

Annual Convocation Exercises This Afternoon

Dermot O'Keefe To Give Valedictory Wilfred Coolen Will Be Salutatorian

This afternoon the graduates and students of the College will assemble at the Nova Scotian Hotel for the Annual Convocation exercises. One of the largest crowds in the history of the College is expected to overflow the spacious ball-room, and arrangements have been made to seat a capacity crowd.

The Valedictory will be delivered by Dermot L. O'Keefe, brilliant graduate of Arts, who has a most distinguished scholastic career while at St. Mary's. Wilfred Coolen, B.A., who will receive his B. Comm., will give the Salutatory address. Mr. Coolen holds a unique record by the fact that he was Valedictorian when graduating from Arts.

Dr. H. F. Munro, Superintendent of Education, and well known educator throughout the Province and Dominion, will deliver the Address to the Graduates. Rev. Brother Lannon, President of the College, will present his President's Report which is always received with great interest.

A large Graduating Class will receive their degrees, while diplomas will be presented to Business Training and Engineering students.

Will Speak

DR. F. H. MUNRO

Sophomores Hold Important Posts

The members of this class have occupied several executive positions and otherwise during the year just closing. And next year, too, important positions are scheduled to be held by members of Sophomore Arts. Ralph Vaughan had a very outstanding role in the Shakespearean drama. Michael Fitzpatrick was on the winning team in the Radio debate against Dalhousie, and he, too, played a prominent part in the play. Harold McGrath made his dramatic debut in the Annual Entertainment. Jim Fennessy was assistant Sacristan to Brother Kealey in the College Chapel.

The class is saying farewell to one of its most well-liked members this year in the person of Jim Fennessy, who is not returning to St. Mary's. Jim has the distinction of having taken a four-year Philosophy course in the two years he has been here, and great credit is due to him. The class will remember him as one of the most obliging and good-natured fellows in the College.

Don Campbell has been elected to

Brother Lannon Commends Staff

Dear Editor:
Before you and your associates on the Staff of the Journal depart—some for the healing rest of holidays and others to enjoy the happy consummation of undergraduate days, I cannot refrain from expressing to you my sincerest appreciation of your services during the past year. Your steady aim and your consistent sensibility in regard to what was appropriate matter for your columns deserve more than the usual commendation.

Apart from the service which was yours as Editor of the Journal, you have through your courtesy and self-sacrifice kept up the tradition of Saint Mary's, whilst by the calm comprehensiveness of your articles and the effective wisdom of your editorials you have shown great fitness for your work. We could wish that the time of your service in this particular field might be prolonged, but as that is impossible the satisfaction remains that you are handing on to your successor an undiminished flame of enthusiasm for and loyalty to your Alma Mater.

I wish, finally, to the entire Staff of the Journal every good wish, now and always.

BROTHER LANNON.

BROTHER LANNON

Juniors Prominent In College Life

Junior Arts are proud of their representatives in the College handball league who succeeded in capturing the championship against the strongest of opposition. The series as ever, was the centre of a tremendous amount of interest, rivalry and enthusiasm. Every game was played before a capacity audience, and every game was an exhibition of real handball. Junior Arts has good reason to be proud of its star team, Scotty Macdonald and Gerald Murphy, and of their dependable seconds, Joe Nunn and Marsh Brackett.

During the last year, Gerald Moffatt held the position of Secretary of the Tau Gamma Sigma. Scotty Macdonald was Sports Editor on the "Journal" and Secretary of the College Mission Crusade Society. Tommy Connolly had charge of the canteen. Norm Whelpley was Second Lieutenant in the C.O.T.C.

Gerald Murphy has been elected as Secretary of the College Debating Society for next year. Gerald Kelly will be Treasurer of the Mission Crusade. Scotty Macdonald will be Sports Editor on the "Journal" and

(Continued on page 3)

Mission Crusade Meets For Report

On May 8th, at twelve o'clock, the College Mission Crusade Society held its last meeting for the school year.

The President, Dermot O'Keefe, called upon John Macdonald, the Secretary, to read the report which he had prepared. It was an interesting resume of the year's activities, and it showed very clearly that the year just ending had been a very big one for the Society. The amount of work accomplished seemed most satisfactory.

The President reported on the many requests for financial help which had been received and which had been duly taken care of. He announced that besides the returns from the regular dues, the profits from the canteen would amount to nearly two hundred dollars. Great credit was due to Bro. Keough, who had charge of it, and to Thomas Connolly, who assisted. The total proceeds remaining were to be distributed to various missions after the exams.

