chief of Security, also advises that University personnel who wish to enter the McNally Building after hours may enter through the basement door located next to the gymnasium on the south side. The other basement door, located at the south wing, will be locked after normal teaching hours.

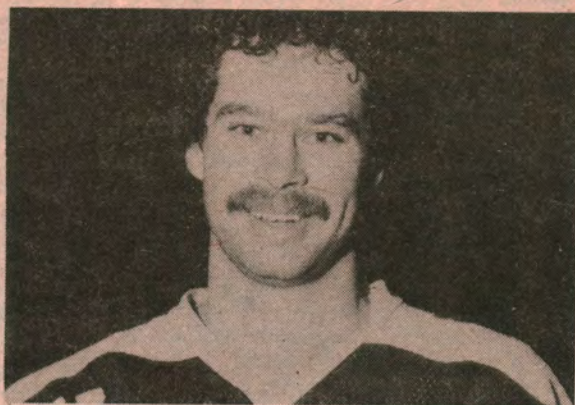

The women's basketball team reaches high for the basket in a game against Dalhousie at the Dalplex.

Sports Update

Hockey Huskies grab a basket of AUAA awards

Tom McDonnell, Godfrey Award winner.

Darren Pickrem, AUAA All-Conference player.

Mike Kelly, AUAA All-Conference player.

The Atlantic Universities Athletic Association (AUAA) announced the annual awards for the best varsity hockey players of the season, and four of the awards were presented to Saint Mary's students.

Top honours went to Tom McDonnell, who received the prestigious Godfrey Award for outstanding hockey skills and academic excellence. McDonnell, who graduated with a Bachelor of Commerce degree in 1980, is now enrolled in the Master of Business Administration program. During his undergraduate years he was on the Dean's List and maintained a B+ average. This year he received a graduate fellowship.

His athletic accomplishments include being chosen Rookie of the Year, All-Conference Player and Athlete of the Year, in addition to being named Team Captain and scoring a record-breaking seven goals in one game.

McDonnell, however, was not the only Saint Mary's player honoured this year. Mark Locken, a third year Commerce student, was named by the AUAA as All-Conference and Most Valuable player for the league. The Canadian Intercollegiate Athletic Union (CIAU) also named Locken as an All-Canadian player. Mike Kelly, who is in his first year of the Bachelor of Commerce program, and Darren Pickrem, a fourth year Commerce student, were both honoured as AUAA All-Conference players.

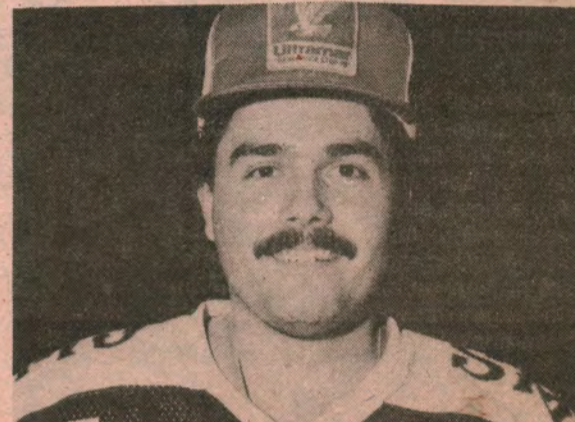

Huskies eliminate opposition

The Basketball Huskies have grabbed the spotlight from the other varsity teams competing in winter sports this year with a perfect 28 wins and no losses record. This gives them the edge heading into this weekend's Atlantic Universities Athletic Association (AUAA) championship, being held March 13, in the Metro Centre.

The team has been ranked number one in Canada since early January which, if they win this weekend, will give them a good chance of becoming the Canadian Intercollegiate Athletic Union (CIAU) champions on March 20.

The varsity women's basketball team struggled through the latter part of their season, plagued with injuries.

A fourth place finish in the league gave them a playoff berth, but pitted them against top-seeded Dalhousie. In the first round of a semi-final game they bowed out to the Dal Tigers with a 56-46 loss.

Mark Locken, the AUAA Most Valuable league player and an All-Conference player, was also honoured as CIAU All-Canadian player.

The Hockey Huskies rallied after Christmas to end the season in third place in their league. However, they ended the season on a disappointing note with two losses in the semi-final to Mount Allison and the Université de Moncton.

Schedules

ARENA

Monday, Wednesday, Friday
8:00 a.m. - 12:00 noon
sticks & pucks
12:00 noon - 2:00 p.m.
skating
Tuesday, Thursday
8:00 a.m. - 2:00 p.m.
sticks & pucks

ART GALLERY

Monday closed
Tuesday to Thursday 1:00 p.m. - 7:00 p.m.
Friday 1:00 p.m. - 5 p.m.
Saturday, Sunday 2:00 p.m. - 4:00 p.m.

BOOKSTORE

Monday, Tuesday, Thursday, Friday
9:00 a.m. - 4:30 p.m.
Wednesday 9:00 a.m. - 7:30 p.m.

CONTINUING EDUCATION

Monday to Friday 9:00 a.m. - 5 p.m.

LIBRARY HOURS

Monday to Friday 8:15 a.m. - 11:00 p.m.
Saturday 9:00 a.m. - 5:00 p.m.
Sunday 1:00 p.m. - 11:00 p.m.

GORSEBROOK LOUNGE

Monday to Wednesday 3:00 p.m. - 12:00 midnight
Thursday to Saturday 3:00 p.m. - 1:00 a.m.
