Saint Mary's will confer two honorary degrees at today's Convocation.

Rita MacNeil

Ms. MacNeil, whose home is in Big Pond, Cape Breton, will receive an honorary Doctor of Letters (D.Litt.). The internationally renowned singer won the 1987 Juno Award as Most Promising Female Vocalist and has received three nominations for the 1988 Juno Awards. In addition to a nomination as Female Vocalist of the Year, her album Reason to Believe brought her nominations for Composer of the Year and Best Album.

Rita MacNeil wrote her first song in 1971 while living in Toronto. She released her first album soon after, but still had to take any job she could find to support herself and her two children. She came home to Big Pond in 1978, and continued to write, sing and record. She began to tour Canada and her reputation slowly grew.

By December 1986 she had a hit album, Flying on Your Own. She represented Canada at Expo '85 in Japan and Expo '88 in Australia, as well as playing at Expo '86 in Vancouver, becoming Nova Scotia's unofficial ambassador in Canada and abroad. She has made sold-out appearances across Canada, including Halifax's Metro Centre. She has released two more albums, Reason to Believe and a Christmas special, Now the Bells Ring. In 1980 Dr. Williamson was appointed Dean of Science at Saint Mary's. He has been active in University affairs and on academic boards and committees, while also finding time to teach a course in geology. He has improved the research environment at Saint Mary's, and he is renowned for keeping abreast of funding sources for scientific research and encouraging faculty members to apply for this funding.

History of Saint Mary's University

Saint Mary's University was founded in 1802 to provide opportunities for higher learning to young Catholic men. Its founder, the Reverend Edmund Burke, had meagre resources to work with but, on later being named Bishop with responsibility for Nova Scotia, he continued to support the college as essential to the development of the Catholic community. In 1841, the Nova Scotia House of Assembly gave formal recognition of its academic role. Its legal status was confirmed in perpetuity by enactment in 1852.

In 1913, the Christian Brothers of Ireland, a teaching order, were invited by the Archdiocese of Halifax to direct the college and its academic program. During the ensuing years, Saint Mary's University became more widely known for the quality of its undergraduate teaching and continued to develop new instructional programs most notably within its Faculty of Commerce. In 1940, the Upper Canada Province of The Society of Jesus was invited to succeed the Christian Brothers as administrators and teachers in the University, and for thirty years until the enactment in 1970 of the new act of incorporation, the college remained under Jesuit supervision. The long-standing emphasis on liberal arts and commerce was extended to include new programs in science, engineering, and teacher education. Extension courses became an important part of the University's commitment to an active educational role in the community.

The Ceremonial Mace

The ceremonial mace, which is carried by the Marshal of Convocation at the head of the academic procession, was presented to Saint Mary's in April, 1980 and used for the first time at the 1980 Convocation. It symbolizes the University's authority to grant degrees. It was made and presented to the University by Maritime Command in recognition of Saint Mary's alumni killed in both world wars and also serving members of the Canadian Armed Forces who have been students at the University.

The mace is made of oak with a cast brass crown and brass plates carrying traditional ceremonial engravings. The plates represent the contribution to Saint Mary's by the Jesuit Fathers, the Christian Brothers of Ireland, the Archdiocese of Halifax, the LaSalle Christian Brothers, the Lay Teachers, and the Armed Forces.

Flags on the Stage

Each year Saint Mary's has a number of non-Canadians in its student body. The flags which you see displayed on the stage for Convocation are from some of the countries from which these students come, not necessarily graduating students, but those in any year of study. This international aspect of the Saint Mary's University community is a feature of justifiable pride which contributes markedly to the growth and understanding of both Canadian and non-Canadian students. Also included in the University's permanent collection of flags is one from the International Year of the Disabled signifying the University's commitment to disabled people.

W.A. Stewart, S.J., Medal for Teaching

In 1983, Saint Mary's University Alumni Association created this award to recognize faculty members who have made an extraordinary contribution to the education of students through teaching in the Saint Mary's tradition of quality undergraduate education.

This Medal for Teaching is named in honor of the beloved Santamarian "whose life," said one of our alumni, "is a model of what a teacher should be." Although officially retired, Father Stewart continues to serve Saint Mary's this year by being Marshal of Convocation.

The selection committee representative of alumni, faculty and students has had regard to the following factors in making its recommendation to the association:

- Teaching ability and classroom performance;
- Interaction with students; and
- Extra-curricular contributions to the life of the University community

Saint Mary's University Award for Excellence in Research

Established in the 1988-9 academic year, this prestigious recognition will be awarded for the first time at this year's Convocation. This annual award honors outstanding research conducted by a Faculty member who has been at Saint Mary's University for at least three years. The selection procedure requires the Award to be adjudicated by the Senate Research Committee following criteria which include productivity and recognition. In the area of productivity the nominee must have a record of continued, exceptional contributions to research/scholarship. The nominee must also have obtained national or international recognition as an authority in a major field of knowledge.