The slate of officers as drawn up for next year was: President, Michael Fitzpatrick; Vice-President, Frank Reardon; Secretary, Joseph

(Continued on page two)

A Convocation Week's program, outlined for the graduates by Brother Lannon, has so far been very successful. On Sunday, May 21st, the graduates received their parents and friends to a delightful tea in the college auditorium. Music was rendered by the well-known orchestra comprised of Misses Muriel Carey, Eileen Joyce, Joan Davison, and Madolaine Davison, Mrs. O'Connell, Mrs. O'Leary, and Mrs. Coolen poured.

On Monday morning the graduates and students were given an inspired Baccalaureate sermon by Rev. W. V. McCarthy, who urged the students as Catholic young men to believe in, obey, and fight for their Faith. He maintained that the cause of the world's defects were not the many "isms" but the revolt against God. Following the sermon Benediction was held, after which the year's scholastic results were published.

This morning Mass and Communion was held in the college Chapel for the graduates, followed by breakfast in the college dining hall. Convocation activities will be held this afternoon and tonight at the Nova Scotian Hotel and will wind up tomorrow night at the Graduate and Faculty Dinner at the Nova Scotian.

THE BATTERY ANGLE

We are informed that our Officer Commanding, Lieut. G. R. Sullivan, 1st. A. A. Bty., C. B. R. C. A., will accompany his mother, Mrs. M. T. Sullivan, who will present a bouquet to Her Majesty, Queen Elizabeth, on behalf of the Mayor and the corporation of the City of Halifax. The ceremony will be part of the official reception for Their Majesties, which will take place on the beautiful greens of the City Parade. This, indeed, will be a great honor for Mr. Sullivan, and an event that will live forever in his memory.

Tomorrow morning, St. Mary's C.O.T.C., seventy all ranks, under the command of Lieut. G. R. Sullivan, will embark for its fifth annual training camp at Sandwich Battery. This will be the crowning point of a very successful year, as the largest number of cadets in the short history of the St. Mary's C. O. T. C. will "march in" for this camp. The Officers, N.C.O.'s and cadets are looking forward to a very enjoyable camp, and if the weather-man gives us a "break", we expect to make this the most successful camp we have ever undertaken.

On May the thirtieth, fifty all ranks, from the combined units of the N.S.T.C. C.O.T.C., and the S.M.C. C.O.T.C., will entrain for Petawawa, under the command of Lieut.-Col. Spencer Ball. Interest in this camp has greatly increased due to the enthusiasm displayed by those who went to Petawawa last year. Unfortunately, we are authorized to have only fifty all ranks make the trip and, consequently, a number of cadets will be disappointed. The selection will probably be made through seniority and efficiency, as this is the only way that selections can be made with fairness to all. The camp will last for eight days.

(Continued on page 4)

THE TRANSIT MEN

The drafting room is deserted. No more is the hum of industry heard along the Engineer's corridor. Yes, everything is finished and the boys have departed for a long, but well-earned vacation.

This has been a banner year in the history of St. Mary's Engineers. There is no doubt that the most successful and prosperous year our Society has ever enjoyed was that which has just been completed.

In early September a bunch of guys clad in breeches and knee-boots, and who seemed to do nothing but gaze through a queer looking gadget, invaded the otherwise peaceful town of Truro. Yes, the Engineers had hit the place and a lot of experience, in more ways than one, was gained. The fellows had a great time and some of us are planning on visiting the Hub again this year. After three weeks of practical work the fellows returned and regular classes were resumed.

During the fall, football was the highlight. In this connection a few of our boys showed themselves in their true colors. George West, Torchy Hogsman, Harold Lawrence, Johnny Neagher, Vinnie Vaughan, constituted a tremendous factor in the winning of the Provincial Intercollegiate Championship. Clary Coolen, Ed Cosgrove, and George Janigian were outstanding members of the Senior High team. With football finished our scarred warriors again bent over their drafting boards and settled down to a more peaceful life and for the real battle of making good in their studies.

The Engineers "At Home", to which the Seniors and Juniors of Mt. St. Vincent and the Seniors of St. Mary's were invited, was held just previous to Christmas. The function was, to say the least, a great success and it started the ball rolling on Engineering social activities. The Annual Banquet was held early in January, and was as usual a unique social achievement. The Banquet was followed by the "never-

TO THE GRADUATES
(Contributed)

Much has been written concerning convocations. Presidents' reports have extolled the value of college training; sorrowful valedictorians have cast eager eyes to the future as they lavished abundant praise on their respective alma maters. Advice has come to the graduates from all quarters. Yet in this, the final issue, it is our privilege to offer a few words to the Class of '39.

