

Spring!

Students Protest at Province House

by Cecile Barnett

"Tuition goes up, quality goes down", "Freeze the fees", "Education cutback today, what about tomorrow?" and "It doesn't make any cents" were among the slogans on placards waved by demonstrating students from all over Nova Scotia on March 21. An estimated crowd of about 2,000 marched on Province House on the first day of Spring to protest a rise of only 5.5% in government spending for higher education in 1979-80. Many find this especially objectionable since the MPHEC, a commission set up specifically to study the Maritimes' higher education needs, recommended an increase of 9.5% for that period.

The protesters had the good fortune to hold their demonstration on the first day of 1979 that could genuinely be called "balmy". The sky was a bright unclouded blue and though a brisk breeze was blowing, the temperature was about 10°C. In fact, many of the protesters seemed to be enjoying their outing, as they stood on the grounds of Province House and scaled the fences surrounding it for a better view of Nova Scotia Premier John Buchanan.

Premier Buchanan, who emerged after a number of student leaders from various institutions had spoken, said that he and Education Minister Terry Donahoe had met with local university presidents on the previous day, and explained that no greater rise than 5.5% was possible. He then stated that the government was "gearing up" several programs to help students meet increasing education costs. One program was concerned with student aid, the other was to arrange for a student employment program under which students can earn the needed extra funds for Fall during this summer. Most of his remarks were met by boos, jeers, catcalls, and hoots from the massed marchers. In all, the confrontation outside Province House, which lasted about an hour, was noisy but orderly. Also, a sizable contingent of police stationed all over the downtown area insured peace and quiet.

In fact the most spectacular "happening" of the afternoon occurred several blocks away from the demonstration, when a city bus, turning off Barrington Street to avoid a phalanx of marchers, overshot the curb and slammed into a fire hydrant. This caused traffic all over the downtown area to be slowed, diverted, and confused. But no injuries of any sort were reported, and—to this reporter at least—it seemed that a good time was being had by many, if not all, in downtown Halifax that day.

Effects of Recent Announcements Still Not Known at Saint Mary's

The Maritime Provinces Higher Education Commission (MPHEC) received word recently that the Province of Nova Scotia has turned down its 1978-79 operating assistance recommendations. The MPHEC requested a 9.5% increase (\$92.2 million) over last year's amount. Just how this will affect Saint Mary's is not yet known. It does seem fairly certain, according to University President, Dr. D. Owen Carrigan, there will be an increase in tuition for foreign students. Tuition fees for Canadian students are still a "question mark".

The Provinces of New Brunswick and Prince Edward Island have accepted the Commission's recommended levels of assistance.

The funding of the Maritime universities is complex because funds for the universities are not distributed uniformly, and in addition some universities receive equalization grants.

The Province of Prince Edward Island increased its grant from 10.1 million dollars to 11.3 million dollars, an increase of 11.9%, with an actual 8.8% going to Island institutions (Holland College and UPEI) and the balance going to institutions in Nova Scotia and New Brunswick for Island students.

The Province of New Brunswick has increased its grant from 56 million to 60.9 million dollars, an increase of 8.75%, but the actual increase to New Brunswick institutions will be 8.6%. New Brunswick, as well as other Maritime provinces, pays to compensate other universities for New Brunswick students.

Although there are other provinces in Canada that have differential fee structures for foreign students, Nova Scotia is the only province in the Maritimes to have indicated that it will institute such a system. The Provincial Government has recommended that a fee of \$750.00 be added to the regular tuition fees. The \$750.00 will apply only to foreign students registering at a provincial institution for the first time. About 12% of the student population at Saint Mary's consists of foreign students.

According to Dr. Carrigan, "it is not as simple as it seems because there is some difficulty in defining just what exactly the term 'foreign student' means and who is a foreign student. The Departments of Immigration and Education will have to sort that out; it has not been easy for us to answer here at Saint Mary's in the past. Some students come to this country and attend high school, then apply to university from within Canada".

"I have also asked the Deputy Minister of Education to consider the financial problems of students from underprivileged countries", said Dr. Carrigan.

Senate Supports Student Protest

The following was received from the Chairman of Senate, Dr. A.P. Monahan, and is reprinted here unedited.

The Senate of Saint Mary's University fully endorses and supports the efforts of Nova Scotia's university students to protest the Provincial Government's announced policy for public funding of our universities. It does so for two reasons: 1) it agrees that the announced level of university funding for 1979-80 inevitably means an unacceptable increase in costs to students; 2) it endorses any legitimate effort to persuade the Government of Nova Scotia of its failure to provide adequate financial support for the Province's universities.

The facts speak for themselves. Our students already are paying virtually the highest fees in Canada, and the fees must be raised substantially if the universities are to receive necessary operating funds. Our Government has rejected recommendations made by its own advisory body on higher education, the Maritime Higher Education Commission, on which sit responsible representatives from all sectors of the community. Nova Scotia is the only Maritime Province to have done so, and this despite the fact that the MPHEC has shown consistently that Nova Scotian Government support for its universities is at a lower level than that provided by New Brunswick and Prince Edward Island.

Mary's University. Deadline for
next issue is April 23, 1979.
Editor—Liz Stevens.

Profile: Ron McFarland

by Cecile Barnette

For two years straight, Saint Mary's Huskies basketball team has won the National Basketball Championship. This year, the game was played in Calgary, but last year it took place right here on home ground—in the Halifax Metro Center.

One of the brightest stars in the spectacular 1978 game was Ron McFarland, known to his teammates as "Hawk". 1977-78 was a good year for this 6'4", 195-pound powerhouse. His record

included 164 field goals made, and 14.8 points average per game. He was named co-winner of the Paul Bunyan Classic's most valuable player.

But the "Hawk", that free-and high-flying bird who skims the skies and almost always eludes the pursuit of predators, was in for an unexpected fall. In July 1978, in California playing summer basketball for a Los Angeles pro team, he was hit broadside by a car while riding a 10-speed bike. The motorist was uninsured; fortunately, Ron's father's insurance was sufficient to cover the sizable bills that a week's stay in hospital and a complicated knee operation ran up.

Eventually the knee began to recover, but fickle fate hadn't yet finished with Ron, unfortunately. In November, his father died suddenly. In February '79, while working out with the team, Ron turned his ankle and damaged several ligaments. For several weeks he was immobilized in a cast from just below the knee right down to the toes.

Huskies coach Brian Heaney, who'd had his eye on Ron since he was playing ball at Seattle (Washington) University, had been instrumental in bringing Ron to Saint Mary's. When he realized the extent of "Hawk's" injuries, he met with prominent orthopedists and other doctors to discuss the situation. On their advice and with their support, he decided that Ron could work out with the team as part of his physical rehabilitation program (Ron also attends the VG daily for physiotherapy), but should not play in league games this year. Coach Heaney now says that "Hawk" has recovered "completely—almost

miraculously" and that he clearly still has the potential to be a "really outstanding" basketball player.

Meanwhile, the "Hawk", anything but a quitter, is putting his enforced leisure time to good use. He's striving hard to maintain the "B" average he needs if he is to graduate this May. He very much wants to be able to graduate, so that he can move on to a pro ball career to support his widowed mother and relatives and, more importantly, because he knows that his deceased father wanted his son Ron to graduate from college more than just about anything in the world. "Hawk" realizes, as his father did, that the training you receive in college equips you to face the outside world with both courage and knowledge—an unbeatable combination.

