OFFICE OF THE PRESIDENT

TO THE GRADUATES:

On the occasion of the completion of my term as President of Saint Mary's University, I wish to thank all of the graduating students for the many kindnesses shown me and the support given to me during my term of office.

I also want to extend to you best wishes for successful careers and to express the hope that your years spent at Saint Mary's University will have given you good preparation for the challenges ahead.

STUDENTS' REPRESENTATIVE COUNCIL

OFFICE OF PRESIDENT

Dear Graduates:

It is indeed a great opportunity for me to be able to personally congratulate all of you in reaching and succeeding in your academic goals. As a true SANTAMARIAN, you have shown true spirit, lived and hopefully will continue to live by the University motto- AGE QUOD AGIS - which urges all those connected to Saint Mary's University to strive to do their best in everything that they do.

The academic year 1978-79, has been a banner year for the students of Saint Mary's University. We have witnessed great progress in all aspect of university life in regards to Academic, Athletic and Social. This years Grad Class has experienced what could be interpreted as achieving a progressive education, which according to the dictionary means "Onward Development".

We must leave now and look ahead to what may come and from time to time reflect back to our days at Saint Mary's University as being enjoyable, educational and a great stepping stone to the future that destiny has laid ahead for us.

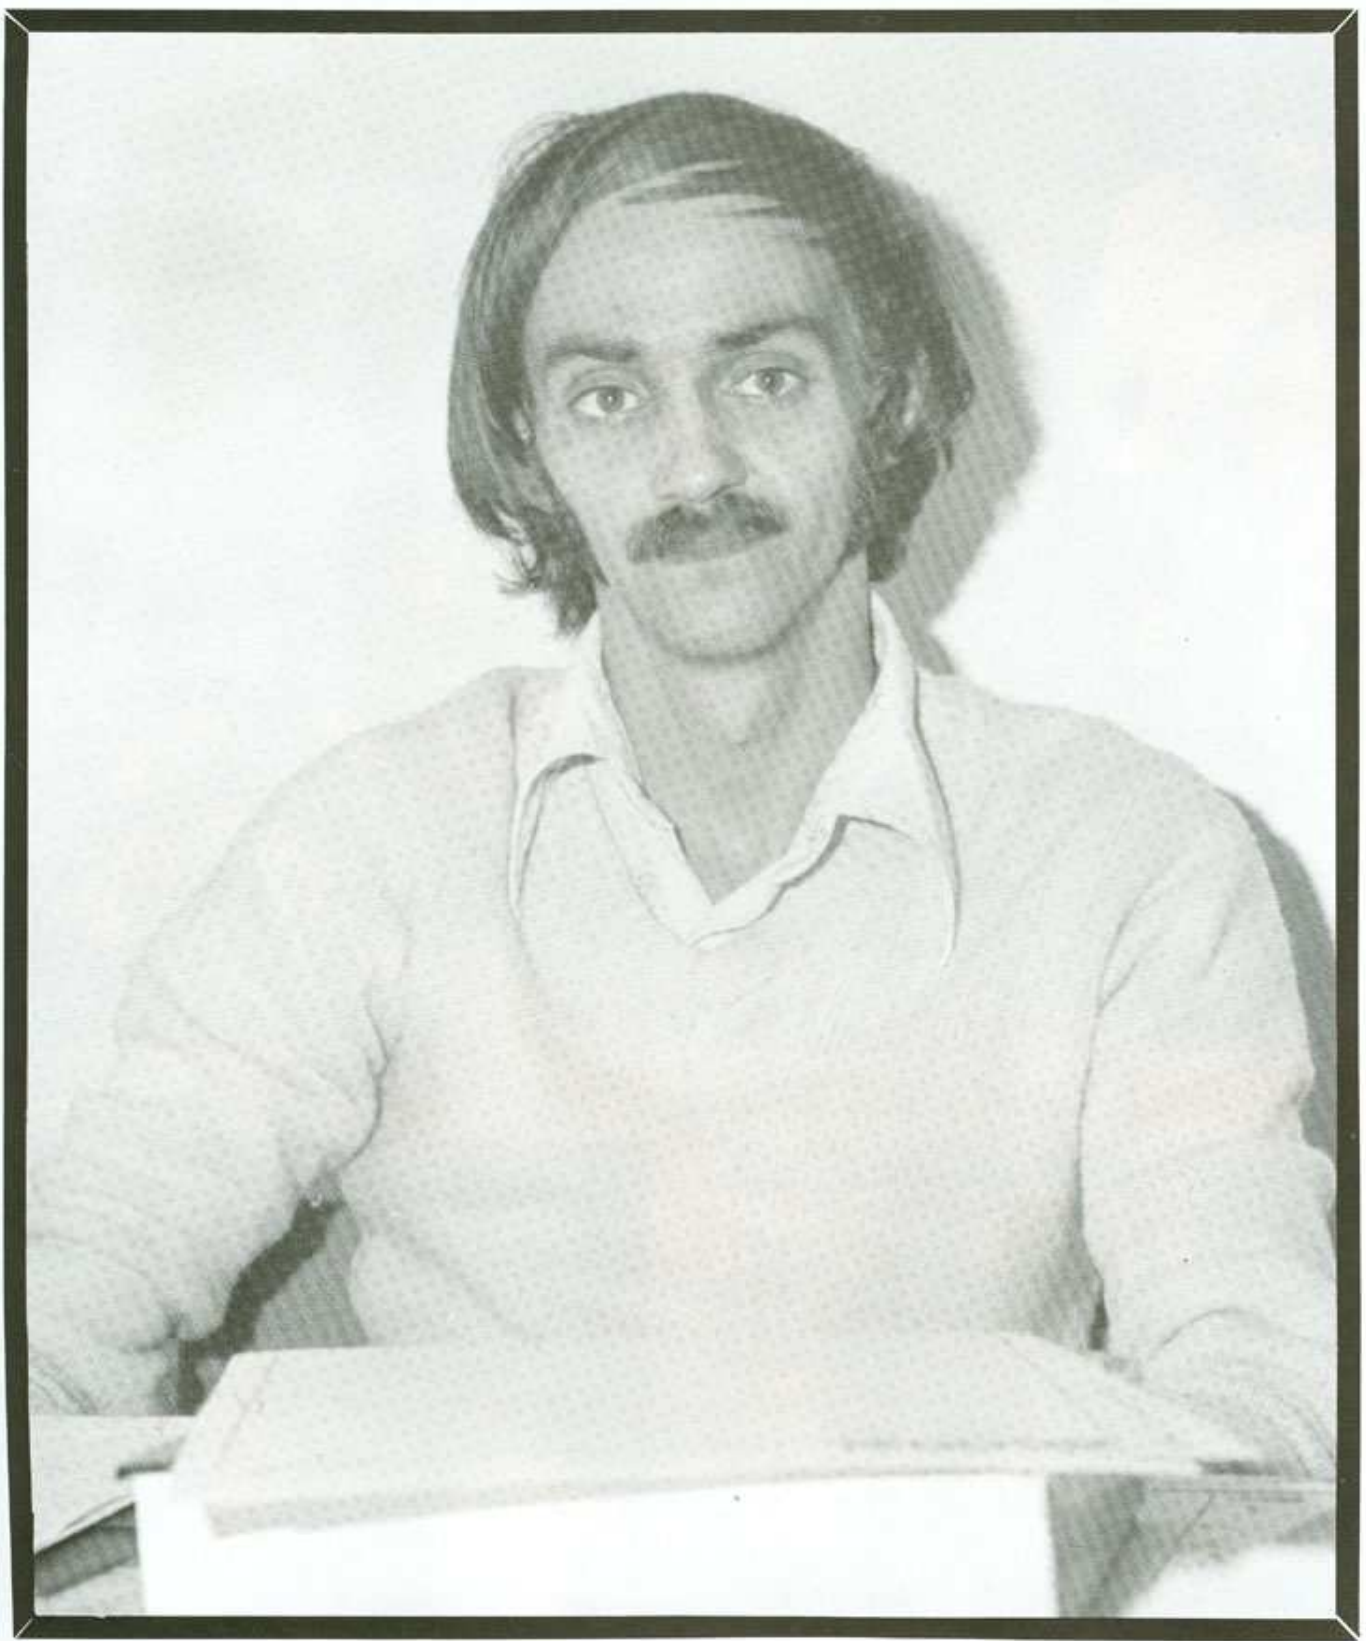

So once again, it is indeed an honor and privilege to congratulate the Grad Class '79 and sincerely hope that all of you will be successful in your endeavors.

I would also like to take this opportunity to thank Sandra Little (Student Services) for her endless contributions to the students and Mary Martin for her hard work, dedication and effort in making this a successful year book.