First we offer congratulations. You have successfully met the obligations required for your degree. To you, the Graduates, this seems a mighty conquest for it represents the pinnacle of your educational ambitions. Still, lest the joy of the occasion blind from your vision the obligations of the future we remind you that graduation but marks your entrance into a world waiting to receive you. Many conflicts and experiences will be yours. Such a thought, rather than prove a source of worry and despair should be one of consolation and encouragement. The well-trained athlete does display fear of his opponents, but enters the competition with confidence. A St. Mary's graduate enters the arena of life well trained, morally, physically, and intellectually. Be confident for your education has given you that right. It is with this confidence that you must face the waiting world.

Confidence implies faith. Faith in yourself is needed but for you, the St. Mary's Graduate, the word faith has a deeper significance. Faith, your Catholic Faith, must be ever with you. The principles learned in college must be your guide for life. Your actions and deeds symbolic of that faith are needed in the world today.

Lastly, you have knowledge. Your education has been obtained in the institution usually referred to as the "little college". To a few such a fact may be used as an argument against the training you have received. Have little fear of such objectors. Training and knowledge cannot be measured by the number of buildings an institution possesses. The education you have received not only equals but in many cases surpasses that offered by larger universities.

Now for the future. Success depends solely upon you and the use made of your training. Failures and cynics will readily belittle your opportunities. Such opposition may be explained as the cries of those who either had no training such as yours or from the few who failed to use their training. Use your training, reinforce it with courage and confidence, Graduates—and the world is yours!

To Class '39 may we wish happiness and every success. May you have sufficient courage to meet failures, abundant humility to meet success.

SAYING FAREWELL

Writing editorially in the *Journal* for the last time, it is not our intention to follow a time-honored custom of graduates of sentimentally weeping a fond farewell. It is just as much a pleasure to edit this issue as it was our initial attempt last September.

There were times when we wondered if we would ever get the paper out, let alone get it out in time. There were afternoons and nights of tiresome and monotonous work when it was our fervent wish that we had never undertaken such a task. Often we joyfully anticipated the day when our tenure would expire. But more often the pleasure of being able to serve in the best interests of the college and of the student body was ample atonement for the other side of the picture. Through it all the inspiration of being able to accomplish something worthwhile for our Alma Mater guided our efforts.

What is foremost in our mind now is a sincere spirit of appreciation to all those who in any way at all helped to make our little paper a success. To the President and Faculty we owe a debt of gratitude for the encouragement they have given us and for the many ways by which they have aided our task. We wish to thank The Halifax Herald and Mail for their kind generosity; to our Advertisers and Subscribers goes a vote of appreciation for their co-operation without which the *Journal* would never have been possible, and we hope that they will continue to show the same spirit in the years to come.

To all those who contributed to our pages, your editor is deeply grateful not only for their assistance but also for the friendships derived. To the many others who in any way helped to make the *Journal* a success, we simply and eloquently say—"Thanks."

CO-OPERATION NEEDED

Recently the staff to guide the destinies of the *Journal* for next year was elected and the results were made public on the *Journal* Bulletin Board. To these students falls the task of editing this paper, a task which is by no means simple. They face many obstacles, and only by dint of much laborious work can such obstacles be conquered. But more than that is necessary for the welfare of the *Journal*. The assistance and co-operation on the part of every Santamarian is needed if the *Journal* is to be truly classified as a success.

An erroneous idea is at present prevalent among the students. They believe that the *Journal* belongs to a small group of college students. Such a thought must be dismissed. The *Journal* belongs to each individual student of St. Mary's as much as to any associate editor. Every student of St. Mary's shares in the glory and success of the *Journal*, and if every Santamarian wishes to continue to do so, he must be willing to co-operate with the staff. If you want your paper to be a success, then show your true Santamarian spirit by every possible assistance to the staff.

Frosh Are Active
In Athletic Fields

The Freshman class arrives at the conclusion of a very pleasant and very successful year. Our first thought is to wish happiness and success to the graduates of '39 in whatever fields they enter.