As Ron points out, he's 23, practically elderly for some sports stars. By the time he's 31 or so, he wants to be able to retire from basketball, put his college degree to good use, and enter the field of business land management and real estate.

In fact, Ron is indeed a many-faceted character. He hasn't let his recent mishaps get him down; rather, they have spurred him on to achieve more, faster, in the "real world." In past vacations, he has acted as deputy sheriff for his hometown of Ansonia, Conn., a suburb of New Haven. This interesting summer work has served to open his perspective on the outside world that much wider.

One of his mottos, "Hawk" says, is "live and learn." And that is just what he is doing right now, taking this year's misfortunes in his stride just as smoothly as he did last season's acclaim. No matter what the climate, the Huskies' own "Hawk" keeps right on flying.

Master's Psychology Program to be Offered at Saint Mary's

Dr. Paul Valiant is a member of the Psychology Department at Saint Mary's University. He is currently investigating the effects of alcohol on stress related behaviours in rats. The rats are trained to level press for alcohol reinforcement in operant chambers and later exposed to increased work-loads for the same reinforcement. Behavioral and biochemical measures are taken to determine the effects of alcohol on this task.

In the 1979-80 academic year, Saint Mary's University will offer a new program, the Master of Science in Applied Psychology.

The program has been approved by the Maritime Provinces Higher Education Commission. On January 15, 1979, the MPHEC announced that the Master's program in Psychology would be beneficial to higher education in the Maritimes, and that a program offering such graduate training should be located at Saint Mary's in Halifax.

The purpose of the program is to provide advanced training in two areas of applied psychology: behavioral clinical psychology and industrial organizational psychology. The Saint Mary's psychology faculty believes that this new program will give members of the local community an opportunity to acquire knowledge and skills in applied areas of psychology and to provide the opportunity for Maritime students to upgrade their academic qualifications and compete for positions requiring training at the Master's level. A number of local businesses and institutions have confirmed that strong employment opportunities currently exist for individuals trained at the Master's level in specialized areas of applied psychology.

Students may enrol on a full-time basis for two years, or a part-time basis for four years.

Senate Supports Students Protest

Continued from page 1

Further, it seems, the Provincial Government is failing even to provide to universities the full funding made available from the Federal Government. The public should require to know the justification for this, as well as the justification the Provincial Government offers for lowering the quality of higher education in Nova Scotia.

To contend that a 5.5% increase in the operating grant will not lower the quality of a university education is to be naive. To maintain that the Government simply cannot afford a higher level of increase than the 5.5%, and is treating universities on the same basis as other publicly supported sectors of the community, is difficult to accept when the Provincial Minister of Health states publicly that the increase to the Provincial Medical Plan will have to be limited to 8%.

The Alumni Association of Saint Mary's University presented two cheques of \$5,000 each to Doctor D. Owen Carrigan, President of the University, as initial payments to establish two new scholarship trusts, The Alumni Jesuit Scholarship Fund and the Alumni Scholarship Endowment.

Monies for the endowment of the two new scholarships are from contributions by members of the Alumni Association.

Shown left to right, are Laurie Smith, Alumni Coordinator, Dr. Carrigan and Frank Gervais, President of the Alumni Association.

From the Registrar . . .

1. **Planning To Take A Course This Summer At Another Academic Institution And Transferring It Back To Your Degree Program At Saint Mary's University?** If so, please consult regulation 21, pages 6-7, 1978-79 Academic Calendar. The necessary forms are available in the Registrar's Office. You will probably find it more convenient to do the required paperwork prior to leaving campus in April.

2. **Withdraw From .2 Courses**
Thursday 15, March 1979 was the last day for withdrawing from a second semester (i.e., a .2) course. After that date withdrawals from .2 courses result in grades of F automatically being assigned. Prior to that deadline, grades of W, WF, or WP are awarded at the discretion of the instructor.

3. **Final Examination Schedule**
The final version of the examination schedule was posted on Friday 16, February 1979. The official period for these examinations is April 9-24, 1979.

4. **Local Addresses**
Please ensure that the Registrar has your correct local as well as permanent address.

5. **MCAT**
Date has been received with respect to the new Medical College Admission Test for 1979.

1979 Test Dates	Dates By Which Registration Must Be Postmarked
April 28	April 2
September 15	August 20

NOTE: If you plan to apply to the Faculty of Medicine, Dalhousie University for the class entering September 1980, the latest opportunity for writing the MCAT will be 15 September 1979.

Please consult the Registrar's Information Board for further data.

CALCULATING QUALITY POINT AVERAGES AND CUMULATIVE QUALITY POINT AVERAGES

In an effort to provide a better understanding of the two types of averages effecting a student's status at Saint Mary's the following information is offered.

(1) (a) A **QUALITY POINT AVERAGE** is the average of all courses taken at Saint Mary's during a regular academic year (i.e. September to April). Summer session courses are not included in this type of average. A Quality Point Average is used to determine (i) placement on or removal from academic probation and (ii) academic weakness requiring withdrawal from the University.

(b) A **CUMULATIVE QUALITY POINT AVERAGE** is the average of all courses taken at Saint Mary's and includes those for both the regular academic year and / or summer school. Insofar as the current academic regulations are concerned, each student must achieve a cumulative quality point average of at least 1.50 to qualify for an undergraduate degree from Saint Mary's. In some cases this type of average is also used to determine eligibility for admission to honours programs.

(2) Each letter grade at Saint Mary's carries an equivalent value in quality points. The equivalencies are: —

GRADE	QUALITY POINTS FOR FULL COURSES	QUALITY POINTS FOR HALF COURSES
A	4.0	2.00
B+	3.5	1.75
B	3.0	1.50
C+	2.5	1.25
C	2.0	1.00
C-	1.5	0.75
D	1.0	0.50
F	0.0	0.00
WF	0.0	0.00
WP	—	—
W	—	—
AE	—	—

(3) In calculating either average the following should be noted:

- (a) NOT included are: Grades of W, WP, or AE, grades for advanced-standing credits, transfer credits, and waiver-examination credits.
(b) Included are: all grades achieved in courses taken at Saint Mary's (except W, WP or AE). In cases where a course is repeated both grades are calculated irrespective of the fact that if both are passing grades a maximum of only one full credit is recognized for such a course.

In the case where a student changes faculties the cumulative quality point average is calculated on all grades (except W, WP or AE) achieved in both former and current faculties.

(4) In computing averages, the divisor is the total number of full courses taken (full-course equivalents in the case of half courses). Thus, for example, the divisor is 5.0 in the following cases:

i. Egl. 200.0	His. 207.0	Gyp. 201.0	ii. Egn. 106.1	Egn. 113.1	Egn. 204.2
Ant. 200.0	Psy. 201.0		Egn. 107.2	Egn. 203.1	Egl. 200.0
			Cml. 301.1	Cml. 303.2	Mat. 118.2

(5) The official statement on quality point average is found in regulation 6, page 22 of the 1978-79 Academic Year.