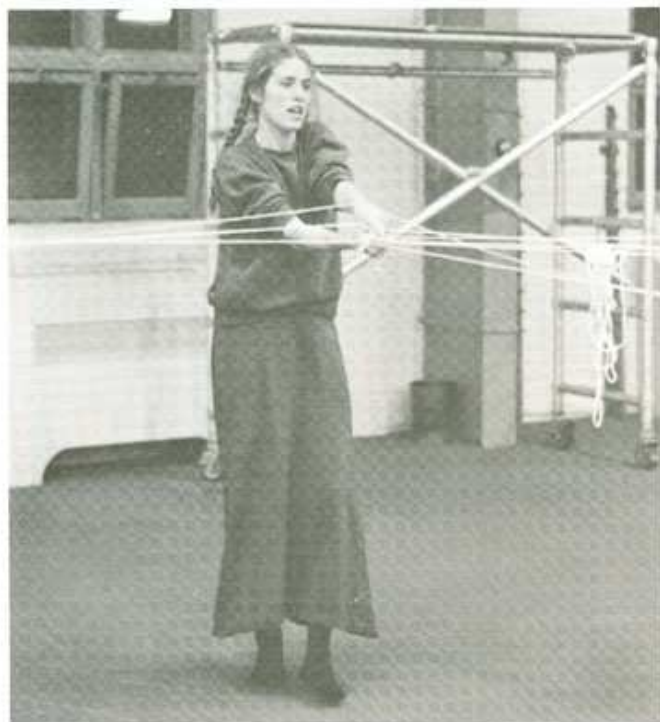

Best of Luck to Grad Class'79

Roy C. Landry  
President S.M.U. Student Council (1978-79)

## Soccer Huskies now 4-0

by Eligio Gaudio

Saint Mary's Huskies are off to one of their finest starts ever and as a result lead the league with an unbeaten 4-0 record so far this season and are a sure bet to win the playoffs. During the playoffs, the Huskies have faced the toughest opposition they have ever faced against three games at home. They played Acadia tonight, a tough U.N.B. squad Saturday afternoon and U de M Sunday afternoon. By the way, Webb has scored more goals this season than the entire Saint Mary's team did last year.

## Webb breaks record

by Eligio Gaudio

Soccer striker Ross Webb gave a phenomenal performance last Sunday to lead the Huskies to a 10-1 victory. M. Ross personally had 3 goals.

Ross Webb was a star long before he was a Huskie. In seven years of Junior and Senior high school and summer league action, Ross scored 506 goals which is well over 70 goals a year. While at Sackville High, he had 3 excellent seasons in regular season.

## Rookie Sensation Topples C.I.A.U. Scoring Record

Soccer Huskie Ross Webb

A freshman-student athlete at Saint Mary's University has recently broken the National all-time season scoring record and tied the Atlantic Conference single game scoring record in the game of soccer. All this in his rookie season!

In what was supposed to be a hard fought and close game, Saint Mary's had no trouble defeating last year's champions, the Dalhousie Tigers, a convincing 4-0 victory, as they simply outclassed and outplayed Webb lead the winners. Rio Nogueira Benson M.

Ross Webb, a twenty-one year old athlete from Sackville, Nova Scotia, has been constantly showered with accolades since his soccer career began in 1965 at age seven. At Sackville High School in 1974 he established a new season scoring high of 60 goals in 17 games; then went on to score a record 160 goals in his three-year high-school career (49 games) to lead his team to the Metro and Provincial Championship for three consecutive years. He became a member of the Nova Scotia Canada Games Team in 1977 and led the team in scoring with 30 goals in their 25 game schedule, including five goals in the four games played in Newfoundland.