The Freshmen were well represented in the various extra-curricular activities during the school year. In football we had "Red" McGinn, Harris Miller, "Pepper" Martin, Tom Martin and Russell Lownds. In the inter-faculty hockey you saw Clarence Coolen with the Engineers and Boris Bochoff with the Arts. Johnny Ward and Eric Holloway played hockey with the High School team, while Joe Grandy was the cheer-leader at all the games, both hockey and football. Bill Dalton, Joe Grandy and Cyril Hoganson met and defeated the Sophomore representatives in a challenge debate. In a recent College show, Freshman contributed such stars as Joe Grandy, Clarence Coolen, Russell Lownds and Jack Delaney.

From this it may be seen that we have had a very eventful year outside of the classroom.

The slate of officers of the Phi Phi Sigma for the year just closing was: Honorary President, Rev. Bro. Doyle; President, Joe Grandy; Secretary-Treasurer, Jack Delaney.

Freshman regretfully bids farewell to a prominent member of the class, Teddy Earl, of Bermuda, who has concluded his career at St. Mary's. During his three years, Teddy chalked up a very enviable scholastic record.

Writing our last notes as the Freshmen of '38-'39, we wish a happy holiday to all, and especially we express the sincere hope that Rev. Bro. Doyle may have a pleasant crossing and a most enjoyable holiday on "the old sod."

SOPHOMORES HOLD—

(Continued from page one)
the position of associate editor on the "Journal" for next year. Ralph Vaughan will be assistant Sports Editor. "Arky" has accepted an invitation to join the Theatre Arts Guild, we hear. Michael Fitzpatrick will be President of the College Mission Crusade Society and Society Editor on the "Journal".
To the graduating class of '39, Sophomore Arts extends best wishes for success and happiness.

MISSION CRUSADE—

(Continued from page 1)

Nunn; Treasurer, Gerald Kelly. Mr. O'Keefe expressed his complete confidence in the executive-to-be.
Final directions concerning the Mission Crusade Rally to be held in St. Patrick's Church on the Sunday coming were given. The programme was outlined.

The President thanked the members for their support, and his fellow-members of the outgoing execu-

tive for their co-operation during the year. Sincere appreciation was expressed to Rev. Bro. Birmingham, the Moderator, for his continued interest and guidance.

In his address, Bro. Birmingham reminded the assembly of the Pope's plea for prayers on behalf of world peace.

Through the kindness of Dr. DeMerten, who acted as organist, the hymns for the coming Rally were practised under Br. Birmingham's direction.

The Grads Look Back « «

September, 1935—From St. Mary's College High School, St. Patrick's, and St. Bonaventure's College they came—the Freshmen of the year 1936—the future graduates of 1939. Starting their careers in the realms of Arts, Science, and Commerce, after the annual Students' Retreat, the Freshmen soon realized how fortunate they were in attending St. Mary's, where the inspiring leadership of the Irish Christian Brothers and the splendid example of the older students soon made the Freshmen real St. Mary's men.

Proof of their true Santamarian spirit was shown by their whole-hearted interest in all college activities. In the intellectual field the Freshmen held their own, many being prize-winners and medalists. Freshmen entered a team in the Junior College Debate which did them credit, even though defeated by a Sophomore trio. The sports section of the Collegian and that of the Journal—the first year of the latter's existence—was very capably handled by a Freshman.

In the dramatic sphere, the "Froshes" turned in excellent performances; while in the athletic sphere another one of the "famous" "gens" managed the College football squad. The social affairs of the famous freshmen were directed by their energetic little society—Phi Phi Sigma—which experienced a very successful year as a result of the co-operation of all its members.

And so the Freshmen of '36 became the Sophomores of '37. On returning to St. Mary's, the Sophs noted that some members of the old Freshmen class had decided to test out their knowledge in the practical world of affairs, so, wishing their departed brethren every success, the Sophomores turned to the work of their second year of college. Having had a year's experience in college life at St. Mary's, they profited thereby and applied themselves diligently to their studies, winning medals and prizes for proficiency. Recognizing the value of an athletic training, four Sophomores succeeded in making the Intercollegiate and City Intermediate rugby teams. Sophs also had four members on the Intercollegiate hockey team.

In dramatics three members of the class took part in the annual college entertainment; while the Junior College Debating Shield was won by the humble Sophs, a Soph Artsman being the winner of the Junior Debating Medal.

As for societies, a Sophomore Science student held the post of Secretary of the Engineering Society; the Vice-President and the 2nd Vice-President of Delta Lamb Kappa were Sophomore Commerce students, and the post of Secretary-Treasurer of Tau Gamma Sigma was filled by a Sophomore Artsman. With a Soph as Editor-in-Chief, and two other Sophs on the staff, the St. Mary's Journal entered into its second year.