New MCAT
(New Medical College Admission Test)
1979 Test Date—September 15

Registration materials must be postmarked—August 20.

PLEASE NOTE—Students intending to apply to the Faculty of Medicine, Dalhousie University, for the class entering in September 1980, are advised that the latest opportunity for them to write this examination is SEPTEMBER 15, 1979.

Students planning to take the September 15, 1979 examination, should make absolutely sure that they have a registration packet available in time to meet the August deadline. THERE ARE NO EXCEPTIONS TO THE DEADLINE.

To obtain a registration packet write to: MCAT Registration
The American College Testing Program
P.O. Box 414, Iowa City, Iowa 52240

April Events at Saint Mary's

- April 9-24 Final examinations
- April 10 Lunch-hour forum at International Education Centre, Dr. Bernhard Abrahamsson, "Some Economic Consequences of the Middle East Peace Agreement, Theatre B, 12:30 p.m.
- April 13 Good Friday. University holiday
- April 15 Easter Sunday. University holiday
- April 16 Easter Monday. University holiday
- April 19 Opening of the exhibit of contemporary intaglio prints, Gustel Stark from Germany, University Art Gallery, 8 p.m.
- April 20-22 Nova Scotia Multicultural Youth Conference, Holiday Inn, Dartmouth, co-sponsored by the International Education Centre and the Nova Scotia Multicultural Association.
- April 24 Second semester ends

Summer Program '79 —For People Just Like You

Saint Mary's University has scheduled over 100 different day and evening courses to be given this summer. These will be offered in two separate sessions starting in May and July. They are expressly planned to serve the needs of:

- The continuing Day or Evening student.
- The beginning Day or Evening student.
- The student seeking remedial work in mathematics to qualify for higher level courses.
- The student seeking transfer credit to another institution, or one seeking a specific course not available at his institution.
- The university graduate in need of refresher courses or additional academic capability in preparation for a career, or for graduate school admission.
- The teacher seeking a graduate program in education, or needing to upgrade professional standing.
- The student qualified through background to benefit from courses for cultural enrichment.

Copies of Saint Mary's 1979 Summer Program brochure are available from the Division of Continuing Education, Room MM103, McNally Building, or telephone 422-7361, extension 250.

SMUEA President Resigns

Bryce Reed (Chemistry) resigned as president of the Saint Mary's University Employee Association as of January 2, 1979. The SMUEA Newsletter reports that "Bryce had done an excellent job in the first year of the SMUEA". The present acting president is William H. White (technician, Physics Department). A new president will be elected in April 1979.

Saint Mary's Holy Week Schedule

Palm Sunday (April 8)—7 p.m.
Solemn Mass of Passion—Canadian Martyrs Church

Holy Thursday (April 12)—7 p.m.
Re-enactment of Lord's Supper—Art Gallery
Exposition of the Blessed Sacrament will follow in the Liturgical Centre L145

Good Friday (April 13)—3 p.m.
Solemn Liturgies—Art Gallery

Easter Sunday (April 15)—7 p.m.
Easter Mass—Canadian Martyrs Church

Continued from page 3

2:30 p.m.	Arts, M.A., Science (including Engineering), M.Sc.	Assemble in GYM at 1:30 p.m. SHARP! Reception following in Loyola Building
6:30-1:00 a.m.	CONVOCATION BALL	HOTEL NOVA SCOTIAN
6:30-7:30 p.m.	Reception	Atlantic Room—Cash Bar
7:30-9:00 p.m.	Dinner	Commonwealth Room—Cash Bar
9:00-1:00 a.m.	Dance	to the unique sounds of "TRACK"—Cash Bar
		Dress: Formal Tickets: \$25.00 per couple Advance sales only

**MAY 8 TUESDAY
MOVE OUT OF RESIDENCE
—A NEW BEGINNING—**

REMINDER:

Tickets for the events listed below must be purchased IN ADVANCE:

- When? From Monday, April 9-Tuesday, May 1
Where? Student Services—4th Floor, Student Centre
1. Harbour Tour
 2. Grad Barbeque
 3. Brunch for Grads and Parents or Guests
 4. Convocation Ball

Saint Mary's Education Students Use Innovative Techniques

In this, the Year of the Child, five Saint Mary's University B.Ed. students, members of Professor Bette Hanrahan's Philosophy of Education course, decided to take a look at variations in adolescent self-esteem. Heather Dixon, John Hutchinson, Matthew Napier, Bill Smith, and Wayne Weir elected to measure the esteem levels of adolescents from a variety of Halifax area schools, in order to enhance their own understanding of the pupils they will someday be teaching.

The survey instrument used was the Coopersmith (a noted U.S. educator) self-esteem inventory. This is a 25-statement "questionnaire", aimed at discovering how young people view themselves. The paper emphasizes that there are no "right" or "wrong" answers.

Among the statements to be marked "like me" or "unlike me" are: "I often wish I were someone else", "I'm a lot of fun to be with", "my parents expect too much of me", and "I can't be depended on".

Approximately 130 students in grades 6 to 12 took the test. Findings show that female self-esteem seems to start dropping early, in grades 6 to 8, while male self-esteem begins to rise at about grade 8. The test also indicated that the social and economic levels of the teenagers had little effect on the results, which were the same across all social and financial areas. The test was well received by both the pupils taking it and their teachers.

A result of this survey was to emphasize the need for the prospective teacher to make the whole life of the child, his feelings, emotions, and problems, a real concern in education. It is hoped that sensitizing teachers-in-training to the problems of the "whole child" will result in a better understanding by beginning educators of young peoples' problems.

Charter Day Celebration Held

On March 22, the Saint Mary's Student Representative Council celebrated Charter Day. The purpose of the celebration is to recognize those people, both students and non students, who have contributed to the student cause at Saint Mary's, and to show appreciation to them for their efforts. In all, twelve types of awards are given, for academic excellence, all-round participation, and student leadership. This year's Master of Ceremonies was Irwin Simon.

Literary M's: the highest award granted to a student for his / her literary contribution to the University through campus media.

Mike McManus
Eligio Gaudio
Leo Jacobs
Wayne LeMoine
Sean Leahy

Honorary Literary M's: to be awarded to a non student. The highest award granted to non students for their literary contribution to the University through campus media.

Clay Fowler
Grace Zimmerman
Liz Stevens

Certificates of Merit: to be awarded to either undergraduate, graduate, or graduating students. This award is given to any student deserving of recognition for work done in the area of student affairs during the preceding year.

Jane McGinn
Robert McLellan
Heather Cochrane
Maureen Gale
Eric Short
Robert Smith
Janet Hunter
Marty Malcolm
Joe Marzouca
Jimmy Tiong
Jeremy Howard
Ken Smith
Irwin Simon
Richard Smith
Margaret Chisholm
Wayne LeMoine
Irene Pierzchala
Chuck Given

Special Certificates of Merit: to be awarded to a non student. The highest award granted to non students deemed to have made a large contribution to students and students' union.

Fr. Mills
Dr. Beazley
Sue Little
Lois Flemming

Society of the Year: an award granted to that chartered society at Saint Mary's which is deemed to have contributed more to all students than any other society during the preceding year.

