HALIFAX - CANADA

OFFICE OF THE PRESIDENT

Dear Graduates of 1967,

As you reach this milestone in your lives, in the centennial year of Canada's nationhood, I extend to you the warmest congratulations and prayerful good wishes of all your fellow Santamarians – Board of Governors, faculty, alumni, and staff.

I hope that you will always think of your days at Saint Mary's as having been rewarding, and that you will continue throughout your lives to be animated by the values Saint Mary's seeks to uphold and impart.

As the University has left its mark on you, so you have left your mark on Saint Mary's. You have been witness to and participant in the University's quickening development. Thank you for all you have done and will continue to do.

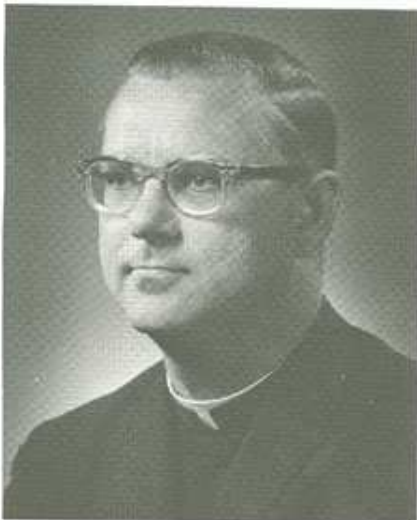

May you always be true and loyal Santamarians, as proud of your University and as worthy of its pride as you are on Graduation Day.

God bless you.

DALHOUSIE UNIVERSITY

Maritime Centre for Graduate Studies

Graduate Studies. . .The Faculty of Graduate Studies offers teaching fellowships up to \$3,000 for students seeking a Master's Degree in the Arts or Sciences and \$4,000 for Ph.D. candidates in Bacteriology, Biochemistry, Biology, English, Geology, History, Physiology, Pharmacology, Psychology, Mathematics, Chemistry, Physics, and Oceanography. The new Sir James Dunn Science Building and the greatly extended facilities of the Chemistry Building offer excellent opportunities for advanced research.

Oceanography. . .A most promising field of Graduate study, with great possibilities. The construction of the Bedford Institute of Oceanography, affiliated with Dalhousie, makes Halifax one of the world's major oceanographic centres. Fisheries research, Hydrographic and Meteorological services in Halifax work together with the Bedford Institute and Dalhousie. This offers unique opportunity for Post-Graduate work at Dalhousie.

Medicine. . .90% of the Medical Students from the Atlantic Provinces are registered in the Faculty of Medicine. Here some fifty full-time and 150 part-time staff members teach less than 300 medical students. The widely recognized research projects (Electron Microscopy, Cancer, Hereditary Diseases, etc.) are supported by a budget much in excess of a quarter of a million dollars annually. Graduate training for M.Sc. and Ph.D. Degrees in Preclinical Sciences is a feature of the Faculty of Medicine. Some financial support for students of the Atlantic Provinces is available.

Dentistry. . .Dalhousie has the only faculty of Dentistry in the Atlantic Provinces and gives preference to students from this region. The general shortage of dental personell is most acute in the Atlantic Provinces. The Faculty's new building was completed in 1958. Dentistry provides opportunity of a professional career for many more women than have sought admission in the past. A two-year Diploma Course in Dental Hygiene is also offered.

Postgraduate studies in Biology and Chemistry are also offered in the Atlantic Regional Laboratory of the National Research Council on the University Campus.

When you're a pioneer starting your 150th year of activity you have plenty to remember. Especially when you've made financial history, like laying the cornerstone of this country's banking system—fifty years *before* Confederation. At this time we could be looking back on a long record of achievement. Instead, we're looking ahead—well ahead. Canada's First Bank may be an old-timer but it has the youngest outlook in banking.

Bank of Montreal

Canada's First Bank

Spring Garden Rd. & Carleton St. Branch: C.F. MAHER, Manager

May I extend my best wishes to the graduating class of 1967 and wish you every success in the future. Needless to say we will meet uncertainties in the years to come and therefore the more prepared we are the better chance we will have to face them. You are now at the crossroads of your life and I trust you will think well before giving up the idea of furthering your education. Whatever course you take I wish you Godspeed.