With the arrival of September, 1937, the Sophs returned to St. Mary's as Juniors. Here they sought in vain for the man whom all had respected and held in the highest regard—their President, Brother Cornelia—under whose kind and noble guidance they had successfully completed their college course. Though Brother Cornelia's absence was universally regretted, everyone wished Brother Lannon, their new President, every possible success in his responsible position.

The Juniors of '38 were ably represented on St. Mary's City Championship Rugby team in both the Intercollegiate and Intermediate divisions. Three Juniors helped win the City Championship for the St. Mary's Intercollegiate hockey sextette.

In the most enjoyable and most successful dramatic variety entertainment, staged by Santamarians, five members of the Junior classes played important roles. The Collegian benefited by having four Juniorites as contributing editors; and the Journal was likewise aided by four Juniorites, besides being under the Editorship of a Junior student. Among the College Societies, a Junior Artsman held the post of Vice-President of Tau Gamma Sigma and a Junior Science student was Secretary of the Mission Crusade Unit. During the course of the year the new enlarged and improved library was opened at the College—the result of much labor, time, and effort on the part of the President, Brother Lannon, to whom all Santamarians

owe a debt of gratitude. The Juniors took full advantage of the new opportunities for knowledge, as was evidenced by their achievements in the intellectual life of the College, many being recipients of awards of merit.

Months slipped by, and the Juniors soon found themselves returning to St. Mary's for the last time as students. They were now the Seniors—the expectant Graduates of 1939—returning to renew old friendships at St. Mary's, but not finding the kind and genial German Professor, Brother Roth, everybody's "guide, philosopher, and friend". Realizing, however, that this was to be their last year at St. Mary's the Seniors determined to make the most of it in every way possible. Six Senior Artsmen played no small part in winning the Nova Scotia Intercollegiate Rugby Championship for the St. Mary's team, managed by two other Senior Artsmen. In hockey, three Senior Arts students played on the St. Mary's Intercollegiate team, managed by a Senior Artsman, which gained the City Championship. As a result of their efforts through their college years, many of these students will receive athletic M's, one Senior being the first to win the highest of athletic awards—the Gold M.

In dramatics, two Senior Artsmen took part in the variety entertainment. In societies the Seniors were very prominent. A Senior Commerce student held the post of President of Delta Lambda Kappa; and three Senior Arts students held executive positions on Tau Gamma Sigma. The Mission Crusade Society was under the Presidency of a Senior Artsman, and the Vice-Presidency of a Senior Commerce man. All three executive positions of the S.M.C. Senior Debating Society were held by Seniors, two Artsmen and one Commerce man.

The President of the Mission Crusade Unit, a Senior Artsman, was the delegate to the C.C.Y.U. Conference at Ottawa last Fall. A Senior Commerce man and two Senior Artsmen were delegates to the Maritime University Conference at Antigonish in February, 1939. In debating circles, two Senior students and a Soph talked St. Mary's to triumph over a trio from Dalhousie University in a radio debate, and a Senior Artsman won a special debating medal. Three Seniors represented St. Mary's in the C.W.L. declamation contest with Mt. St. Vincent, the two prize winners being Senior Artsmen.

The Editor of the Journal was a Senior student, and seven other Seniors were staff-members, all helping to make this fourth year of the Journal's existence the most successful one it has ever had. In the intellectual realm, the Seniors are keeping up their tradition of being the leaders, and many are due to receive medals and prizes for their achievements. In military life around the College the Seniors also played a leading part, contributing to St. Mary's C.O.T.C. Unit, one Sgt-Major, one Quartermaster Sgt., two Sergeants, two Lance Sgts., and two Bombardiers. Besides this, three Seniors were awarded "A" certificates.

Thus, the Seniors become the Graduates of 1939. Trained spiritually, intellectually, and physically during their brief years at St. Mary's, and taking with them many happy memories of their college days they are now ready to leave the portals of their Alma Mater. St. Mary's Graduates of '39. Hail and Farewell.

JUNIORS PROMINENT— (Continued from Page One)

Vice-Pres. of Tau Gamma Sigma. Norm Whelpley is now a Lieutenant in the C.O.T.C., and he will be President of the Tau Gamma Sigma. Joe Nunn will be an associate editor on the "Journal", Secretary-Treasurer of Tau Gamma and Secretary of the Mission Crusade Society.

The Juniors have spent a year most successful in class work, sport and good fellowship. As the Seniors-to-be, they have to be prepared to accept a great deal of responsibility next year. They look forward in confident anticipation.