Chinese Society

J.J. Hennessey Award: an award presented to the student at Saint Mary's deemed the greatest contributor to extracurricular activities during the preceding year.
Glen Tregar

Student Leader of the Year: the award presented annually to the student at Saint Mary's deemed to have shown the greatest leadership abilities during the preceding year.
Roy Landry

Surprise Award:
Carl McAllister (Plaque)

Silver M's: to be awarded to either graduating students or graduate students. The second highest award granted by the Students' Council, given to students who have excelled in extracurricular activities in the area of student affairs during their stay at Saint Mary's.
Irwin Simon
Brenda Dowling
Howard Chan
Maureen Gale
Mary O'Donnell
Ken Smith
Brenda Walsh
Ian MacIntyre

Gold M's: the highest award granted to a student who is considered to have excelled in extracurricular activities during his / her stay at Saint Mary's.
Bruce Bishop
Scott Carswell
Eileen Dooley
Glen Tregar

Plaques of Recognition:
Sandra Little
Dr. J.B. Owen
Dr. D.O. Carrigan

Freshman of the Year: to be awarded to that student at Saint Mary's in his / her first year deemed the most outstanding Santamarian among freshmen.
Mike McNeil—Trophy and Plaque

Sophomore of the Year: to be awarded to that sophomore deemed the most outstanding Santamarian among second-year students.
Janet Hunter—Trophy and Plaque

Junior of the Year: to be awarded to that junior student deemed the most outstanding Santamarian among students of junior standing.
Margaret Chisholm—Trophy and Plaque

Senior of the Year: to be awarded to that senior student deemed the most outstanding Santamarian in the senior class.
Bruce Bishop—Trophy and Plaque

20 Million Copies Produced

Mrs. Ruth Edwards of Printing Services

The Printing Services Total Copy System produces approximately 2.5 million copies per year; on February 28, 1979, it produced its twenty millionth copy.

If these copies were laid end to end, they would stretch for 3,780 miles and weigh in excess of 110 tons.

Apart from general duplicating, printed materials such as brochures, folders, letterheads, posters, forms, programs, small booklets, invitations, tickets and other materials are produced, along with thousands of library catalogue cards.

In addition to the equipment located in the Printing Services Plant, in the basement of the Student Centre, Printing Services are also responsible for the operation, allotment and control of the six Xerox copiers located on campus, which produce another 200,000 to 300,000 copies per year.

The Manager of Printing Services is Mr. Peter Weal; he is ably assisted by Mrs. Ruth Edwards, who carries out the functions on the offset press and is responsible for such productions as the Convocation program. Mr. Thomas Canning operates the high-speed fully automated copy duplicator, and Mr. Leonard Umlah is responsible for the Library Catalogue duplicating records and all deliveries.

Craft and Photo Display at Art Gallery

A multimedia show, "Photo Heritage of Nova Scotian Women", is on display in the Saint Mary's Art Gallery through April 8. Among the art works on view are 104 photographs of and by Nova Scotia women, dating from 1900 to the present. The photo collection was donated by "Reel Life", the Women's Media Collective of Halifax.

In addition to the interesting, sometimes stark and often evocative pictures of women at work and (less frequently) at play in the Province through the years, the display is greatly augmented by an array of quilts, some old and some modern. They are beautiful, painstaking works of art, in a dizzying variety of patterns and color combinations.

Following the women's photo heritage show at the gallery will be an exhibition of quite a different nature. On display in mid-April will be a series of intaglio prints by the contemporary German artist Gustel Stark.

Dramatic Society Presents Awards

On Friday, March 23, The Saint Mary's Dramatic Society presented four annual merit awards.

Dominic Larkin received the Rube Hornstein Cup as outstanding actor for 1978-79. The Director's Award for the "Most Improved Actor" went to Edony Elder. The Faith Ward Trophy, awarded annually to the most promising performer, was presented to Ken Storey.

The Father W.A. Stewart Cup for the best dramatist (for the most significant contribution to the society) was awarded to Lawrence De Wolfe, chairman of the society. Tony Johnstone (director of this season's *Macbeth*) and Father Stewart made the presentations.

Science Fiction Fair Draws Crowds

The largest science fiction gathering ever held in Eastern Canada took place on March 9-11, 1979, at Saint Mary's. About 500 fans from the Metro area, the Atlantic Provinces, Quebec, and Maine attended the conference, and all activities went very smoothly. Panel talks included: SF and Fantasy Gaming; The Next Ten Years; Living with an SF Writer; Women in SF; Interplanetary Settlement (by Hugh Millward, of the Saint Mary's Geography Department, and organizer of the International L-5 Society for human settlement in space); Robinson interviews Bova (Spider Robinson, noted SF author, and Ben Bova, editor of the successful *Omni* SF magazine); and SF in Film.

Eight feature films were shown: *Metropolis*, *The Day the Earth Stood Still*, *Forbidden Planet*, *THX 1138*, *2001*, *Wizards*, *The Illustrated Man*, and *Dr. Strangelove*. The festivities ended with a full-scale banquet with 125 in attendance.

It would seem a good time was had by all, and work is already beginning on HALCON 3, scheduled for March, 1980.

Past Pupil Reports on His Progress

Professor Urhan Merdsoy (Physics) recently received a letter from a pupil he taught from 1959 to 1961. Kevin Moriarty now has a B.Sc. from Saint Mary's, an M.Sc. from Dalhousie, and a D.I.C. and a Ph.D. from the Imperial College, University of London. He has taught Physics at Dalhousie and Mathematics at Royal College, University of London (Englefield Green, Surrey). He is presently living in Haifa, Israel, where he is recipient of the Lady Davis Professional Fellowship at the Technicon-Israel Institute of Technology. Since 1967 he has published 72 research papers in various journals.

In his letter, Dr. Moriarty says to Professor Merdsoy: "I hope that after reading my curriculum vitae and list of publications, you feel that your encouragement of me was worthwhile." He also notes: "I am in Israel at present on my sabbatical leave. At least I am able to get away from the strikes and bad weather in England by coming here".

Spanish Theatre Festival Held in Fredericton

Student theatre, and in Spanish, in the Maritimes? Of course! Students from Saint Mary's, and from Acadia, St. Thomas, Mount Allison, and Mount St. Vincent Universities made it happen in Fredericton, March 23 and 24. They presented six works, some original and some from the classical repertory of Spanish plays, as part of a student theatre festival in Spanish organized in conjunction with the meeting of the Atlantic Provinces Hispanists held at St. Thomas University.

Students from Saint Mary's who are taking Spanish courses with Dr. A.J. Farrell—Roberto M. de Barros, Gaitri Chandra, Phyllis Flemming, Peter Flook, and Roger Rodriguez—staged their production of *El muerto era un vivo*, by the Mexican humorist Pepe Martinez de la Vega. One of two medals for "best actress" of the festival went to Gaitri Chandra, a fourth-year Saint Mary's student from Guyana.

The faculty members making up the Atlantic Provinces Hispanists were impressed with the enthusiasm and competency of the various student productions, and plan to make the theatre festival an integral part of next year's meeting to be held at Mount St. Vincent University.