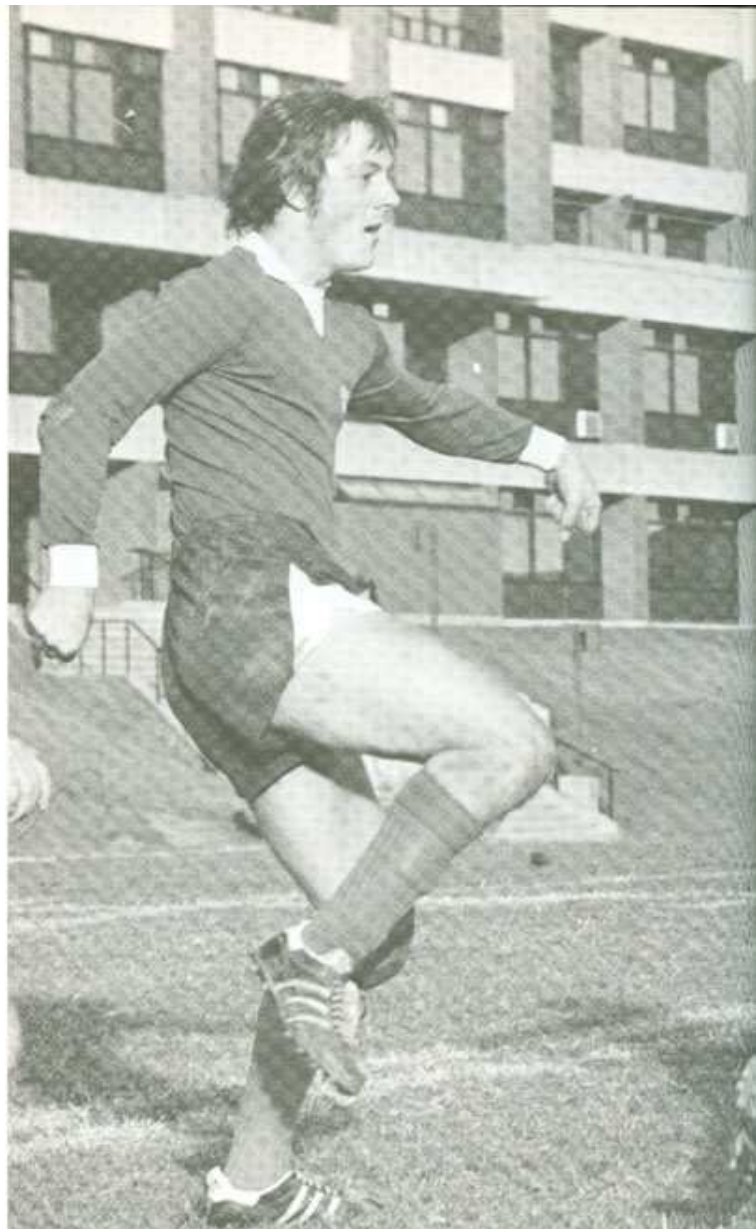

During the summer of 1978, he played with Scotia Olympics Soccer Club in the Nova Scotia Senior League, leading his team to the championship while scoring 30 goals in their 18 games.

His freshman year with the Saint Mary's Huskies of the A.U.A.A. has been a continuation of dominance in scoring—30 goals in seven scheduled games (with five conference games yet to be played), smashing the former C.I.A.U. scoring record of 25 goals in an eight-game schedule set in 1975 by Mark Sosnowski of Concordia University. Webb tallied at least twice in each of the Huskies seven victories to date, and has turned in single game performances of six goals, seven goals, and eight goals. His eight-goal scoring spree on Sunday, October 8 at home against the Université de Moncton Blue Eagles tied the Atlantic single game scoring record established in 1968 by Tom Gamblin of the University of New Brunswick.

Ross Webb's career total now stands at 562 goals in 280 games (seven seasons of Junior High, High School, Senior, and College action). A talented young player with the North American Soccer League in sight, he could be heading toward a professional contract upon his graduation from the Commerce Program at Saint Mary's.

# ARTS

*Saint Mary's University*

HALIFAX - CANADA

B3H 3C3

OFFICE OF THE DEAN OF ARTS

May 17, 1979

Dear Arts Graduate of 1979:

In all probability, during the past several months you have faced some of the most important decisions of your life. Your formal education is now ended, and you are forced to decide, whether or not you are ready, what you will do in the years ahead. Perhaps your decision is complicated by the fact that you did not get the job you had hoped for. You may wonder about the value of your past three or four years at Saint Mary's. Has your education adequately prepared you for the future? What is the value of a university education? Was your time at Saint Mary's well spent?

Perhaps you would like to know that each year I too face these questions -- not with respect to my own future, but with respect to the future of all Saint Mary's graduates. As a Dean, I also think about how well students are prepared to meet the future, and the fundamental questions about the value of a university education press upon me just as heavily as they press upon you.

As you search for your own deeply personal answer to these questions, and assess the value of your years at Saint Mary's, perhaps you would like to consider a few points that have remained in my mind year after year.