As a class, we take great pleasure in extending heartiest good wishes to the Senior class which is now graduating.

Grade 10A Debaters Have Successful Year

As we mark "finis" to the school year, we think it fitting to mention in these notes those who starred in the scholastic and athletic fields of achievement. In debating, our four-star award goes to Warren Gray for his capable leadership of the Grade 10A debating team; to Harold Bede, a star, for his fine defense of his class against 10B, likewise to Michael Edgar. In the field of athletics, Robert Burns starred as an ace pivot in the inter-mural hockey league, while Warren Gray displayed his hockey prowess in the Intermediate City High School Hockey League.

At present the sport spotlight is focused on baseball. The class is represented on the diamond by J. Hennessy, W. Gray, and R. Beck.

In December, the social event of the year took the form of an enjoyable banquet and theatre party. The annual outing of the combined classes, 10A and 10B, will be held at Lawrencetown in the near future. Don Haliburton, our efficient treasurer, is entrusted with the financial arrangements of our outing.

On behalf of the class, I take this opportunity of congratulating the various extra-curricular organizations which have made this year a pleasant and successful one. Especially do we congratulate the efficient executive of the A. A. A. for their splendid work throughout the year.

To Bro. Flannery also do we express our thanks for his excellent scholastic and athletic guidance during the year. And, with sincere good wishes to the graduating class of the College, we bid adieu and close this resume of the year 1938-1939.

Grade 10B Shows Shining Records

During the past year of 1938-'39, Grade 10B has made an excellent showing in all High School activities. We started out the year with a very strong football team which went right to the finals. Next, the members of 10B tried their hand at hockey, emerged from the series with two wins, no ties and no losses. At the finis of hockey, the boys went out for handball, but alas! they were not so good. Now we see them out on the campus with a baseball, fighting with their whole hearts for the honor and glory of their class.

We are now looking forward to two different things with correspondingly different feelings—first, the class outing; secondly, the final exams which are looming very, very close. But we've enjoyed a most successful year so far and we're hoping that luck will stay with us.

So, in closing another year of scholastic endeavor, we wish to thank the Athletic Association for its kindness to us, Brother Regan, who done much to keep the class up front in the field of sport, and Brother Flannery, whose untiring efforts made possible our handball, hockey and baseball leagues.

Sports Review

The sporting parade for the year of 1938-39 has come to an end. The warriors, with banners and battered trophies, significant of championships have marched by in their full splendor with the passing seasons. Others too, have marched by, bannerless and trophyless, yet assured of their place by reason of the effort they have put in, endeavoring to bring greater glory to their Alma Mater.

Those irretrievable days when all rejoiced to welcome new championships to our halls, are gone. But we still have something precious remaining; something which time alone can destroy—Memories.

It is with proud hearts that Santamarians can reopen the closed book of this year's sport annals, and recall vividly the scenes of stress and strain in which the maroon and white more than held its own in both Intercollegiate and High School competitions.

In the college department the year was marked with great successes in the sporting line.

Football

Undoubtedly the greatest boast of St. Mary's this year is her football team. Under the capable coaching of Bim Coolen, one of the starriest aggregations ever to wear the maroon and white was formed. By long punting, hardworking and sheer speed, this fifteen swept aside the predictions of city sport scribes and punted their way into the Provincial Championship.

They won the city title in virtue of smashing victories over King's and Tech. They defeated Acadia in a bitterly contested series and climaxed a banner year by the defeat of St. F. X. and the annexation of the highly coveted Provincial Title.

Solly Chernin, Mount Allison kicking ace, place-kicked them out of Maritime honors, as the Mount A men won an unforgettable victory of 8-0, at Truro.

However, the names of fifteen stars were permanently enrolled in the Athletic Book of Honor, and will live as long as St. Mary's. Their names are: Herb Mulcahy (captain), Ed Coolen, Bernie Tolson, Dan Janigain, Marty MacDonald, Sandy Mackay, Leo Deveau, Jerry Mulcahy, Larry O'Connell, Red Hoganson, Butch Keating, George West, Vinnie Vaughan, Harold Lawrence and Johnnie Meagher.

In addition to these the names of coach Bim Coolen and managers Bob Faulkner and Jack Caryl will always be associated with this great team as a result of their splendid work in connection with it.

So is the grandest display in our parade of sports this great team. Every individual in connection with it in any way whatsoever should be very proud to be a member of a

fifteen that has found a spot in the hearts of all Santamarians, both graduates and undergraduates.