NSERC Awards for Two Saint Mary's Students

John C. McDow and Paul H. Muir, Honours students in Mathematics and Physics, respectively, at Saint Mary's University, have been awarded 1967 Science Scholarships by the Natural Sciences and Engineering Research Council. A maximum of fifty scholarships are awarded each year to outstanding students who are interested in pursuing a doctorate in science or engineering at a Canadian university. The award is currently valued at \$8,000 per annum, plus a travel grant, and is renewable for up to three (or in some cases four) years. This marks the first time that students from Saint Mary's have received 1967 Science Scholarships.

John McDow, a native of Stellarton, N.S., is the son of Mr. and Mrs. Cecil McDow. He plans to enroll in a doctoral program in theoretical physics at the University of Toronto. Paul Muir, son of Mr. and Mrs. Herbert Muir of Trenton, N.S., will pursue a doctoral program in numerical analysis at an Ontario university.

The 1967 Science Scholarships were introduced in Centennial Year to celebrate the centennial of Canadian Confederation and the fiftieth anniversary of the National Research Council. The purpose of the award is to encourage student exchanges between different cultural and geographic regions of Canada. Students must be invited to apply by the Chairman of the university's Scholarship Review Committee. Faculty members must consider the applicants to be outstanding not only in comparison with their classmates but also in relation to the outstanding students who have graduated in previous years.

Middle East Peace Talk at Saint Mary's

The International Education Centre of Saint Mary's University is sponsoring a talk by Dr. Bernhard Abrahamsson, to be held on Tuesday, April 10, in Theatre B of the Burke Education Building at 12:30 p.m. The topic will be "Some Economic Consequences of the Middle East Peace Agreement".

Dr. Abrahamsson is presently a visiting professor at the Canadian Marine Transportation Centre of Dalhousie University. He has also taught at The University of Denver (Colorado), the Denver Research Institute, and the University of Haifa. For four years he served on the staff of the International Monetary Fund.

The lecture, part of the International Education Centre's "lunch hour forums on international issues," is free and open to the public.

Macbeth Production Gains Accolades

The Spring production of the Saint Mary's University Drama Society, William Shakespeare's *Macbeth*, was very well received, by spectators and critics alike. Commenting: "It takes monumental audacity on the part of amateurs to stage 'Macbeth'—it's a towering tragedy that puts gigantic challenges in front of those who would take the leading roles," Halifax *Chronicle-Herald* critic Mike Paterson went on to laud the acting, production, sets, makeup and costumes of the "Scottish play."

Paterson commented: "The Saint Mary's Dramatic Society production is austere, even threadbare, in keeping with the material resources available. The human resources of talent, energy, and keenly applied hard work, however, are of richer stuff and are well exploited by director Tony Johnstone. Dominic Larkin boldly assumes the title role. He plays Macbeth with power, intelligence and disarming confidence. He plays it well—well enough, in fact, to assure this production of sustained tension and its audiences of ultimate satisfaction. His rendering of the language of Shakespeare, moreover, is apt and easy."

The "audacious venture" of *Macbeth* was presented on March 8-11 in the University gymnasium.

E.H. Norman Conference To Be Held in October

Saint Mary's University and its Asian Studies Program are sponsoring a conference on the life and scholarship of E.H. Norman from October 18 to 20, 1979.

Norman is best remembered for the many contributions he made to Canadian diplomacy and to historical scholarship on Japan. Hani Goro, distinguished Japanese politician and former member of Parliament, said of him: "He was a unique friend to Japan . . . an outstanding scholar . . . a loyal official to Canada . . . one of the few bright stars to mankind".

Twenty years after his death Norman's impressive accomplishments are being discovered anew. The Saint Mary's conference is intended to serve these efforts to understand and pay tribute to Norman's diplomatic and scholarly work. Scholars, diplomats and friends will be invited to assist in this venture.

Conference themes will be: E.H. Norman—the formative years; E.H. Norman—the young diplomat and scholar; E.H. Norman—the McCarthyism and Suez; and E.H. Norman—the historian of Japan. A number of prominent historians and Japanese scholars have been invited to participate in the conference, with the hope that a period of study of Norman's work will provide a clearer understanding of political trends in Japan today.

Publications

DR. PAUL BERNARD (Modern Languages)—"Camara Laye: A Bio-Bibliography", *Africana Journal*, IX, 4 (1978), 307-321.

DR. TIMOTHY BROWNLOW (English) has published poems recently in *Sift*, *The Dalhousie Review* and *The Malahat Review*.

C.C. Pinder and H. DAS, An Assessment of Some Hidden Costs and Benefits of Employee Transfers, *Human Resource Management* (in print) 1979.

DR. Q.A. SIDDIQUI, On Phalcoythere *Horrescens* (Bosquet), *A Stereo-Atlas of Ostracod Shells*, Vol. 5, No. 19, pages 117-120, December 1978.

DR. EMERO STIEGMAN (Religious Studies) has completed the following four works requested by editors for publication in 1979.

a. A study which relates classic monastic theories of prayerful passivity to present-day Christian conceptions of social action. The essay was selected as the Introduction to a volume of translations of Bernard of Clairvaux's works which was published in March 1979 at the University of Western Michigan.

b. A critical review of all 1978 Religious Studies works from Canada—part of the *University of Toronto Quarterly* yearly bibliographical survey entitled "Letters in Canada". The article will appear in the Summer 1979 issue of the journal. Dr. Stieglman has been given this chore on an annual basis.

c. "Basil the Great on Greek Learning", a paper to be read (June 2, 1979) at the International symposium (Pontifical Institute of Medieval Studies, University of Toronto) celebrating the sixteenth centennial of the death of Basil the Great.

d. *Rabbinic Anthropology*, a book-length study of early Judaism, in the University of Tübingen's multi-lingual monograph collection entitled *Aufstieg und Niedergang der Römischen Welt* (Rise and Fall of the Roman World), scheduled for publication early this year.

DR. STEPHEN J. TURNER (Finance and Management Science)—"Probability via the Nth Order Fibonacci-T-Sequence", *The Fibonacci Quarterly*, February 1979; "Generating Stack Curves from a Circulation Curve and Records on Circulating Volume", *Journal of the American Society for Information Science*, 30(1), 1979; "Estimating the Average Value", a tutorial article for *Collection Management*, 2(2), Fall, 1978.

PROF. ENRIQUETA UNTURBE (Mrs. E. Rojo), (Biology) has published an article in *Mendeliana* (Argentinian Society of Genetics). The title of the article is "Qualitative Analysis of Dermatoglyphics of an Argentinian Sample", *Mendeliana* 3(1-2): 1-22 (1978). This is the first article on this topic for Argentina.

Institute of Human Values Publications

The Institute of Human Values, Saint Mary's University, announces publication of the papers delivered at the three international conferences sponsored by the Institute in 1976, 1977 and 1978.

Publication will be in the *Journal Humanitas* appearing in February, July and November, 1979: *Humanitas*, XV, No. 1, *Beyond Relativism* (1976 conference)

Humanitas, XV, No. 2, *The Value of the Human* (1977 conference)

Humanitas, XV, No. 3, *The Freedom of the Human* (1978 conference)

The first of these three issues has just been published, and the Institute of Human Values has a number of copies available to its members at a special price. A similar supply of volumes No. 2 and No. 3 will be available as the issues are published. Individual issues are \$3.00; set of three issues \$6.00.