No matter what the future may bring, your education has been successful if you have learned to take delight in the activities of the mind; if you have confidence in your ability to think, analyze, and judge; if you have developed the courage to act decisively on your convictions.

Your education has been successful if you have not been corrupted by the trappings of education: the rubrics of syllabi, examinations, term papers, academic regulations, and the course and credit system. The process of education should never be substituted for its substance.

Your education has been successful if your teachers have stimulated and inspired you to learn more outside of class on your own initiative than what you learned in class from them.

Your education has been successful if you have developed binding personal relationships with others and have discovered the educational value of these relationships. Think of the constructive models that you have found for your own life in the lives of your teachers and classmates -- examples of human excellence in others that can help you to grow intellectually, morally, and socially.

Your education has been successful if you have been able to place all that you have learned in a framework of human and/or religious values so that every choice and every deliberate action is informed by worthy ideals.

Your education has been successful if you have come to the realization that one of the responsibilities of being educated is to be an example to others. You are now someone who has something to contribute. You can no longer keep your thoughts to yourself; you can no longer act only out of self-interest; you can no longer ignore the needs of others.

Finally, your education has been successful if you have taken seriously the Latin inscription on the Saint Mary's crest: Age quod agis. Do what you must. It is an especially demanding claim on the sensitive, thoughtful, and educated person.

I am sure that you have learned much at Saint Mary's. I am also sure that your experience at Saint Mary's has given you the basis for a successful education in all of the ways that I have suggested. How could it not? These characteristics are but a part of what an Arts education is all about.

If you have the time, write to me about your education. In this way you can help me in my continuing evaluation of an Arts education. Students are still my most important teachers.

I extend all my very best wishes and my personal regards for success in your future.

Sincerely,

T. J. Musial  
Dean of Arts

Dear Graduates:

On behalf of the members of the Faculty of Science, I want to wish all of you who are graduating from Saint Mary's in 1979 the very best for a successful and happy future. We have enjoyed working with you over the past few years, and we hope it has been a valuable experience for you too.

To Science graduates in particular, we extend an invitation to keep in touch, to let us know how you're making out, and to come back and see us from time to time.

Sincerely,

FACULTY OF COMMERCE  
OFFICE OF THE DEAN

MEMBERS OF THE 1979 GRADUATING CLASS:

Congratulations upon your achievement!

The task of obtaining a Saint Mary's University degree has not been an easy one, but I am sure that you will find that it has been worth all of the time, effort and dedication that you have had to expend to achieve this goal. This will become even more apparent as time goes by.

Much of what you have learned here, not only in the classroom but elsewhere during your stay at the University, will be of value in the immediate future. It will be of even greater value in later years.

Education, of course, does not stop with Convocation. It is a life-long process and I urge you to continue to expand your knowledge and to strive for self-improvement both on the job and in your leisure time. I also urge you to "be good to yourself" as well and enjoy a full well-rounded life in the years to come.