High School Football

In this branch of sport where our fifteens are usually dominant, the High School teams of this past year experienced very little success.

St. Pat's, our beloved enemy, dethroned the maroon and white from their seat of supremacy in the Senior-High loop.

In the Intermediate League, Bloomfield crushed a far lighter St. Mary's squad in two successive encounters to annex the City Title from them.

In the Senior plays offs, Mickey Ryan started the Irish on the way to victory when he converted a twenty yard place kick. After that the St. Pat's boys ran wild and forced the Santamarians to save time and time again. Touchdowns by Mulcahy and Bishop completed the rout. Neither was converted.

The outstanding performers for our senior team this year were Jack Ferguson and Hughie MacDonald. Both played spectacular ball throughout the entire season, despite the many set-backs suffered by the team.

Big Russ Cox had a wonderful time at the expense of our Intermediate boys. In the two games played between the schools, the boys of the blue and white, led by Cox triumphed easily. Cox experienced little trouble in ploughing through the far lighter players of the intermediates. He scored about six times in the two tilts.

Bloomfield should have entered that team in the senior league. However, they thought that the competition would be too stiff and the boys too big, so in accordance with their long established reputation as sportsmen of the first order, they chose to compete with boys half their weight. They deserve a profusion of congratulations for their hard-earned victories, but I for one just can't get around to it.

Graves, Merrigan and Kline, were outstanding for our Intermediates, and played exceptionally well for boys in their first year of actual competition.

Congratulations are in order to every member of either team, despite their numerous set-backs. With the abundance of material coming up, both from the Intermediates to the Senior, and from the Senior to the College, the omens are good for the future of our Football in both departments.

INTERFACULTY HOCKEY

Winner of the Interfaculty Hockey League this year was the Business Training team sparked by the brilliant playing of Moon O'Connell and Gerry Mulcahy. This being their first year in the league, they are

deserving of the title 'champions'. The team was completely representative of the two year course with eleven of the thirteen men taking an active part in the activities of the team. The team was managed by Ben Barrett and Captained by Moon O'Connell. Others on the teams' roster include Art Cross, Gerry Mulcahy, Leo Deveau, Charlie Dwyer, Gerald Smith, W. Graham Dyer, Russell Lownds, Clark Mullock, and John Quinn.

The League was made up of four teams. Other Faculties represented in the league were Arts and Science, Commerce, and Engineering. The League officially got under way with the President, Rev. Bro. Lannon, facing the puck off for the first time. The official Referee appointed by the Athletic Association was Professor John E. Lynch of the Faculty. From the showing made by some of the students in the Interfaculty League berths on the Intercollegiate team were won. Much interest in the League was demonstrated by the students and the Faculty alike.

INTERCOLLEGIATE HOCKEY

One of the most successful years in the history of the Intercollegiate Hockey League was the opinion of the players and the audiences at the different games. Four teams once again participated in the League—Dalhousie, Tech, King's and St. Mary's. In keeping with past history, St. Mary's once more won the City title and the right to participate in a sudden death game against Acadia for the Provincial title.

With one of the strongest teams on paper, in the College, a championship was the sought after item. St. Mary's captured the City title with very little opposition. Stars of the City games were Moon O'Connell and Gerry Mulcahy. Going into the game against Acadia the Santamarians were without the service of Gerry Mulcahy, who was out through illness, and Moon O'Connell, who was playing with a local team that night. A rebuilt team under the tutelage of Harry Conn, made a brave and determined stand against the mediocre Acadia sextette. Starving for St. Mary's in the Wolfville game was the brilliant playing of Ken Johnston, Vinnie Vaughan and George West. The rugged game as played by Ed Coolen kept the St. Mary's territory clear of opponents during the first two periods, but a natural let down, through fatigue of forty minutes of continuous playing, made Acadia's attack impressive in the third period.

Outstanding for Acadia was the refereeing of Pete Mill, whom to all appearances was not wearing his glasses. The final score against Acadia showed St. Mary's Maroon and White two goals short of their opponents. During the early stages of the league, the team was coached by Lortie of the Halifax Wolves.

HIGH SCHOOL HOCKEY

Once again St. Mary's College had a High School team entered in the H. S. League. It was a four team league—H.C.A., Bloomfield, St. Pat's, and St. Mary's. With a young scrappy but inexperienced team St. Mary's made a creditable showing, but was not successful in reaching the play-offs.