Anyone wishing copies of these publications should contact the Institute of Human Values, Saint Mary's University.

Notes from the Orient

Professor Hermann Schwind (Management) is on leave this term, having taken a temporary position at the Institute for International Studies and Training in Shizuoka-Ken, Japan. Always a prolific writer, Professor Schwind set down some of his impressions and sent them to Saint Mary's Information Office. "Around 2 on Friday the Institute becomes a deserted place. Most profs have their houses in Tokyo and Yokohama, and most students return home over the weekend (it is only 150 km to Tokyo). TV reception is poor, and only 3 channels can be received here. (We are literally 'behind' the mountain.) But Mt. Fuji helps to forget those 'little' things. At around 5 I begin my daily ritual: switching off the lights, sitting in one of the armchairs in my office, legs on the desk, then watching the sun set on Mt. Fuji. So far we were quite lucky: only three days of rain. So most of the time we had this majestic view: a snow covered peak 3000 m, reaching into the blue sky, really dominating the scene. I jog almost every day but it is not quite as pleasant as at Point Pleasant Park: streets go either up or down. Down is too easy, but uphill is quite exhausting. . . . Have three research projects going. And want to write a booklet. We'll see."

Knowing Prof. Schwind, we're willing to bet that all those projects and that booklet get completed, despite the charms of Japan. As he remarks elsewhere in his letter-cum-travelogue, "there are always the eager beavers"!

Moral Development Lectures at Saint Mary's

Two lectures on Value Education and Moral Development sponsored by the Saint Mary's Education Department were held at the University on successive Tuesdays, March 6 and March 13, from 12:30-2:30 p.m. A display consisting of designs, drawings, paintings, and photos made up by the students in the History of Education course (Ed. 504 E) was used to illustrate former greats in the field of education, from Erasmus to John Dewey.

This portrait gallery of earlier educators made up a silent audience for a pair of lectures by Father Claude McLean that doubtless would have pleased them greatly, had they indeed been able to hear them. Certainly his contemporary audience, consisting mainly of B.Ed. candidates and some interested observers from other disciplines, seemed to find Father McLean's talks valuable.

Currently attached to St. Theresa's Church on North Street, Father McLean was for several years the instructor of a course on "teaching human and religious values" that was offered as one of the B.Ed. special methods options at Saint Mary's. In that course, and in more intensified form at the workshop, he shared his own discovery of the need to help adolescents become aware of their values.

Father McLean began his work with high school students using a formalized presentation of the Christian faith, but soon discovered that the starting point had to be the students' own questions, some of them hidden, about his / her identity, purpose, relationship with others, and hopes and fears.

The workshop, through films, paper-and-pencil exercises, person-to-person dialogues, and a summary of relevant psychological knowledge, showed participants the possibilities of using value-clarification techniques in their own teaching. Above all, however, a concern for students as people, and a sense of hope and humor, are needed; Father McLean did not so much talk about these qualities as embody them.

International Education Centre Receives Grant

The International Education Centre of Saint Mary's has received a grant of \$71,000 from the Canadian International Development Agency (CIDA). The grant will enable IEC to continue its work in the area of international development education in Third World issues. CIDA funds will be used to promote public participatory activities which, in the words of the CIDA's mandate, "assist in the economic, technical, educational expansion of the developing countries of today's world".

Noteworthy Notes

DR. WAYNE GRENNAN (Philosophy) will be participating in a symposium on "Human" and "Person" as Normative Concepts in *Contemporary Biomedical Decision-Making*, to be held May 10-11, at the Clinical Research Institute of Montreal.

FATHER W. LONC (Physics) was interviewed on the Metro Action program, CBH radio, prior to the recent solar eclipse. He discussed the kind of effects which could be expected on a radio telescope, as well as some effects on propagation of radio waves in general.

DR. ARTHUR MONAHAN (Philosophy) will be participating in a conference being sponsored by the Canadian Philosophical Association on the *Philosophical Issues Relating to the Future of Confederation*. The conference will be held at McGill University, Montreal, April 20-22.

DR. FERNANDE PEPIN (Modern Languages) recently presented a paper to the University of Alberta, Edmonton, entitled "Relations (R) signifiant (Sa)—signifié (Se) du DH dans 'Le fauteuil roulant' de *La Rivière sans repos*, de Gabrielle Roy". Semiological study. This paper attempts to found its discussion on a literary text "Le fauteuil roulant" outlined in *La Rivière sans repos*, on the Saussurian dichotomy signifier / signified, the union of which forms the sign. The CH (Corps humain) of "Le fauteuil roulant" points out the static and the dynamic "gestuelle" of which she has analysed the correlation. This article will be published in *The Canadian Journal of Research in Semiotics*.

Dr. Pepin has also been asked by the University of Waterloo, Ontario, to write an article on a Canadian Dramatist. The title of this paper will be: *La Femme dans l'espace imaginaire de la dramatique Le Temps sauvage* par Anne Hébert". This article will be published in a special issue of the *Canadian Drama Review*, University of Waterloo.

In the latest issue of *Micropaleontology* (Vol. 24, No. 4, page 269)—an international journal on microfossils published by the American Museum of Natural History, New York, the new ostracode species *Gyrocythere siddiquii* from the Miocene of Western India has been named in honor of DR. Q.A. SIDDIQUI of the Department of Geology, Saint Mary's University. This honor was accorded to Dr. Siddiqui in recognition of his monographic work on early Tertiary ostracodes from Pakistan, published a few years ago by the British Museum (Natural History), London, in which he described the new ostracode genus *Gyrocythere*.

KAY TUDOR (English) participated in a one-day conference for high school and university students of English, on Saturday, March 31. Held at Dalhousie, the conference was titled "Teaching Writing to a TV Generation". Ms. Tudor was a panelist in the discussion "Evaluation, Teacher Commentary, and Grading of Student Writing," along with teachers from J.L. Hsley, Dartmouth Academy, Sackville High, Mount Saint Vincent University and Dalhousie.

International Education Centre Programs for April

The International Education Centre will offer two thought-provoking programs in April. The first is a lunch-hour forum on international issues, to be held in Theatre B of the Centre on Tuesday, April 10, at 12:30 p.m. Dr. Bernhard Abrahamsson will speak on "Some Economic Consequences of the Middle East Peace Agreement". Presently a visiting professor with the Canadian Marine Transportation Centre at Dalhousie, Dr. Abrahamsson has previously taught at the University of Denver (Colorado), the Denver Research Institute and the University of Haifa, and was a staff member of the International Monetary Fund for four years.

On April 20-22, the Centre will hold a Provincial Multicultural Youth Conference, the first of its kind in Canada. It is funded by the Department of the Secretary of State; its co-sponsors are the International Education Centre and the Multicultural Association of Nova Scotia. Topics to be covered during the weekend of workshops include: Youth Involvement in Multiculturalism, Education and Heritage Language, Human Rights, and Cross-cultural Awareness. About 95 young people will attend. In addition to the workshops, the conference will offer a disco dance, a banquet, and performances by various cultural groups.