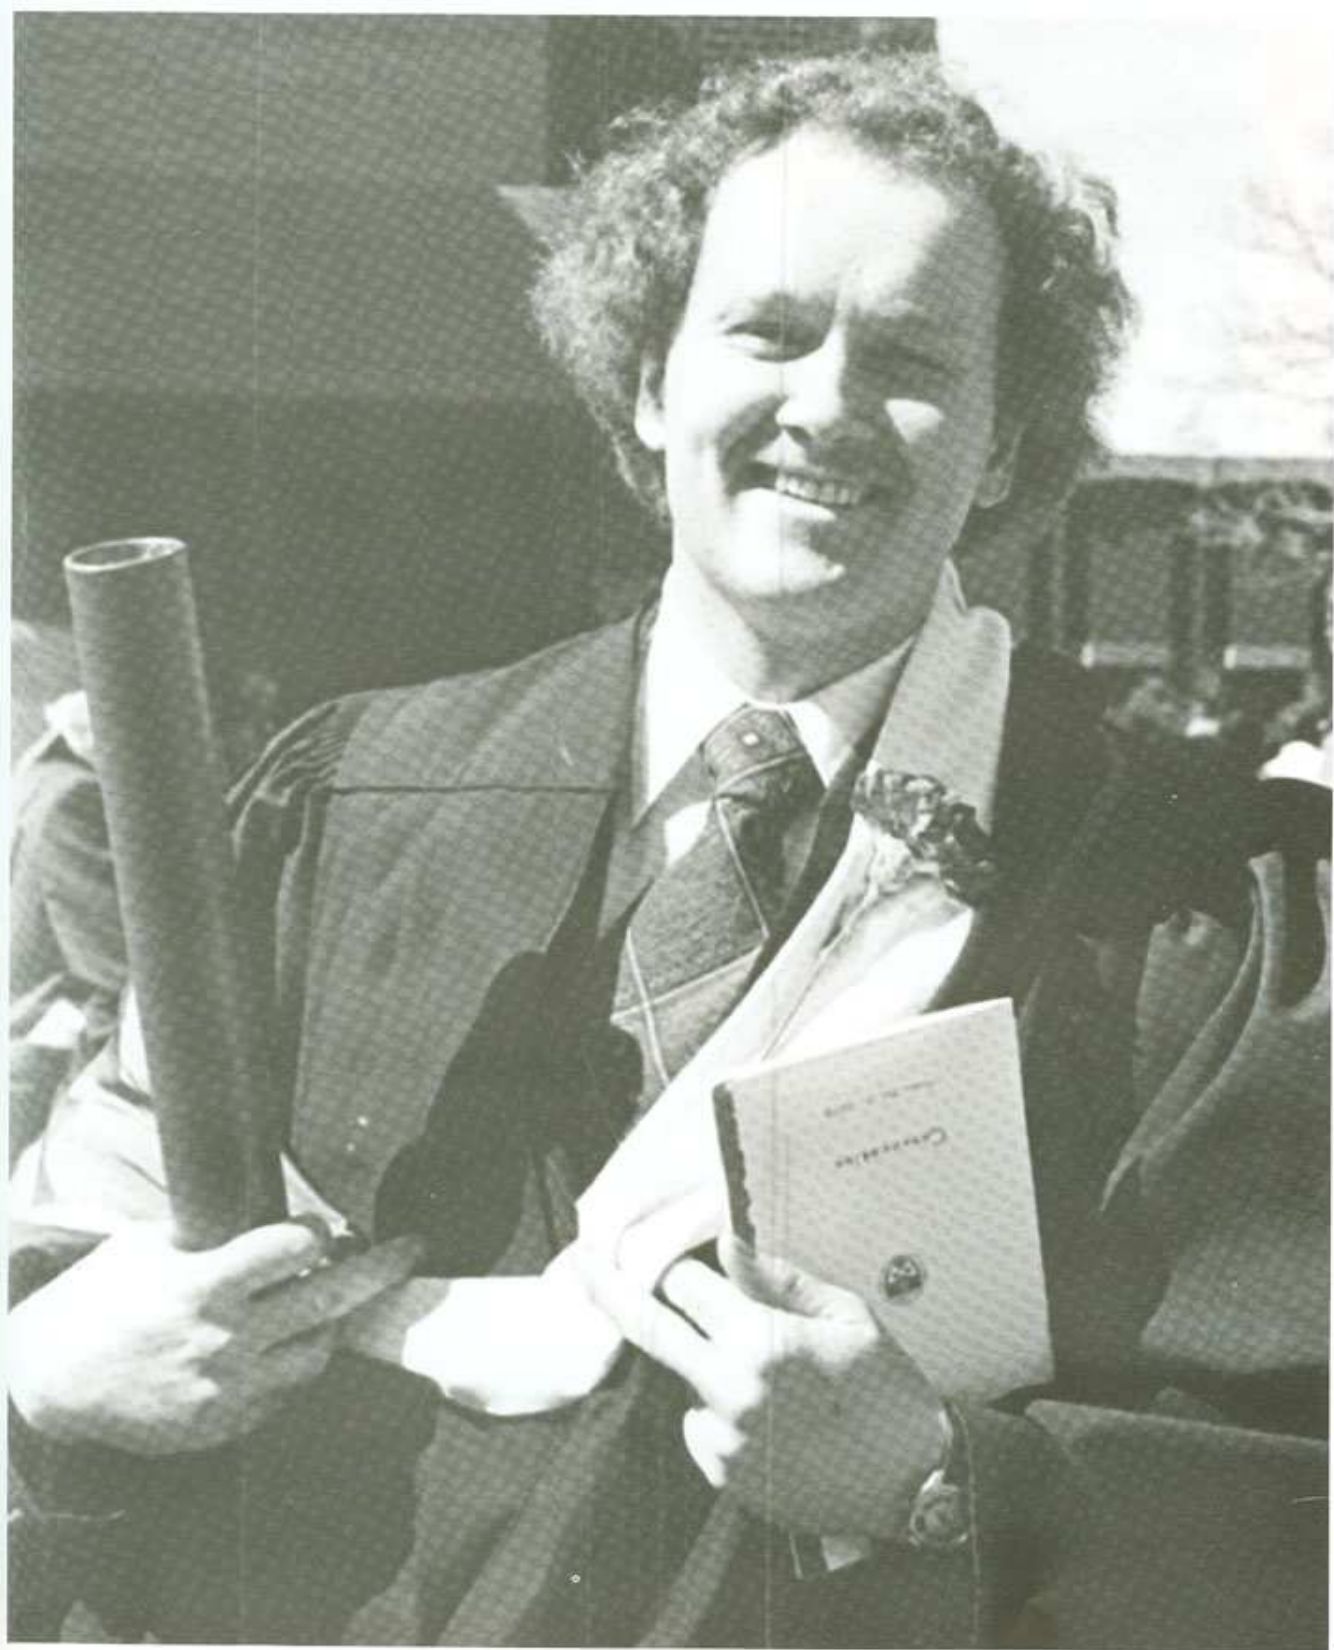

Please accept my best wishes for the very best in the future.

Sincerely,

Samuel H. Jopling  
Dean of Commerce

STUDENTS' REPRESENTATIVE COUNCIL

OFFICE OF EDITOR

Hi Folks,

For those of you who have decided to read this letter, indeed this book (but then again the book has pictures), I hope that you will enjoy it.

Saint Mary's University is a small, friendly place and perhaps you will feel that same amity in this Santamarian.

I would like to thank all the people who helped me make this creation, but there are many. To avoid any of you becoming bored, I will only name a few. Thanks to Neil Elder, Heather Hemming, Liz Stevens and Howard Sølverson (of Information Services), Sean Leahy, Sterling Harpell and Humphrey Bogart.

In all, Saint Mary's was fun this past year; I hope you felt the same.

Mary J. Martin  
Editor

# Team up with a Voodoo

Right now in Atlantic Canada, we have openings in our pilot/navigator training courses. We're looking for intelligent, quick thinking (when you're traveling at speeds faster than sound you have to think fast) young men with the kind of spirit it takes for the precision teamwork required to fly the Voodoo. If you have the right qualifications, this could be your chance to team up with the Canadian Forces — the best team around. Come in and talk to us about you. We're in the yellow pages under recruiting.

## Coal Power.

In 1979, Nova Scotia coal will be an increasingly significant factor in our efforts to reduce our dependence on imported oil.