In the Intermediate section, that functioned during the playoffs of the Senior League, the College team emerged victorious, but due to the necessity for the team to go out of town for their future games, they were forced to withdraw.

This year just completed, was very successful, and the experience gained by the players will be a great asset to future games and Intercollegiate sport.

BATTERY ANGLE

(Continued from page 1)
and two days will be allowed for travelling each way. With last year's experience to their credit, it is expected that the cadets will give an excellent account of themselves.

Permission has been received for the C.O.T.C. to parade fifty, all ranks, in the King's Parade to be held on June 15. Due to the fact that several members of the C.O.T.C. will be expected to parade with other units of the garrison with which they are connected, it is impossible to state at the time of writing, just who will be members of the chosen group. However, we are confident that the C.O.T.C. will be represented by a group that will do honor to the unit.

Terrence O'Leary, B.Sc. '39, and Jack Smith, B. Comm. '38, have been selected to train for permanent commissions in the R.C.A.F. Terry is in the General Flying List, while Jack will be connected with the Stores and Accounts department. We offer our congratulations and best wishes for success to these two young men, both former members of the C.O.T.C.

On May 19, Arthur Cross, one of the original members of the College unit of the C.O.T.C., left for Toronto where he will be engaged in the insurance business. Art was a popular member of the unit and will be greatly missed by his friends. He held the responsible rank of Staff-Serjt., previous to his departure. On behalf of the unit, we wish Art every success in his new field of business.

And now the time has come when we must fold up our typewriter for the year—and regrettably, for the last time, as an Associate Editor of the Journal. Our association with the Journal will long remain a fond memory, and we would like to take this opportunity to wish the incoming Journal Staff continued success and prosperity.

To the graduates of '39, this column expresses its sincere wish that they may reap the rewards of their labor and that their fondest hopes may be realized.

To the readers of this column we say, "Salve atque vale."

THE TRANSIT MEN

(Continued from page 1)
to-be-forgotten yearly Engineering function. About a month ago we wound up the year with a gala event which was thoroughly enjoyed by all present.

The Engineers displayed great prominence in Intra-Mural sports during the year. The first we meet is hockey—a sore point with us all. Tough luck and bad breaks were against us, but we were in their fighting for the Championship. Commercial beat us in the final game by a score of 3 to 2. Speaking of

MATRIC NOTES

Feverish preparations are under way for the yearly outing. This year Matric has decided to go to Evesleigh's Beach. The date for the Outing has been set for May 27th. A committee has been appointed to take charge of the various preparations connected with such a plan. Facilities for swimming, boating, softball, etc., will be at the disposal of the class.

The baseball league was inaugurated this year by a game between two teams from the Chemistry and Physics classes respectively of Matric. The Physics team won by the close score of 1-13. Physics: Messrs. Duffy, Murphy, Carroll, Barnaby, Ernst, Graves, Ahern, Dunsforth, Monaghan and Ferguson.

With the final examinations just around the corner, Matricsters are putting on a big drive. It is quite a common sight now, if never before, to see the students, with their coats off, and their desks heaped high with books, settling down to some hard study.

As much as we all dislike final exams, we must face them. We take this opportunity to wish all the boys of Matric the best of luck.

hockey I am reminded that the Engineers were well represented on the Intercollegiate team. Vinnie Vaughan, Jack Munroe, Jack Woods, George West, and Jimmie Spruin were the transiteers who helped bring glory to St. Mary's in this branch of sport. In handball, the cruel hand of Fate touched the Engineers and, to make it worse, Arts won. However, we realize that the best team won and every "boiler-maker" in the place joins in congratulations to the winners.

Truly this has been a most eventful year for us Engineers. Success comes only with effort and the effort behind the Society for '38-'39, was that very capable Executive to whom every Engineer in the College should be and is deeply indebted. To President Wes Theakston, Vice-President Jimmie Spruin, Secretary Frank Reardon, and Treasurer George West I wish to publicly extend a sincere vote of thanks on behalf of the Engineering Society for their untiring efforts in its welfare.

Today is Graduation Day. Those who are receiving their Diplomas will probably go to Tech and thus say farewell to St. Mary's. Others may return for their Science degree. Anyway all deserve a clap on the back and a hearty hand-shake for the successful completion of three years intense study and difficult work. The Engineers wish to express their congratulations and hopes for "the best of everything" to all the Graduates. We also extend sincere congratulations to all St. Mary's boys at Tech on the success that crowned their efforts in the recent Exams.
CONGRATS. BEST OF LUCK. GOODBYE.