SENIOR CLASS COMMITTEE
PRESENTS
GRAD WEEK '79

MAY 2 WEDNESDAY

TIME	EVENT	LOCATION & DETAILS
1:00 p.m.	Residence "Move-In"	Lobby, Loyola Building See 'Accommodations' for details
3:30-5:00 p.m.	Lunch for Grads	Private Dining Room Loyola Building FREE
4:00-5:30 p.m.	Happy Hour	PUB
7:00-8:30 p.m.	President's Reception for Grads and Posting of Grad List	Student Centre Cafeteria
9:00-1:00 a.m.	DISCO "Northern-Nites"	Student Centre Cafeteria Admission: FREE Cash Bar

MAY 3 THURSDAY

11:00-2:00 p.m.	Charity Drive	All monies to be donated to "Kamp" for underprivileged children. Meet in Lobby, Loyola Building, for instruction at 10:00 a.m.
3:00-5:00 p.m.	Brewery Tour	Moosehead (tentative) Watch posters for further information
4:00-5:30 p.m.	Happy Hour	PUB
5:30-7:00 p.m.	Supper	Bonnie Piper (Maritime Centre) —Do Drop In—
9:00-1:00 a.m.	PUB NITE	Student Centre Cafeteria \$1.00 admission charge at door— cash bar, live music, munchies— donated by "Off Campus Students Association"

MAY 4 FRIDAY

12:00-2:00 p.m.	Harbour Tour on the Haligonian III	Cash bar and 'chili con carne' \$5.00 per person—advance sale only Meet in Loyola Building Lobby at 11:00 a.m.
4:00-5:30 p.m.	Happy Hour	PUB
7:00 p.m. SHARP	Convocation Rehearsal	Theatre Auditorium IT IS IMPORTANT THAT ALL GRADS ATTEND
9:00-1:00 a.m.	"SUB-NITE"	Go to the PUB or go to the 3rd Floor for Games. Movie "Eyes of Laura Mars". Cash bar, munchies donated by Residence Society \$.50 admission charge at door
1:00 a.m.-3:00 a.m.	Skating Party	Saint Mary's Rink FREE

MAY 5 SATURDAY

4:00-5:30 p.m.	Happy Hour	PUB
6:00-7:30 p.m.	"Grad Barbeque" Menu: steak potato salad tossed salad rolls soft drinks	Point Pleasant Park or Residence Cafe (if weather inclement). Meet in lobby of Loyola Building at 5:30 p.m. \$4.50 per person— advance sale only. BYOB
9:00-1:00 a.m.	"Grad Beer-fest" with German Band	Multi-Purpose Room \$1.50 per person at door Beer Steins on sale for \$2.00

MAY 6 SUNDAY

12:30-2:00 p.m.	Brunch for Grads & Parents or Guests	Residence Cafeteria \$3.25 per person—advance sale only
5:30 p.m.	Baccalaureate Service	Canadian Martyrs' Church. Assemble in Student Centre* at 4:45 p.m. SHARP (with robes and hoods): cafeteria (students) quiet lounge (faculty)

*In the event of rain assemble in the
gym of the Parish Centre, Canadian
Martyrs' Church

6:30 p.m.	Alumni Reception	Art Gallery Everyone is invited to attend
-----------	------------------	----------------------------------------------

MAY 7 MONDAY

CONVOCATION

10:00 a.m.	Commerce, Education M.B.A., M.A. in Education	Assemble in GYM at 9:00 a.m. SHARP! Reception following in Loyola Building
------------	--------------------------------------------------	-----------------------------------------------------------------------------------------

Continued on page 4

Division of Faculties for
Convocation Ceremonies
Monday, May 7th

a. Morning Ceremony (10:00 a.m.) Commerce
MBA
Education
M.A. in
Education

b. Afternoon Ceremony (2:30 p.m.) Arts
Science
(including
Engineering)
M.A.
M.Sc.

USHERS NEEDED FOR BACCALAUREATE
SERVICE & CONVOCATION CEREMONIES.
PLEASE APPLY TO SANDRA LITTLE, STUDENT
SERVICES, 4th Floor, Student Centre, Room 428.

INVITATIONS TO CONVOCATION CEREMONIES
will be available and tickets for Grad Week Events
will be on sale from Monday, April 9 to Tuesday,
May 1.

Summer Employment

Students seeking employment in their home area
this summer should register *now* at the Canada
Employment Centre on Campus. Their
applications will then be forwarded to the Canada
Employment Centre nearest to their home prior to
their leaving campus.

When students arrive at home, they should
immediately contact their local Manpower Office
to see if jobs have been lined up for them. This
procedure also applies to Halifax and Dartmouth
students, who should contact their Canada
Manpower Centre to make sure they are
registered and to see what jobs are available.

Students are advised not to wait for a phone call
from Manpower, but to visit their Manpower
Office and get to know the student counsellor. In
some cases, the counsellor may be a Saint Mary's
student working there for the summer.

Posters advertising all jobs available are now on
display in the Manpower office on campus, 4th
floor, Student Centre.

Changes in Scholarships Announced

by Susan MacLean-Little, Director of Financial
Aid

The Senate Scholarship Committee has recently
reviewed its policies governing undergraduate
awards. In the past there have been three
scholarship categories. For students entering
from high school, there were two kinds of
entrance scholarships, one of \$1,000-\$1,500
renewable up to \$1,000, and the other of
\$200-\$900 renewable up to \$700.

Students were eligible to apply for a continuing
scholarship if they had received a scholarship
(entrance, continuing and achievement) in the
previous year. These scholarships were offered
according to the formula on page 174 of the
academic calendar which is based on the top 10%
of the undergraduate student population.

The Achievement Scholarship Competition was
open to any full-time student who had not held a
scholarship in the previous year. The
scholarships were also offered according to the
previously mentioned formula.

The Committee voted unanimously to do away
with continuing scholarships and offer only
Entrance and Achievement Scholarships. Thus,
following any full-time student's first year,
regardless of whether or not he / she held a
scholarship in the previous year, his application
will be accepted under the Achievement category.
This will mean that the maximum scholarship
available to all applicants with a 4.0 cumulative
point average will increase from \$700 to \$1,000.

In addition, all applications will be considered in
June. Students who entered the University with
an Entrance Scholarship renewable up to \$1,000
and who achieve a cumulative grade point average
of 3.90 will be protected under the old formula
until they finish their first undergraduate degree
program.

The foregoing change will regularize scholarship
policy in the future and provide a more equitable
system for all students concerned.

Hockey Season in Review

Coach Bob Boucher

A season plagued by players' injuries and other assorted mishaps assailed Bob Boucher's young Hockey Huskies from their opening game in 1978, and yet they managed to finish first in conference standings with a 15-4-1 record, even though they lost the AUHC title.

When exhibition play began in mid-October, the Santamarians lost 3-2 to their eventual conquerors, the Dalhousie Tigers. Their league

schedule opened on November 11 and for some weeks it appeared the Huskies might emerge as champions—until a fired-up Mt. Allison squad scored a 2-1 victory. No further loss occurred until February 7, in Wolfville, where the Axemen downed their visitors 4-1. The Tigers defeated the Huskies once again the following week, and then the Huskies won two more victories elsewhere before once again bowing to the Tigers.