In November, the first coal-fired thermal unit at Lingan will begin to supply electric power. The second unit will be in service by September 1980. Together, these units will require upwards of 800,000 tons of Cape Breton coal annually.

This use of 'coal power' (which will replace more than 3 million barrels of oil each year) is but one indication of the Corporation's realistic approach to the problem of reducing our reliance on offshore oil.

## CANADIAN IMPERIAL BANK OF COMMERCE

OFFERS

A COMPLETE PACKAGE OF BANKING SERVICES

Do you have to pay rent and fees, purchase books and supplies and pay sundry bills? A Commerce PERSONAL CHEQUING ACCOUNT offers you

- low cost chequing
- monthly statements
- cancelled cheques as proof of payment

Are you one of the more affluent students and have temporary excess cash? Commerce has a SAVINGS ACCOUNT

- top interest rate
- counter withdrawal privileges
- free transfers to other branch accounts
- less temptation to spend - no chequing privileges

Want to compromise? Commerce has the CHEQUING SAVINGS ACCOUNT

- regular interest rate
- chequing privileges
- passbook record
- modest service charge

Do you want to know about a GOVERNMENT STUDENT LOAN?

Here are the basic steps.

1. Obtain application form from Nova Scotia Canada Student Loan Committee, P.O. Box 578, Halifax, N.S.
2. Complete it and return it to that office.
3. When your loan is authorized, take the eligibility form to the nearest Commerce Branch.

If you need further help, call our nearest Commerce Manager.

What if you run short of cash through the school year? Maybe our TEMPORARY LOANS FOR STUDENTS can fulfill your needs - visit us at two convenient branches.

at **Central and Eastern Trust**  
your money works as hard  
as you do . . .