In an all-Halifax final, Dalhousie played Saint Mary's in March. The Tigers and the Huskies had each won two of their four games together during the season, and thus were considered evenly matched for the championship. The opening game went into double overtime before the Huskies won 3-2. Dalhousie took the next game 6-3, and finally the Tigers won 5-4, thus securing their first hockey title in 52 years.

A united team effort was stressed all year, and the Huskies' march to the playoffs was based on strong teamwork. The star performer throughout the gruelling schedule was freshman goaltender Mark Locken, who earned a place on the first team AUHC All-Stars. Second team All-Stars were forwards Grant Thomson (Saint Mary's 1979 Male Athlete of the Year) and Doug Chase, who also provided the team with leadership and experience throughout the campaign. The player who had most improved during his career was judged to be senior defenseman Don Maciver. Don was also selected to the second team All-Stars and was chosen the Huskies' "Most Valuable" Player this season.

In next year's club, players like Bud Clouthier, Kevin Reinhart, Tom McDonnell, and Darren Pickrem will still be on hand. They should certainly provide some of the expertise, speed and skill that will return the AUHC hockey crown to Saint Mary's after its brief trip afield.

Bright Season for Basketball Huskies

Coach Brian Heaney

As far as Saint Mary's basketball coach, Brian Heaney, is concerned, this year was simply "great". Coach Heaney doesn't make any bones about that fact, and he's got the facts at his fingertips to prove it. For instance, over Christmas break, his Huskies won two tournaments, the Centennial in Montreal and the Dinosaur in Calgary. It's also the fifth time in seven years that the team has appeared in the final national championship game, and the third time in seven years that they've won. And they've won two years in a row now—a feat that hasn't been accomplished since 1966, when the University of Windsor won two successive annual championships "back to back."

Three Huskie players this year were named AUAA Conference All-Stars—Kevin Wood, also dubbed the outstanding player of the conference, Percy Davis, and Mickey Fox. On the national level, Kevin and Mickey were named to the first team All-Canadians, and Percy Davis was pronounced a National Tournament All-Star. Also, Mickey Fox was voted "Most Valuable" player in the national championship tournament.

These three basketball stars will be graduating this spring, but Coach Heaney is pleased with the thought that two of his other top players, Ross Quackenbush and Tom Kappos, will still be Huskies this coming year. The pair have already been honored by being chosen to play on the Canada Gold Medal Team for the Commonwealth, played in Britain in summer 1978.

One of the reasons Brian Heaney considers the year great is that it was a "really healthy year—we were really blessed." But in Fall 1979 only six of the 78-79 winning Huskies will be returning, so now the hunt is on for other players to join the team. Heaney does all his recruiting personally, mostly in the Maritimes, Ontario, Quebec, and New England.

Summertime is an especially busy time for Brian Heaney because it's the time when all next year's administrative details have to be set in smooth, well-oiled motion. All next year's organizations and schedules have to be arranged, and in addition a number of basketball clinics, all supervised or organized by Coach Heaney, are run during the summer months.

Brian Heaney says that the successful 78-79 season wasn't "better" than other years—just unique in its excellence. He feels that the Huskies' two U.S. wins, 82-81 against Boston and 73-71 against St. Joseph's in Philadelphia, proves that Saint Mary's can hold her own against all comers now, and that his basketball team is on a par with the best that the United States (or anywhere else, for that matter) can offer.

Satisfactory Season for Saint Mary's Sportswomen

Women's coach Kathy Mullane reports a satisfactory year for her hockey and basketball teams. In field hockey, where the season lasts from early September to the first week in November, Saint Mary's finished second in its division (AUAA Eastern) and third in the overall conference. At season's end, Saint Mary's was only one point behind the Dalhousie Women's team, and Kathy was proud to point out that Saint Mary's won its final game against Dal.

The bad news is that this year's hockey team will be minus four excellent players in 1979-80. Nancy Collins, an All-Canadian last year and an AUAA All-Star for two years, Sherry Conrad, All-Canadian goaltender, Anne Murphy, recipient of this year's Most Valuable Player Award, and Darlene Mossman, AUAA All-Star for 1976-77, will all be departing come graduation time.

The team has been practicing hard, an average of 15 hours a week. This season they played six exhibition games, including two against Memorial University and one against the Alumni team.

In basketball, where the season has just come to a close, Saint Mary's finished second in overall standings, and third in league standings. The season's biggest upset occurred on February 16, when Saint Mary's defeated Dal to everyone's surprise.

The major misfortune among the misses' teammates took place in November, when Donna Hobin's right foot was seriously injured when the plexiglass surrounding the ice was struck by two players simultaneously. The weight of the glass severed Donna's right big toe, and as an onlooker she was wearing clogs at the time. Donna, a Saint Mary's star player, was only able to start playing again in late January. Kathy says she feels that if the Saint Mary's team, with Donna on it, had had a few more weeks to play, victory might well have been theirs. In the season's final game against Dal, a recuperated Donna scored 29 points against her redoubtable opponents.

Kathy Mullane is seldom idle. She'll be organizing a summer basketball league from April 22 to June 28. Also, she's continually on the lookout for likely new talent on high school teams. From September to March, she remarks, she never has a weekend free—if she's not on campus coaching, she's travelling with her team through the Maritimes and Eastern Canada.

But Coach Mullane's life isn't *quite* all work and no play. She's about to take off for a month's vacation in Australia for a well-deserved rest down under before she goes into action again, turning Saint Mary's women into enthusiastic, well-trained, and frequently victorious athletes.

Saint Mary's Hosts Football Super Clinic

The third annual Nova Scotia Amateur Football Association's Super Clinic was held at Saint Mary's on March 23-25. Lamar Leachman, defensive line and linebacker coach of the Montreal Alouettes, and Gene Gaines, defensive secondary coach of the Montreal Alouettes, were the featured speakers at the event. Other notable football personalities from around the Province also participated, as did Dr. David Petrie, a leading Halifax orthopedic surgeon.

Jim Clark, Saint Mary's football coach and newly elected President of the Nova Scotia Amateur Football Association, prepared a full clinic schedule. A reception Friday night March 23 at Oland Breweries was followed by an all-day clinic session Saturday. A Saturday night Social was held at Moosehead Breweries. On Sunday the clinic began at 9 a.m. and lasted until about 3 p.m. Coach Clark believes that the '79 clinic was enjoyed by even more coaches and football enthusiasts this year than in the two preceding years.

University Grants Announced In Saskatchewan

The Saskatchewan government has announced that the operating grants to the province's two universities will be increased by 6.9% for the 1979-80 fiscal year. The University of Saskatchewan will receive \$61,196,000 in operating funds and \$2,841,000 for capital projects. Regina's operating grant will be \$23,157,000 with an additional \$969,000 for capital expenditures.

Getting ready to leave campus for the summer?

Looking for a gift for that friend who is graduating?

Looking for a souvenir for that sister or brother who keeps asking for something from Saint Mary's?

Or maybe you are looking for a T-shirt for that summer job, or for those hours spent relaxing after work?

The university bookstore would like to help you fill those needs from souvenirs to gifts. We have a wide variety of items from university pennants, crested glassware and ceramics to university crested T-shirts, sweatshirts and track suits in a variety of sizes, colours, and styles. Drop in and visit with us Monday-Friday 9-4:30.
